

Institution of Higher Education Immunization Requirements Chart

Vaccine	Doses
MMR	2 doses of MMR vaccine with minimum interval of one month between doses - Applicable to those 30 years or younger
Hep B	2-, 3-, or 4-dose series, depending on vaccine brand - Required for all eligible students taking 12 or more credits
Meningococcal	1 dose, 16-18 years of age 19 years and older, if recommended by ACIP for persons at increased risk
Tdap	3-dose primary series and 1 booster dose of Tdap - Applicable to those 30 years or younger
Polio	3-dose primary IPV series - Applicable to those 30 years or younger
Varicella	1 dose of varicella vaccine - Applicable to those 30 years or younger

New Jersey's minimum immunization requirements for attending institutions of higher education are based on the [American Academy of Family Physicians \(AAFP\) adult immunization schedule](#) and the [American Academy of Pediatrics \(AAP\) catch-up schedule](#). This chart does not replace the full rule text; for complete details, consult the [rules](#) and the [Institution of Higher Education implementation guidance](#).
