

Institutional Profile Report
2012

Robert L. Barchi, President

September 14, 2012

Fellow New Jerseyans:

On behalf of Rutgers, The State University of New Jersey, I am happy to submit our 2012 Institutional Profile Report, in keeping with our obligation to share timely and accurate data about our educational and administrative operations.

Rutgers, founded in 1766 and rapidly approaching its 250th anniversary, remains dedicated to fulfilling our mission of teaching, research, and service to New Jersey. A member of the prestigious Association of American Universities since 1989, Rutgers takes pride in the excellence and research achievements of our faculty, the success of our students in earning international fellowships and scholarships, the award-winning innovations of our staff, and the considerable contributions our 400,000 alumni make to our state and the world.

This Institutional Profile Report provides valuable information and reflects our continuing commitment to New Jersey and its citizens.

Sincerely yours,

Robert L. Barchi

The Periodic Review Report is due June 1, 2013.

Next Self-Study Evaluation: 2017 - 2018

Next Periodic Review Report: 2013

Date Printed: September 4, 2012

DEFINITIONS

Branch Campus - A location of an institution that is geographically apart and independent of the main campus of the institution. The location is independent if the location: offers courses in educational programs leading to a degree, certificate, or other recognized educational credential; has its own faculty and administrative or supervisory organization; and has its own budgetary and hiring authority.

Additional Location - A location, other than a branch campus, that is geographically apart from the main campus and at which the institution offers at least 50 percent of an educational program. **ANYA** ("Approved but Not Yet Active") indicates that the location is included within the scope of accreditation but has not yet begun to offer courses. This designation is removed after the Commission receives notification that courses have begun at this location.

Other Instructional Sites - A location, other than a branch campus or additional location, at which the institution offers one or more courses for credit.

Distance Education Programs - Yes or No indicates whether or not the institution has been approved to offer one or more degree or certificate/diploma programs for which students could meet 50% or more of their requirements by taking distance education courses.

EXPLANATION OF COMMISSION ACTIONS

An institution's accreditation continues unless it is explicitly suspended or removed. In addition to reviewing the institution's accreditation status at least every 5 years, actions are taken for substantive changes (such as a new degree or geographic site, or a change of ownership) or when other events occur that require review for continued compliance. Any type of report or visit required by the Commission is reviewed and voted on by the Commission after it is completed.

In increasing order of seriousness, a report by an institution to the Commission may be accepted, acknowledged, or rejected.

Levels of Actions:

Grant or Re-Affirm Accreditation without follow-up

Defer a decision on initial accreditation: The institution shows promise but the evaluation team has identified issues of concern and recommends that the institution be given a specified time period to address those concerns.

Postpone a decision on (reaffirmation of) accreditation: The Commission has determined that there is insufficient information to substantiate institutional compliance with one or more standards.

Continue accreditation: A delay of up to one year may be granted to ensure a current and accurate representation of the institution

or in the event of circumstances beyond the institution's control (natural disaster, U.S. State Department travel warnings, etc.)

Recommendations to be addressed in the next Periodic Review Report: Suggestions for improvement are given, but no follow-up is needed for compliance.

Supplemental Information Report: This is required when a decision is postponed and are intended only to allow the institution to provide further information, not to give the institution time to formulate plans or initiate remedial action.

Progress report: The Commission needs assurance that the institution is carrying out activities that were planned or were being implemented at the time of a report or on-site visit.

Monitoring report: There is a potential for the institution to become non-compliant with MSCHE standards; issues are more complex or more numerous; or issues require a substantive, detailed report. A visit may or may not be required.

Warning: The Commission acts to Warn an institution that its accreditation may be in jeopardy when the institution is not in compliance with one or more Commission standards and a follow-up report, called a monitoring report, is required to demonstrate that the institution has made appropriate improvements to bring itself into compliance. Warning indicates that the Commission believes that, although the institution is out of compliance, the institution has the capacity to make appropriate improvements within a reasonable period of time and the institution has the capacity to sustain itself in the long term.

Probation: The Commission places an institution on Probation when, in the Commission's judgment, the institution is not in compliance with one or more Commission standards and that the non-compliance is sufficiently serious, extensive, or acute that it raises concern about one or more of the following:

1. the adequacy of the education provided by the institution;
2. the institution's capacity to make appropriate improvements in a timely fashion; or
3. the institution's capacity to sustain itself in the long term.

Probation is often, but need not always be, preceded by an action of Warning or Postponement. If the Commission had previously postponed a decision or placed the institution on Warning, the Commission may place the institution on Probation if it determines that the institution has failed to address satisfactorily the Commission's concerns in the prior action of postponement or warning regarding compliance with Commission standards. This action is accompanied by a request for a monitoring report, and a special visit follows. Probation may, but need not always, precede an action of Show Cause.

Suspend accreditation: Accreditation has been Continued for one year and an appropriate evaluation is not possible. This is a procedural action that would result in Removal of Accreditation if accreditation cannot be reaffirmed within the period of suspension.

Show cause why the institution's accreditation should not be removed: The institution is required to present its case for accreditation by means of a substantive report and/or an on-site evaluation. A "Public Disclosure Statement" is issued by the Commission.

Remove accreditation: If the institution appeals this action, its accreditation remains in effect until the appeal is completed.

Other actions are described in the Commission policy, "Range of Commission Actions on Accreditation."

Rutgers, The State University of New Jersey

General Background

Chartered in 1766 as Queen’s College, Rutgers, The State University of New Jersey, is the eighth oldest institution of higher learning in the United States. It has a unique history: from its inception as one of the nation’s nine colonial colleges, Rutgers grew to become the land-grant college of New Jersey in 1864, and to assume full university status in 1924. Legislative acts of 1945 and 1956 designating it “The State University of New Jersey” qualified it as the youngest of the nation’s major public research universities. The University of Newark merged with Rutgers in 1946, and the College of South Jersey in Camden joined in 1950. All of the university’s property and educational facilities are imparted with a public trust for higher education of the people of the State.

In the short span of several decades, Rutgers transformed from a disparate collection of schools, geographically dispersed and operating largely independently, into the ranks of the most prestigious educational institutions. That advancement was recognized in 1989 when Rutgers was invited to join the Association of American Universities (AAU). Dedicated to a threefold mission, Rutgers is equally committed to excellence in teaching, scholarship, and public service. Driving all of Rutgers’ activities is the defining characteristic of a premier research university: the continuous and vigorous creation of intellectual capital—the new discoveries and insights that drive the advancement of human knowledge and contribute to the improvement of the human condition. The very same intellectual and physical resources that distinguish Rutgers as a comprehensive research university that creates and advances knowledge enable it to provide the kind of education that best prepares its undergraduates to participate in and contribute to today’s intricate and fast-changing, knowledge-intensive world.

The Board of Governors, with the advice and consent of the Board of Trustees, named Robert L. Barchi as the 20th president of Rutgers, effective September 1, 2012. Dr. Barchi, a neuroscientist, clinical neurologist, and education, has served as president of Thomas Jefferson University, and as provost and chief academic officer of the University of Pennsylvania.

University Mission

As New Jersey’s sole comprehensive public research university, Rutgers, The State University of New Jersey, has the threefold mission of:

- providing for the instructional needs of New Jersey’s citizens through its undergraduate, graduate, and continuing education programs;
- conducting the cutting-edge research that contributes to the medical, environmental, social, and cultural well-being of the state, as well as aiding the economy and the state’s businesses and industries; and

- performing public service in support of the needs of the citizens of the state and its local, county, and state governments.

Each component of the university's mission reinforces and supports the other two. For example, research creates the new knowledge so necessary to support quality instruction and innovative public service. The mission of the university is accomplished through its three regional campuses (Camden, Newark, and New Brunswick) and the New Jersey Agricultural Experiment Station, which complement and support each other, permitting the most effective use of state resources.

University Campuses and Academic Structure

New Brunswick is the birthplace of Rutgers and is home to the university's largest campus. The New Brunswick Campus actually comprises five smaller campuses, each reflecting the university's historical evolution: the College Avenue Campus in New Brunswick (74 acres)—the site of Rutgers College, as original Queen's College was renamed in 1825; the Cook Campus in New Brunswick and North Brunswick (753 acres)—originally the site of the experimental farm of the land-grant Rutgers Scientific School, later Cook College, and now the School of Environmental and Biological Sciences; the Douglass Campus in New Brunswick (150 acres)—site of the New Jersey College for Women, later renamed Douglass College; and across the Raritan River, the Busch Campus in Piscataway (771 acres)—site of many science facilities; and the Livingston Campus in Piscataway and Edison (935 acres)—site of Livingston College, founded in 1969 as a shared learning community committed to academic innovation and excellence. In March 2006, the university approved the restructuring of undergraduate education in New Brunswick resulting in the merger of the university's four liberal arts colleges of Douglass, Livingston, Rutgers, and University College into a single "School of Arts and Sciences."

Tracing its origins to 1908, Rutgers–Newark today is housed on 38 acres in the downtown area of Newark, New Jersey's largest city. It is the northernmost campus of Rutgers, located just 20 minutes from New York City. The Camden Campus (29 acres) is located in the heart of the Camden Waterfront and metropolitan Philadelphia region. It began in the 1920s as an amalgam of the College of South Jersey and the South Jersey Law School.

In total, the university operates research and instructional facilities on 5,973 acres in 13 counties and 28 municipalities. As of July 2011, university degrees are awarded by 28 schools and colleges. In New Brunswick, 13 colleges and schools offered degrees; in Newark, eight colleges and schools offered degrees; in both Newark and New Brunswick, the Rutgers Business School: Graduate Programs–Newark and New Brunswick offered degrees; and in Camden, six colleges and schools offered degrees.

In June 2008, the Middle States Commission on Higher Education (MSCHE) reaffirmed the university's accreditation without conditions. Certain programs at the university are also accredited by professional accreditation associations. Among these include the AACSB International–The Association to Advance Collegiate Schools of Business; the Accreditation Board for Engineering and Technology, Inc. (ABET); and the Association of American Law Schools and American Bar Association.

Enrollment in Remediation Courses, Fall 2011

All newly admitted first-year students will take Rutgers University's placement tests. Transfer students entering Rutgers without an equivalent English writing course or math course will also be required to take placement tests. The placement tests are designed to provide information about students' individual skills in the English language and in mathematics. The test results will be used to place students in the courses and sections appropriate to their level of preparation.

Members of the National Academies

Election to membership in the National Academies is one of the highest honors a scientist can attain. These four prestigious bodies—the National Academy of Sciences, the National Academy of Engineering, the Institute of Medicine, and the National Research Council—bring together the nation’s top experts to advise the federal government on critical issues.

Rutgers faculty who are currently members of the National Academies are:

National Academy of Sciences

[Joan W. Bennett](#), Associate Vice President for the Promotion of Women in Science, Engineering, and Mathematics; Professor II, Department of Plant Biology and Pathology, School of Environmental and Biological Sciences
Election Year: 2005

[William A. Berggren](#), Distinguished Visiting Professor, Department of Earth and Planetary Sciences, School of Arts and Sciences
Election Year: 1989

[Haim Brezis](#), Distinguished Visiting Professor of Mathematics, Department of Mathematics, School of Arts and Sciences
Election Year: 2003

Faculty Honors

Rutgers faculty are internationally recognized for the work they do to create new knowledge, generate innovative ideas, and prepare the next generation of leaders.

They have won the National Medals of Science and Technology, Guggenheim Fellowships, MacArthur "Genius" Awards, and Fulbright Scholarships, and been named Professor of the Year.

They have been elected to the most prestigious scholarly societies: the National Academy of Sciences, National Academy of Engineering, Institute of Medicine, American Academy of Arts and Sciences, American Academy of Arts and Letters, and American Association for the Advancement of Science.

Presidential Early Career Award Recipient

President Barack Obama has announced that Nihal Altan-Bonnet, assistant professor of biological sciences on the Newark Campus, is among 96 researchers nationwide selected to receive the 2012 Presidential Early Career Award for Scientists and Engineers.

The prestigious award recognizes innovative work at the frontiers of science and a commitment to community service. [Learn more.](#)

Abel Prize Winner

Endre Szemerédi, State of New Jersey Professor of Computer Science, has won the Norwegian Academy of Science and Letters' 2012 Abel Prize, one of the top honors in the field of mathematics. Szemerédi, recipient of numerous international awards and a member of the National Academy of Sciences, was cited "for his fundamental contributions to discrete mathematics and theoretical computer science." The Abel Prize comes with a grant of approximately \$1 million. [Learn more.](#)

Recent Recognition

CONGRESSIONAL BLACK CAUCUS FOUNDATION

The foundation has recognized [Tayari Jones](#), associate professor of English on the Newark Campus, with its 2012 Lifetime Achievement Award in the Fine Arts for her “brilliant literary contributions.” She is the author of three novels: *Leaving Atlanta*, *The Untelling*, and *Silver Sparrow*.

AMERICAN ACADEMY OF ARTS AND SCIENCES The academy, one of the nation’s most prestigious honorary societies, has elected Rutgers scientists [Eva Y. Andrei](#) (pictured top), [Dennis V. Kent](#) (pictured bottom), and [Alexander B. Zamolodchikov](#) as members. Andrei and Zamolodchikov are both professors in the Department of Physics and Astronomy, while Kent is a professor in the Department of Earth Planetary Sciences in the Rutgers School of Arts and Sciences.

SEARLE SCHOLARS PROGRAM

[Mikel Zaratiegui-Biurrun](#), assistant professor of molecular biology and biochemistry at the School of Arts and Sciences, is one of 15 young scientists to receive this \$300,000, three-year award for 2012. The Searle Scholarship recognizes those who have already demonstrated innovative research with the potential for making significant contributions to chemical and biological research.

ALFRED P. SLOAN FOUNDATION

[David Shih](#), assistant professor of physics in the School of Arts and Sciences, is one of 118 early career scientists to be named a 2012 Sloan Research Fellow. The two-year fellowship is awarded to scholars of outstanding promise in recognition of distinguished performance and exceptional potential to make important contributions to their field.

ASSOCIATION OF AMERICAN LAW SCHOOLS

[Twila Perry](#), professor of law at the Rutgers School of Law–Newark, [has won the 2012 Clyde Ferguson Award](#), one of the association’s highest accolades, for excellence in public service, teaching, and scholarship. Perry’s research focuses on issues of race and

family law.

AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE

Three Rutgers professors have been selected as fellows, joining 49 previous Rutgers AAAS fellows. The new inductees are: **Anthony Broccoli** (pictured), professor of environmental science; **Bingru Huang**, the Ralph Geiger endowed chair in turfgrass science; and **Patrick Sinko**, the Parke-Davis endowed chair in pharmaceuticals and drug delivery.

RESEARCH HIGHLIGHTS [RESEARCH HIGHLIGHTS ARCHIVE](#)

The Creation of Knowledge. Creating knowledge and transmitting it to present and future generations is the very essence of a research university. Rutgers students, both undergraduate and graduate, are exploring the human experience and the natural universe, and opening doors to new discoveries. They are following paths that prepare them to become tomorrow's innovators and leaders.

Rutgers Engineers Design Cell Phone App to Reduce Distracted Driving

Disregard for laws prompts experts to investigate whether technology can help reduce accidents

Laws that limit cell phone use while driving don't seem to be curbing accidents blamed on drivers who insist on talking or texting behind the wheel. Rutgers engineers believe technology can do what threats of fines or jail time don't seem to be doing - making cell phones automatically become less distracting while their owners are driving.

Off-Campus Locations

Rutgers is The State University of New Jersey, which means we are busy and active throughout the state. Not only do we offer **degree programs and courses** at satellite campuses and other locations, but we also maintain business centers that nurture commerce and field stations that monitor our forests, meadowlands, and seas. Wherever you go in New Jersey, chances are Rutgers thinkers are at work nearby.

LEARNING ACROSS NEW JERSEY

Continuous education courses help individuals grow personally and professionally. Research field stations draw scientists and visitors from around the world. Business incubators and the [New Jersey Small Business Development Centers](#) network (with offices serving all 21 counties in the state) nurture new enterprise. Parks and nature trails are available for recreation and exploration. And Rutgers Cooperative Extension—also present in all 21 New Jersey counties—brings Rutgers’ knowledge to the homes, schools, farms, gardens, and offices of our state.

Civic Engagement

Better lives and brighter futures. We all want the same things for the community we live in. That's why Rutgers-Camden is partnering with our neighbors—throughout the City of Camden and across the region—in an intense commitment to civic engagement. Through efforts large and small, Rutgers-Camden is deepening its presence in the community, sharing our many resources to achieve common goals.

Change may be immediate (a spruced-up street) or long term (economic growth or educational excellence), but the benefits are mutual. The community advances its pursuit of positive change, while the university connects its knowledge to the world. Our students develop as future professionals and responsible citizens, while our faculty see their innovations at work—and discover new challenges to meet.

Working together, we are making great progress—lives enhanced, neighborhoods strengthened, opportunity extended—toward our shared tomorrows.

[Office of Civic Engagement](#)

Rutgers-Camden is a good neighbor and partner. We work closely with campus community members and groups, government agencies, nonprofit organizations, and others to help you to reach your goals.

[Engage with Rutgers-Camden](#)

Discover new opportunities for community involvement. Create a new service learning project. Partner with the campus on engaged learning civic opportunities. There are many ways you can make a difference.

Grants

One of the many ways Rutgers contributes to our community: through the local economy. Dollars spent by the university and our students, faculty, staff, and visitors—more than 900,000 consumers each year—support merchants and businesses. What's more, our impact extends beyond goods and services. Jobs for residents. Infrastructure for growth. Benefits for the public, from student volunteerism to community policing. Rutgers' investments in the New Brunswick area add up to greater prosperity for us all. [Read more.](#)

Rutgers in the Community

On campus and off, **Rutgers is working to build a stronger relationship with New Brunswick, Piscataway, and the surrounding community.** Along the way, we hope to become a better partner for our neighbors. A first step is making sure that everyone—from residents to students, faculty, and staff—has access to Rutgers' community offerings.

So we've created a [directory of Rutgers programs for the community](#) for your convenience. Here you can learn about dozens of events, programs, and services that bring Rutgers' resources into the community. Residents can connect with university offerings, from swim lessons for kids to expert advice for small business owners. For Rutgers students, it's a great place to start searching for volunteer and service-learning opportunities. And faculty and staff can use the directory to explore colleagues' programs—or to share their own. [Read more about community engagement at Rutgers.](#)

Newark, N.J., isn't merely part of our address; it's an integral part of who and what we are, and has been since our founding more than a century ago. "We" are thousands of students and educators, the staff who support them, and the leaders who guide them all. We come from across the state, across the nation and across the oceans, but we aren't merely visitors.

We take pride in being a deeply engaged urban university located in New Jersey's largest, oldest city at possibly the most exciting time in its modern history. Our urban environment shapes and defines us in special ways, from classes that use Newark itself as a learning laboratory, to partnerships with local corporations and non-profits. Our academic, cultural and recreational programs attract visitors all year round, while our law school's clinics provide legal services to the public, and our business school offers services for business start-ups. Rutgers students tutor and mentor in area schools, volunteer at local food banks, and more.

We also play a vital role in economically reinvigorating and developing our home city. As our enrollment has grown, we have added new academic buildings, residence halls and retail stores, making ours a real 24/7 campus. Nearby are restaurants, and cultural and recreational facilities such as the Newark Museum, New Jersey Performing Arts Center, the Bears and Eagles Stadium, and the Prudential Arena.

Rutgers University, Newark. We are far more than a collection of buildings and grounds; we are a community of learning, leadership, and commitment. We strive always to be a good neighbor whose strength of character is defined not merely by actions, or words or history, but by the combination of all three.

Where in the World Is Rutgers

Rutgers' campuses are located in the great state of New Jersey, one of America's 13 original colonies. Packed with history, firsts—and people—it is where Washington crossed the Delaware, Edison invented the electric light, and the boardwalk and baseball were born. It is home to 8.7 million residents—the small but powerful sweet spot between New York and Pennsylvania. With its tremendous density and diversity—of terrain, communities, arts and culture, transportation, and businesses—New Jersey is now and future America in microcosm, the ideal proving ground for new ideas. And Rutgers has always been its trusted partner in moving forward.
