June 14, 2017

Mr. Tom Voorhees
New Jersey Department Labor
Asbestos Control & Licensing
1 John Fitch Plaza, 3rd floor
Trenton, NJ 08625-0949

RE: Request for Waiver of 10-Day Notification
Emergency Asbestos Decontamination
Plainfield High School- 2nd Floor HVAC Mechanical Room/ Roof
950 Park Avenue
Plainfield, New Jersey 07060

Dear Mr. Voorhees:

The above referenced project is considered an emergency due to the fact that asbestos containing materials were discovered in an area scheduled for renovations. These renovation need to be completed before school resumes next Fall. The abatement activities need to be completed as soon as possible to enable the scheduled renovation activities to safely begin. The school will be completely unoccupied from Tuesday, June 22 through Sunday June 25, 2017, and therefore, the District would like to address this situation during that timeframe. The below table includes the location, material and approximate quantity included within the proposed emergency scope of work.

**Exterior Roof (Non Sub 8)**

<table>
<thead>
<tr>
<th>Location</th>
<th>Asbestos-containing Materials</th>
<th>Approximate Amounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exterior Roof</td>
<td>Tar Paper Covering over Fiberglass Pipe Insulation</td>
<td>40 Linear Feet</td>
</tr>
<tr>
<td></td>
<td>Residual Roofing Material on Feet of Air Conditioning Unit Support (Exterior Non Friable)</td>
<td>2 Square Feet</td>
</tr>
</tbody>
</table>
Second Floor HVAC Mechanical Room Work Area Containment  
(Non Sub 8)

<table>
<thead>
<tr>
<th>Location</th>
<th>Asbestos-Containing or Assumed Asbestos-Containing Materials</th>
<th>Approximate Amounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd Floor HVAC Mechanical Room (Upper and Lower)</td>
<td>Asbestos Containing Pipe Fitting Insulation Associated with Fiberglass Pipe Insulation (Tented Glove Bag Procedures)</td>
<td>22 Square Feet</td>
</tr>
<tr>
<td></td>
<td>Asbestos Containing Vibration Damper Cloth (Wet, Wrap and Cut Abatement Procedures)</td>
<td>200 Square Feet</td>
</tr>
</tbody>
</table>

Accordingly, the existing situation requires that abatement activities be performed immediately within the 2nd Floor HVAC Mechanical Room/ Roof work areas. Delaying the abatement activities could negatively impact the health of the affected areas and adjacent spaces. The emergency abatement activities are urgently required to provide safe working conditions as the contractors to occupy these spaces for the necessary renovations.

Thank you for your assistance with this matter. Please call me on my cell phone (609-304-3969) if you have any questions or require additional information.

Respectfully Submitted,
TTI Environmental, Inc.

Michael R. Stocku

* Do not use this form for asbestos licensure exempted activities.*
June 14, 2017

Mr. Tom Voorhees
New Jersey Department Labor
Asbestos Control & Licensing
1 John Fitch Plaza, 3rd floor
Trenton, NJ 08625-0949

RE: Request for Waiver of 10-Day Notification
Emergency Asbestos Decontamination
Plainfield High School- 2nd Floor HVAC Mechanical Room/ Roof
950 Park Avenue
Plainfield, New Jersey 07060

Dear Mr. Voorhees:

The above referenced project is considered an emergency due to the fact that asbestos containing materials were discovered in an area scheduled for renovations. These renovation need to be completed before school resumes next Fall. The abatement activities need to be completed as soon as possible to enable the scheduled renovation activities to safely begin. The school will be completely unoccupied from Tuesday, June 22 through Sunday June 25, 2017, and therefore, the District would like to address this situation during that timeframe. The below table includes the location, material and approximate quantity included within the proposed emergency scope of work.

**Exterior Roof (Non Sub 8)**

<table>
<thead>
<tr>
<th>Location</th>
<th>Asbestos-containing Materials</th>
<th>Approximate Amounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exterior Roof</td>
<td>Tar Paper Covering over Fiberglass Pipe Insulation</td>
<td>40 Linear Feet</td>
</tr>
<tr>
<td></td>
<td>Residual Roofing Material on Feet of Air Conditioning Unit Support (Exterior Non Friable)</td>
<td>2 Square Feet</td>
</tr>
</tbody>
</table>

**Second Floor HVAC Mechanical Room Work Area Containment**

*(Non Sub 8)*

<table>
<thead>
<tr>
<th>Location</th>
<th>Asbestos-Containing or Assumed Asbestos-Containing Materials</th>
<th>Approximate Amounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>2nd Floor HVAC Mechanical Room (Upper and Lower)</td>
<td>Asbestos Containing Pipe Fitting Insulation Associated with Fiberglass Pipe Insulation <em>(Tented Glove Bag Procedures)</em></td>
<td>22 Square Feet</td>
</tr>
<tr>
<td></td>
<td>Asbestos Containing Vibration Damper Cloth <em>(Wet, Wrap and Cut Abatement Procedures)</em></td>
<td>200 Square Feet</td>
</tr>
</tbody>
</table>

Accordingly, the existing situation requires that abatement activities be performed immediately within the 2nd Floor HVAC Mechanical Room/Roof work areas. Delaying the abatement activities could negatively impact the health of the affected areas and adjacent spaces. The emergency abatement activities are urgently required to provide safe working conditions as the contractors to occupy these spaces for the necessary renovations.

Thank you for your assistance with this matter. Please call me on my cell phone *(609-304-3969)* if you have any questions or require additional information.

Respectfully Submitted,
TTI Environmental, Inc.

Michael R. Stocku
Project Manager
