

Secretary of Higher Education Smith Ellis Announces Members of Working Groups to Implement New Jersey's Plan for Higher Education

TRENTON- Today, Secretary Zakiya Smith Ellis announced members of the working groups on New Jersey's Plan for Higher Education under Governor Murphy's Task Force for Higher Education created by Executive Order No. 61. The Task Force is divided into five Working Groups: 1) Creating On-ramps to College; 2) Making College Affordable; 3) Student Success; 4) Safe and Inclusive Learning Environments; and 5) Research, Innovation, and Talent. These working groups were launched as part of the State's plan for higher education, "*Where Opportunity Meets Innovation: A Student-Centered Vision for New Jersey Higher Education.*"

Along with the immediate recommendations set forth in the plan, the working groups will provide additional recommendations related to specific charges for each group by the end of the year. Each working group will be led by two co-chairs appointed by the Governor.

"Many leaders and stakeholders in higher education are committing themselves to coming up with innovative strategies to strengthen our state's higher education system," **said Governor Phil Murphy.** "I applaud the willingness of these talented New Jerseyans to roll up their sleeves on behalf of our colleges and universities and help us refine the state's higher education plan."

The working group members were selected through a formal application process. Working group membership includes representatives from a variety of sectors. Notably, each working group includes student representatives as the state plan emphasizes the need for students to have a voice in the decisions that affect their education.

"We are excited by the overwhelming response of stakeholders to participate in the working groups and we look forward to learning from the diverse representatives selected," **said Secretary of Higher Education Zakiya Smith Ellis.** "These workgroups will take a comprehensive look at strategies to increase support for students at New Jersey's colleges and we appreciate their time and dedication to the future of higher education in the state."

Members of the working groups include:
