FOOTNOTES

Occupations that do not normally work 2,080 hours per year will have a "Salary" but the equivalent "Hourly" wage will be blank. Examples include many teaching occupations, musicians, producers/directors, pilots and airline attendants, to name a few.

The mean wage equals the weighted average wage. Wages are not publishable when there is a quality issue, an employer-confidentiality issue, or the mean's relative standard error is greater than 30%. In these instances, all hourly and salary columns will be blank.

The 25th percentile is an estimate of the wage that 25% of the employees reported in the occupation made less than while 75% made more. Likewise for the estimates of the 50th percentile (50% made less and 50% made more) and the 75th percentile (75% made less and 25% made more).

When the 75th Percentile is greater than \$99.99/hr or \$207,999/yr it is not calculable given the survey methodology. In these instances, both 75th Percentile columns will be blank.

Est'd Empl. (Estimated Employment) is not the reported employment for the occupation, but rather represents an estimate of the number of employees in that occupation in the defined geographic area and industry. Rounded to the nearest 10, the Est'd Empl. column will be blank in instances where (a) the employment's relative standard error is greater than 50%, or (b) when there are an insufficient number of employers / employment to guarantee employer confidentiality.

SECTION 3

North American Industry Classification System (NAICS) Major Industry Sectors in the United States Structure

For more information visit the NAICS page for the Bureau of Labor Statistics (http://www.bls.gov/bls/naics.htm). or the NAICS site for the U.S. Census Bureau (http://www.census.gov/eos/www/naics/).

11 - AGRICULTURE

The Agriculture industry sector distinguishes two basic activities: agricultural production and agricultural support activities. The Occupational Employment Statistics (OES) survey includes only the agricultural support portion of this sector. Agricultural support includes establishments that perform activities on a contract or fee basis such as soil preparation, planting, harvesting, and management. The OES data does not include data from companies in the agricultural production portion (farm or ranch operation, such as farm owner-operators, tenant farm operators, and sharecroppers).

Excluded also from the Agriculture sector are establishments primarily engaged in agricultural research and establishments primarily engaged in administering programs for regulating and conserving land, mineral, wildlife, and forest use. These establishments are classified in Industry 54, Research and Development in the Physical, Engineering, and Life Sciences; and Industry 92, Public Administration of Conservation Programs, respectively.

21 - MINING

The Mining sector comprises establishments that extract naturally occurring mineral solids, such as coal and ores; liquid minerals, such as crude petroleum; and gases, such as natural gas. The term mining is used in the broad sense to include quarrying, well operations, beneficiating (e.g., crushing, screening, washing, and flotation), and other preparation customarily performed at the mine site, or as a part of mining activity.

The Mining sector distinguishes two basic activities: mine operation and mining support activities. Mine operation includes establishments operating mines, quarries, or oil and gas wells on their own account or for others on a contract or fee basis. Mining support activities include establishments that perform exploration (except geophysical surveying) and/or other mining services on a contract or fee basis.

A mine that manufactures a small amount of finished products will be classified in Sector 21, Mining. An establishment that mines whose primary output is a more finished manufactured product will be classified in Industries 31-33, Manufacturing.

22 - UTILITIES

The Utilities sector comprises establishments engaged in the provision of the following utility services: electric power, natural gas, steam supply, water supply, and sewage removal. Within this sector, the specific activities associated with the utility services provided vary by utility: electric power includes generation, transmission, and distribution; natural gas includes distribution; steam supply includes provision and/or distribution; water supply includes treatment and distribution; and sewage removal includes collection, treatment, and disposal of waste through sewer systems and sewage treatment facilities.
