I. Purpose and Intent

This Request for Proposals (RFP) is issued by the New Jersey Department of Human Services (DHS), Division of Mental Health and Addiction Services (DMHAS) for the implementation and promotion of the Integrated Care Program (ICP).

Funding Overview:

DMHAS anticipates making several awards for a combined total of \$900,000 per year in funding.

Bidders must specify the number of individuals they propose to serve, and the total amount of funding requested. The number of awards granted will be contingent on the proposed client capacity and the feasibility of the funding request. Contract may be renewed for up to four additional one-year terms, contingent upon continued federal appropriations and successful completion of deliverables and reporting. A detailed project budget is to be included with the proposal.

This initiative will promote the integration and co-location of physical and behavioral healthcare to improve overall wellness and physical health status of individuals with opioid use disorder (OUD) and other behavioral health conditions. The program is expected to promote the implementation and improvement of bi-directional integrated care services including; evidence-based or evidence-informed screening, assessment, diagnosis, prevention, treatment, and recovery services for individuals with an OUD and/or stimulant use disorder (StUD). With this initiative, DMHAS aims to improve the health outcomes for individuals with behavioral health conditions by supporting an integrated care model for behavioral and primary physical health.

This RFP is funded through the Substance Abuse and Mental Health Services Administration's (SAMHSA) State Opioid Response (SOR) grant. The SOR grant period is September 30, 2024 to September 29, 2027. Funding is available for Federal Fiscal Year (FFY) 2026 and may be available for FFY 2027 depending on federal appropriations. Funding is subject to availability of federal funding.

The purpose of this Integrated Care Program (ICP) initiative is to support behavioral health services provided by a Federally Qualified Health Center (FQHC) or FQHC Look-Alike as a means to enable an FQHC to integrate behavioral health services into their existing practices. Funding for this initiative cannot be used to reimburse medical services delivered by an FQHC or FQHC Look-Alike. Funding for this initiative cannot supplant or enhance existing reimbursement or other funding sources designated for the medical services delivered in the FQHC and/or FQHC Look-Alike.

This funding source cannot supplant or enhance any existing billing or funding for behavioral health services in the FQHC or the FQHC Look-Alike.

The successful bidder(s) shall continually assess and utilize consumer data of participants' catchment area in its development and delivery of programming, evaluation, and program outcomes to ensure it is relevant to the population served. Additionally, the successful bidder(s) shall analyze data to implement strategies to increase program participation.

No funding match is required; however, bidders shall identify any other sources of funding, both in-kind and monetary, that shall be used on their proposal budget. Bidders may not fund any costs incurred for the planning or preparing a proposal in response to this RFP from current DHS/DMHAS contracts.

The following summarizes the **anticipated** RFP schedule:

Bidders are responsible for monitoring the DHS website¹ for updates to the RFP schedule.

II. Background and Population to be Served

Individuals with substance use disorders (SUDs) and serious mental illness (SMI) are at higher risk for increased mortality and illness from chronic physical health conditions, such as cardiovascular disease, obesity, diabetes, hypertension, and dyslipidemia.¹ These physical health conditions are often exacerbated by poor-quality health care services that are fragmented and inadequate to address their complex needs. To better address these needs, systems must provide integrated care that addresses both physical and behavioral health needs.

Access to behavioral health care is also a persistent problem.² Among those 18 years and older with any mental illness, 53.9% received mental health treatment in the past year. Of those 12 years and older who had a need for SUD treatment, only 23.6% received SUD treatment in the past year. DMHAS aims to improve access to whole-person health by increasing capacity for treatment centers to provide integrated primary care and behavioral health care.

² <https://www.samhsa.gov/data/report/2023-nsduh-annual-national-report>

DMHAS was awarded a grant from SAMHSA to implement a Promoting Integration of Primary and Behavioral Health Care (PIPBHC) initiative, a five-year project with a March 31, 2020 start date and ending on March 30, 2025. The services implemented from these awards addressed barriers to medical services and related care for eligible clients by developing an integrated system of care between participating Opioid Treatment Programs (OTPs) and primary care providers. DMHAS developed and tracked the effectiveness of two different service models; one model is a collaboration between an OTP and a FQHC, the second model is with a single provider that has a co-located OTP and FQHC or other primary care clinic.

Throughout the duration of the program, DMHAS noted the effectiveness of the fully-integrated and co-located care services model. Many clients have engaged in the PIPBHC integrated physical health and addiction care with the overall desire to improve their health and their lives. The NJ PIPBHC has demonstrated that co-located care which provides easy access to integrated services is attractive to individuals in need of care and is effective. It is DMHAS' goal to continue the promotion of this model through the Integrative Care Program (ICP).

1. A description of the manner in which tangible assets, i.e., computers, phones, other special service equipment, etc., shall be acquired and allocated.
2. A description of the bidder's Americans with Disabilities Act (ADA) accessibility to its facilities and/or offices for individuals with disabilities.
3. A description of the location(s) in which the program shall be held. This must include a site for which FQHC/Look-Alikes services are also delivered. Please provide information about accessibility, safety, access to public transportation, etc.

Budget (20 points)

DMHAS will consider the cost efficiency of the proposed budget as it relates to the scope of work. Therefore, bidders must clearly indicate how this funding shall be used to meet the program goals and/or requirements. In addition to the required Budget forms, bidders are asked to provide budget notes.

The budget should be reasonable and reflect the scope of responsibilities required to accomplish the goals of this project. All costs associated with the completion of the project must be delineated and the budget notes must clearly articulate budget items including a description of miscellaneous expenses and other costs.

The purpose of this Integrated Care Program (ICP) initiative is to support behavioral health services provided by an FQHC or FQHC Look-Alike as a means to enable an FQHC to integrate behavioral health services into their existing practices. Funding for this initiative cannot be used to reimburse medical services delivered by an FQHC or FQHC Look-Alike. Funding for this initiative cannot supplant or enhance existing reimbursement or other funding sources designated for the medical services delivered in the FQHC and/or FQHC Look-Alike.

This funding source cannot supplant or enhance any existing billing or funding for behavioral health services in the FQHC or the FQHC Look-Alike.

1. A detailed budget using the Excel Budget template is required. Bidders must submit pricing using the Excel Budget template accompanying this RFP. Bidders should refer to Instructions for Excel Budget Template (Attachment E) for a clear understanding of how to work within the template file. The Budget template must be uploaded as an Excel file onto the file transfer protocol site as instructed in VIII. Submission of Proposal Requirements. Failure to submit the budget as an Excel file may result in a deduction of points. The standard budget categories for expenses include: A. Personnel, B. Consultants and Professionals, C. Materials and Supplies, D. Facility Costs, E. Specific Assistance to Clients, and F. Other. Supporting schedules for Revenue and General and Administrative Costs Allocation are also required. The budget must include two (2) separate, clearly labeled sections:
 - a. Section 1 – Full annualized operating costs to satisfy the scope of work detailed in the RFP and revenues excluding one-time costs; and
 - b. Section 2 - Proposed one-time costs, if any, which shall be included in the Total Gross Costs.
2. Budget notes detailing and explaining the proposed budget methodology, estimates and assumptions made for expenses and the calculations/computations to support the proposed budget are required. The State's proposal reviewers need to fully understand the bidder's budget projections from the information presented in its proposal. Failure to provide adequate information could result in lower ranking of the proposal. Budget notes, to the extent possible, should be displayed on the Excel template itself.
3. The name and address of each organization – other than third-party payers – providing support and/or money to help fund the program for which the proposal is being submitted.

4. For all proposed personnel, the template should identify the staff position titles and staff names for current staff and total hours per workweek.
5. Identify the number of hours per clinical consultant.
6. Staff fringe benefit expenses, which may be presented as a percentage factor of total salary costs, should be consistent with the bidder's current fringe benefit package.
7. If applicable, General & Administrative (G&A) expenses, otherwise known as indirect or overhead costs, should be included if attributable and allocable to the proposed program. Since administrative costs for existing DMHAS programs reallocated to a new program do not require new DMHAS resources, a bidder that currently contracts with DMHAS should limit its G&A expense projection to "new" G&A only by showing the full amount of G&A as an expense and the off-set savings from other programs' G&A in the revenue section.
 - a. There is a 15% limitation on indirect cost allocations for this initiative. Accordingly, the indirect/General and Administrative (G&A) costs in your proposal must *not* exceed 15% of your overall budget.
 - b. The maximum incentive allowed by SAMHSA is \$30 per patient for completion of the follow-up interview.
8. Written assurance that if the bidder receives an award pursuant to this RFP, it shall pursue all available sources of revenue and support upon award and in future contracts, including agreement to obtain approval as a Medicaid-eligible provider.
9. Budget data collection incentives.

Attachments/Appendices

Please note that if Required Attachments #1 through #7 are not submitted and complete, the proposal will not be considered. B. Confidentiality/Commitment to Defend and Indemnify

Pursuant to the New Jersey Open Public Records Act (OPRA), N.J.S.A. 47:1A-1 et seq., or the common law right to know, proposals can be released to the public in accordance with N.J.A.C. 17:12-1.2(b) and (c).

Bidder should submit a completed and signed Commitment to Defend and Indemnify Form (Attachment G) with the proposal. In the event that Bidder does not submit the Commitment to Defend and Indemnify Form with the proposal, DHS reserves the right to request that the Bidder submit the form after proposal submission.

After the opening of the proposals, all information submitted by a Bidder in response to a Bid Solicitation is considered public information notwithstanding any disclaimers to the contrary submitted by a Bidder. Proprietary, financial, security and confidential

information may be exempt from public disclosure by OPRA and/or the common law when the Bidder has a good faith, legal/factual basis for such assertion.

As part of its proposal, a Bidder may request that portions of the proposal be exempt from public disclosure under OPRA and/or the common law. Bidder must provide a detailed statement clearly identifying those sections of the proposal that it claims are exempt from production, and the legal and factual basis that supports said exemption(s) as a matter of law. DHS will not honor any attempts by a Bidder to designate its price sheet, price list/catalog, and/or the entire proposal as proprietary and/or confidential, and/or to claim copyright protection for its entire proposal. If DHS does not agree with a Bidder's designation of proprietary and/or confidential information, DHS will use commercially reasonable efforts to advise the Bidder. Copyright law does not prohibit access to a record which is otherwise available under OPRA.

DHS reserves the right to make the determination as to what to disclose in response to an OPRA request. Any information that DHS determines to be exempt from disclosure under OPRA will be redacted.

In the event of any challenge to the Bidder's assertion of confidentiality that is contrary to the DHS' determination of confidentiality, the Bidder shall be solely responsible for defending its designation, but in doing so, all costs and expenses associated therewith shall be the responsibility of the Bidder. DHS assumes no such responsibility or liability.

In order not to delay consideration of the proposal or DHS' response to a request for documents, DHS requires that Bidder respond to any request regarding confidentiality markings within the timeframe designated in DHS' correspondence regarding confidentiality. If no response is received by the designated date and time, DHS will be permitted to release a copy of the proposal with DHS making the determination regarding what may be proprietary or confidential.

IX. Review of Proposals

There will be a review process for responsive proposals. DMHAS will convene a review committee of public employees to conduct a review of each responsive proposal.

The bidder must obtain a minimum score of 70 points out of 100 points for the proposal narrative and budget sections in order to be considered eligible for funding. In the event no bidder obtains the required minimum scores, DMHAS shall have discretion to award the contract to the highest scoring bidder(s).

DMHAS will award up to 20 points for fiscal viability, using a standardized scoring rubric based on the audit, which will be added to the average score given to the proposal from the review committee. Thus, the maximum points any proposal can receive is 120 points, which includes the review committee's averaged score for the proposal's narrative and budget sections combined with the fiscal viability score.

In addition, if a bidder is determined, in DMHAS' sole discretion, to be insolvent or to present insolvency within the twelve (12) months after bid submission, DMHAS will deem the proposal ineligible for contract award.

Contract award recommendations will be based on such factors as the proposal scope, quality and appropriateness, bidder history and experience, as well as budget reasonableness. The review committee may choose to visit all bidder finalists to review existing program(s) and/or invite all bidder finalists for interview. The bidder is advised that the contract award may be conditional upon final contract and budget negotiation.

DMHAS reserves the right to reject any and all proposals when circumstances indicate that it is in its best interest to do so. DMHAS' best interests in this context include, but are not limited to, loss of funding, inability of the bidder(s) to provide adequate services, an indication of misrepresentation of information and/or non-compliance with State and federal laws and regulations, existing DHS contracts, and procedures set forth in [Policy Circular P1.04](#)¹⁶.

DMHAS will notify all bidders of contract awards, contingent upon the satisfactory final negotiation of a contract.

X. Appeal of Award Decisions

All appeals must be made in writing by 4:00 p.m. ET on Date to Be Determined, by emailing it to SUD.upload@dhs.nj.gov (subject line must include "Appeal and RFP title") and/or mailing or faxing it to¹⁷:

Attachment B – Addendum to RFP for Social Service and Training Contracts

STATE OF NEW JERSEY DEPARTMENT OF HUMAN SERVICES

ADDENDUM TO REQUEST FOR PROPOSAL FOR SOCIAL SERVICE AND TRAINING CONTRACTS

Executive Order No. 189 establishes the expected standard of responsibility for all parties that enter into a contract with the State of New Jersey. All such parties must meet a standard of responsibility that assures the State and its citizens that such parties will compete and perform honestly in their dealings with the State and avoid conflicts of interest.

As used in this document, "provider agency" or "provider" means any person, firm, corporation, or other entity or representative or employee thereof that offers or proposes to provide goods or services to or performs any contract for the Department of Human Services.

In compliance with Paragraph 3 of Executive Order No. 189, no provider agency shall pay, offer to pay, or agree to pay, either directly or indirectly, any fee, commission, compensation, gift, gratuity, or other thing of value of any kind to any State officer or employee or special State officer or employee, as defined by N.J.S.A. 52:13D-13b and e, in the Department of the Treasury or any other agency with which such provider agency transacts or offers or proposes to transact business, or to any member of the immediate family, as defined by N.J.S.A. 52:13D-13i, of any such officer or employee, or any partnership, firm, or corporation with which they are employed or associated, or in which such officer or employee has an interest within the meaning of N.J.S.A. 52:13D-13g.

The solicitation of any fee, commission, compensation, gift, gratuity or other thing of value by any State officer or employee or special State officer or employee from any provider agency shall be reported in writing forthwith by the provider agency to the Attorney General and the Executive Commission on Ethical Standards.

No provider agency may, directly or indirectly, undertake any private business, commercial or entrepreneurial relationship with, whether or not pursuant to employment, contract or other agreement, express or implied, or sell any interest in such provider agency to, any State officer or employee or special State officer or employee having any duties or responsibilities in connection with the purchase, acquisition or sale of any property or services by or to any State agency or any instrumentality thereof, or with any person, firm or entity with which he is employed or associated or in which he has an interest within the meaning of N.J.S.A. 52:13D-13g. Any relationships subject to this provision shall be reported in writing forthwith to the Executive Commission on Ethical Standards, which may grant a waiver of this restriction upon application of the State officer or employee or special State officer or employee upon a finding that the present or proposed relationship does not present the potential, actuality or appearance of a conflict of interest.

No provider agency shall influence, or attempt to influence or cause to be influenced, any State officer or employee or special State officer or employee in his official capacity in any manner which might tend to impair the objectivity or independence of judgment of said officer or employee.

No provider agency shall cause or influence, or attempt to cause or influence, any State officer or employee or special State officer or employee to use, or attempt to use, his official position to secure unwarranted privileges or advantages for the provider agency or any other person.

The provisions cited above shall not be construed to prohibit a State officer or employee or special State officer or employee from receiving gifts from or contracting with provider agencies under the same terms and conditions as are offered or made available to members of the general public subject to any guidelines the Executive Commission on Ethical Standards may promulgate.

Lower Tier Covered Transactions**

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of facts upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to whom this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 C.F.R. part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 C.F.R. part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-Procurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 C.F.R. part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Attachment E - Instructions for Excel Budget Template

The Excel template, posted with the RFP, contains a template spreadsheet. Please open the respective template file tab and read the below guidance at the same time. This will allow for a clear understanding of how to work within the template file.

1. In the turquoise section, you will enter the proposed costs for this RFP. This should include all information from budget categories A-F, G/A, as well as ***your number of consumers to serve***. FTE's in Category A are to be broken down between direct care, administration, and support. FTE's will not appear until three cells are completed: hours worked per employee on contract (column C), hours worked per employee per week (column D), and the amount of salary (column H) respectively. Category B is to be broken down between medical/clinical consultants, and non-medical/clinical consultants.
2. There is also a One-Time budget section at the bottom in the turquoise section for your use. Onetimes are shown separately, but included in Total Gross Costs right after Gross Costs.
3. Please use the **“Explanatory Budget Notes”** column to help support anything that you feel needs to be explained in written word for evaluators to understand your intent regarding any cost/volume data populated in your template submission. Please provide notes, as well as, calculations that support any and all offsetting revenue streams. If you double up expenses on one budget line, please provide the individual expense details in the budget notes. Many cells are protected, but you can expand rows to give more room in the notes column should you need it.
6. General and Administrative Costs should be recorded in the template per the instructions in the RFP. That is, only additional G&A associated with this proposal should be included, not your normal G&A rate.
7. Make sure to remember to place your Agency Name and Region or County in the subject line when you send your template in **Excel** format.
