To Whom it may concern:

Requesting that GR Tech LLC be allowed to start and complete the job of removing asbestos and abatement. This due to fact that furnace will be installed. This work has to be completed on an emergency basis before furnace is installed. It's now cold and family has medical problems.

Thank You,
Wendell Phillips

This letter is to advise you of the urgency of the asbestos test results. We are in the process of obtaining a demolition permit for 133 Helen Court, Franklin Lakes. We have all items required except the asbestos abatement for the permit. The demolition is scheduled for this week and I can not start without this certificate of completion for the asbestos abatement. Your expedience in this matter would be greatly appreciated.

Thank You,

Joseph V. Soto III
President

Improvabilt LLC
10 Boiling Springs Road
HoHoKus, New Jersey 07423

October 28, 2011

John Howley
B & G Restoration Inc.
105 Ryerson Road
lincoln Park, NJ. 070325

Re: 319 Market Street, Saddle Brook, NJ

Dear Mr. Howley:

Pursuant to our phone discussion of today, B & G is authorized to perform the work in its proposal dated October 28, 2011 at a cost of \$ 2,500.00.

Please proceed to perform the services as soon as possible sinjce time is of the essence. Improvabilt LLC cannot secure a permit to commence building demolition until you have completed your services.

You are authorized to submit the contents of this letter, as set forth below, to the State of New Jersey.

Improvabilt needs to complete demolition and put down a foundation for the new building before the cold weather sets in. Improvabilt has already secured one tenant for its building whose lease at its current location expires in 2012. It is essential that the new building have a Certificate of Occupancy before that tenant's lease expires. A waiver of the 10 day Notice will permit valuable time to be committed to the existing building demolition and placing down the new building foundation before the ground becomes potentially unworkable until the Spring 2012. A 10 day period at this time of year this may significantly delay Improvabilt LLC securing a CO and cause Improvabilt to lose its new tenant because the building cannot be comploeted in a timely manner.

Respectfully submitted,

Improvabilt LLC

October 7, 2011

My name is David Hoibak, homeowner of the property at 68 Overlook Terrace, Bloomfield, NJ 07003. My boiler needs to be replaced and with the presence of asbestos on the pipes, Jayson Heating will not replace the boiler. I need the asbestos removal to commence sometime this week, so that I may make arrangements with PSE&G to install a new heating unit once the asbestos is removed. Please schedule removal ASAP. Thanks!

Sincerely,

David Hoibak

RE: 67 MECHANIC STREET, FREEHOLD, NJ

The boiler at the above referenced address is in-operable and need to be replaced as soon as possible. The plumber is concern about the health hazard that asbestos can cause to the workers and homeowner.

I would like to request a waiver of the ten day notification period because the plumber is concern about workers exposure to asbestos and might create a health hazard to everyone.

Your consideration is highly appreciated.

Sincerely,

Homeowner's Representative

Worksite
Address: 635 - Bailey Ave, Elizabeth, NJ

To Whom It May Concern:

I am the owner of the above referenced Worksite address. The furnace located in my basement is inoperative and needs to be replaced ASAP in order to heat the house.

The furnace is insulated with asbestos material. The asbestos needs to be removed prior to installation of the new furnace.

I understand that various Federal and State Agencies require written 10-day notification prior to starting any asbestos abatement work, and that it may be possible to start the asbestos abatement work sooner than the 10 day period in the event of an emergency.

Since I currently do not have heat in my house, I feel that the asbestos abatement work should be given immediate attention.

Please accept this letter as a request to commence with asbestos abatement activities as soon as possible and upon receiving approval to do so by the applicable Federal and State Agencies having jurisdiction.

If you have any questions or comments, please do not hesitate to contact me at the following telephone number: _____

Very truly yours,

Subject: Asbestos Removal

From: Everett.Ross@merial.com (Everett.Ross@merial.com)

To: aztechnj@yahoo.com;

Date: Friday, November 4, 2011 10:41 AM

Good Morning,

To whom it may concern,

In my home I have asbestos covering my heating pipes. The last couple of days have been hard on my family because of having steam heating and not being able to turn on the heat. We have been waking up to a cold home with only space heaters in the rooms we sleep in. We would like to request immediated service so as to have the pipes repaired as soon as possible. I have two young kids and are unable to eat and live in the rest of the house because of the cold temperatures.

Please notify me as soon as possible so that we can have this work done. (November 4, 2011)

**Re: Emergency Notification Request
Vernon Township Public Schools
Rolling Hills Elementary School Boiler Room Asbestos Abatement**

Dear Mr. Voorhees,

We are requesting a waiver of relieve of the ten day asbestos notification period for the asbestos project listed above. The amount of asbestos material removed will be; 300 SF of asbestos covered boiler insulation, 100 SF of floor insulation and 100 LF of TSI in the boiler room. The boiler will be removed in its entirety.

The asbestos air testing will be performed by Enviro Vision, Inc. The asbestos abatement contractor will be Greenwood Abatement Consultants, Inc.

Due to the inclement weather and start of our heating season it is imperative that we remove the asbestos material, demolition of the dead boiler and install a new boiler. This project is scheduled to be performed during the time when the building is vacant, from Thursday, November 10, 2011 to Sunday, November 13, 2011.

I would appreciate your understanding in order for this project to progress as soon as possible.

Sincerely,

John B. Alfieri, Ed. D.
Superintendent of Schools

Worksite
Address: 183 Seymour Ave Newark NJ

To Whom It May Concern:

I am the owner of the above referenced Worksite address. The furnace located in my basement is inoperative and needs to be replaced ASAP in order to heat the house.

The furnace is insulated with asbestos material. The asbestos needs to be removed prior to installation of the new furnace.

I understand that various Federal and State Agencies require written 10-day notification prior to starting any asbestos abatement work, and that it may be possible to start the asbestos abatement work sooner than the 10 day period in the event of an emergency.

Since I currently do not have heat in my house, I feel that the asbestos abatement work should be given immediate attention.

Please accept this letter as a request to commence with asbestos abatement activities as soon as possible and upon receiving approval to do so by the applicable Federal and State Agencies having jurisdiction.

If you have any questions or comments, please do not hesitate to contact me at the following telephone number: 973-729-7565

Very truly yours,

Jolene Raybon

To Whom It May Concern,

We are repairing a township owned concession stand that sustained heavy water damage to approximately 900 square feet of flooring and mastic which is found to be asbestos containing. Due to the location and amounts of the material, we are requesting a waiver of the 10 day notification period so that we may proceed immediately with the abatement and necessary repairs in order to not cause the employees and faculty any greater hardship.

The owner and location is as follows,

Mt. Holly Municipal
Monroe Park Concession Stand
2 East Monroe Street
Mt. Holly, NJ 08060

Respectfully Submitted,

Thomas Messina - allRisk Restoration

Morris Plains, NJ 07950
November 3, 2011

B&G Restoration Inc.
105 Ryerson Road
Lincoln Park, NJ 07035

Dear B&G Restoration:

I would like to request a waiver to the 10-day wait period for removal of the asbestos tile in our basement because of time constraints that we are currently under. We have been looking into waterproofing our basement since the flooding from hurricane Irene, and we have been given a "special discount" from Mid-Atlantic Waterproofing as long as we use their only open date of November 14, 2011 for this. They indicate that the job will take approximately 2 days. Since your first open date is on November 15, that would pose a problem since I believe it would be best to have the asbestos properly removed before Mid-Atlantic starts jack-hammering our basement floor.

Therefore, if you can schedule us for November 10, I believe these dates will work out fine. Please let me know if our request for waiver is accepted.

Thanks very much for your help with this.

Regards,

Robert J. Taormino

Mr. Paul C. Horner

New Jersey Department of Health
P. O. Box 369
Trenton, NJ 08625

Dear Mr. Horner;

During the demolition permit application we needed an environmental survey. The survey revealed the presence of asbestos flooring in the basement.

We request that the ten day notification for asbestos removal be waived.

We need A. Mac Contracting to remove asbestos so that we can proceed with demolition. The equipment is on site and we are ready to start demolition. We need to get the new house closed in so we can work through the winter. A. Mac is licensed for the asbestos work.

Job Site: 337 Altwood Road LLC
771 Chamwood Drive
Wyckoff, NJ 07481

Sincerely;
Frank Giusse

**RE: ANGEL'S WORLD DAY CARE CENTER
708 WEST STREET
UNION CITY, N.J. 07087
REMOVAL OF ASBESTOS AND LEAD PARTICLES IN
STUDENT'S BATHROOMS.**

November 2, 2011

To Whom It May Concern:

I am writing to request your assistance with emergency removal of asbestos and lead contaminants in the girl's and boy's bathrooms at our center. Unfortunately, we only have until Saturday, November 12th to rectify this urgent matter. Without these repairs our center will not be allowed to renew our license and the center will be shut down until further repairs are completed. We are an UNION CITY ABBOTT PROGRAM participant since 2000 with a extremely highly recommended service to our community. Our students need an education and their parent's need our services as educators.

It is urgent that you contact me at the above number as soon as possible in order for your company to fix this problem.

Sincerely,

Mr. Carlos Vincent,
DIRECTOR

Elizabeth NJ 07202

To: Department Of Health

Due to the recent tragic events with Hurricane Irene our basement was flooded causing the lost of our boiler. My family and I had made efforts to reach out to FEMA and we was just rewarded a grant to replace our damaged equipment. Now that we have a vender that is willing to come in Monday to replace the boiler, we need the pipe insulation to be taken out before the job can take place. We are requesting if it is possible to wave the ten day grace period for this job so we can get the plumbers to come in and put the new furnace in place.

Thank You,

Foyah McLeod

Re: Emergency Notification
Trenton Public Schools
Maintenance Complex, Main Building
Truancy/H&S Grant Area

Dear Mr. Pizzigoni:

A leak in the hot water system above the plaster ceiling requires the non-friable wrap and cut removal of approximately five (5) linear feet of ACM Thermal System Insulation to allow for the plumbers to tie in a new pipe section above the Truancy/H&S Grant Area at the Maintenance Building located at 1490 Prospect Street, Trenton, New Jersey.

Due to the immediate need for heating at the site and required repair to the mechanical system, this project is being declared an emergency by the Owner. Please proceed with all required notifications so that this project can commence on November 4, 2011.

If you have any questions regarding this project, please contact the undersigned at your convenience.

Respectfully,

ENVIRONMENTAL CONNECTION, INC.

James Frisbee, CIH
Operations Manager

Worksite
Address: 635 - Bailey Ave, Elizabeth, NJ

To Whom It May Concern:

I am the owner of the above referenced Worksite address. The furnace located in my basement is inoperative and needs to be replaced ASAP in order to heat the house.

The furnace is insulated with asbestos material. The asbestos needs to be removed prior to installation of the new furnace.

I understand that various Federal and State Agencies require written 10-day notification prior to starting any asbestos abatement work, and that it may be possible to start the asbestos abatement work sooner than the 10 day period in the event of an emergency.

Since I currently do not have heat in my house, I feel that the asbestos abatement work should be given immediate attention.

Please accept this letter as a request to commence with asbestos abatement activities as soon as possible and upon receiving approval to do so by the applicable Federal and State Agencies having jurisdiction.

If you have any questions or comments, please do not hesitate to contact me at the following telephone number: _____

Very truly yours,

Date: Friday, November 4, 2011 10:41 AM

Good Morning,

To whom it may concern,

In my home I have asbestos covering my heating pipes. The last couple of days have been hard on my family because of having steam heating and not being able to turn on the heat. We have been waking up to a cold home with only space heaters in the rooms we sleep in. We would like to request immediated service so as to have the pipes repaired as soon as possible. I have two young kids and are unable to eat and live in the rest of the house because of the cold temperatures.

Please notify me as soon as possible so that we can have this work done. (November 4, 2011)

To Mr. Paul C. Horner

N. J. D.O.H.
PO BOX 369
TRENTON, NJ 08625

Dear Mr. Horner;

We have no heat in our house at 165 Park Ave. Park Ridge NJ

We need A. Mac contracting to remove asbestos so that PSE&G can replace the boiler Tuesday.

We request that the ten day notification for asbestos removal be waived.

Sincerely; Mr. Gary Kirk

Worksite

Address: 183 Seymour Ave Newark NJ

To Whom It May Concern:

I am the owner of the above referenced Worksite address. The furnace located in my basement is inoperative and needs to be replaced ASAP in order to heat the house.

The furnace is insulated with asbestos material. The asbestos needs to be removed prior to installation of the new furnace.

I understand that various Federal and State Agencies require written 10-day notification prior to starting any asbestos abatement work, and that it may be possible to start the asbestos abatement work sooner than the 10 day period in the event of an emergency.

Since I currently do not have heat in my house, I feel that the asbestos abatement work should be given immediate attention.

Please accept this letter as a request to commence with asbestos abatement activities as soon as possible and upon receiving approval to do so by the applicable Federal and State Agencies having jurisdiction.

If you have any questions or comments, please do not hesitate to contact me at the following telephone number: 973-929-7568

Very truly yours,

D&S Restoration, Inc.
Attn: Rosalie

Dear Rosalie,

Attached is a signed copy of your contract.

I have no heat in my house due to the cracked boiler. The installer has determined that asbestos is present in the old boiler, so we need to ask for a waiver to accelerate the abatement and installation

I understand from you that the abatement work will take place on Thursday, November 10. Installation begins on Friday, November 11.

Many thanks

James Kopp
