[Acute Care Family Support](#)

The Acute Care Family Support Project is targeted to families with an adult member who is experiencing a psychiatric crisis and is being assessed in a Screening Center or Affiliated Emergency Service. They provide onsite or offsite support to the family while their loved one is being assessed, educate them regarding services/treatment in an acute care setting, including the commitment process, and link them to existing family support in the community. Family may also include significant others and primary caretakers.

Deaf Enhanced Screening Centers

All deaf and hard of hearing persons will be served on an equal basis at all DMHAS funded programs. A deaf enhanced emergency screening center has specially trained personnel and resources to assist in effective communication with deaf or hard of hearing clients or family members during a psychiatric crisis. When a deaf or hard of hearing person seeks service at any emergency screening center, they are offered the choice of receiving service at their local facility or being transferred to an enhanced center.

[Intensive Outpatient Treatment and Support Services \(IOTSS\)](#)

Community based ambulatory treatment alternatives for adults who have serious and persistent mental illness. Access to the service is intended to provide an option for Designated Screening Programs and other acute care and hospital referral sources to assure that appropriate, intensive, community based, recovery-oriented outpatient services are readily accessible. These programs provide a comprehensive outpatient service package that addresses the needs of individuals with an exacerbation of the symptoms of mental illness and/or a co-occurring substance abuse disorder through services that include comprehensive assessments, Wellness and Recovery Action Plans (WRAPS), Medication Administration and Education, Individual Therapy, Structured Group Therapy, Illness Management and Relapse Prevention Groups, Family psycho-education, the provision of, or arrangements for, physical health care and direct linkage to ongoing clinical and support services as identified in the WRAP. Such outpatient services are designed and implemented in a manner which reflects recovery as an overarching value as well as an operational principle.

[Involuntary Outpatient Commitment \(IOC\)](#)

Involuntary Outpatient Commitment (IOC) programs coordinate community based mental health services for individuals, who are court ordered into mental health treatment. IOC programs enroll individuals who have been assessed by mental health professionals and adjudicated by a court as meeting the legal standard for involuntary outpatient treatment. IOC programs offer:

- *Court ordered out-patient based mental health treatment;*
- *Assistance with linking with community based mental health services;*
- *Monitoring of adherence to the court ordered plan;*
- *Ongoing assessment of clinical progress;*
- *Interface with the judiciary including transportation to court hearings and contact with the presiding judge, as needed.*

Justice Involved Services

*Justice Involved Services are designed to assist persons with serious and persistent mental illness who become entangled with the criminal justice system, to avoid or radically reduce the number of days incarcerated in jail and or assist with their reentry to their communities in order to receive the appropriate treatment. Services vary by county, but may include the following: Pre-booking, a police based diversion to avoid arrest for non-criminal, non-violent offenses. Police are trained to identify and de-escalate situations and diverting to mental health crisis or pre-crisis services; Post booking intervention for consumers who have been arrested but for whom the court may be released on their own recognizance or released from jail with mental health intervention. Those consumers serving jail sentences or long detention are targeted for re-entry services. Based upon the APIC model, **A**ssess, **P**lan, **I**dentify and **C**oordinate, services include identification/case finding, pre-release planning and successful linkage to critical mental health, social service, employment and housing upon release to the community.*

Voluntary Unit

A unit within a hospital which provides transitional intensive short term treatment for the care of adult patients affected with acute or chronic mental illness on a voluntary basis. These units may be intermingled on STCF (short term care facility) units. Individuals under this status voluntarily admit themselves for a STCF for stabilization and treatment. However, a STCF shall agree to make every effort to discharge the person to appropriate voluntary outpatient services before making a referral to a State or county hospital.
