**MEDICAID COMMUNICATION NO. 01 - 08    DATE: April 6, 2001**

**TO:**            County Welfare Agency Directors  
                 Tax Security Liaisons  
                 Institutional Services Section Area Supervisors

**SUBJECT:**    IRS/IEVS Matches for Tax Year 1999

This is a follow-up to Medicaid Communication 00-17, dated August 15, 2000, in which you were advised of the completion of scheduling for the matching of IRS/IEVS data against Tax Year 1998. We are now advising you of the beginning of the monthly matching schedule for Tax Year 1999 as follows:

- New applicant file months of July, August and September 2000 have been combined. You can anticipate receipt of the data output from this combined match within the next week. This run will be referred to as file month September 2000.
- Once this match is implemented and the processing is completed, file month October 2000 will be used to generate the Annual Run data for Tax Year 1999 for all current beneficiaries on the eligibility file at the time our extract file was sent to the IRS for matching. Please note that current beneficiaries who were added to the Medicaid eligibility file for the period July through September 2000 referred to above will be listed on the Annual Run reports, but no FD-348 should be generated, since the file months for both matches are in the same calendar year. You can anticipate the receipt of this Annual Run data sometime in June 2001.

Once these two matching processes are complete, we will advise you of the matching schedule to be implemented for processing future data against IRS 1099 information for Tax Year 1999. In addition, the IRS Document Codes for Tax Year 1999 are attached for your reference in reading the FD-348 forms.

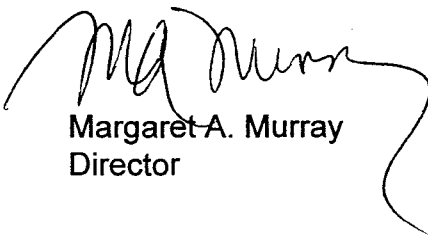

Additionally, we have decided to no longer have the system calculate an estimated principal amount for savings bonds because of fluctuating values due to market conditions. This adjustment was necessary in order to correct any misleading estimated data. Therefore, if appropriate, you will note that a zero value will now appear in the

estimated principal field for records with both a Document Type (DT) 92, and Income Indicator (FD) 22, on the FD-348 and IRS matched records reports.

In our interest to operationalize our IEVS processing on a timely basis, we realize that this effort will again require concentration of staff time to process the combined match information and appreciate your cooperation in this matter.

Please direct any questions concerning this Communication to Joanne Weigand of the Division's Office of Information Systems at (609) 588-2806.

Sincerely,

Margaret A. Murray  
Director
