

myPaycheck is a browser-based Software as a Service (SaaS) product. Configured for user self-service at the office or on the go, myPaycheck runs on most standard browsers and is accessible via the myNewJersey portal.

Offered on a per user subscription basis, myPaycheck provides an online portal for members to obtain their current paystub information regarding deductions and payments made through the state of New Jersey payroll system as well as an earnings history. Members can view and download IRS documents related to income tax, W-2, and ACA 1095-c.

Members can also use the portal to establish direct deposit of their paycheck and verify the request status. Profile management is also available. Technical support and a self-directed user guide are included in the monthly subscription cost

Key Features

- Compatible with most standard browsers
- Highly secure and available
