ROBERT T. LOUGY
Acting Attorney General

The Honorable Chris Christie Governor of the State of New Jersey

Honorable Members of the Senate and Assembly of the State of New Jersey

Dear Governor and Members of the Legislature:

Pursuant to N.J.S.A. 52:17B-5.5, I am submitting the forty-eighth annual report of crime in New Jersey. The annual report is based on crime statistics submitted to the New Jersey Uniform Crime Reporting System by every New Jersey law enforcement agency for the year 2014.

Effective law enforcement requires accurate crime statistics in order to identify the extent, type, and location of criminal activity. Criminal Justice administrators and planners have long recognized the Uniform Crime Reporting Program as the vehicle to accomplish this objective.

The success of the Uniform Crime Reporting System during 2014 could not have been realized without the cooperation extended by each of the 542 law enforcement agencies of the State, the New Jersey Chiefs of Police Association, and the County Prosecutors Association.

It is in the interest of more effective law enforcement to the eight million residents of New Jersey that the forty-eighth annual report is submitted.

Respectfully,

Robert Lougy

Acting Attorney General of New Jersey

Section One

SYNOPSIS: UNIFORM CRIME REPORTING PROGRAM

THE NEW JERSEY UNIFORM CRIME REPORTING SYSTEM

DEFINITION

The New Jersey Uniform Crime Reporting System is based upon the compilation, classification, and analysis of crime data reported by all New Jersey police agencies in accordance with the regulations prescribed by law.

DEVELOPMENT

The New Jersey Uniform Crime Reporting Law (N.J.S.A. 52:17 B-5.1 et. seq.) was enacted on May 16, 1966, and became effective January 1, 1967. Responsibility for the establishment, direction, control, and supervision of the Uniform Crime Reporting System was assigned to the State's Attorney General. The Attorney General authorized the New Jersey State Police to collect and collate the crime data received from law enforcement agencies within the state.

At the request of the Attorney General, the New Jersey State Police researched crime systems in operation throughout the nation in order to establish a firm foundation from which to grow. The most logical approach was the paralleling of the federal crime reporting system. There was a distinct need for a compatibility feature that would enhance both the state and federal systems through the data entry at both levels.

This compatibility has, as its nucleus, the standard classification of offenses established by the Federal Bureau of Investigation. Regardless of the label placed on a particular offense in the various states' systems, *i.e.*, felony, misdemeanor, disorderly persons, if the incident meets the federal standard it will be reported as an offense.

The terms "crime" and "offense" are used interchangeably in this publication, and refer to an act committed in violation of a law which is reportable under the guidelines of the Uniform Crime Reporting Program.

The New Jersey State Chiefs of Police Association has served the program in an advisory capacity since 1966. The contributions of this association have proved valuable to the success of the program. This association works in close harmony with the State Police as a means of improving the quality of reporting through recommended program standards, policies and procedures.

COLLECTION OF CRIME DATA

As required by statute, all law enforcement agencies in the state submit monthly and annual summary crime reports to the program. During the year 2014, offense and arrest data were received from 470 full-time municipal police departments, two (2) part-time municipal police department, and the New Jersey State Police (acting as the reporting agent for the 76 municipalities without local police services). In addition to the 470 full-time municipal police departments there are 18 police departments contracted by other municipalities.

In addition to the above agencies, arrest data was received from the state's 21 prosecutors, sheriffs' departments, one (1) county police department, and two (2) county park police departments. In order to incorporate all New Jersey law enforcement agencies under the system, the ten (10) other state agencies with law enforcement responsibilities, excluding state police, as well as 14 college campus police departments were incorporated within the program. Collectively, a total of 536 law enforcement agencies submit the reports to the New Jersey State Police.

METHOD

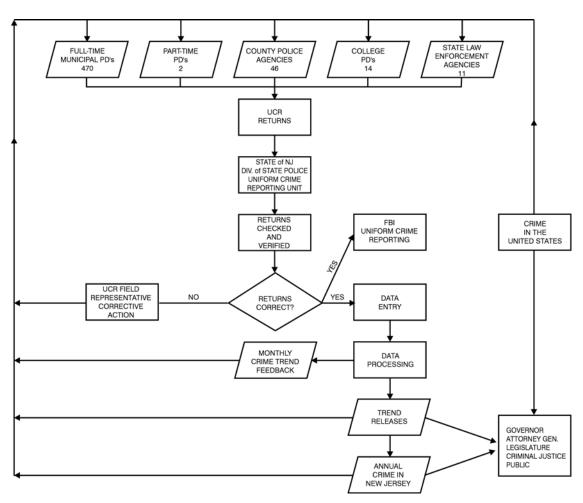

A State of New Jersey Uniform Crime Reporting Guide has been distributed to all contributors. It outlines reporting procedures in detail, and is complete to the extent of providing examples and illustrations. Field representatives provide additional instruction and clarification when required.

All reported offenses are related to the municipality in which they occur rather than to the agency which may conduct the investigation. The clearance is credited to the municipality in which the offense occurred. Each contributing agency is responsible for compiling its own

reports. Law enforcement agencies report the number of known offenses according to the following categories: Homicide (Murder and Manslaughter), Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, Motor Vehicle Theft, and Arson. The "Crime in New Jersey," and the Federal Bureau of Investigation's "Crime in the United States" publications exclude manslaughters, simple assaults, and arsons from the "Index" offenses. These are further referred to as "violent" and "nonviolent" crimes as graphically illustrated in Section VII under "Municipal and County Offenses and Demographic Data," and Section II, "State Summary and Offense Analysis."

All reported offenses are compiled from a record of all criminal complaints received by police from victims or other sources, or discovered by the police during routine operations. Complaints determined to be unfounded are eliminated from this count. Analytical data pertaining to specific crime categories are also reported, *i.e.* total adult and juvenile arrests made during the month. Police killed or assaulted and arson data are also collected monthly. Police personnel information is submitted on an annual basis.

FLOW CHART OF UCR REPORTS

VERIFICATION PROCESSES

The uniformity and accuracy of data gathered from contributors must be safeguarded through various ways. Although guidelines and instructions are provided to each contributor, they are not the panaceas for the accuracy being sought.

The reports received by the Uniform Crime Reporting Unit are recorded and examined for mathematical accuracy and reasonableness of the interpretation of the offense classifications. Improper classifications, changes in reporting procedures, or actual change are identified in this manner. Errors of a minor nature are corrected by direct telephone contact with the contributors, while all other errors are resolved through a personal visit by a field representative to the reporting agency.

Further verification is accomplished through the analysis of statistical data accrued from the reports submitted. Fluctuations in crime rates noted from previous submissions are verified by the field representatives through their municipal counterpart.

FUNCTION

Police executives make use of this data in administrative, planning, and operational determinations for their respective jurisdictions. The State Police Uniform Crime Reporting Unit provides assistance to municipal police agencies through the individual analysis of statistics as they relate to specific crime problems within their jurisdiction. Police executives also use this data for identifying personnel and equipment needs. The Uniform Crime Reporting Program requirements not only have increased police efficiency in reporting and record keeping areas, but have helped police in their day to day operations.

Although the data collected on the offenses of manslaughter and simple assault are not presented in the annual report, they are required for the federal system. Data for these offenses is processed and provided for research purposes.

PROFILE OF NEW JERSEY

New Jersey is situated between the major industrial markets of New York and Philadelphia. The geographic location of the state has been a major factor in its growth and development. The many miles of interstate roadways within the state connect New Jersey directly with the neighboring states of New York, Pennsylvania, and Delaware. Additionally, New Jersey roadways accommodate large volumes of traffic as a corridor for commerce and travelers from throughout the United States.

The state is geographically composed of 21 counties which contain 566 incorporated municipalities. Nationally, New Jersey, although 46th in size, ranks tenth in population and first as the most densely populated state in the country. In addition to this density of 1,187.3 persons per square mile, New Jersey still has many miles of rural areas and sparsely settled communities. The areas of density are concentrated around the major urban centers and those venues most accessible for communiting.

Area in Square	2013 Estimated	2000 Census	2013/2000	2013 Density per	2000 Density per
Miles	Population	Population	Percent Change	Square Mile	Square Mile
7,495.73	8,899,339	8,414,350	5.8	1,187.3	1,122.6

STATE, COUNTY AND MUNICIPAL PROFILES

The presentation of state, county and municipal profiles in this section is offered for the purpose of projecting, for the consideration of the reader, a group of recognizable factors which may affect the amount and type of crime that occurs from community to community. Selection of the areas of information to be related to individual municipalities was based on the immediacy and completeness of data available.

Population statistics presented here, and throughout this publication, were obtained from the Department of Labor, Division of Labor Market and Demographic Research.

Character of municipalities by urban, suburban and rural classifications, and square miles, were initially compiled by the Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning, and will continue to be used for comparative purposes. Following is a list of categories used and a description of each category.

URBAN CENTER Densely populated with extensive development.

URBAN SUBURBAN
 SUBURBAN
 Near an urban center but not as extremely developed and more residential areas.
 SUBURBAN
 Predominantly single family residential, within a short distance of an urban area.

• RURAL Scattered small communities and isolated single family dwellings.

• RURAL CENTER High density core area with surrounding rural municipalities.

Certain other socioeconomic factors present in varying degrees in all communities may have an influence on resulting crime rates. Obvious difficulties in the identification, documentation and measurement of these factors, however, precluded their application in this report.

Those factors presented were listed to affirm their existence within the county and community and to provide a base for consideration in the evaluation of that community's crime experience.

RESORT MUNICIPALITY CRIME RATES

On July 10, 1998, section 4 of P.L. 1966, c37(C.52:17B-5.4) was amended to require the Uniform Crime Report to include, in addition to the regular statistics, an alternative calculation that takes into account the seasonal population of resort municipalities.

The Department of Labor has been mandated to determine which municipalities qualify as resort municipalities and certify their annual mean population (which includes seasonal population estimates.)

CRIME FACTORS

In order to provide a meaningful statistical profile of crime within the State of New Jersey, each law enforcement agency must provide the Uniform Crime Reporting Unit with data that depicts specific crimes that are occurring within their jurisdiction. There is a need for compatibility with the National Uniform Crime Reporting System and, therefore, categories of offense classifications used within the state are identical with those of the National System. This results in equitable conclusions being drawn from the data submitted.

Reported Part 1 offenses and arrests are recorded in the municipality where they occurred, regardless of the outside investigative agency which may investigate, arrest, or otherwise dispose of the case.

The factors which influence crime rates are dependent upon characteristics of the community. When attempting to interpret the crime statistics presented herein, one should be aware of the social structure and factors that lead to or cause criminal behavior.

Crime rates in this publication are based on the stable population of the municipality. Municipalities that experience high population increases due to special events or commuters or with high seasonal populations, may indicate a higher crime rate per one thousand than may be normal for a municipality their size. A separate section provides statistics for resort municipalities using crime rates which include seasonal populations.

Set forth below are some factors which, by type and volume, will affect the crime rate that occurs from place to place:

- Density and size of the community population and the metropolitan areas of which it is a part.
- Composition of the population with reference particularly to age, sex and race.
- Economic status, including job availability, and mores of the population.
- Relative stability of population, including commuter, seasonal, and other transient types.
- Climate, including seasonal weather conditions.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Effective strength of law enforcement agencies.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).
- Crime reporting practices of the general citizenry.
- Attitudes of the public toward crime reporting.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Cooperation of adjoining and overlapping police agencies.

THE POLICE POINT OF VIEW

The New Jersey State Police Uniform Crime Reporting Unit surveyed various police agencies of the state, attempting to ascertain their opinion concerning factors contributing to the increase or decrease of specific crimes in their municipality. One of the goals of the Uniform Crime Reporting Unit is to assist police in reducing crime by first identifying its extent, type and location. The following viewpoints are offered with the expectation of reaching this goal.

ROBBERY

Decreases:

- More stringent sentencing requirements under the State Criminal Code.
- Advanced technology in communications has led to increased exchanges of information between police departments.
- Highly visible foot patrols being deployed in commercial areas and densely populated residential areas.
- Use of Anti-crime Unit in high robbery areas.

Increases:

- Resort areas have shown an increasing seasonal population.
- Our highly mobile society provides easy access to areas which were previously difficult to reach.

BURGLARY

Decreases:

- Better deployment of police personnel, such as highly visible foot patrols in high density crime areas, and increased patrols during probable time and at probable locations of burglaries.
- More stringent sentencing requirements under the State's Criminal Code have been a deterrent.
- Crime Prevention Programs are being stressed in many communities and citizens have been taking a more active part by reporting suspicious persons or circumstances.

Increases:

- Extreme increases in population in certain areas have led to new housing in suburban and rural areas.
- Husband and wife are both working; leaving homes frequently unoccupied for long periods of time.

LARCENY

Decreases:

- Public awareness programs contribute to the decrease in thefts from parked vehicles.
- Improved or additional lighting deters criminal acts from occurring in parking areas.
- "Safe Streets" Programs and Anti-crime Units have been established in many communities.

Increases:

- Shoplifting is a theft that police have little or no control over. Store security forces are under the control of the store administration, and their policies vary from strict enforcement, arrest and prosecution, to only a warning. Policy change has been directed toward prosecuting the offenders rather than warning them, causing to some extent an increase in the number of shoplifting offenses reported to the police.
- Certain types of property such as CD players, radar detectors and radios are popular and present resale opportunities.
- Youth gang activity on the increase resulting in thefts from motor vehicles.

MOTOR VEHICLE THEFT

Decreases:

- Stronger sentencing of career criminals has been effective.
- Modern ignition systems and anti-theft devices act as a deterrent.
- Better lighting in parking lots has helped decrease motor vehicle thefts.

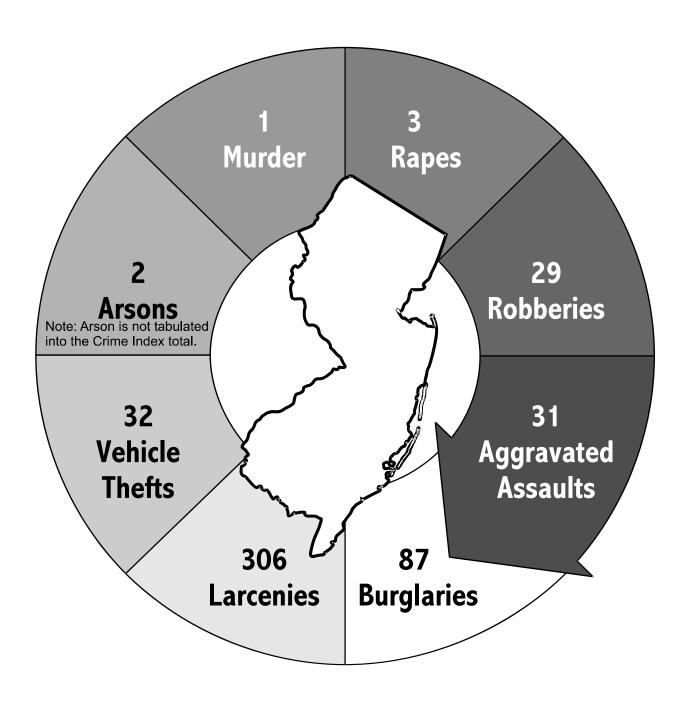

Increases:

• The tremendous replacement cost of auto parts has contributed significantly to the increase in motor vehicle thefts for the purpose of auto parts resale.

STATEWIDE CRIME SUMMARY - 2014

CRIME INDEX - VOLUME/RATE

- There were 178,066 Index offenses in 2014, an 8 percent decrease compared to 2013.
- The crime rate of the state is 20 victims for every 1,000 permanent inhabitants, a decrease of 8 percent compared to 2013.

ADDITIONAL ANALYSIS

- July with 22,348 offenses reported, recorded the highest incidence of Crime Index offenses while February was the lowest with 14,632 offenses.
- The total value of property stolen amounted to \$300 million in 2014, a decrease of 15 percent from 2013.
- Value of property recovered was \$79.3 million, resulting in a recovery rate of 26 percent.
- Stolen motor vehicles accounted for 37 percent of stolen property and 82 percent of the recovered property value.

CRIME INDEX ARRESTS/CLEARANCES

- A total of 41,598 persons were arrested for Index offenses, which represents a 4 percent decrease compared to 2013.
- Adult Index arrests decreased less than one-half of one percent and juvenile Index arrests decreased 8 percent.
- Crime Index arrests accounted for 13 percent of the total arrests in 2014.
- Males accounted for 69 percent of the Crime Index arrests and females accounted for 31 percent.
- Fifty-nine percent of the Index arrests were white, 40 percent were black and 2 percent were other races.
- Hispanics accounted for 19 percent of the arrests for Index offenses.
- Police cleared 22 percent of the Index offenses and juveniles accounted for 9 percent of those clearances.

VIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Murder, Rape, Robbery, and Aggravated Assault.

VOLUME/RATE/TREND

- There were 23,004 violent crimes reported in 2014, an 10 percent decrease compared to the violent crimes reported in 2013.
- Violent crimes accounted for 13 percent of the total Crime Index.
- The violent crime rate decreased 13 percent to 2.6 victims for every 1,000 permanent inhabitants.

ADDITIONAL ANALYSIS

- The highest number of violent crimes were reported in June with 2,208 offenses while the lowest number was reported in February with 1,437 offenses.
- The value of property stolen as a result of violent crime was \$9.6 million, a decrease of 43 percent from 2013.

ARRESTS/CLEARANCES

- There were 10,682 violent crime arrests, a decrease of 5 percent compared to 2013.
- Violent crime arrests accounted for 26 percent of the Index arrests and 3 percent of the total arrests during the year.
- Adult arrests for violent crime decreased 3 percent while juvenile arrests decreased 14 percent.
- Adults accounted for 85 percent of the violent crime arrests while the remaining 15 percent were juveniles.
- Males were responsible for 80 percent and females for 20 percent of the violent crime arrests.
- Fifty-two percent of those arrested were black, 47 percent were white and the balance were other races.
- Hispanics accounted for 24 percent of the arrests for violent crimes.
- Thirty-nine percent of all violent crimes were cleared and juveniles accounted for 11 percent of those clearances.

NONVIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Burglary, Larceny-Theft, and Motor Vehicle Theft.

VOLUME/RATE/TREND

- There were 155,062 nonviolent crimes reported in 2014, a 7 percent decrease compared to nonviolent crimes reported in 2013.
- Nonviolent crime accounted for 87 percent of the total Crime Index.
- The nonviolent crime rate decreased 6 percent to 17.4 victims per 1,000 inhabitants in 2014.

ADDITIONAL ANALYSIS

- The largest number of nonviolent crimes were reported in July with 15,285 offenses, while the lowest number was reported in February with 9,555 offenses.
- The total value of property stolen as a result of nonviolent crime amounted to \$290.4 million. A decrease of 14 percent from 2013.

ARRESTS/CLEARANCES

• There were 30,916 nonviolent crime arrests, an decrease of 4 percent when compared to 2013.

- Nonviolent crime arrests accounted for 74 percent of the Index arrests and 10 percent of the total arrests during 2014.
- Juveniles were responsible for 12 percent of the nonviolent crime arrests and adults 88 percent.
- Adult nonviolent crime arrests decreased 4 percent, and juvenile arrests decreased 5 percent.
- Males represented 66 percent and females 34 percent of persons arrested for nonviolent crime.
- Sixty-three percent of all persons arrested for nonviolent crimes were white, 35 percent were black and 2 percent were other races.
- Hispanics accounted for 17 percent of the arrests for nonviolent crimes.
- Nineteen percent of all nonviolent crimes reported were cleared in 2014, and juveniles accounted for 8 percent of those clearances.

TOTAL ARREST SUMMARY

- There were 319,427 persons arrested in 2014, which represents a 3 percent decrease compared to 2013.
- The arrest rate for 2014 decreased 3 percent with 36 persons arrested per every 1,000 inhabitants.
- Adult arrests decreased 3 percent to 295,121 and juvenile arrests decreased 2 percent to 24,306 in 2014.
- Adults accounted for 92 percent and juveniles 8 percent of the total state arrests.
- Persons under 21 years of age accounted for 18 percent of all arrests.
- Males accounted for 73 percent and females 27 percent of the total persons arrested during the year.
- Fifty-nine percent of the total persons arrested in 2014 were white, 39 percent were black and the balance were other races.
- Hispanics accounted for 18 percent of the arrests.

POLICE OFFICERS KILLED AND ASSAULTED SUMMARY

- In 2014, one police officer was feloniously killed in the line of duty.
- In 2014, New Jersey reported 1,794 police officers assaulted in the line of duty.

CRIME IN NEW JERSEY, UNITED STATES AND THE NORTHEAST REGION

- Violent crime in New Jersey decreased 9.6 percent compared to the previous year, while the Northeast Region decreased 5.2 percent overall. Violent crime in the United States decreased by 0.1 percent overall.
- Nonviolent crime in New Jersey decreased 7.4 percent, while the Northeast Region decreased 7 percent overall. Nonviolent crime in the United States decreased 4.3 percent when compared to the 2013 figure.

MURDER

Definition

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This Index offense is counted by police on the basis of their investigation without regard to findings of a court, jury or the decision of a prosecutor. Attempts to kill, are scored as aggravated assaults and not as murder. Suicides, accidental deaths, negligent manslaughters, and justifiable homicides are not counted, nor reflected in the murder classification.

VOLUME/RATE/TREND

- There were 354 murders reported to law enforcement agencies of the state in 2014, a decrease of 12 percent compared to the 401 murders reported in 2013.
- Murders accounted for 0.2 percent of the reported Index offenses, and 2 percent of the violent crime.

ADDITIONAL ANALYSIS

- The age group of 20-24 accounted for 23 percent of all murder victims.
- Firearms were used in 72 percent of the murders, knives or cutting instruments in 12 percent, blunt objects in 2 percent, and physical force in 5 percent.
- Nineteen percent of the offenders were friends or acquaintances of the victim, while 11 percent were relatives, and 11 percent were strangers.
- Felony murders accounted for 17 percent of all murder circumstances. Robbery was the motive in 45 percent of the 60 felony murders.
- Sixty-three murders were recorded on Saturday for the high, while Thursday was the lowest, with 38.
- November recorded the highest number of murders 43, while January recorded the lowest, 20.
- Fifty-one percent of the murders occurred on highways or streets, 8 percent in multi-family or apartment dwellings, and 16 percent in single family dwellings.
- Forty-two domestic violence murders were recorded in 2014.
- Drug-related and/or gang related circumstances accounted for 7 percent (26) of all murders.

ARRESTS/CLEARANCES

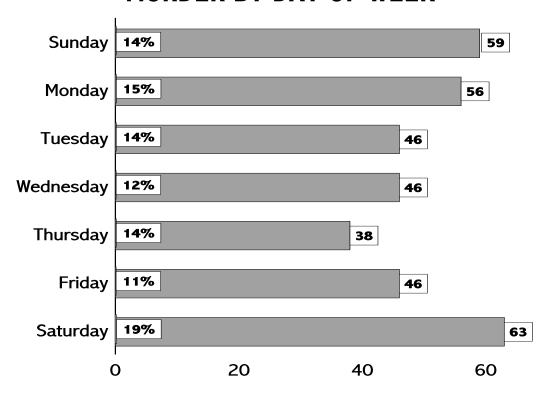

- A total of 264 persons were arrested for murder in 2014, an 11 percent increase compared to 2013.
- Adult murder arrests increased 10 percent (from 221 to 244) while juvenile arrests increased 18 percent (from 17 to 20).
- Sixty-nine percent of persons arrested for murder were black, and 31 percent were white.
- Hispanics accounted for 21 percent of the arrests.

- Sixty percent of the murders were cleared in 2014 (212 out of 354). Juveniles accounted for 9 percent of those cases cleared.
- Males accounted for 92 percent and females 8 percent of those arrested for murder.

CARJACKING HIGHLIGHTS

Highlights of carjacking offense statistics for 2014 are listed below:

- There were 199 carjacking offenses reported to the police; which involved 212 victims, including passengers.
- Carjackings decreased 49% when comparing 2014 to 2013 reported offenses.
- Twenty-four of the 566 municipalities in New Jersey reported carjackings.
- Firearms were involved in 73% (145) of all carjackings. Less than one-half of one percent (2) of the firearms used were assault firearms. Shootings were involved in 1 percent (2) of all carjackings.
- New Jersey registered vehicles represented 91% (181) of all carjackings. BMW represented the most frequently carjacked vehicle at 10%. The most frequently targeted vehicle year was 2012 with 10% (20).
- Sixty-eight percent (135) of all carjacked vehicles were recovered. The average value of a carjacked motor vehicle was \$9,505.
- Carjackings occurred in a residential area 87% (173) of the time. The hours of darkness (6:00 p.m. to 6:00 a.m.) accounted for 63% (125) of all carjackings.
- Eleven percent (21) of all carjackings were witnessed.
- The most frequent victim age group was 25-29, which accounted for 16% (33) of the victim total (212). Seventy-one percent (148) of all victims were male. Fifty-four percent (114) of all victims were black.
- The total number of offenders was 341. Insufficient analysis information was supplied on 72% (246) of the offenders. Of all known offenders (95), 20-24 was the most frequent offender age group and accounted for 46% (44). Ninety-six percent (91) of all known offenders were male. Ninety-four percent (89) of all known offenders were black.
- Juveniles accounted for 14% (1) of the total arrests for carjacking (7), while adults accounted for 86% (6).
- December had the highest number of offenses with 22, accounting for 11% of all carjacking offenses.
- Sunday recorded the highest number of offenses with (55), accounting for 28% of all carjackings.
- Region I, which consists of Essex, Hudson, and Union counties, accounted for 81% (162) of all carjackings.
- No murders were reported in 2014 as a result of carjacking.
- Three percent (6) of all carjackings (199) were cleared by arrest.

AGGRAVATED ASSAULT

Definition

Aggravated assault, as defined under the New Jersey Uniform Crime Reporting system, is an attempt or offer, with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that an injury result when a firearm, knife, or other weapon is used which could result in serious personal injury if the crime was successfully completed.

VOLUME/RATE/TREND

- There were 11,208 reported aggravated assaults in 2014, a decrease of 7 percent when compared to 2013.
- Aggravated assault accounted for 6 percent of the total Crime Index and 49 percent of all violent crimes.
- The rate for Aggravated Assault in 2014 decreased to 1.3 victims per 1,000 population when compared to 2013.

ADDITIONAL ANALYSIS

- The categories of physical force (i.e., hands, fists, and feet) and other dangerous weapons (i.e., clubs, bricks, tire irons, etc.) were used in 60 percent of all reported aggravated assaults.
- Firearms were used in 19 percent of all aggravated assaults committed.

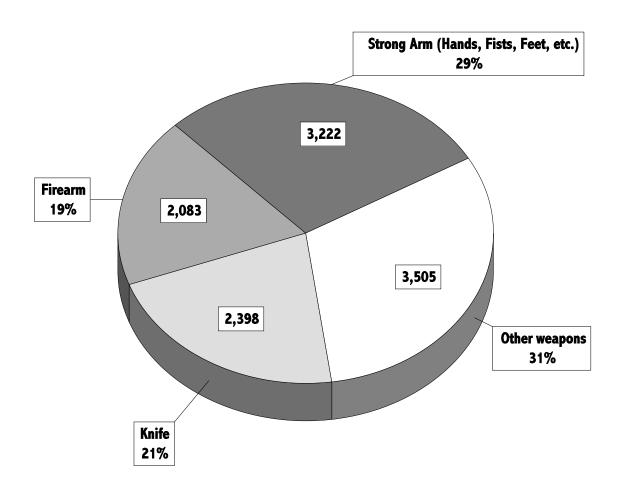

ARRESTS/CLEARANCES

- There were 6,725 persons arrested for Aggravated Assault in 2014, a decrease of 4 percent compared to 2013.
- Adult arrests decreased 4 percent, and juvenile arrests decreased 7 percent.
- Males accounted for 76 percent, and females 24 percent of the Aggravated Assault arrests.
- Fifty-two percent of the persons arrested for Aggravated Assault were white, 46 percent were black and the remaining 2 percent were other races.
- Hispanics accounted for 25 percent of the arrests.
- Fifty-three percent of all Aggravated Assault cases were cleared; juveniles accounted for 9 percent of those clearances.

BURGLARY

Definition

Under this program, burglary is defined as an unlawful entry or attempted entry of any structure to commit a felony or larceny. Data collection for this offense is further categorized as forcible entry, unlawful entry (where no force is used) and attempted forcible entry.

VOLUME/RATE/TREND

- There were 31,740 reported burglary offenses in 2014, a decrease of 11 percent when compared to 2013.
- Burglary accounted for 18 percent of the total Crime Index and 20 percent of all nonviolent crimes.
- The burglary rate in 2014 decreased to 3.8 victims per 1,000 population when compared to 2013.

ADDITIONAL ANALYSIS

- Fifty-six percent of all burglaries involved forcible entry, 33 percent were unlawful entry where no force was used and attempts to forcibly enter accounted for 11 percent in 2014.
- Residences were targets in 76 percent of the reported burglaries.
- Forty-four percent of the nonresidential burglaries are known to have occurred between the hours of 6:00 p.m. and 6:00 a.m.
- Stolen property as a result of Burglary statewide, amounted to \$75.4 million, for an average loss of \$2,374.
- The average loss as a result of residential burglaries was \$2,278 and of nonresidential burglaries was \$2,677.

ARRESTS/CLEARANCES

- Burglary arrests decreased 9 percent with 5,214 persons arrested.
- Adult arrests increased 11 percent and juvenile arrests decreased 2 percent.
- Males accounted for 85 percent, and females 15 percent of the Burglary arrests.
- Juveniles accounted for 15 percent of all burglary arrests.
- Sixty-five percent of Burglary arrests were white, 34 percent were black and 1 percent were other races.
- Hispanics accounted for 19 percent of the arrests.
- Fourteen percent of the burglaries statewide were cleared and juveniles accounted for 9 percent of those clearances.

LARCENY-THEFT

Definition

The definition of larceny-theft, as provided under this program, is the taking of the property of another with intent to deprive him of ownership. All larcenies and thefts resulting from pocketpicking, purse-snatching, shoplifting, larcenies from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., are included here. Embezzlement, unlawful conversions, larceny by bailee, frauds or bad checks are not included.

VOLUME/RATE/TREND

- There were 111,620 larcenies reported in 2014, a decrease of 5 percent compared to the 117,958 in 2013.
- Larceny accounted for 63 percent of the total Crime Index and 72 percent of all nonviolent crimes.
- The rate for Larceny decreased to 12.5 victims per 1,000 population in 2014.

ADDITIONAL ANALYSIS

- Thefts of motor vehicle parts and accessories and thefts from motor vehicles collectively accounted for 24 percent of all Larceny-Thefts reported.
- Shoplifting offenses increased 1 percent when compared to 2013.
- Thefts from buildings accounted for 18 percent of all Larceny-Thefts reported.

ARRESTS/CLEARANCES

- Larceny-Theft arrests decreased 2 percent in 2014, with 25,138 persons arrested.
- Juvenile arrests decreased 6 percent, while adult arrests decreased 2 percent in 2014.
- Males accounted for 61 percent, and females 39 percent of the Larceny arrests.
- Sixty-three percent of all persons arrested for Larceny were white, 35 percent were black and 2 percent were other races.
- Hispanics accounted for 17 percent of the arrests.
- Twenty-two percent of the larcenies were cleared, with juveniles accounting for 8 percent of those clearances.

MOTOR VEHICLE THEFT

Definition

In Uniform Crime Reporting, motor vehicle theft includes all thefts and attempted thefts of a motor vehicle. This includes the theft or attempted theft of a motor vehicle which is defined as a self-propelled vehicle that runs on the surface and not on the rails. This definition excludes taking a motor vehicle for temporary use, such as family situation, or unauthorized use by others having lawful access to the vehicle. The motor vehicle theft category includes the subheadings of autos, trucks and buses, and other vehicles (motorcycles, mopeds, etc.)

VOLUME/RATE/TREND

- There were 11,702 motor vehicle thefts reported in 2014, a decrease of 15 percent compared to the 13,709 in 2013.
- Motor vehicle theft accounted for 7 percent of the total Crime Index and 8 percent of all nonviolent crimes.
- The Motor Vehicle Theft rate of 1.3 victims per 1,000 population represents a decrease of 13 percent when compared to 2013.

DISTRIBUTION BY TYPE

Туре	Number	Percent Distribution
Auto	10,250	88
Trucks and Buses	651	6
Other Vehicles	801	7

ADDITIONAL ANALYSIS

- Motor vehicles represented 35 percent of the total value of property stolen during 2014.
- Total value of stolen motor vehicles amounted to \$104 million during the year.
- The average value of a stolen motor vehicle was \$8,922.
- Recovered vehicle values totaling \$65 million represent 82 percent of the total value of recovered property.

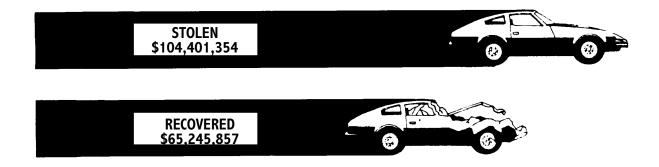

ARRESTS/CLEARANCES

- A total of 564 persons were arrested for Motor Vehicle Theft, this represents a decrease of 19 percent compared to 2013.
- Juvenile arrests decreased 3 percent and Adult arrests decreased 22 percent.
- Males accounted for 80 percent, and females 20 percent of the Motor Vehicle Theft arrests.
- Fifty-six percent of all persons arrested for Motor Vehicle Theft were white, 43 percent were black, and 1 percent were other races.
- Hispanics accounted for 18 percent of the arrests.
- Six percent of Motor Vehicle Thefts were cleared in 2014; juveniles accounted for 11 percent of those clearances.

ARSON

Definition

Arson is defined by the New Jersey Uniform Crime Reporting program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling, house, public building, motor vehicle or aircraft, personal property of another, etc.

Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

VOLUME/RATE/TREND

- There were 667 reportable arsons in 2014, which represents an increase of less than 1 percent compared to 664 in 2013.
- The Arson rate was 0.1 victims per 1,000 population.

ADDITIONAL ANALYSIS

- Fifty-five percent of the arsons were structures, with single occupancy residences accounting for 23 percent.
- Mobile property, including motor vehicles, accounted for 23 percent of the arsons in the state.
- Other property (timber, crops, etc.) accounted for 22 percent of the reported arsons.
- The total value of property damage due to arson amounted to \$9 million for an average dollar value loss of \$13,534.
- The average residential loss was \$25,051, while the average loss to industrial/commercial structures was \$17,090.
- The average loss to mobile property was \$5,010.

ARRESTS/CLEARANCES

- Arson arrests numbered 218 in 2014, representing a 3 percent decrease, compared to 224 in 2013.
- Adult arrests remained the same with 127, and juvenile arrests decreased 6 percent.
- Males accounted for 80 percent, and females 20 percent of the arson arrests.
- Juveniles accounted for 42 percent of the Arson arrests.
- Seventy-two percent of the persons arrested for Arson were white, 24 percent were black, and 4 percent were other races.
- Hispanics accounted for 28 percent of the arrests.
- The Arson clearance rate was 28 percent, and juveniles accounted for 34 percent of those clearances.

- Adults accounted for 100 percent and juveniles accounted for 0 percent of the arrests.
- Males accounted for 88 percent and females 12 percent of the arrests.
- Fifty-two percent of the persons arrested were white, 47 percent were black, while other races accounted for the remaining 1 percent.
- The Hispanic ethnic origin accounted for 15 percent of the arrests and 85 percent were non-Hispanic.

DRIVING UNDER THE INFLUENCE

Definition

Under the New Jersey Crime Reporting Program, the offense of driving under the influence is defined as the driving or operating of any motor vehicle while drunk or under the influence of alcohol or narcotics.

- There were 23,982 arrests reported for driving under the influence in 2014, a decrease of 4 percent compared to 2013.
- Adults accounted for 99 percent and juveniels accounted for 1 percent of the arrests.
- Males accounted for 64 percent of the arrests while females accounted for the remaining 36 percent.
- Eighty-one percent of the persons arrested were white, 16 percent were black, and the remaining 3 percent were other races.
- The Hispanic-ethnic origin accounted for 23 percent of the arrests and 77 percent were non-Hispanic.

LIQUOR LAWS

Definition

Included in this category are state or local liquor law violations, with the exception of "driving under the influence."

- There were 4,299 arrests reported for liquor law violations, an increase of 1 percent from the previous year.
- Adults were responsible for 74 percent of the arrests while the remaining 26 percent were juveniles.
- Males accounted for 66 percent of the liquor law arrests while females accounted for the remaining 34 percent.
- Eighty-eight percent of the persons arrested were white, 9 percent were black, and the remaining 2 percent were other races.
- Hispanics accounted for 9 percent of those arrested and 91 percent were not of Hispanic origin.

DISORDERLY CONDUCT

Definition

In this category are placed all charges of committing a breach of the peace (disorderly person).

- There were 15,329 arrests reported for disorderly conduct, which was a decrease of 6 percent when compared to 2013.
- Adults were responsible for 88 percent of the arrests while the remaining 12 percent were juveniles.
- Males accounted for 77 percent of the disorderly conduct arrests while females accounted for the remaining 23 percent.
- Fifty-nine percent of the persons arrested were white, 39 percent were black, and the remaining 1 percent were other races.
- Hispanics accounted for 19 percent of those arrested and 81 percent were not of Hispanic origin.

VAGRANCY

Definition

In this category are persons charged with vagabondage, begging, loitering, etc..

- There were 351 arrests in this category, an increase of 23 percent from the previous year.
- Adults were responsible for 91 percent of the arrests while the remaining 9 percent were juveniles.
- Males accounted for 87 percent and females accounted for the remaining 13 percent of arrests in this category.
- Sixty percent percent of the persons arrested were white, 39 percent were black, while other races accounted for 1 percent.
- Hispanics accounted for 17 percent of those arrested and 83 percent were not of Hispanic origin.

ALL OTHER OFFENSES

Definition

Included in this category are all violations of state and local laws, except those offenses that can be categorized into one of the specific crime classifications previously mentioned.

- There were 121,827 arrests reported for all other offenses, a decrease of 4 percent from the previous year.
- Adults were responsible for 97 percent of the arrests while the remaining 3 percent were juveniles.
- Males accounted for 74 percent of the arrests while females accounted for the remaining 3 percent.
- Fifty-five percent of the persons arrested were white, 44 percent were black, and 1 percent were other races.
- Hispanics accounted for 16 percent of those arrested and 84 percent were not of Hispanic origin.

CURFEW AND LOITERING LAW VIOLATIONS

Definition

In this category are juvenile arrests made for violations of local curfew or loitering ordinances.

- There were 1,814 arrests reported for curfew and loitering law violations, an increase of 78 percent from the previous year.
- Males accounted for 77 percent and females accounted for the remaining 23 percent.
- Forty-five percent of the persons arrested were white, 55 percent were black.
- Hispanics accounted for 31 percent of those arrested and 69 percent were not of Hispanic origin.

RUNAWAYS

Definition

For Uniform Crime Reporting purposes, this category is limited to juveniles taken into protective custody, under provisions of local statutes, as runaways.

- There were 2,375 runaway arrests reported, an increase of 2 percent from the previous year.
- Females accounted for 56 percent of the arrests while males accounted for the remaining 44 percent.
- Forty percent of the total persons arrested in 2014 were white and 60 percent were black.
- Hispanics accounted for 34 percent of those arrested and 56 percent were not of Hispanic origin.

- During 2014, there were 11,504 Crime Index crimes reported, representing a 8 percent crease compared to 2013.
- Violent crime decreased 15 percent and the nonviolent crime decreased 7 percent when compared to the previous year.
- A victimization rate of 18.3 persons per 1,000 inhabitants reflected a 8 percent decrease compared to 2013.
- Murder decreased 58 percent and Motor Vehicle Theft decreased 35 percent.
- Total stolen property values amounted to \$18,211,796 million during the year; of this total, 26.1 percent was recovered.

ARRESTS/CLEARANCES

- Total arrests for 2014 were 26,493 persons, an increase of less than one-half of one percent compared to 2013.
- Adult arrests decreased less than one-half of one percent to 24,894 and juvenile arrests increased 1,599 in 2014.
- The total clearance rate for Index offenses was 27 percent; juveniles were responsible for 9 percent of those cases cleared.

•

MORRIS COUNTY

VOLUME/RATE

- Agencies reported 4,962 Crime Index offenses in 2014, a 5 percent decrease when compared to 2013.
- Violent crime increased 1 percent and nonviolent crime decreased 6 percent.
- The crime rate per 1,000 inhabitants was 10.0, a decrease of 6 percent.
- Rape decreased 1 percent while Motor Vehicle Theft decreased 19 percent.
- The dollar loss from the commission of Index crimes totaled \$9,925,407 million, with 17.9 percent being recovered.

ARRESTS/CLEARANCES

- Total arrests for 2014 were 10,571 persons, an decrease of less than one-half of one percent compared to the previous year.
- Adult arrests increased 1 percent and juvenile arrests decreased 8 percent.
- The total clearance rate for Index offenses was 24 percent; juveniles were responsible for 6 percent of those cases cleared.

OCEAN COUNTY

VOLUME/RATE

- There were 9,746 Crime Index crimes reported to law enforcement agencies during 2014, this represents a decrease of 7 percent when compared to 2013.
- Violent crime increased 15 percent and nonviolent crime decreased 8 percent.
- For every 1,000 inhabitants, 16.7 were victims of Index crimes, a decrease of 8 percent.
- Robbery decreased 9 percent and Burglary decreased 14 percent.
- The value of property stolen during 2014 amounted to \$10,341,448 million, of which 12.4 percent was recovered.

- Agencies within Ocean County arrested 16,859 persons, a 1 percent increase compared to the previous year.
- Adult arrests increased 1 percent while juvenile arrests decreased 4 percent.
- The total clearance rate for Index offenses was 21 percent; juveniles were responsible for 7 percent of those cases cleared.

PASSAIC COUNTY

VOLUME/RATE

- Agencies reported 11,360 Crime Index offenses in 2014, a 20 percent decrease when compared to 2013.
- Violent crime decreased 16 percent and nonviolent crime decreased 6 percent.
- The crime rate was recorded at 22.5 victims for every 1,000 inhabitants, an decrease of 9 percent compared to the previous year.
- Murder increased 32 percent while Larceny-theft decreased 2 percent.
- Total value of property stolen in Passaic County amounted to \$15,730,192 million, of which 25.2 percent was recovered.

ARRESTS/CLEARANCES

- There were 16,701 persons arrested during the year, an increase of 10 percent when compared to 2013.
- Adult arrests increased 12 percent and juvenile arrests increased 3 percent.
- The total clearance rate for Index offenses was 15 percent; juveniles were responsible for 13 percent of those cases cleared.

SALEM COUNTY

VOLUME/RATE

- During 2014 there were 1,625 Crime Index crimes reported to law enforcement agencies of the county, representing a less than one percent compared to the previous year.
- Violent crime increased 7 percent and nonviolent crime decreased 1 percent compared to the previous year.
- For every 1,000 persons 24.9 were victims of Index offenses, a 1 percent increase.
- Robbery increased 5 percent while Aggravated Assault increased 11 percent.
- The dollar loss of stolen property amounted to \$2,210,390 million; the recovery rate was 4.9 percent.

ARRESTS/CLEARANCES

- Police arrested 4,272 persons for criminal offenses during the 2014 calendar year, an 18 percent decrease compared to the previous year.
- Adult arrests decreased 16 percent and juvenile arrests decreased 32 percent.
- The total clearance rate for Index offenses was 43 percent; juveniles were responsible for 7 percent of those cases cleared.

SOMERSET COUNTY

VOLUME/RATE

- Agencies reported 3,994 Index offenses in 2014, a 7 percent decrease when compared to 2013.
- Violent crimes increased 7 percent while the nonviolent crime category decreased 1 percent.
- The crime rate per 1,000 inhabitants was 12.1, an 8 percent decrease when compared to the previous year.
- Robbery decreased 12 percent and Aggravated Assault decreased 20 percent (from 103 in 2013 to 82 in 2014).
- The dollar loss from the commission of Index crimes totaled \$8,583,503 million, with 22.1 percent being recovered.

- Total arrests for 2014 were 7,852 persons, a 2 percent increase compared to the previous year.
- Adult arrests increased 3 percent while juvenile arrests decreased 13 percent.
- The total clearance rate for Index offenses was 25.5 percent; juveniles were responsible for 9 percent of those cases cleared.

SUSSEX COUNTY

VOLUME/RATE

- Law enforcement agencies reported 1,425 Index offenses during the year, a decrease of 6 percent.
- Violent crime increased by 23 percent and nonviolent crime decreased 7 percent.
- For every 1,000 inhabitants, 9.8 were victims of crime, a 4 percent decrease when compared to the previous year.
- Larceny-theft decreased 4 percent while Aggravated Assault decreased 8 percent.
- Property stolen as a result of Index crimes amounted to \$2,106,179 million, of which 11.8 percent was recovered.

ARRESTS/CLEARANCES

- There were 3,435 persons arrested during the year, a decrease of 9 percent when compared to 2013.
- Adult arrests decreased 9 percent and juvenile arrests decreased 1 percent.
- The total clearance rate for Index offenses was 27 percent; juveniles were responsible for 8 percent of those cases cleared.

UNION COUNTY

VOLUME/RATE

- During 2014 there were 12,373 Index crimes reported, representing a decrease of less than one-half of one percent compared to 2013.
- The category of violent crime showed an increase of 5 percent while the category of nonviolent crime showed a decrease of 4 percent, when compared to the previous year.
- A victimization rate of 22.6 persons per 1,000 inhabitants remained the same as the previous year.
- Murder decreased 10 percent and Rape decreased 3 percent.
- Total stolen property values amounted to \$28,004,240 million during the year; of this total, 41.9 percent was recovered.

ARRESTS/CLEARANCES

- Total arrests for 2014 were 16,533 persons, a decrease of 12 percent compared to the previous year.
- Adult arrests decreased 11 percent to 15,512 and juvenile arrests decreased 17 percent.
- The total clearance rate for Index offenses was 16 percent; juveniles were responsible for 11 percent of those cases cleared.

WARREN COUNTY

VOLUME/RATE

- Agencies reported 1,527 Index offenses in 2014, a 10 percent decrease when compared to 2013.
- Violent crime remained the same and nonviolent crime decreased 10 percent.
- The crime rate per 1,000 inhabitants was 14.2, a decrease of 10 percent.
- Robbery remained the same and Motor Vehicle Theft increased 2 percent.
- The dollar loss from the commission of Index crimes totaled \$2,131,115 million, with 14.1 percent being recovered.

- Total arrests for 2014 were 3,714 persons, an 8 percent decrease compared to the previous year.
- Adult arrests decreased 7 percent and juvenile arrests decreased 18 percent.
- The total clearance rate for Index offenses was 30 percent; juveniles were responsible for 6 percent of those cases cleared.

Section Five

INDEX OFFENSE ANALYSIS

- Population Groups
- Urban-Suburban-Rural Municipalities
- Colleges and Universities

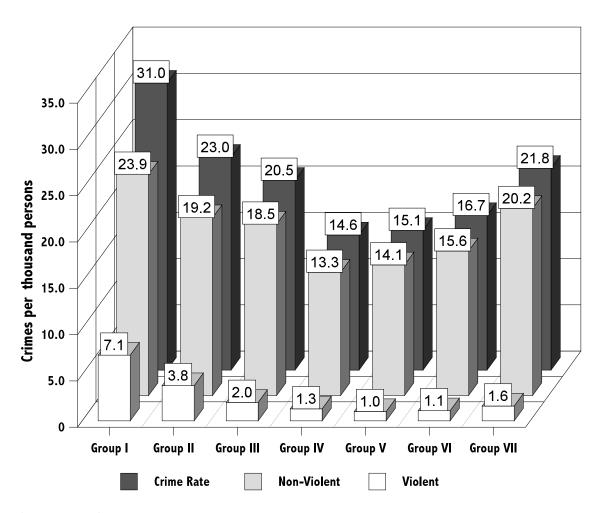

CRIME INDEX FOR POPULATION GROUPS — 2014

The presentation of crime statistics by population groups was made for the purpose of projecting, for consideration, the relative crime experience of communities of varying populations. Although the individual municipalities within the various groups may be geographically separated, their inclusion into a specific group was predicated by the similarity in population with the other municipalities within the group. Municipalities within the same group may differ widely when all factors are considered, but they do share the common bond of population size. The grouping of communities in this manner allows recognition of variances in the crime volumes, rates and clearances between the established groups.

Set forth below are the established municipal groupings as used in this section:

POPULATION GROUPS	TOTAL CRIME INDEX	Murder	Rape	Robbery	Aggra- vated Assault	Burglary	Larceny- Theft	Motor Vehicle Theft
GROUP I 6 Municipalities over 100,000	31,348	157	155	4,008	2,841	5,165	14,203	4,819
Population — 1,011,299 Rate per 1,000 inhabitants	31.0	0.2	0.2	4.0	2.8	5.1	14.0	4.8
GROUP II 28 Municipalities 50,000 - 100,000 Population — 1,870,081 Rate per 1,000 inhabitants	43,027 23.0	106	235	3,000 1.6	3,693 2.0	8,033 4.3		2,783 1.5
GROUP III 64 Municipalities 25,000-50,000 Population — 2,270,105 Rate per 1,000 inhabitants	46,582 20.5	43	250 0.1	1,982	2,286	7,922 3.5	,	2,189 1.0
GROUP IV 68 Municipalities 15,000-25,000 Population — 1,350,283 Rate per 1,000 inhabitants	19,779 14.6	17	104	720 0.5	885 0.7	3,435 2.5	13,873	745 0.6
GROUP V 212 Municipalities 5,000-15,000 Population — 1,934,402 Rate per 1,000 inhabitants	29,114 15.1	26 0.0	167 0.1	649 0.3	1,114	5,313 2.7	20,894	951 0.5
GROUP VI 107 Municipalities 2,000-5,000 Population — 371,107 Rate per 1,000 inhabitants	6,209 16.7	5 0.0	23 0.1	99	293 0.8	1,391 3.7	4,228 11.4	170 0.5
GROUP VII 80 Municipalities under 2,000 Population — 92,062 Rate per 1,000 inhabitants	2,007 21.8	0.0	16 0.2	34 0.4	96 1.0	481 5.2	1,335 14.5	45 0.5

COMPARATIVE CRIME RATES FOR POPULATION GROUPS 2014

- Group I Six municipalities with populations over 100,000.
- Group II Twenty-eight municipalities with populations between 50,000 and 100,000.
- Group III Sixty-four municipalities with populations between 25,000 and 50,000.
- Group IV Sixty-eight municipalities with populations between 15,000 and 25,000.
- Group V Two hundred twelve municipalities with populations between 5,000 and 15,000.
- Group VI One hundred seven municipalities with populations between 2,000 and 5,000.
- Group VII Eighty municipalities with populations under 2,000.

Percent Distribution may not add to 100.0 due to rounding.

Section Six

CRIME IN THE CITIES

CRIME IN THE CITIES

This section deals with serious crimes reported in the large urban cities of the state. These cities represent 19 percent of the population and historically account for one third of the reported Crime Index of the state.

This analysis involves the latest ten-year period 2005-2014 and endeavors further to identify crime trends in these urban areas.

The cities included in this analysis were initially categorized as urban municipalities (*i.e.*, densely populated with extensive development) by the New Jersey Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning, and will continue to be used for comparative purposes.

The criteria used in the selection of these cities were (1) classified as urban character and (2) have a population of 50,000 or more inhabitants.

For further comparative analysis, the urban cities were subdivided into two distinct groupings.

Group number one consisted of the state's six largest urban centers with populations of 80,000 or over and is categorized as "Major Urban."

The second group included the "Major Urban" and the additional urban communities with populations of 50,000 or more inhabitants, and is referred to as the "Urban 15."

"MAJOR URBAN"

- Camden City
- Jersey City
- Paterson City

- Elizabeth City
- Newark City
- Trenton City

"URBAN 15"

- Bayonne City
- Elizabeth City
- Paterson City

- Camden City
- Irvington Town
- Trenton City

- Clifton City
- Jersey City
- Union City

- Toms River Twp.
- Newark City
- Vineland City

- East Orange City
- Passaic City
- Woodbridge Twp.

The accompanying table reflects percent changes in the state's "Major Urban" and "Urban 15" municipalities Crime Index for the years 2005/2014.

Percent Distribution	•	44.4	56.0

Distribution:

- Six major urban centers—Camden, Newark, Jersey City, Trenton, Paterson and Elizabeth—collectively represent 11 percent of New Jersey's total population. These same urban centers, during the period 2005 through 2014 accounted for 21 percent of the state's total crime.
- "Major Urban" centers from 2005 through 2014 accounted for 39 percent of all violent crime and 18 percent of the nonviolent crimes in the entire state.
- The "Urban 15" municipalities represent 18 percent of the state's total population.
- "Urban 15" municipalities accounted for 30 percent of New Jersey's total Crime Index. Violent crime was 52 percent of the state total, while nonviolent crime was 27 percent of the state total during this ten-year period.
- Sixty-seven percent of all reported murders occurred in the "Urban 15" cities during this ten-year period.

STREET CRIME

There has never been a clear-cut definition for street crime within the criminal justice system. The nation's clearinghouse for the collection and dissemination of criminal statistics, the Federal Bureau of Investigation, has no criteria in the categorization of specific crimes to be designated or defined as "street crimes." More and more, this media term has been confused with the violent crime group of murder, rape, robbery, and aggravated assault.

Although any particular crime can and does occur on the street, this analysis, because of reporting constraints within the Uniform Crime Reporting System, is limited to defining street crimes as those offenses which occur, or are most likely to occur, on streets, highways, parking lots, etc.. These crimes include highway robbery, purse-snatching, theft from autos, theft of auto parts and accessories, theft of bicycles, and motor vehicle thefts. All are crimes against property and only one, highway robbery, falls in the violent crime group.

- During the ten-year period 2005-2014, the "Urban 15" cities accounted for 39.6 percent of the street crimes in the state.
- Sixty-nine percent of all highway robberies in the state occurred in the "Urban 15" cities during the ten-year period.
- Fifty-seven percent of all motor vehicle thefts during the survey span occurred in these 15 urban municipalities.
- Twenty-seven percent of all purse-snatchings during the survey span were perpetrated in the "Urban 15" cities.
- In 2014, thefts from motor vehicles, theft of motor vehicle parts and accessories were at their lowest levels in this ten-year period.
- The accompanying table reflects percent distribution of street crime for the "Urban 15" cities for the years 2005-2014.

STREET CRIME TRENDS "URBAN FIFTEEN" MUNICIPALITIES

Section Seven

NEW JERSEY MUNICIPAL-COUNTY OFFENSE & DEMOGRAPHIC DATA

- All crime rates are based on permanent, year-round populations. Comparisons of crime rates between individual municipalities should not be made without giving major consideration to the volume of seasonal population, transients, tourists, and labor forces.
- All offenses are recorded in the municipality of occurrence, regardless of the outside investigative agency, i.e., Federal, State, County, College Campus Police.
- + Crime rates were not computed for municipalities with population less than 100.

Section Eight

RESORT MUNICIPALITIES

As required by P.L. 1998, c. 50, annual mean population estimates for resort municipalities in New Jersey have been used in the preparation of per capita crime statistics.

These estimates were prepared based upon the methodology prescribed in P.L. 1998, c. 50 using the latest available municipality estimates of year-round population from the U.S. Bureau of the Census. Please note that these resort population estimates should only be used for crime statistics purposes. While they fulfill the requirements of the law, the seasonal components of these estimates are not a complete measure of seasonal population because they include only those living in rental housing units or in vacant year-round housing. Not counted are the many day visitors and persons who occupy campgrounds, hotels, motels or bed and breakfast establishments or who stay with friends or relatives.

+ Crime rates were not computed for municipalities with populations under 100.

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program of New Jersey incorporates the collection of pertinent data relating to the police of the state. Information regarding police employees strength and trends are discussed in this section.

Individual listings of full-time state, county, university and college police departments are shown in tables within this section. Listings of municipal police departments will be found in Section VII.

The determination of police strength for any given area or municipality should be subject for serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. For example, the increased need for police service in a municipality which has a highly mobile or seasonal population differs from a municipality which has a relatively stable population. Some other factors, discussed elsewhere in this publication, relate to size, density of population, geographic location, character, and proximity to metropolitan areas. The tables and charts shown in this section should not be interpreted as recommended strength for any given municipality.

TOTAL POLICE EMPLOYEES

Total police employees are defined as the total number of full-time police officers and civilian police employees (clerks, dispatchers, mechanics, etc.) employed by all law enforcement agencies in the state.

- During 2014, there were 45,715 full-time police employees in New Jersey. This represents an increase of 2 percent when compared to the 44,703 full-time police employees in 2013.
- The number of full-time police officers increased 2 percent, from 35,379 in 2013 to 36,070 in 2014.
- The number of full-time civilian employees increased 3 percent, from 9,324 in 2013 to 9,645 in 2014.
- Seventy-nine percent were sworn officers and the remaining 21 percent were civilian employees.

MUNICIPAL POLICE EMPLOYEES

This category consists of the number of police employees, including civilian personnel, employed full-time by municipalities of the state.

- During 2014, there were 23,707 municipal police employees, an increase of 2 percent compared to the 23,315 in 2013.
- For every 1,000 inhabitants of the state there were 2.7 municipal police employees.
- Warren County reported the largest increase in municipal police employees, an increase of 23 percent (37 employees).
- Cape May County recorded the highest police employee rate; 4.1 per 1,000 population; (this rate is computed on the static population and does not take into account the large influx of seasonal and recreational population).
- Hunterdon County recorded the lowest police employee rate of 1.4 per 1,000 population.

MUNICIPAL CIVILIAN POLICE EMPLOYEES

The personnel of each department differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Employing civilians in police departments to perform clerical duties is in line with the thinking of many police administrators who recommended the use of civilians in this capacity. Thus, freeing the sworn personnel for actual police-related services.

- There were 4,061 municipal civilian police employees in 2014, an increase of 4 percent compared to the 3,919 in 2013.
- Seventeen percent of all municipal police employees were civilians.

MUNICIPAL POLICE OFFICERS

This includes the number of sworn police officers employed full-time by municipalities of the state. The police employee rate per 1,000 population presented here should not be construed as recommended ratios. The determination of police strength for any municipality should be based on the numerous factors that create the need for police services. These factors, as crime, vary in type and degree from place to place. Some examples are: seasonal population, geographic location, density and composition of the population.

- There were 19,646 full-time municipal police officers in 2014; this represents an increase of 1 percent when compared to the 19,396 full-time municipal police officers in 2013.
- The number of full-time municipal police officers was calculated at 2.2 per 1,000 population; this resulted in no change when compared to 2013.
- Sworn officers represented 83 percent of all municipal police employees.
- Passaic County recorded the largest numerical increase (50 employees) which represented a 5 percent increase of municipal police
 officers.
- The largest numerical decrease occurred in Monmouth County, a decrease of (37 employees) municipal police officers, or 3 percent.
- Cape May County, with 3.2 police officers per 1,000 inhabitants, recorded the highest rate of full-time municipal police officers.
- Hunterdon and Sussex County recorded the lowest rate of full-time municipal officers with 1.3 police officers per 1,000 population.

OTHER POLICE (State Agencies)

In addition to the State Police, there are nine other state agencies reporting to the system. These agencies consist of: NJ Forest Fire Service, Department of Corrections, Department of Human Services, Division of Criminal Justice, Division of Fish and Wildlife, Palisades Interstate Parkway, Port Authority NY/NJ, NJ Transit Police and New Jersey State Park Police. No rates were computed due to the variations in the types of police services rendered, and their statewide jurisdictions.

Together, these agencies reported a total of 8,682 full-time employees; an increase of 1 percent compared to the 8,586 police employees in 2013.

- There were 8,018 sworn police officers in 2014, an increase of 2 percent compared to the 7,893 in 2013.
- Ninety-two percent were sworn personnel, while the remaining 8 percent were civilians.

COUNTY POLICE, SHERIFFS AND PROSECUTORS

The functions of county law enforcement vary widely throughout the state. The operation of one sheriff's department may be limited exclusively to civil areas and the administration of the county jail, or they may be actively involved in criminal matters throughout the county.

County police departments are varied in their activities in that some are responsible for enforcement throughout the county, while others may have as their primary mission the policing of county parklands. The responsibilities of county prosecutors' officers include criminal investigations, trial preparation, court presentation and special probes. Because of the difference in the types of police service rendered, rates for county law enforcement agencies are not presented here.

- County law enforcement agencies reported a total of 8,577 full-time police employees in 2014; an increase of 4 percent compared to 8,249 in 2013.
- There were 5,389 full-time sworn police officers employed by county agencies in 2014. This represents an increase of 3 percent compared to 5,211 in 2013.
- County police agencies reported 3,188 civilian police employees in 2014; an increase of 5 percent compared to 3,038 civilian employees in 2013.
- Sworn personnel accounted for 63 percent while the remaining 37 percent were civilians.

STATE POLICE

The New Jersey State Police is empowered to provide all phases of law enforcement throughout the state. It also renders, upon request, police services to all the law enforcement agencies in the state. No rates are used due to the variations in the nature and extent of the police services performed by the State Police.

- The New Jersey State Police reported 3,811 full-time police employees; an increase of 3 percent compared to 3,704 in 2013.
- State Police employed 2,585 officers in 2014, which is a 5 percent increase compared to the 2,457 for 2013.
- The State Police reported 1,226 civilian employees in 2014; a decrease of 2 percent over the 1,247 reported in 2013.
- Sworn personnel accounted for 68 percent and civilians represented 32 percent of the total State Police employees.

Section Ten

LAW ENFORCEMENT OFFICERS KILLED & ASSAULTED SUMMARY

POLICE OFFICERS KILLED AND ASSAULTED

The killing or assault of a police officer has a harmful effect on society that reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well-being of the community and serious breach of the internal security of the country. Today a young person who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society they are sworn to protect. This deplorable situation should be a subject of serious concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following information.

POLICE FELONIOUSLY KILLED

VOLUME/TREND

• In 2014, one police officer was feloniously killed while in the performance of their duties.

Year	Police Officers Killed	Year	Police Officers Killed
2005	1	2010	-
2006	1	2011	1
2007	2	2012	-
2008	-	2013	-
2009	1	2014	1

ASSAULTS ON POLICE OFFICERS

Police assault statistics are important to the police administrator who attempts to identify the causative factors of this type of criminal activity. Many factors contribute to police assaults, and circumstances vary from place to place. Identifying specific reasons for these assaults is therefore extremely difficult. The following information illustrates the frequency of these events, and any attempt at analysis of these assaults should include consideration of the unique variables present in each jurisdiction. Due to the broad field of services performed by many state and county police agencies, no assault rates are computed for total police officers.

VOLUME/TREND

• There were 1,794 police officers assaulted in 2014, a decrease of 17 percent when compared to 2013.

ADDITIONAL ANALYSIS

- Twenty-eight percent (502) of the officers assaulted sustained injury.
- Physical Force, such as hands, fists and feet were used in 90 percent (1,614) of all police assaults.
- Thirty-five percent of police assaults occurred when officers responded to disturbance calls.
- Fifteen percent of the assaults on police officers occurred during the 2-hour period of 8:00 p.m. to 10 p.m.

CLEARANCES

• The police of New Jersey were successful in clearing 90 percent of the assaults directed at them.

ASSAULTS ON MUNICIPAL POLICE OFFICERS

VOLUME/TREND

- A total 1,617 of municipal police officers were assaulted during 2014, a 13 percent decrease compared to 2013.
- The assault rate, for every 100 municipal officers, was 8.2, a 15 percent decrease compared to 2013.

ADDITIONAL ANALYSIS

- Twenty-five percent of the municipal officers assaulted sustained injury.
- Physical Force, such as hands, fists and feet were used in 90 percent of all municipal police assaults.
- Thirty-six percent of the municipal police assaults occurred when officers responded to disturbance calls.
- Attempting Other Arrests accounted for 14 percent of municipal police assaults.

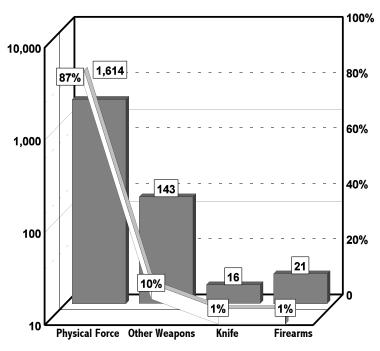

OTHER POLICE OFFICERS ASSAULTED

The following law enforcement agencies are dealt with separately and are not included when computing municipal assault rates; the services performed by these agencies vary greatly from the functions of municipal police agencies.

VOLUME/TREND

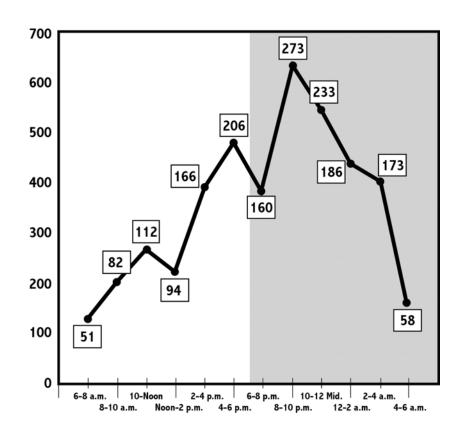

- County law enforcement agencies reported 6 officers assaulted with 3 sustaining injury.
- The New Jersey State Police reported 51 officers assaulted with 7 sustaining injury.
- Other state agencies with police powers reported 100 officers assaulted with 77 sustaining injury.
- University and college police agencies reported 20 officers assaulted with 7 sustaining injury.

GLOSSARY OF TERMS

For Uniform Crime Reporting purposes, a person aged 18 or over. **ADULT**

A person having origins in any of the original peoples of North America, and who maintains **AMERICAN INDIAN**

cultural identification through tribal affiliation or community recognition. ٥r

ALASKAN NATIVE

ARREST RATE The number of arrests for Part I and Part II offenses for each unit of population, generally per

1.000.

ASIAN or

A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example: China, India, Japan, Korea, **PACIFIC ISLANDER**

the Philippine Islands, and Samoa.

A person having origins in any of the black racial groups of Africa, characterized by dark skin **BLACK**

pigmentation.

For Uniform Crime Reporting purposes, the solution to a particular crime, usually by the arrest of **CLEARANCE**

the offender.

CLEARED BY ARREST For Uniform Crime Reporting purposes, an offense is cleared when the offender has been

identified, sufficient evidence has been obtained to formally charge and the offender has been

ordered to appear in court.

CRIME INDEX The total of the seven major offenses used to measure the extent, fluctuation and distribution of

> crime in a geographical area. The following crimes make up the index: Murder, rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft; these offenses are referred

to as Index offenses.

CRIME RATE The number of Index offenses reported for each unit of population per 1,000.

CRIMES AGAINST

PERSONS

Consists of the following Index offenses: Murder, rape, and aggravated assault.

CRIMES AGAINST

PROPERTY

Consists of the following Index offenses: Robbery, burglary, larceny-theft, and motor vehicle theft.

For Uniform Crime Reporting purposes, the hours from 6:00 a.m. to 6:00 p.m. DAY

ETHNIC ORIGIN Having or originating from linguistic or cultural ties with a specific group.

EXCEPTIONAL CLEARANCE For Uniform Crime Reporting purposes, an offense is cleared exceptionally when an offender has

been identified or located and sufficient evidence to charge has been obtained, but there is some reason beyond police control that prohibits the offender from being brought before the court.

HIERARCHY RULE For Uniform Crime Reporting purposes, each crime or attempted crime is counted in only one

offense category. If several offenses are committed, simply glance down the list of Part I offenses

and stop at the first offense recognized from the facts given; this offense is the correct

classification for this criminal activity.

A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or HISPANIC

origin, regardless of race.

For Uniform Crime Reporting purposes, a person under the age of 18. **JUVENILE**

JUVENILE CLEARANCE Those crimes where the offenders are identified as juveniles.

For Uniform Crime Reporting purposes, the hours from 6:00 p.m. to 6:00 a.m. NIGHT

NONVIOLENT CRIME Consists of the following Index offenses: Burglary, larceny-theft, and motor vehicle theft. **POPULATION** Is the year-round population of the municipality shown in the most recent State population

estimates published by the Department of Labor, except that in the year of promulgation of a

Federal decennial census, the census figures shall be used.

RESORT MUNICIPALITY Is a municipality which, because of its recreational, entertainment or amusement characteristics or

facilities or its close proximity to such characteristics or facilities, experiences a total increase during the seasonal period in the number of persons temporarily resident therein of 25 percent

or more of its population.

SEASONAL POPULATION Is the average of the estimated number of persons temporarily resident in the municipality during

the three consecutive months when the temporary population is greatest.

TEMPORARY RESIDENT Means the occupying for any period of time during the seasonal period by any person not

counted as a resident of the municipality for population purposes of an accommodation in a

rented residential unit or vacation home.

UNFOUNDED Classification of reported crimes that are found to be false or baseless.

VIOLENT CRIME Consists of the following Index offenses: Murder, rape, robbery, and aggravated assault.

WHITE A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

CALCULATIONS OF RATES AND TRENDS

1. **Crime Rate per 1,000 inhabitants:** This represents the number of Index offenses per 1,000 inhabitants. For example: What is the crime rate for a municipality with 513 Index offenses (murder, rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft), with a population of 8,280?

513 (Index offenses) \div 8,280 (population) = .061957 x 1,000 = 62.0 (crime per 1,000 inhabitants)

2. Crime Trend: A crime trend shows the extent to which crime increased or decreased. This is done by comparing a period of the current year with the same period of a previous year.
For example: A municipality experienced 264 Index offenses in a previous year and 513 Index offenses in the current year. What is the percent of the increase?

513 (current year Index offenses) -264 (previous year Index offenses) =249 (numerical increase) $\div 264$ (previous year) $=.943 \times 100 = +94\%$ (percent change)

NOTE: If there were more Index offenses in a previous year than in the current year, we would have a percentage decrease.

3. Number of Police personnel per 1,000 inhabitants: This is calculated in the same manner as a crime rate. For example: A municipality with a population of 8,280 and 28 police personnel. How many officers are there per 1,000 population?

28 (police personnel) \div 8,280 (population) = .00338 x 1,000 = 3.4 (police personnel per 1,000 inhabitants)

NOTE: This formula can be applied to either total police personnel or just police officers per 1,000 inhabitants.

4. Police Assaulted Rate: This is calculated at a rate per 100 police officers. For example: A municipality with 25 officers had five of them assaulted during the month. What is the police assaulted rate?

5 (police officers assaulted) \div 25 (police officers) = .2 x 100 = 20 (police assaulted per 100 officers)

5. Clearance Rate: This refers to the percent of Index offenses cleared (solved), over a specific period of time. For example: A municipality with 513 Index offenses in a chosen time frame, cleared 95 of these offenses. What is the clearance rate?

95 (Index offenses cleared) \div 513 (Index offenses) = .185 x 100 = 18.5 (percent cleared)

6. Annual Mean Population: Is determined for each municipality designated a resort municipality by use of the following formula:

$$AMP = \frac{12P + 3SP}{12}$$

Where **AMP** equals Annual Mean Population; **P** equals Population; **SP** equals Seasonal Population.

7. Density per Square Mile: The population density is calculated as population divided by total land area (1,000 people in a square mile).

Density Per Square Mile = Estimated Population / Area in Square Miles
