

Population and Labor Force Projections for New Jersey: 2010 to 2030

Decennial Rate of Population Growth: 2000-2030

- New Jersey's 2010-2030 population growth will continue to lag behind the nation as a whole.

Population Growth in New Jersey

- In anticipation of an economic recovery, New Jersey's total population is projected to increase from 8,791,900 in 2010 to 9,241,900 in 2020; or 0.50% per annum, on average.
- The state's population will continue to grow 0.43% per annum between 2020 and 2030. Total number of residents will reach 9,648,100 by 2030.
- The projected population increase in New Jersey will be 9.7% between 2010 and 2030. In comparison, the U.S. population will increase 16.1%, from 308,745,538 in 2010 to 358,471,000 in 2030.

Population Projections by County: 2010 to 2030

County Population: 2010 and 2030

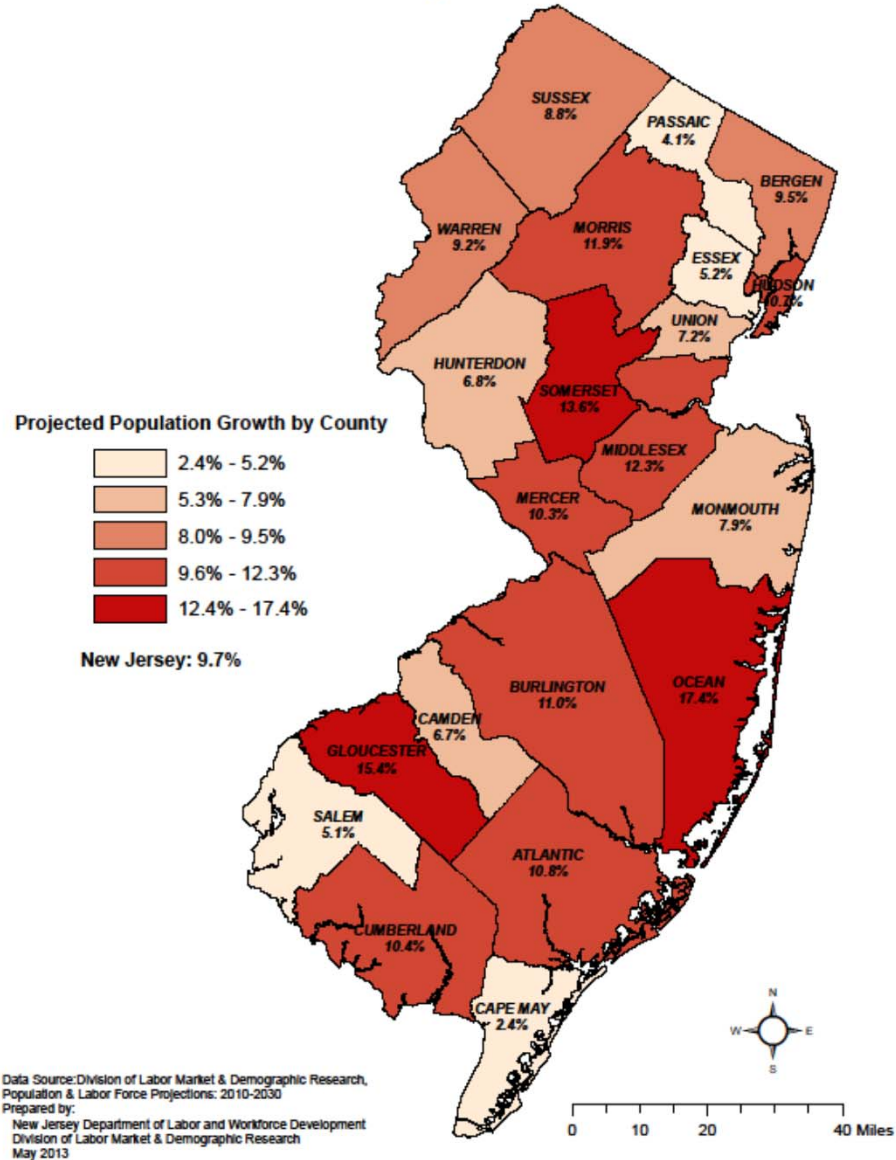

- Population is projected to increase in every county between 2010 and 2030 although rates of growth vary.

County Population Growth: 2010 to 2030

- **Ocean** (17.4%), **Gloucester** (15.4%) and **Somerset** (13.6%) counties are projected to continue to lead the state's population growth in the next two decades.
- Slow population growth are projected for **Cape May** (2.4%), **Passaic** (4.1%) and **Salem** (5.1%) counties.

Projected Population Growth: 2010 to 2030 by County

Projected Population Trends

- New Jersey's population will continue to become older and racially and ethnically more diversified from 2010 to 2030.
- That is, the state's residents will comprise of more **elderly** and more **Hispanics** and **Asians**, while women's share of the state's population will abate somewhat.

New Jersey Population by Age: 2010 and 2030

2010

2030

Projections of Population by Age: 2010 to 2030

- As “*Baby Boomers*” continue to enter their “retirement age”, the share of New Jersey’s “**working age**” population (18 to 64 years old) is projected to shrink.
- The **elderly** population (65 & over) is projected to grow by 62% between 2010 and 2030. They will account for 19.9% of the state’s total population in 2030, up from 13.5% in 2010.
- With an anemic 3% growth, **children’s** (under 18 years old) share in the state’s is projected to decline from 23.3% in 2010 to 21.9% in 2030.

Projections of Population by Age: 2010 to 2030

- Population 65 years and over are projected to grow substantially in every county between 2010 and 2030. The 33.5% increase in **Cape May County** will be the slowest among 21 counties.
- Elderly population will be more than doubled in **Sussex** (115.1%) and **Hunterdon** (102.5%) counties from small bases.
- In 2010, only **Bergen** and **Ocean** counties had more than 100,000 elderly population. By 2030, elderly population will exceed the 100,000 mark in nine counties – **Bergen**, **Middlesex**, **Ocean**, **Monmouth**, **Essex**, **Morris**, **Burlington**, **Camden** and **Union**.

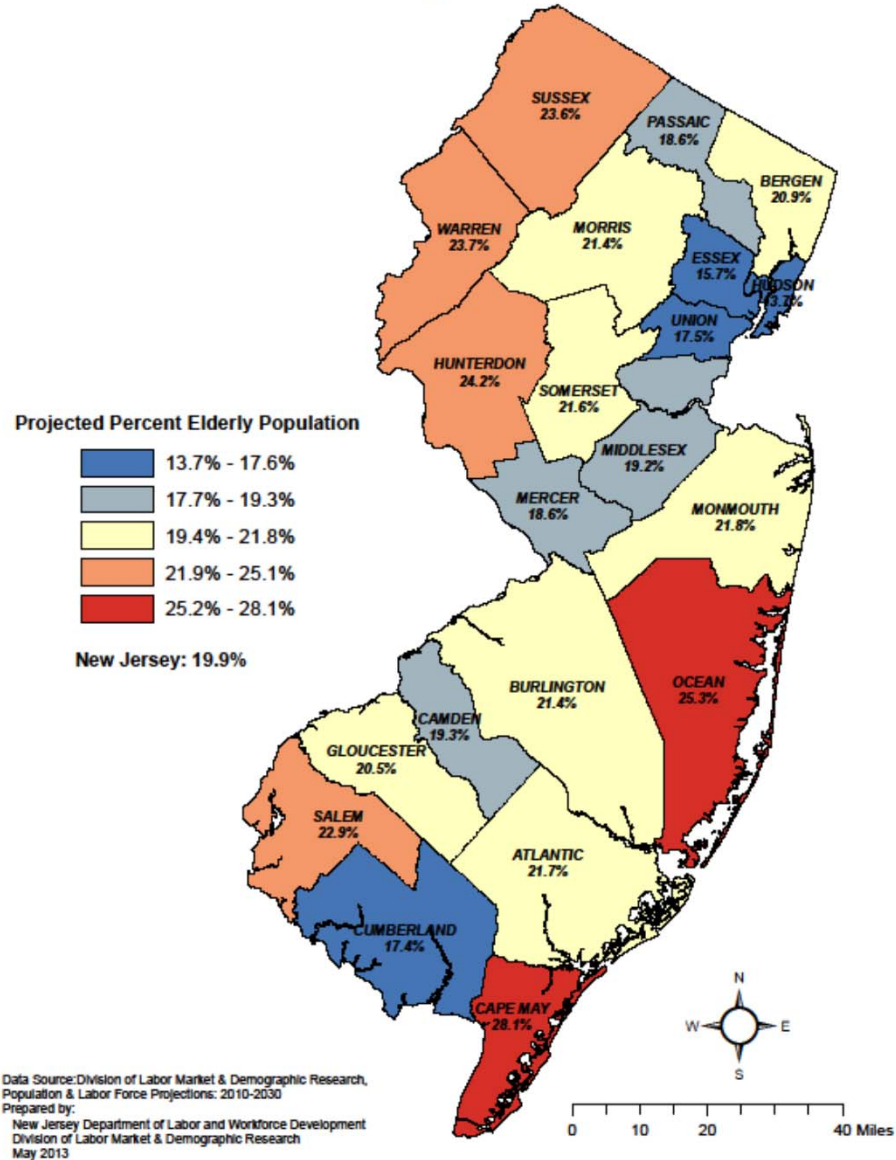

Projections of Population by Age: 2010 to 2030

- In spite of its slow rate of growth, elderly population is projected to account for 28.1% of **Cape May** County's total population in 2030 – the highest percentage in the state.
- Proportions of elderly population will also be high in **Ocean** (25.3%), **Hunterdon** (24.2%), **Warren** (23.7%) and **Sussex** (23.6%) counties, as of 2030.
- **Hudson** (13.7%) and **Essex** (15.7%) counties will continue to have relatively low percentage of senior population in 2030.

Projected Percent Elderly (65+) Population: 2030 by County

Projections of Population by Race: 2010 to 2030

- Hispanics, Asians, Other Races and Multiracial are projected to grow fast.

NJ Population Growth by Race: 2010-2030

Projections of Population by Race: 2010 to 2030

- With high rate of growth, **Hispanics** and **Asians** will expand their shares in New Jersey's population.

	2010	2020	2030
White	74.5%	70.7%	67.3%
Black	14.6%	14.5%	14.4%
Asian	8.5%	11.1%	13.3%
Other Races	0.7%	1.1%	1.6%
2+ Races	1.8%	2.6%	3.5%
<i>Hispanic</i>	17.7%	22.2%	26.7%

Projections of Population by Race: 2010 to 2030

- New Jersey's *white, non-Hispanic* population is projected to decline gradually. They accounted for 59.6% of the state's total population in 2010, but will no longer be the majority by 2025 when their share shrinks to 49.4%.
- The *white, non-Hispanic* newborns had lost their majority status in New Jersey since 2004. Consequently, the "*minority*" children (under 18) will outnumber the "*majority*" children by 2015.
- The elderly *white, non-Hispanic* population will maintain their "majority" status throughout the projection period, although their share of the total elderly persons will diminish from 77.1% in 2010 to 63.8% in 2030.

Projections of Population by Race: 2010 to 2030

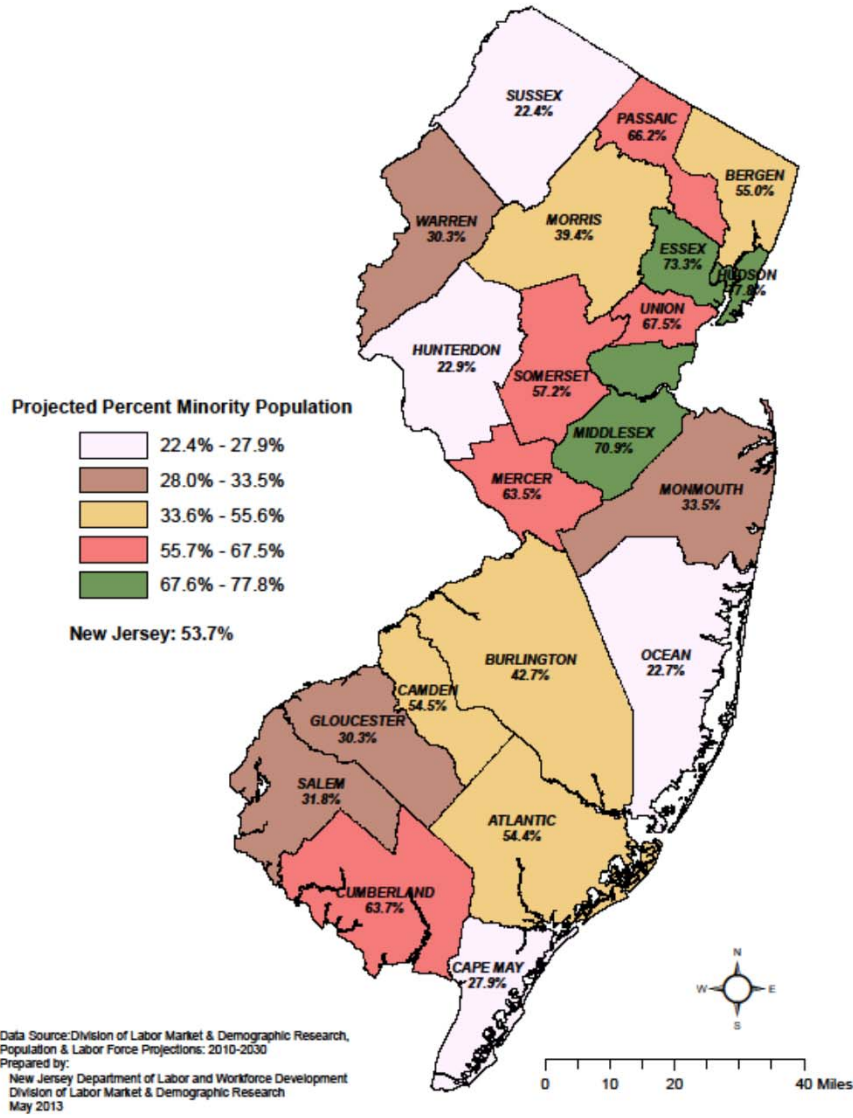

- The **white, non-Hispanic** population is projected to decline in almost every county, except **Ocean**, between 2010 and 2030.
- **Hudson** (31.3%), **Essex** (33.8%), **Passaic** (45.6%), **Union** (45.7%) and **Middlesex** (49.5%) were already “*majority-minority*” counties, as of 2010.
- By 2030, **white, non-Hispanic** population will still be the majority in just 10 New Jersey counties. Percentages of **white, non-Hispanic** population are projected to range from 22.2% in **Hudson** to 77.6% in **Sussex** in 2030.

Projections of Population by Race: 2010 to 2030

Percent of non-Hispanic Whites in County Population: 2010 and 2030		
County	2010	2030
Sussex	88.9%	77.6%
Ocean	86.1%	77.3%
Hunterdon	87.9%	77.1%
Passaic	45.6%	33.8%
Union	45.7%	32.5%
Essex	33.8%	26.7%
Hudson	31.3%	22.2%
<i>New Jersey</i>	<i>59.6%</i>	<i>46.3%</i>

Projected Percent Minority Population: 2030 by County

- Eleven counties will become “Majority-Minority” counties by 2030 in New Jersey.

Projections of Population by Race: 2010 to 2030

- African American population is projected to grow by 8.1% in New Jersey between 2010 and 2030, although their number will decline in seven counties.
- Burlington (+23,900), Bergen (+19,600) and Camden (+16,600) will lead the state's black population growth, while Essex (-9,100) and Passaic (-9,100) are projected to have the largest losses of African Americans.
- By 2030, four counties will have more than 100,000 African Americans: Essex, Union, Camden and Burlington. Together, they will account for 49.6% of the state's black population.

Projections of Population by Race: 2010 to 2030

- Percentages of African Americans are projected to range from 3.6% in Ocean County to 39.4% in Essex County, in 2030.

Percent of African Americans in County Population: 2010 and 2030		
County	2010	2030
Essex	42.6%	39.4%
Union	23.1%	23.8%
Camden	21.0%	22.7%
Morris	3.3%	3.9%
Hunterdon	2.8%	3.9%
Ocean	2.3%	3.6%

Projections of Population by Race: 2010 to 2030

- **Asian** population is projected to grow more than 71% in New Jersey, from 746,200 in 2010 to 1,281,100 in 2030. Their numbers will increase in every county.
- **Middlesex**, **Bergen** and **Hudson** counties had the largest number of **Asian** population in New Jersey, and are projected to have the largest numeric increases of **Asians** between 2010 and 2030.
- **Asian** population will be more than doubled in **Gloucester**, **Burlington**, **Cape May** and **Somerset** counties. **Union** County's 22.8% growth will be the slowest among 21 counties.

Projections of Population by Race: 2010 to 2030

County	% Asian	
	2010	2030
Middlesex	22.0	35.0
Somerset	14.4	25.7
Hudson	14.0	23.0
Bergen	14.8	21.0
Cumberland	1.3	2.0
Cape May	0.9	1.9
Salem	0.9	1.3

- Middlesex, Bergen and Hudson counties will continue to have most of the state's Asians. Together, these 3 counties will account for 54% of the state's Asian population in 2030.
- Asian's share will range from 1.3% in Salem County to 35.0% in Middlesex County, as of 2030.

Projections of Population by Race: 2010 to 2030

- **Hispanic** population is projected to increase by 65.4% in New Jersey between 2010 and 2030. The projected rates of growth range from 17.9% in **Hudson** County to 222% in **Cape May** County. The growth rate will be greater than 100% in nine counties.
- **Bergen, Essex, Middlesex** and **Union** counties are projected to have the largest numeric gains in Hispanic population. More than one million **Latinos** will be added to the state's population during the next two decades.
- Six counties will have more than 200,000 **Hispanics** as of 2030: **Hudson, Bergen, Passaic, Essex, Middlesex** and **Union**. Together, they account for 60.8% of New Jersey's total **Latino** population.

Projections of Population by Race: 2010 to 2030

- Almost one-half (49.6%) of Passaic County's residents will be Latinos in 2030.
- Gloucester County has the lowest percentage of Hispanics among its residents in 2010 (4.8%) and 2030 (10.0%).

Percentage of Hispanic Population

County	2010	2030
<i>New Jersey</i>	17.7%	26.7%
Passaic	37.0%	49.6%
Hudson	42.2%	45.0%
Cumberland	27.1%	42.3%
Union	27.3%	40.1%
Sussex	6.4%	13.4%
Burlington	6.4%	12.7%
Hunterdon	5.2%	12.3%
Gloucester	4.8%	10.0%

Projections of Population by Sex: 2010 to 2030

- New Jersey's *sex ratio* is projected to increase gradually as male population grow slightly faster than their female counterpart.

New Jersey Sex Ratio: 1990 - 2030

Projections of Population by Sex: 2010 to 2030

- In 2010, women outnumbered men in all counties in New Jersey, except **Cumberland**.
- In 2030, Four counties will have *sex ratios* greater than 100: **Cumberland** (106.7), **Hunterdon** (105.0), **Cape May** (102.3) and **Hudson** (100.1).
- **Warren** County's 90.8 *sex ratio* in 2030 will be the lowest among New Jersey's 21 counties.

Labor Force Projections: 2010 to 2030

- New Jersey's civilian labor force is projected to grow slightly faster than its population from 2010 to 2030.

Population and Labor Force Growth in New Jersey: 1980 - 2030

Labor Force Projections by County: 2010 to 2030

- Labor Force is projected to grow in all counties at various rates between 2010 and 2030.

Projections of Labor Force by Age: 2010 to 2030

- The “*older workers*” (labor force aged 55 and older) will continue to grow faster than their younger counterparts until 2020.

**Growth Rate of
NJ Labor Force by Age**

Projections of Labor Force by Age: 2010 to 2030

- Somerset (41.0%) and Gloucester (36.3%) counties will have the fastest growth of “older workers” between 2010 and 2030.
- Hunterdon, Burlington, Morris and Sussex counties are projected to have high percentages of “older Workers” by 2030.

Percentage (%) of <i>Older Workers</i> : 2010 and 2030		
County	2010	2030
Hunterdon	23.8	28.1
Burlington	22.1	26.6
Morris	23.0	26.5
Sussex	22.0	26.2
Essex	18.4	20.8
Cumberland	18.1	20.1
<i>New Jersey</i>	20.2	23.1

Projections of Labor Force by Race: 2010 to 2030

Labor Force Growth Rate by Race: NJ, 2010-2030

Projections of Labor Force by Race: 2010 to 2030

- As the state's **white, non-Hispanic** labor force continues to decline, they will no longer be the majority by 2025, and will account for just 46.3% of the state's labor force by 2030.
- With an exception of a moderate growth in **Ocean** County, **non-Hispanic white** labor force is projected to decline in all other counties in New Jersey between 2010 and 2030.
- "Minority" labor force already exceeded **non-Hispanic white** labor force, as of 2010, in four counties: **Essex**, **Hudson**, **Passaic** and **Union**.
- By 2030, the **white, non-Hispanic's** share of individual counties' labor force will range from 24.6% in **Hudson** to 77.9% in **Sussex**. They will still be the majority in just 10 counties.

Projections of Labor Force by Race: 2010 to 2030

- While **whites** in New Jersey's labor force is projected to decline, **Asians** will account for 75.6% of the state's total labor force growth between 2010 and 2030.

Tiger Woods has been a Buick spokesman since 1999.

- Without the influx of **Hispanics**, the state's labor force will decline, as the number of non-Hispanic labor force is projected to diminish.
- New Jersey's labor forces who belong to "other races" or of "two or more races" are projected to grow exponentially (168% and 157%) from small bases.

Projections of Labor Force by Race: 2010 to 2030

- The shares of **Asians** and **Hispanics** in New Jersey's civilian labor force will continue to increase.

	<u>2000</u>	<u>2010</u>	<u>2020</u>	<u>2030</u>
White	79.5%	76.3%	72.5%	68.7%
Black	13.0%	13.5%	13.6%	13.6%
Asian	6.3%	8.5%	11.2%	13.6%
Others	0.3%	0.5%	0.9%	1.4%
2+ Races	0.8%	1.2%	1.8%	2.7%
<i>Hispanic</i>	13.6%	17.6%	22.3%	27.1%

Projections of Labor Force by Race: 2010 to 2030

- Asians in labor force are projected to grow in all counties between 2010 and 2030, with rates from 21.1% in Union County to 185% in Gloucester County.

- With rapid growth, Asians will undoubtedly increase their shares in county labor force.

Shares of Asians in County Labor Force: 2010 and 2030		
County	2010	2030
Middlesex	21.7%	35.5%
Somerset	13.9%	25.6%
Hudson	14.3%	24.2%
Bergen	14.8%	20.9%
Cape May	0.9%	2.2%
Cumberland	1.3%	2.0%
Salem	0.9%	1.3%

Projections of Labor Force by Hispanic Origin: 2010 to 2030

- Eleven counties will see their **Hispanic** labor force more than doubled between 2010 and 2030, led by **Cape May** County's 283% increase.
- **Hudson** will continue to have more **Hispanic** labor force than any other county in New Jersey. However, it's share of the state's **Hispanic** labor force will subdue to 12.5% in 2030 from 18.2% in 2010.
- In spite of projected rapid growth, **Hunterdon**, **Salem** and **Warren** counties will still have less than 10,000 **Hispanics** in their labor force by 2030.

Projections of Labor Force by Hispanic Origin: 2010 to 2030

- **Hispanics** are projected to account for more than 40% of four counties' labor force by 2030.
- **Gloucester** County will continue to have the lowest percentage of **Hispanics** in its labor force by 2030.

Shares of Hispanics in County Labor Force: 2010 and 2030		
County	2010	2030
Passaic	35.4%	48.3%
Cumberland	25.2%	43.1%
Hudson	41.1%	42.4%
Union	28.9%	42.1%
<hr style="border-top: 1px dashed black;"/>		
Sussex	6.2%	13.8%
Burlington	5.7%	12.1%
Gloucester	4.4%	10.3%
<hr style="border-top: 1px dashed black;"/>		
<i>New Jersey</i>	<i>17.6%</i>	<i>27.1%</i>
