2024 Annual Report on Access to Employer-Based Health Insurance

Background

In August 2006, legislation was enacted (P.L. 2006, c.87) directing the Commissioner of New Jersey's Department of Human Services (DHS) to prepare an annual report on Access to Employer-Based Health Insurance for Medicaid Enrollees.

The purpose of this report is to identify employers in the State who employ an aggregate of 50 or more employees enrolled in NJ FamilyCare, the State's Medicaid and CHIP program.

Data Sources

Data sources include The New Jersey Department of Labor and Workforce Development's (LWD) Wage Reporting database and DHS' Division of Medical Assistance and Health Services Shared Data Warehouse. It is important to note that there are limitations inherent to the information available for this report. The LWD file does not contain the enrollee's quarterly income or number of hours worked. As a result, full-time or part-time status, and duration of employment with a particular employer cannot be discerned. The data within this report sourced from LWD and DMAHS represents the third quarter of 2024, July 1, 2024 to September 30, 2024. A quarterly data sample was chosen because it is a sufficiently large data set to be representative.

Although the enabling legislation calls for the employer's address or work site, the data source utilized does not list individual employment sites. Instead the data file provides an address directly related to each tax identification number which may be a corporate site or a payroll vendor.

NJ FamilyCare

NJ FamilyCare is the single program for public medical assistance in the state. Included are Medicaid, Title XIX, and the Children's Health Insurance Program (CHIP), Title XXI. NJ FamilyCare provides health coverage to children, pregnant women, parents/caretaker relatives, single adults, childless couples, the aged, blind, disabled, and individuals qualified for long-term care services. Beneficiaries receive free or low cost health coverage including: doctors' visits, hospital services, pharmacy prescriptions, medical tests, vision care, mental health care, dental services, nursing home care and other healthcare services, depending on the person's eligibility category.

Funding is derived from both State and Federal sources. Through the Affordable Care Act, New Jersey expanded program eligibility to individuals with household incomes at or below 138% of the Federal Poverty Level (FPL) (\$20,783 per year for a household size

of one). This adult group can be eligible for NJ FamilyCare coverage and have other insurance.

Children in families with higher household incomes, between 147% and 355% of the Federal Poverty Level (between \$45,864 and \$110,760 per year for a family of four), may be eligible for NJ FamilyCare through the Children's Health Insurance Program (CHIP). Enrollees for CHIP must be uninsured before they are eligible for NJ FamilyCare.

Report Summary

748 private sector employers in NJ employing 50 or more NJ FamilyCare beneficiaries were identified. Collectively, these companies employed 132,757 people (see Column A of Appendix A) who received health care coverage through NJ FamilyCare. In addition, 249,323 dependents (see Column B of Appendix A) of these employees were covered by NJ FamilyCare.

This report also includes data regarding government agencies in New Jersey employing 50 or more NJ FamilyCare beneficiaries. 80 government agencies employed 8,772 people (see Column A of Appendix B) who received health care coverage through NJ FamilyCare. In addition, 17,080 dependents (see Column B of Appendix B) of these employees were covered by NJ FamilyCare.

In cases where an NJ FamilyCare beneficiary funded under Title XIX Medicaid has private insurance, Medicaid becomes the payer of last resort. NJ FamilyCare's reimbursement is subsequent to payments made through private coverage for allowable medical services. 26,235 private sector employees and 2,008 government sector employees had private insurance (see Column F) in addition to NJ FamilyCare coverage.

New Jersey's WorkAbility Program offers complete NJ FamilyCare coverage to working people with disabilities whose earnings would otherwise make them ineligible for program enrollment. Generally to be eligible for NJ Workability, a person must be between the ages of 16 and 64, working part-time, full-time or be self-employed, and have a permanent disability. 2,893 employees working in the private sector, and 161 working for government agencies receive NJ FamilyCare benefits through NJ Workability (refer to column D in the Appendices)

Federal and State Costs

Funding of NJ FamilyCare is shared by Federal and New Jersey State governments. Percentages vary according to eligibility group. For the third quarter in 2024, Title XIX Medicaid federal share ranged from 50% to 90%. Title XXI CHIP federal share was 65%.

Jointly funded expenditures totaled \$456 million over the three-month reporting period. This includes NJ FamilyCare beneficiaries employed by private sector employers at a cost of \$427 million, and government agencies at a cost of \$29 million.

Of the jointly funded total, spending for Title XIX Medicaid was \$430.6 million and \$22.7 million for Title XXI CHIP. The remaining \$2.8 million funded State-only dollars.

New Jersey's portion of the expense for NJ FamilyCare beneficiaries employed by the private sector and government agencies was \$146 million with breakdown as follows: Title XIX Medicaid \$135 million, Title XXI SCHIP \$8 million and \$3 million for state-only funds.

Charity Care Information Submitted by the Department of Health

The statute requires the Department of Health (DOH) to compile, to the extent data are available, information about employed recipients of Charity Care. Specifically, the law requests the following information: the employer's name and address, the number of recipients on Charity Care who are employed by the employer; and the cost to the State of providing Charity Care for employer's employees and their dependents. DOH has reviewed the data submission process and supporting information technology structure and determined that this data is not available. In addition, DOH as required by the "Charity Care Fraud Prevention and Detection Act," has reviewed, with the Division of Taxation, the potential for file matching to ascertain the employer and wage data for Charity Care recipients. The results of the review indicated that the lack of a consistent identification number, such as social security number, makes the desired analysis infeasible.

Notes:

- The Department of Labor data utilized was not collected for the intent of producing this report.
- The Department of Labor file does not contain enrollee quarterly income or number of hours worked.
- Working NJFC Recipients may have more than 1 employer.

Notes:

- Columns D, E and F are subsets of Column A. Enrollees may appear in multiple columns within D, E and F.
- Working enrollees may have more than one employer.
- Employers are identified by tax ID for this report. Some employers may have more than one tax ID.

Data Sources:

- The Department of Labor supplies NJ employment data for those Medicaid enrollees identified utilizing NJ FamilyCare provided social security numbers.
- The Department of Labor data utilized was not collected for the intent of producing this report. The DOL file match is created quarterly for input to a Medicaid Production application.
- The DOL file does not contain enrollee quarterly income or number of hours worked. DOL data is for the quarter ending 09/30/2019.

TOTAL EXPENDITURES FOR 3 MONTH PERIOD: 07/01/2024 - 09/30/2024

Notes:

- Columns D, E and F are subsets of Column A. Enrollees may appear in multiple columns within D, E and F.
- Working enrollees may have more than one employer.
- Employers are identified by tax ID for this report. Some employers may have more than one tax ID.

Data Sources:

- The Department of Labor supplies NJ employment data for those Medicaid enrollees identified utilizing NJ FamilyCare provided social security numbers.
- The Department of Labor data utilized was not collected for the intent of producing this report. The DOL file match is created quarterly for input to a Medicaid Production application.
- The DOL file does not contain enrollee quarterly income or number of hours worked. DOL data is for the quarter ending 09/30/2019.
