Re: Electronic Visit Verification (EVV) – NEW EVV Checkbox Feature

In 2016, Congress passed the 21st Century Cures Act, which requires the use of Electronic Visit Verification (EVV) for all Medicaid-funded personal care services requiring an in-home visit. To meet this requirement, **HHaExchange** is responsible to report Key Performance Indicators (KPI) to the Centers for Medicare and Medicaid Services. In conjunction with KPI reporting, the Division is responsible for auditing and compliance tracking of all services requiring EVV visit data.

In order for the Division to compile the applicable data, Support Coordinators are currently expected to document if EVV is required in the Individual Service Plan for the following procedure codes:

Phase 1 Procedure Codes -Compliance Date January 2021		Phase 2 Procedure Codes - Compliance Date January 2023	
Individual Supports	H2016HI H2016HI22 H2016HIU88	Behavioral Supports	H0004HI22 H0004HI
In-Home Respite	T1005HI T1005HIU8	Physical Therapy	S8990HIUN S8990HI
Community Based Support	H2021HI H2021HI22 H2021HI52	Occupational Therapy	97535HIUN 97535HI
		Speech, Language, and Hearing Therapy	92507HIUN 92507HI

For your convenience, there has been a NEW iRecord Enhancement added that will allow Support Coordinators to check a box under the “Provider” Section of the service to indicate if EVV will be required. Please see the EVV Checkbox Feature - Quick Reference Guide for additional information.

If you have any additional questions, please direct them to the Division’s EVV helpdesk: DDDEVV@DHS.NJ.GOV.

Sincerely,
 DDD EVV Team
