Mr. Thomas Voorhees
Compliance Officer II
Asbestos Control & Licensing
NJ Dept. Of Labor & Workforce Development
1 John Fitch Plaza 3rd Floor
P.O. Box 949
Trenton, NJ 08625-0949

Dear Mr. Voorhees:

As a result of water leaking from the dishwasher at the property located at 107 Deptford Road in Glassboro, New Jersey, asbestos containing nine (9) inch by nine (9) inch tan floor tiles and associated black mastic were affected. I am requesting a wavier of the 10-day notification so the nine (9) inch by nine (9) inch tan floor tiles and associated black mastic can be removed by Shade Environmental to allow the mold remediation/restoration activities to continue without any asbestos exposure issues.

Thank you for your assistance in this matter and please feel free to contact me at (cell) 609-760-1540.

Sincerely,

MDG ENVIRONMENTAL, LLC

To Whom It May Concern,

We are repairing the Hoboken Housing Authority building 400 that sustained heavy water damage to approximately 709 square feet of flooring which is found to be asbestos containing. Due to the location and amounts of the material, we are requesting a waiver of the 10 day notification period so that we may proceed immediately with the abatement and necessary repairs in order to not cause the Hoboken Housing Authority any greater hardship.

The owner and location is as follows,

Hoboken Housing Authority
400 Harrison St
Hoboken NJ 07030

Respectfully Submitted,

Thomas Messina – allRisk Restoration

Trenton, NJ 08625

Dear Mr. Horner;

I need to have the state 10 day asbestos notification waived

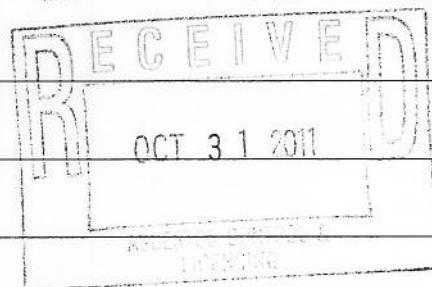

I need A. Mac contracting to remove asbestos so that we can replace the boiler at the Halper House.

If you have any questions I can be reached at 973-885-9742

THANK YOU
Joe the Plumber

Re: Demolition project
201 Rt. 22
Springfield, NJ 07081

To Whom It May Concern:

We are respectfully requesting a waiver of the ten day asbestos abatement notification period. A state inspector found asbestos contamination in the demolition debris, and stopped our project.

We would like to clean up this site/project as soon as possible to prevent any migration of asbestos.

We consider this a real emergency as well as a financial hardship if the project is delayed any further.

Thank you for your help and consideration in this matter.

Sincerely,

Mark T. Kessler

RE: Whitney Houston - Asbestos Removal

Dear Mr. Altadouka

Please be advised that we are in the process of renovating Whitney Houston Academy located at 215 Dodd St. East Orange. Due to delays in the NJSDA procuring permits and weather delays that were out of our control, we need your firm to expedite the removals as it has come to our attention that our original notification has expired. As this is becoming a financial burden on Catcord, your prompt attention to this matter is greatly appreciated.

Thank you,

Michael Slobaid

RE: 108 Rollinson Street, West Orange, NJ

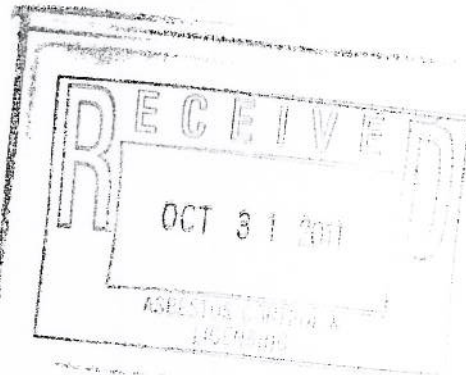

The boiler at the above referenced address is in-operable and need to be replaced as soon as possible. The plumber is concern about the health hazard that asbestos can cause to the workers and homeowner.

I would like to request a waiver of the ten day notification period because the plumber is concern about workers exposure to asbestos and might create a health hazard to everyone.

Your consideration is highly appreciated.

Sincerely,

Homeowner's Representative

Subject: Request for Immediate Asbestos Clean-up

Re: 596 Overlook Drive
Wyckoff NJ 07481

I would like to request a waiver of the 10 day notification period for the asbestos remediation at the above referenced address.

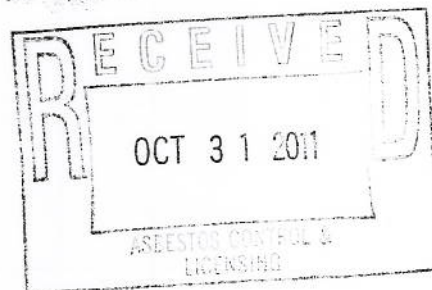

There is renovation work underway at my home. During the course of the work, we became aware of asbestos that is exposed in the basement. I felt the urgency of doing the abatement process as soon as possible to prevent the situation from becoming a health hazard and to protect family and the construction workers.

Please waive the 10 day notification period so that the asbestos will be remediated as soon as possible.

Sincerely,

Barbara Veit

Clifton, NJ

Attention: Robert Maviglia

Reference: Emergency Asbestos Abatement

The replacement of a Air Handling Unit(AHU) at the Verizon New Brunswick CO located at 18 Paterson Street New Brunswick, NJ, have been delayed due to the discovery of 9" X 9" Vinyl Asbestos Floor Tiles(VAT) located under the old AHU in the basement Power Room. Approximately 72 square feet of VAT/Mastic needs to be removed in order to facilitate placing a concrete for the new AHU to be mounted upon.

Accordingly, this condition requires the removal asbestos containing materials. These delays may in turn, cause an interruption in telecommunication service. Removal of the regulated materials is urgently required to provide a safe access for telecommunication equipment.

Sincerely Yours,

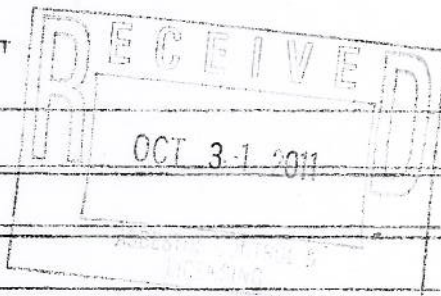

Harold E. Baldwin

REPSG

React Environmental
Professional Services Group, Inc.

October 31, 2011

Plymouth Environmental
923 Haws Avenue
Norristown, PA 19401
Attn: Mr. Timothy Bryan

**RE: Request for Notification Period Waiver
2021 Nottingham Way
Hamilton Township, Mercer County, New Jersey**

Mr. Bryan,

REPSG, on behalf of the owner of the above-referenced property is writing you today to respectfully request a waiver to the 10-day notification period for the abatement of asbestos-containing materials identified at the above-referenced property.

The site is an active construction site for a future Walgreens store. Asbestos abatement has already been performed in June 2011 at former structures, prior to their demolition in July 2011. Earlier this month, the site contractor encountered an underground pipe chase/duct bank that contains asbestos pipe insulation. Plymouth conducted abatement of approximately 25 linear feet of this material on 11/13/11 on an emergency basis. Abatement activities were completed in accordance with applicable regulations.

At this time, the site contractor has encountered additional, similar asbestos materials in another sub-grade duct bank. Approximately 50 linear feet of asbestos pipe insulation is present. The site contractor reports these materials are in direct conflict with proposed underground utilities and will need to be abated. REPSG instructed the site contractor to cease all work in this area until these materials can be properly abated.

If the typical ten-day notification period is required, the work stoppage would create hardships for the site contractor and delay the construction schedule as these ACMs are located in direct conflict with essential utilities which must be installed. REPSG requests that Plymouth Environmental, on behalf of the property owner, petition the appropriate regulatory agencies to grant a waiver of the typical notification period and allow abatement to begin as possible so site redevelopment can resume.

OK Restoration Inc
105 Ryerson Road
Lincoln Park N.J. 07035

Dear Sir,

My boiler is failing and I
need a new boiler installed but
first I must remove asbestos.

Thank you for your help.

Sincerely,
Anne Hartmann

To Whom It May Concern:

Please consider our request for the 10 day notice waiver, as our furnace is broken and we are without heat for couple days now. PSE&G came to change the furnace, but they said they won't be able to do anything until we take care of the Asbestos around the pipes.

We have hire Pyramid Contracting to do the removal.

Thanks for your consideration.

Mindy Schoen
