Real Time Job Posting Data

- This analysis is conducted using Lightcast data, which collects data from job postings listed on the internet.
- Data layered together across 2.5 billion job postings, 400 million career profiles, and 100+ government sources, scraped daily from online labor exchanges.
- Job posting data updated continuously, historically available, and regionally relevant.

Source: Lightcast Technologies, New Jersey 2026

Prepared by: New Jersey Department of Labor and Workforce Development, January 2026

Limitations of the Data

Limitations:

- A posting does not necessarily equal a job
- Some occupations and industries are underrepresented, some may be over-represented
- While Lightcast uses algorithms to remove duplicate listings, some redundancies remain

2026 Report Overview and Subscription Information

This report was prepared by the Office of Research and Information, Division of Economic & Demographic Research. This division collects and disseminates vital data on employers, employees, and population demographics.
