5. Agreements with Other Colleges and Universities

Kean Ocean

Kean University and Ocean County College continue their partnership (established in 2006) to provide higher education in Ocean County beyond the level of the associate's degree. Students completing their associate's degree can continue on to earn their Kean bachelor's degree with Kean courses offered on the OCC campus. Kean also offers several master's degrees at OCC for those already holding a bachelor's degree.

Kean bachelor's degrees are being offered at OCC in Accounting, Biology, Computer Science, Criminal Justice, English, Graphic Design, History, Management Science, Marketing, Nursing, Psychology, Public Administration, and Sociology along with Elementary, Secondary, and Special Education as well as Physical Education and Health. Students who have already completed their associate's degrees have their OCC courses evaluated on a case-by-case basis and matched as closely as possible to the requirements for Kean degrees. Students newly entering OCC follow in advance detailed program guide sheets that specify the exact OCC courses to take for fulfilling the requirements of both their OCC associate's degrees and their Kean bachelor's degrees.

Kean is also offering master's degrees at OCC in Counselor Education (with State certification for school counseling) and Educational Leadership (with State certification for supervisor and principal) as well as in Nursing (options in Clinical Management and School Nursing), Public Administration (standard and non-profit options), and Business Administration (the Executive MBA program). As of the Fall 2011 semester the Master's in Social Work will also be available.

More Kean programs are continuously being added, and Kean plans to build a full campus of its own immediately adjacent to the OCC campus. Construction of the first building of this campus is now underway, with occupancy scheduled for October of 2012. Until then, Kean classes are being held in OCC classrooms, and Kean provides administrative, academic, and student services both with its own staff and through cooperative arrangements with OCC offices providing equivalent services.

Articulation Agreements

A major goal of Higher Education in the State of New Jersey is to have all colleges and universities make it possible for students to transfer (articulate) from one college to another for the purpose of completing a program of study or degree as expeditiously as possible. In addition to special programs with other colleges and universities, Kean University honors the State of New Jersey's Full-Faith-and-Credit policy, the new statewide transfer legislation and accompanying implementation agreement, and continues to work with the two-year college sector through the articulation meetings and biannual Two-Year/Four-Year meetings and related conferences. Students graduating from a New Jersey State county college with an A.A. or A.S. degree may be admitted as juniors provided that all transfer admission requirements and related course prerequisites have been met. It is important to note that full transferability of credits depends on a student keeping the same major as they had at the county college.

Kean University has a joint degree program in Health Information Management with the University of Medicine and Dentistry (UMDNJ) in Newark. Students complete the general education requirements at Kean and then apply (in the spring semester of their second year) to UMDNJ for the professional phase of the program during the final two years of study. Upon completion, students receive a joint bachelor's degree from Kean University and UMDNJ. The total length of the program is 4 years.

Kean University, Drexel University College of Medicine and St. Peter's University Hospital have formed a partnership offering a 4 + 4 Bachelor of Science/Medical Degree (B.S./M.D.) Scholars Program to highly qualified undergraduate students. Students in this B.S./M.D. Scholars Program embark on an integrated study of chemistry, biology, physics and mathematics in their freshman and sophomore year. Students then continue with upper level coursework concentrating in the biomedical sciences, including a pre-professional internship in junior and senior years where they experience medicine alongside physicians at St. Peter's University Hospital in New Brunswick, NJ. Students in this 4+4 linkage, which is a flat rate tuition program, must apply through Kean University's New Jersey Center for Science, Technology & Mathematics (NJCSTM) and upon completing their B.S. in Science & Technology degree, enter the first year medical school class at Drexel College of Medicine. Medical students return to St. Peter's University Hospital for at least one third year clerkship and at least one fourth year rotation.

The following is a list of colleges with which Kean University has made articulation agreements:

Atlantic Cape Community College	Mercer County College
Brookdale Community College	Ocean County College
Camden County College	Passaic County Community College
County College Of Morris	Raritan Valley Community College
Essex County College	Southern New Jersey CIM Consortium
Hudson County College	Union County College
Middlesex County College	Warren County Community College

Joint Admission Agreements

Students from New Jersey County Colleges, that have signed joint admission agreements, may be admitted to Kean University by the respective county college. (The admission is to the University, not to a major program.)

The program is designed to strengthen the academic and support partnership between the two-year college sector and Kean University. Agreements have been signed with:

Brookdale Community College
County College of Morris
Essex County College
Hudson County College
Middlesex County College

Ocean County College
Passaic County Community College
Raritan Valley Community College
Union County College

Partnership Agreements

Partnership agreements are aimed at establishing ties of friendship and cooperation for the purpose of promoting mutual understanding through academic, cultural, scientific, student and personnel exchanges. Partnership agreements have been signed with:

University of Medicine and Dentistry of New Jersey
New York College of Podiatric Medicine, New York
Drexel University College of Medicine
