

State of New Jersey
Department of Labor & Workforce Development
Division of Workers' Compensation

MEMORANDUM

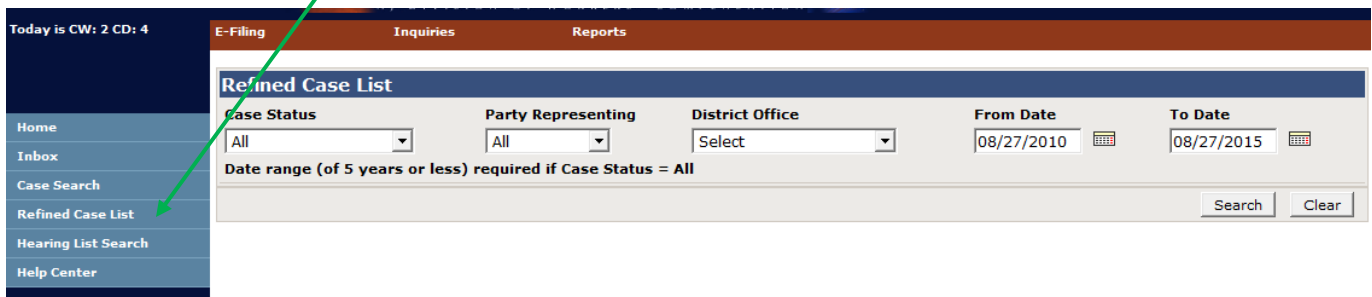

August 27, 2015

To: COURTS on-line Subscribers
From: Shravani Kosnik, Division of Workers' Compensation
Subject: COURTS on-line system upgrades

We are pleased to report the following recent upgrades to the COURTS on-line system:

REFINED CASE LIST:

This is a new Search tool that can provide your firm's cases filtered by status, party representing, district office and/or date of filing (range). From the results displayed, you can go directly into the selected case detailed folder view.

MISCELLANEOUS REPORTS:

Under the top menu item called **Reports**, is a new option called **Misc Reports**. Under that are 3 new reports available in pdf or excel format.

- **Case Listing by Party Report**

You have the option of selecting a full case **list** or a case **count** when running this report.

If **List** is selected: The results in this report will list all your firm’s cases (CP #'s, Case Title, Case Status, District Office, Judge, Cycle week and cycle date assignment). The output can be in either a PDF or an Excel format, ready for saving or printing.

If **Count** is selected: the report will give you a breakdown of the # of cases by vicinage.

For Law Firms (you have an option of selecting the party you are representing):

For Carriers:

- **Unmarked Proceedings Report**

Running this report periodically may alert you to a pending case that was inadvertently not rescheduled by staff since the last time it was listed for a hearing. If you come across such a case, please contact the district office to inform them of this situation.

- **E-Filing History Report**

For a given date range, this report will list all the documents your firm e-filed. The output will show the following: Case #, Case Title, Document Type, Date of Filing and the name of the individual who submitted the document.

ARCHIVE

- The Division receives a large volume of requests for copies of closed case files. Locating the file, making the necessary copywork and mailing the packages is a time consuming task.
- As a result, we have begun to image our closed case files, starting from 2006 cases
- Images will be imported into the COURTS on-line system to allow on-line retrieval of certain case documents. **Note:** The images are only accesible by the active parties on a case and Division staff.

- You will know a case has an archive available for viewing if you notice a record count of 1 or more in the top right hand section of the case summary screen. See below:
