Institutional Profile Report
2023

September 21, 2023

Fellow New Jerseyans:

On behalf of Rutgers, The State University of New Jersey, I am pleased to present our 2023 Institutional Profile Report—a means by which to share timely, objective data about our educational and administrative operations.

Over the past year, our national rankings improved significantly on all three campuses, including recognition for our commitments to social mobility, innovation, and service to veterans. During this time, we were proud to award more than 18,000 degrees, offer instruction to over 67,000 students, and provide valuable service to the people of New Jersey.

Rutgers is dedicated to our mission of teaching, research, and service to New Jersey. A member of the Association of American Universities since 1989, Rutgers is strengthened by the scholarly excellence of our faculty, the success of our students—many of whom earn international fellowships and scholarships, the award-winning innovations of our staff, and the contributions our more than 585,000 alumni make to New Jersey and the world.

This Institutional Profile Report provides valuable information and reflects our continuing commitment to New Jersey and its citizens.

Sincerely,

A handwritten signature in black ink, reading "Jonathan Holloway". The signature is fluid and cursive, with the first name "Jonathan" written in a more stylized, connected manner and the last name "Holloway" written in a clear, cursive script.

University Mission

As one of the leading comprehensive public research universities in the nation, Rutgers, The State University of New Jersey, has the threefold mission of

- providing for the instructional needs of New Jersey's residents through its undergraduate, graduate, and continuing education programs;
- conducting the innovative research that contributes to the medical, environmental, social, and cultural well-being of the state, as well as aiding the economy and the state's businesses and industries; and
- performing public service in support of the needs of the residents of the state and its local, county, and state governments.

Each component of the university's mission reinforces and supports the other two.

Rutgers is dedicated to teaching that meets the highest standards of excellence, to conducting research that breaks new ground, and to providing services, solutions, and clinical care that help individuals and the local, national, and global communities where they live.

Information about the Middle States Commission on Higher Education

The Middle States Commission on Higher Education (MSCHE) is a global institutional accreditor recognized by the United States Secretary of Education since 1952. As an accreditor and member of the regulatory triad, MSCHE assures students and the public of the educational quality for its over 500 institutions of higher education.

MSCHE accreditation applies to an institution as a whole rather than the specific programs within an institution. MSCHE does not approve or accredit individual programs. Each institution is regularly and consistently evaluated and monitored in accordance with the Commission's policies and procedures.

An institution maintains its accreditation unless it is voluntarily surrendered, whether through institutional closure or otherwise, or it is denied or withdrawn by the Commission.
