Tips for coping with stress:

It is normal to feel sad, stressed, confused, scared or angry during a crisis. Talking to people you trust can help. Contact your friends and family.

Maintain a healthy lifestyle - including proper diet, sleep, exercise and social contacts with loved ones.

Don't use smoking, alcohol or other drugs to deal with your emotions. If you feel overwhelmed, talk to a health worker or counsellor. Have a plan, where to go to and how to seek help for physical and mental health needs if required.

Limit worry and agitation by taking a break from your phone, tablet and computer. Some good ideas are to sit and read a book, go outside, or do anything that you enjoy.

Instead of aiming for perfection which isn't possible, be proud of however close you get to your goals.
