NOTICE: JERRY'S VODKA

The Division of Alcoholic Beverage Control is conducting an administrative investigation in which there is evidence that "Jerry's Vodka" products bottled and distributed through Heathermeade Distilling, LLC., New Jersey Brand Registration Number 479280, have been manufactured in violation of N.J.S.A. 33:1-50. Specifically, the ethyl alcohol contained in this product came from an unlicensed source. This Notice applies for products bottled and distributed through Heathermeade through September 30, 2019.

I am issuing this Notice while the matter is pending out of an abundance of caution to ensure public health, safety and welfare. Accordingly, any retail licensee in possession of Jerry's Vodka bottled and distributed through Heathermeade should immediately take appropriate action, which may include cessation of sales, removal of the product from sales display areas and from the retailer's stock for on-premise consumption.

James B. Graziano
Acting Director
