

Need Help Paying for Groceries?

New Jersey's Supplemental Nutrition Assistance Program (SNAP) provides food assistance to individuals and families with low incomes. You can use your SNAP benefits to buy groceries at most food retail stores and some farmer's markets — stretching your food budget! If you are eligible, **you will receive at least \$95 a month for food shopping.**

How do I know if I'm eligible?

Your household must meet certain requirements to be eligible for SNAP.

For most applicants, your monthly household income must not be higher than the amounts in the chart to the right. However, if a household member is age 60+ or has a disability, they may still be eligible even if their gross income exceeds these amounts.

What is a SNAP household?

Typically, any group of people who purchase/prepare food together. However, individuals age 60+ or individuals with disabilities can apply on their own, even when living with others.

How do I receive my benefits?

Benefits are issued on a Families First Electronic Benefits Transfer (EBT) card that works like a debit card. This card can be used in most grocery stores, some farmer's markets and online.
