

How is searching for data in the NEW American FactFinder different than searching in the Legacy FactFinder?

The following example is based on searching for the "Race, Hispanic or Latino and Age" Quick Table for the Redistricting Data (P.L. 94-171) for all counties in Maryland for Census 2000.

Legacy American FactFinder

From the [Main](#) page, click on [Data Sets](#) OR the 'get data' link next to the appropriate data set listed under "Getting Detailed Data":

Next, select the data set from the [Census 2000 Data Sets](#) page and select the appropriate table type. For this example, select the [Census 2000 Redistricting Data Table \(P.L. 94-171\) Summary File](#) radio button and then click on 'Quick Tables':

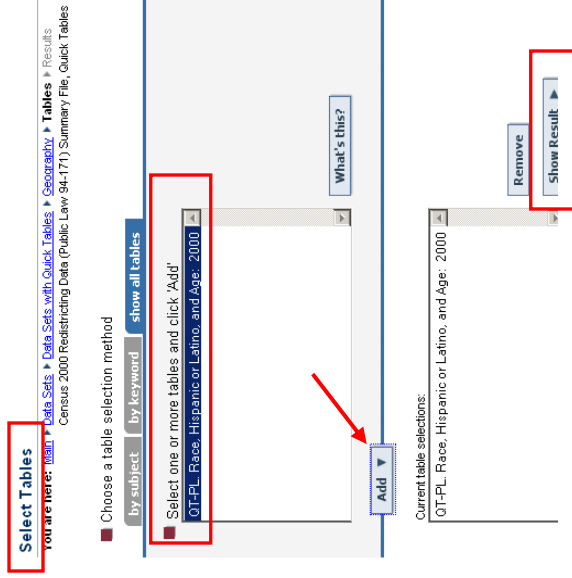

After selecting the [Quick Tables](#), you are taken to the [Select Geography](#) page.

From this page, you select:

- Geography type = County;
- State = Maryland;
- “All Counties”;
- Click ADD to add the counties to the selection box;
- Click NEXT to go to the [Select Table](#) page.

From the [Select Table](#) page, select the [QT-PL Race, Hispanic or Latino and Age 2000](#) table.

- Click ‘ADD’ to move it to the selection box.
- Click, [Show Result](#) to view the table.

Note that in Legacy FactFinder, this [Quick Table](#) was designed to show only one county at a time in the table so each could be printed on a single page. To see the tables for the other counties, scroll vertically.

You can print, download, and save the query by using the [Options](#) button located above the table. The table footnotes appear at the bottom of the table.
