## J. Major Capital Projects Underway in FY 2009

The College completed a \$5.5 million dollar expansion which added more than 20,000 SQF to the institution. The *East Wing Project* was the first capital expenditure approved by the college in more than a decade. Because of the expansion, the College was able to increase course sections by 20% to meet the growing unmet needs of the county.

Warren County Community College is ranked one of the 20 fastest growing community colleges in the nation as the headcount has increased by 102% since 2001. The increased demand called for more parking and the College modified its existing space to create more than 300 new parking spaces for students while developing an additional parking lot for staff and administration.
