2019

Robert L. Barchi, President

September 30, 2019

Fellow New Jerseyans:

It is my pleasure to submit the 2019 Institutional Profile Report for Rutgers, The State University of New Jersey. This report reflects our commitment to share timely and accurate data about our educational and administrative operations.

This year we enrolled 70,000 students and awarded more than 18,500 degrees (both record numbers), opened new academic and athletics buildings on our campuses funded with State support, and set a new high in annual fundraising with more than \$250 million in private gifts.

Rutgers remains dedicated to our mission of teaching, research, and service to New Jersey. As a member of the prestigious Association of American Universities since 1989, Rutgers takes pride in the excellence and research achievements of our faculty, the success of our students in earning international fellowships and scholarships, the award-winning innovations of our staff, and the many contributions our more than 500,000 alumni make to New Jersey and the world.

This Institutional Profile Report provides valuable information and reflects our continuing commitment to New Jersey and its citizens.

Sincerely,

Robert L. Barchi

Introduction and Accreditation Status

Rutgers, The State University of New Jersey

General Background

Chartered in 1766 as Queen's College, Rutgers, The State University of New Jersey, is the eighth oldest institution of higher learning in the United States. It has a unique history: from its inception as one of the nation's nine colonial colleges, Rutgers grew to become the land-grant college of New Jersey in 1864, and to assume full university status in 1924. Legislative acts of 1945 and 1956 designated it "The State University of New Jersey." The University of Newark merged with Rutgers in 1946, and the College of South Jersey in Camden joined in 1950. In 2013, most units of the former University of Medicine and Dentistry of New Jersey were integrated into Rutgers. All of the university's property and educational facilities are imparted with a public trust for the higher education of the people of the State.

Today, Rutgers, The State University of New Jersey, is a leading national research university and the state of New Jersey's preeminent, comprehensive public institution of higher education. More than 70,000 students and 23,000 faculty and staff learn, work, and serve the public in locations throughout the state, including:

- Rutgers University-New Brunswick. Rutgers-New Brunswick is where Rutgers began more than 250 years ago. Ranked among the nation's finest research universities, Rutgers' flagship is a member of both the prestigious Association of American Universities (AAU) and the Big Ten Academic Alliance.
- Rutgers Biomedical and Health Sciences. RBHS is one of the nation's largest academic health centers and is aligned with Rutgers-New Brunswick. RBHS advances medical innovation, provides state-of-the-art patient care, and educates a full complement of healthcare professionals.
- Rutgers University-Newark. Rutgers-Newark is a diverse research university where opportunity meets excellence. It is an anchor institution in New Jersey's largest city and cultural capital.
- Rutgers University-Camden. Rutgers-Camden offers transformative learning experiences in a personalized setting, fosters high-impact research, and engages in solution-oriented service to the city and region around it.

University Mission

As the premier comprehensive public research university in the state's system of higher education, Rutgers, The State University of New Jersey, has the threefold mission of:

- providing for the instructional needs of New Jersey's citizens through its undergraduate, graduate, and continuing education programs;
- conducting the cutting-edge research that contributes to the medical, environmental, social, and cultural well-being of the state, as well as aiding the economy and the state's businesses and industries; and
- performing public service in support of the needs of the citizens of the state and its local, county, and state governments.

Each component of the university's mission reinforces and supports the other two.

Accreditation Status

In 2018, the Middle States Commission on Higher Education (MSCHE) reaffirmed the university's accreditation. Numerous programs at the university are also accredited by professional accreditation associations. See the *Statement of Accreditation Status* from MSCHE reprinted below for details.

DEFINITIONS

Branch Campus - A branch campus is a domestic or international location of an institution that is geographically apart, independent of the primary/main campus. The branch campus is considered independent of the main campus if it is permanent in nature; offers courses in educational programs leading to a degree, certificate, or other recognized educational credential; has its own faculty and administrative or supervisory organization; and has its own budgetary and hiring authority. (34 CFR §600.2)

Additional Location - An additional location is a domestic or international location, other than a branch campus, that is geographically apart from the primary/main campus and at which the institution offers at least 50 percent of the requirements of an educational program. (34 CFR §602.22) **ANYA** ("Approved but Not Yet Active") indicates that the location is included within the scope of accreditation but has not yet begun to offer courses. This designation is removed after the Commission receives notification that courses have begun at this location. **ANYC** ("Approved but Not Yet Closed") indicates that the institution has requested that the location be officially closed through the substantive change process. The location is currently included within the scope of accreditation but the institution will be stopping all operations at this location in the near future. The institution should inform the Commission (via email at sc@msche.org) of the date that operations cease. This designation is removed after the Commission receives notification that courses have stopped at this location and the location is no longer listed on the SAS.

Other Instructional Sites - MSCHE defines an other instructional site as any off-campus site, other than those meeting the definition of a branch campus or an additional location, at which the institution offers one or more courses for credit. Sites designated as an other instructional site do not require substantive change approval. However, substantive change approval is required to reclassify an other instructional site to or from a branch campus or additional location.

Distance Education Programs - Fully Approved, Approved (one program approved) or Not Approved indicates whether or not the institution has been approved to offer diploma/certificate/degree programs via distance education (programs for which students could meet 50% or more of the requirements of the program by taking distance education courses). Per the Commission's Substantive Change policy, Commission approval of the first two Distance Education programs is required to be "Fully Approved." If only one program is approved by the Commission, the specific name of the program will be listed in parentheses after "Approved."

Commission actions are explained in the policy [Accreditation Actions](#).

Enrollment in Remediation Courses, Fall 2018

All newly admitted first-year students will take Rutgers University's placement tests. Transfer students entering Rutgers without an equivalent English writing course or math course will also be required to take placement tests. The placement tests are designed to provide information about students' individual skills in the English language and in mathematics. The test results will be used to place students in the courses and sections appropriate to their level of preparation.

Rutgers University – RBHS

Research Overview

Rutgers stands as one of America's largest, most comprehensive university-based centers for studying and improving human health and health care.

Through basic, translational, and clinical research—spanning the life sciences, physical sciences, and social sciences—we drive education, medical breakthroughs, and economic development, while improving lives at home and in the global community.

Research at Our Schools

Many research activities within Rutgers Biomedical and Health Sciences are coordinated by the individual schools.

At Ernest Mario School of Pharmacy's five [academic departments](#) are [actively engaged in high-impact research](#) programs, in areas that include drug discovery and delivery, experimental therapeutics, and pharmacy practice.

[New Jersey Medical School researches brain injury, immunology and infectious diseases, stem cells and regeneration, public health, and neurology.](#) The renowned [Global Tuberculosis Institute](#) is also housed at the school.

Robert Wood Johnson Medical School houses [major research institutes that focus on a range of topics](#), from cardiovascular medicine to women's health.

[Child Health Institute of New Jersey](#) is dedicated to improving child health through the study of mechanisms underlying children's diseases.

[Rutgers School of Dental Medicine research](#) extends from prevention of cavities and periodontal disease to potential therapies for cancer and drug-resistance illness.

The [School of Graduate Studies](#) is dedicated to cutting-edge biomedical research, interdisciplinary collaboration, and professional development.

The School of Public Health studies and promotes social health equity, houses a number of [research centers](#), including the Center for Tobacco Studies and the Center for Health, Identity, Behavior & Prevention Studies.

[School of Nursing researches](#) ways to meet the needs of the most vulnerable populations through such as entities as the [François Xavier Bagnoud Center](#) and the [Center for Community Health Partnerships](#).

School of Health Professions [supports the research endeavors](#) of its faculty and students and highlights those studies at an annual Research and Scholarship Symposium.

Research Centers and Institutes

These primary Rutgers Biomedical and Health Sciences research centers and institutes work with RBHS and other schools.

At the [Brain Health Institute](#), more than [250 principal investigators](#) focus on the biology of the central nervous system and its function and dysfunction to develop treatments for disorders using novel neuroscience tools.

The [Center for Advanced Biotechnology and Medicine](#) conducts cutting-edge, molecularly-focused basic research in infectious disease, cancer, and neurodevelopmental and neurodegenerative disorders including AIDS, influenza, leukemia/lymphoma, autism, and metabolic disease.

The [Environmental and Occupational Health Sciences Institute](#) supports basic and clinical research in environmental and occupational chemical exposure and fosters programs in environmental health education and public policy.

The [Institute for Health, Health Care Policy, and Aging Research](#) facilitates collaboration among the social and behavioral sciences, clinical disciplines, basic sciences and related fields to research critical population health issues.

The [Institute for Infectious and Inflammatory Diseases](#) pursues novel approaches to detect, treat, and prevent a wide range of current and emerging diseases caused by infectious agents and harmful inflammation.

At the [Rutgers Global Health Institute](#), faculty from a wide range of fields work alongside economists, engineers, climate scientists, human ecologists, lawyers, social workers, supply chain managers, and vector biologists to address global health issues.

The [Rutgers Institute for Translational Medicine and Science](#) supports study at the interface of basic and clinical research, combining expertise in cellular, molecular, genetic, and clinical science. The center is devoted to understanding the pathogenesis of diseases and seeking their cures.

In addition, the [University Behavioral Health Care](#) network conducts [behavioral health, mental health, and addiction research with](#) the goal of offering cutting-edge technologies and new treatment alternatives.

RBHS researchers also work closely with [Rutgers Cancer Institute of New Jersey](#), the state's only National Cancer Institute comprehensive Cancer Center.

Research Gateways

Key offices work to support, coordinate, and promote RBHS research.

The [Office of Research and Economic Development](#) works with Rutgers faculty and staff, major corporations and the region's business community, and allies such as [BioNJ](#) and the [New Jersey Business and Industry Association](#), to make connections and foster collaborations for research and development initiatives across all of our campuses.

The [Office of Research Commercialization](#) serves as a bridge between Rutgers researchers and commercialization partners, ensuring the smooth and fast transfer of intellectual property created at the university.

[Rutgers University Biomedical Research Innovation Cores](#) bridges the gap between basic and interdisciplinary preclinical research for Rutgers faculty. Professional staff help faculty create translational data that improve grant submissions and help increase collaboration with the private sector.

RUTGERS UNIVERSITY - RBHS

Community Health Programs—Robert Wood Johnson Medical School

The Boggs Center

The Elizabeth M. Boggs Center promotes the self-determination and full participation of people with disabilities and their families in all aspects of community life. As a catalyst and resource, The Boggs Center, through partnerships and collaborations, builds capacity in organizations, systems, and communities in a culturally competent manner. The Boggs Center prepares students through interdisciplinary programs, provides community training and technical assistance, conducts research, and disseminates information and educational materials.

Eric B. Chandler Health Center

The center is a comprehensive, family-oriented community health center offering primary care services including family medicine, internal medicine, infectious disease, pediatrics obstetrics and gynecology, podiatry, family planning, and dentistry.

Healthier New Brunswick Initiative

The mission of Healthier New Brunswick is to build a healthier community to insure the health of our children and generations beyond. This mission will be achieved through the implementation of a longitudinal community-based initiative. Healthier New Brunswick will serve as a catalyst for building upon existing health resources, fostering collaboration and offering new approaches.

Homeless and Indigent Population Health and Outreach Project (H.I.P.H.O.P.)

The mission of the Homeless and Indigent Population Health Outreach Project (H.I.P.H.O.P.) is to build strong doctors and strong communities. HIPHOP accomplishes this goal by literally turning the community into the classroom, giving healthcare professional students opportunities to empower their future patients. H.I.P.H.O.P provides students with unique service-learning opportunities such as taking blood pressure screenings at local health fairs, teaching educational workshops on preventive medicine at Ozanam Family Shelter, the New Hope Foundation-Open Doors, and local middle/high schools, serving food at Elijah's Promise Soup Kitchen, assisting physicians at Eric B. Chandler Health Center, and various other outreach activities.

New Brunswick Interpreter Program

The New Brunswick Community Interpreter Project is a grant-funded, non-profit program that trains English-Spanish bilingual Rutgers students in the skills of medical interpreting for service in local clinics and hospitals.

Office of Community Health

Robert Wood Johnson Medical School (RWJMS) has a clearly stated commitment to community service and the improvement of community health as one of the four core missions of the school. The Office of Community Health has responsibility for the development, implementation and oversight of many of the school's community health initiatives.

Community Health Programs— School of Health Related Professions

Free Community Participatory Physical Therapy Clinic

The clinic serves the community of Newark with physical therapy services and education on wellness and health. It is supervised by a licensed physical therapist and student volunteers from the entry-level doctoral program in physical therapy.

Community Health Programs— School of Nursing

Jordan and Harris Community Health Center

The center provides comprehensive, on site health services to residents of the Hyatt Court, Pennington Court, and Terrell Homes public housing project facilities in Newark. In collaboration with the school's Mobile Healthcare Project, the center offers physical exams, vaccinations, screenings, and diagnostic testing, as well as home visits to elderly or housebound residents, pregnant women, and new mothers.

Mobile Healthcare Project

This initiative includes the [New Jersey Children Health Project \(NJCHP\)](#), a partnership with the Children's Health Fund which provides a range of mobile health services to medically underserved children and families in Newark and vicinity. Goals of the NJCHP include ensuring that children in high-risk populations have access to primary and specialty care and early identification and management of chronic conditions including asthma and childhood obesity.

Community Health Programs— School of Dental Medicine

Oral Care at the School of Dental Medicine

The Rutgers School of Dental Medicine provides a full range of oral health services while training the next generation of dentists. Care is provided by dental students working under the direction of faculty members who are fully licensed dentists.
