

Section III. Other Institutional Information: The Strategic Plan, 2010 - 2015

Planning Assumptions

- Institutional growth will continue to a maximum total of 20,000 students on the main campus (developed to 30% of its land mass) by 2025, 8,000 students at the Southern Educational Center by 2025, and a possible 4,000 at a third western extension site to be developed in 2020 for a total campus unduplicated enrollment of 32,000. Distance Learning enrollments will increase exponentially as we explore new markets and create new partnerships.
- The major mission of the college will continue to be to serve the transfer needs of the students using specialized career and jobs programs, work partnerships, certificate programs, and voc-tech alliances to serve the career needs of the county, as they present themselves.
- The major academic partnerships the college pursues will be to make transfer baccalaureate and masters programs available on the college's main campus or create alliances with schools that offer our graduates distinct academic advantages. We will continue to work to arrange articulation agreements that allow our students to transfer seamlessly to quality schools with financial assistance opportunities.
- The major values of the college will continue to be academic quality, variety and excellence of teaching/learning, and seeking a national reputation for the academic preparedness and success of our graduates.
- The educational delivery modes will continue to blend traditional classroom education with cutting edge technology in distance learning modes.
- The college will continue to partner with the county and with business enterprises to develop resources that benefit the students and the citizens of Ocean County.
- We will continue to affirm a culture of assessment leading to improved accountability, transparency, and overall institutional quality, utilizing data-based decision making practices whenever they are effective;
- Increasing globalization will require further internationalization of the curriculum.
- Social and cultural change in the larger society will continue to place demands on the college for organizational flexibility.
- We assume continuing fiscal support from the state and county, but we recognize the need to expand the college's capital position through effective and low-risk leveraging.
