**DEPARTMENT OF LAW AND PUBLIC SAFETY
OFFICE OF THE ATTORNEY GENERAL**

EXECUTIVE SUMMARY

On December 30, 1999, the State of New Jersey and the United States of America agreed upon the terms of a Consent Decree in Civil No. 99-5970 (MLC) ("Consent Decree"). Pursuant to Consent Decree ¶114, the State published the first semiannual public report of aggregate data on June 27, 2000 ("First Data Report"). The First Data Report contained information in Motor Vehicle Tables and a Misconduct Investigation Table for the four-month period January 1, 2000 through April 30, 2000.

Pursuant to Consent Decree ¶114, this is the second semiannual public report of aggregate data ("Second Data Report"). This Second Data Report contains information in Motor Vehicle Tables (Exhibits A-G) and Misconduct Investigation Table (Exhibit H) for the six-month period May 1, 2000 through October 31, 2000 which is retrievable through presently existing technology and procedures.

Advancements in technology and procedures since issuance of the First Data Report are reflected in the Second Data Report, including the following:

- i. Data for "Stops," "Summonses," "Warnings," and "Summonses and Warnings" appear in the Motor Vehicle Tables for Troop E. (Exhibit E). This information was generated from the Computer Assisted Dispatch ("CAD") system which became fully operational on the Garden State Parkway (Troop E) after issuance of the First Data Report.
- ii. Data is provided for a six-month period (May 1, 2000 through October 31, 2000) in the Second Data Report, rather than the four-month period (January 1, 2000 through April 30, 2000) in the First Data Report.
- iii. Data for "Stops" was expanded to include the reason for the stop - namely, "Moving," Nonmoving," or "Other" - for all motor vehicle stops occurring on or after July 21, 2000. On or about that date, the State Police commenced implementation of (a) revised procedures requiring this information to be called in to the communications dispatchers and (b) technological modifications to the CAD System which facilitated the recordation of this information.
- iv. Data for law enforcement actions, as reflected in the entire First Data Report and in the Second Data Report for all motor vehicle stops occurring on or before July 20, 2000, was expanded from

"Summonses"

"Warnings"

"Summonses and Warnings"

to the following format in the Second Data Report for all motor vehicle stops occurring on or after July 21, 2000:

- "Summons Moving"
- "Summons Nonmoving"
- "Warnings Moving"
- "Summons Moving and Warnings Moving"
- "Summons Nonmoving and Warnings Nonmoving"
- "Summons and/or Warnings/Moving and/or Non Moving"

Similar to item iii above, this data expansion is due to State Police implementation of revised procedures requiring this information to be called into the communication dispatchers and technological modifications to the CAD system which facilitated the recordation of this information.

The Motor Vehicle Tables contain data for each troop and station within the Division of State Police. On these tables, the race or ethnicity of the motorist is listed horizontally and the motor vehicle enforcement action or procedure is listed vertically. More specifically, the vertical axis of the Motor Vehicle Tables lists summonses, warnings, and summonses and warnings. This information was obtained through the "CAD" system. This data reflects the race or ethnicity of the motorist as observed by the Trooper. The information regarding summonses and warnings reflects whether a summons or warning was issued, but not the number of summonses or warnings issued. Moreover, under the CAD reporting system if an arrest occurs and a summons is issued in connection with the motor vehicle stop, then only the arrest would be reflected.

The vertical axis of the Motor Vehicle Tables also lists total criminal arrests and patrol-related arrests as compiled utilizing Uniform Crime Report ("UCR") methodology. Patrol-related arrests are, in turn, more specifically listed as arrests for drugs, weapons, and other patrol-related arrests. The vertical axis also lists arrests for driving under the influence, listed as "DUI."

As previously noted, the motor vehicle data supplied in this report is based upon existing technology and procedures. It is anticipated that, in the next semiannual public report, progress in technology and procedures will enable the State to disclose additional motor vehicle information, including the procedures utilized during the course of a stop (i.e., requests occupant to exit vehicle, frisk, requests for consent to search, consent searches, non-consensual searches, uses of force, employing a drug detecting canine). Although the State initially anticipated that information regarding motor vehicle procedures would be available in this Second Data Report, the development of supporting technology and the prudent administration of in-field testing of both this technology and the underlying reporting procedures took longer than initially anticipated. As of the date of this report, both the technology development and the in-field testing has been completed. Accordingly, it is anticipated that data regarding these motor vehicle procedures will be available in the next data report.

As required by Consent Decree ¶114, Exhibits H1 and H2 contain misconduct investigation data on a statewide basis. Exhibits H1 and H2 disclose whether an investigation was initiated by virtue of an internal (i.e., from a State Police member) or external (i.e., from a citizen who is not a State Police member) complaint. Exhibit H1

updates information provided in the First Data Report. More specifically, for those misconduct investigations referenced in Exhibit H of the First Data Report, Exhibit H1 of the Second Data Report reports progress in the misconduct investigations occurring over the six-month period covered by the Second Data Report. The updated data is enclosed in parenthesis and includes the earlier reported data. Additionally, five "driving violations" categorized as generated through "Internal" complaints in the First Data Report are more properly categorized as generated through "External" complaints in Exhibit H1 of the Second Data Report. Exhibit H2 reflects misconduct investigations for the period May 1, 2000 through October 31, 2000. Exhibit H2 reflects misconduct investigations initiated on or after May 1, 2000 and does not reflect the progress of investigations previously initiated.

Exhibits H1 and H2 disclose the total number of misconduct investigations and their disposition -- substantiated, unsubstantiated, and unfounded. These exhibits also list the categories of violations vertically. Presently, the State is utilizing the following revised disposition categories:

"Substantiated"
"Unfounded"
"Exonerated"
"Insufficient Evidence"

It is anticipated that the disposition of misconduct investigations in accordance with these revised categories will be available in the next data report.

While the State is encouraged with its progress in gathering data as reflected in this Data Report, the State acknowledges that it must continue to develop and implement technology and procedures. This progress is the result of the commitment of substantial resources and effort by State Police members. The State remains committed to continuing this progress and implementing the provisions of the Consent Decree to the extent that such implementation is consistent with the safety of the public and the members of the New Jersey State Police.

**DEPARTMENT OF LAW AND PUBLIC SAFETY
OFFICE OF THE ATTORNEY GENERAL**

CONCLUSION

The foregoing Data Report has been submitted pursuant to ¶114 of the Consent Decree.

Respectfully submitted,

JOHN J. FARMER, JR.
ATTORNEY GENERAL OF NEW JERSEY

By: 

Martin Cronin
Assistant Attorney General
Director, State Police Affairs
