

*State of New Jersey*

**DEPARTMENT OF HUMAN SERVICES.**

**Division of Mental Health and Addiction Services**

# **Directory of Mental Health Services**

**(DMHAS CONTRACTED PROVIDERS ONLY)**

**Updated April 2026**

## Introduction

The mission of the Division of Mental Health and Addiction Services in New Jersey is to promote opportunities for adults with serious mental illness to maximize their ability to live, work, socialize, and learn in communities of their choice. This is accomplished through a comprehensive culturally competent system of care, including psychiatric inpatient settings and community-based support services comprised of partnerships among the Division of Mental Health and Addiction Services, other State agencies, consumers, families, providers, and mental health advocates, with the understanding that adults with serious mental illness are entitled to dignified and meaningful lives.

This mission is realized in both new and existing Division programs by application of the following operating principles:

Services are to be delivered by means of a comprehensive system of care, which emphasizes the most appropriate, least restrictive settings to promote the highest level of functioning;

There must be continuity of care and coordination of services within the State and between the public and private sectors;

The range of services within the system of care must respond to the needs of the individual consumers and to the special populations served;

The Division must assure appropriate, high-quality care for the State's most severely disabled citizens in State psychiatric hospitals and for the less disabled citizens in community programs.

This directory is intended to provide information about mental health programs in the State of New Jersey. A wide variety of programs are offered at many locations in all twenty-one counties in the state. This directory does not attempt to provide information about all mental health services available within the State of New Jersey. The providers listed here have been limited to only those which receive some funding from the State of New Jersey through the Division of Mental Health and Addiction Services. In some cases, this source of public funding represents only a small portion of the overall budget of the provider. In other cases, the service provider is directly operated or predominately funded by the Division of Mental Health and Addiction Services. In some cases, community service providers offer additional programs beyond the field of mental health. Such programs may be targeted at the developmentally disabled, substance user or other populations. Only mental health programs are included in this directory.

Every attempt has been made to ensure that the information published in this directory is current and accurate at the time of printing. However, service providers and locations do change over time so it is possible that a reference to a program included here may no longer be available. In such an event, persons are encouraged to contact the Division of Mental Health and Addiction Services at 1-800-382-6717 for referral.

***If a provider has found incorrect information in the directory, we encourage you to notify us by filling out and submitting the [online correction form](#).***

## How to Use this Book

The New Jersey Directory of Mental Health Services is broken down into two parts. **Part One** lists all community programs funded by the Division and sorted by county and **Part Two** lists all the programs sorted by the type of program services (want to make sure that when you click on Part1 and Part 2 that the link takes you to that section in the directory). To best take advantage of this directory, you should answer two questions to find someone to contact for information about mental health programs and services in your area.

1. *What county does the person seeking services live in?*

Go to that county page in the directory. (*see table of contents for page number*)

2. *What mental health service(s) in the county list might be needed?*

Go to that service in the county list and see what local providers are available.

Contact the local service provider and request an intake evaluation.

In an emergency situation, where there is an immediate risk of injury to people, contact your county primary screening center. The screening center listings are highlighted with capital letters in the county listing. Your county screening center is also listed in the emergency section of your local phone book under “Psychiatric Crisis Intervention Unit” or similar listing.

This book is intended to help citizens of New Jersey locate information about available mental health services in the state. You may be looking for help for yourself or for someone you care about. Brief descriptions of the mental health services are provided with each program section beginning on page 61. Read about the different types of services and try to decide what might be helpful to the person in question. If you locate a program which you think would address the person’s issues, you can then contact a local program provider for more information. The person seeking programming must begin contacts in their county of residence. Your county of residence page will identify agencies offering these programs.

The second major section of the book groups agencies by the type of program offered. If you are interested in locating all providers of integrated case management services look on pages 79 and 80. Each program has their own list in this section. Agencies providing the services are arranged alphabetically. Since agencies can provide the same service at more than one location there may be multiple listings for these agencies. Mental Health Agencies can provide more than one program type and therefore, agencies are listed under as many program sections as needed.

## **ACUTE CARE FAMILY SUPPORT**

*The Acute Care Family Support Project is targeted to families with an adult member who is experiencing a psychiatric crisis and is being assessed in a Screening Center or Affiliated Emergency Service. They provide onsite or offsite support to the family while their loved one is being assessed, educate them regarding services/treatment in an acute care setting, including the commitment process, and link them to existing family support in the community. Family may also include significant others and primary caretakers.*

**COORDINATED SPECIALTY CARE (CSC) and COMMUNITY INTEGRATION (CSC CI)**

Programs designed to help those with Early Serious Mental Illness (ESMI) achieve their goals and lead productive, independent lives. CSC is a two-year program for individuals between the ages of 15-35 affected by First Episode Psychosis (FEP) or Affective Psychosis (AP). The Program offers individual therapy, psychotropic medication monitoring, group psychotherapy, multi-family group therapy, peer support, and supported employment and education services. CSC CI serves individuals aged 15 and older impacted by FEP or Affective Psychosis and addresses the need for a continuum of care utilizing a stepped-care treatment approach for those having completed the CSC program. Individuals can titrate up or down the level of service modality depending on their recovery and/or the need for additional services and supports.

## **INTENSIVE FAMILY SUPPORT SERVICES (IFSS)**

*Intensive Family Support Services (IFSS) comprise a range of supportive activities designed to improve the overall functioning and quality of life of families with a mental ill relative. These support activities may include psychoeducation groups, single family consultation, respite services, family support groups, systems advocacy and referral/service linkage. Services may be delivered in the family's home, at an agency, or at a community location convenient to the family.*

## **INTENSIVE OUTPATIENT TREATMENT AND SUPPORT SERVICES (IOTSS)**

*Community based ambulatory treatment alternatives for adults who have serious and persistent mental illness. Access to the service is intended to provide an option for Designated Screening Programs and other acute care and hospital referral sources to assure that appropriate, intensive, community based, recovery-oriented outpatient services are readily accessible. These programs provide a comprehensive outpatient service package that addresses the needs of individuals with an exacerbation of the symptoms of mental illness and/or a co-occurring substance abuse disorder through services that include comprehensive assessments, Wellness and Recovery Action Plans (WRAPS), Medication Administration and Education, Individual Therapy, Structured Group Therapy, Illness Management and Relapse Prevention Groups, Family psycho-education, the provision of, or arrangements for, physical health care and direct linkage to ongoing clinical and support services as identified in the WRAP. Such outpatient services are designed and implemented in a manner which reflects recovery as an overarching value as well as an operational principle.*

## **INVOLUNTARY OUTPATIENT COMMITMENT (IOC)**

Involuntary Outpatient Commitment (IOC) programs coordinate community based mental health services for individuals, who are court ordered into mental health treatment. IOC programs enroll individuals who have been assessed by mental health professionals and adjudicated by a court as meeting the legal standard for involuntary outpatient treatment. IOC programs offer:

- Court ordered out-patient based mental health treatment;
- Assistance with linking with community based mental health services;
- Monitoring of adherence to the court ordered plan;
- Ongoing assessment of clinical progress;
- Interface with the judiciary including transportation to court hearings and contact with the presiding judge, asneeded.

## **JUSTICE INVOLVED SERVICES**

*Justice Involved Services are designed to assist persons with serious and persistent mental illness who become entangled with the criminal justice system, to avoid or radically reduce the number of days incarcerated in jail and or assist with their reentry to their communities in order to receive the appropriate treatment. Services vary by county, but may include the following: Pre-booking, a police based diversion to avoid arrest for non-criminal, non-violent offenses. Police are trained to identify and de-escalate situations and diverting to mental health crisis or pre-crisis services; Post booking intervention for consumers who have been arrested but for whom the court may be released on their own recognizance or released from jail with mental health intervention. Those consumers serving jail sentences or long detention are targeted for re-entry services. Based upon the APIC model, **Assess, Plan, Identify and Coordinate**, services include identification/case finding, pre-release planning and successful linkage to critical mental health, social service, employment and housing upon release to the community.*

## **SUPPORTED EDUCATION (SED)**

*Provides direct services and support in educational coaching so that consumers may enter and succeed in educational opportunities. SED also serves as an information clearinghouse for consumers, families, colleges, and providers within a geographical area. Direct service may include the provisions of supported educational coaching services provided directly to the consumer in the educational setting. The services also include enrollment and registration assistance, teaching study skills, illness management and recovery skills particularly related to school, assistance and advocacy in obtaining "reasonable accommodations" from the school.*

## **VOLUNTARY UNIT**

*A unit within a hospital which provides transitional intensive short term treatment for the care of adult patients affected with acute or chronic mental illness on a voluntary basis. These units may be intermingled on STCF (short term care facility) units. Individuals under this status voluntarily admit themselves for a STCF for stabilization and treatment. However, a STCF shall agree to make every effort to discharge the person to appropriate voluntary outpatient services before making a referral to a State or county hospital.*
