Freedom Salute to be held for 250th BSB

A Freedom Salute Ceremony for Company D, 250th Brigade Support Battalion will be held at the Bordentown Armory on Oct. 14.

The 250th was mobilized in September 2005. After completing their training at Camp Shelby, Miss., the unit served in support of Operation Iraqi Freedom from March 2005 to June 2007. The Soldiers were part of the 1-34th Brigade Combat Team, Minnesota Army National Guard, which was extended for the troop surge.

108th to hold arrival ceremony

The 108th Air Refueling Wing will hold a KC-135R model Stratotanker Arrival Ceremony this Monday, Oct. 15 at 11 a.m. at Building (hangar) 3333. Special speakers, guests and other events will highlight the ceremony.

This is the first of eight KC-135R aircraft the 108th will be receiving, which will replace the Wing's KC-135E models.

The KC-135R Stratotanker's principal mission is air refueling. This unique asset greatly enhances the Air Force's capability to accomplish its primary missions of Global Reach and Global Power.

The 108th is assigned to Air Mobility Command, which manages more than 490 total aircraft inventory Stratotankers, of which the Reserve and Air National Guard fly 271 of those in support of AMC's mission.

The KC-135R can offload 50 percent more fuel, is 25 percent more fuel efficient, costs 25 percent less to operate and is 96 percent quieter than the original KC-135A.

Transition and conversion has already begun for 108th personnel. Recently Maintenance Squadron Airmen left to attend KC-135R Model School in Grand Forks, N.D., and beginning this month, 108th Operations will be sending pilots to KC-135R school.

The History of the New Jersey National Guard

The Spanish American War

Upon declaration of war between the United States and the Kingdom of Spain on 21 of April 1898, New Jersey again received a call for troops and responded with a full quota of four regiments. While not being required for service outside the United States, these troops performed important service initially in harbor defense securing lines of communication and protecting munitions plants. They were later used as reserve troops in Florida. The lack of proper sanitary facilities and poor rations caused much hardship, illness and many losses by death.

The cavalry and artillery units which were not called immediately lost many of their men and officers who enrolled in the regular Army in order to see action. These men were granted leaves of absence from the National Guard in order to volunteer.

New rules for recycling in Mercer County

From the Department of Treasury, Office of Energy Savings; the Department of Environmental Protection, Office of Recycling; and, Joseph K. Dunleavy, DMAVA REM

Your help is requested to support our launch of a new, simplified recycling program for State facilities in Mercer County. This change will address some of the current confusion about what gets recycled and where it should go. It will also enable us to accurately measure and improve our recycling performance in each facility going forward.

Starting October 1, all State facilities located within Mercer County, and all occupants within those facilities, will be able to combine recyclable materials into one of the following two (2) containers, for collection. New labels will be in place on these containers by the end of the week:

Mixed Paper - if you can tear it, it is considered mixed paper (all paper, all colors, newspaper, file folders, magazines, mail, etc.)

Bottles and Cans - plastic or glass bottles, aluminum and steel cans

Please do your part to separate out the recyclable materials listed above, from other waste you may generate in your day to day activities. This can be as simple as keeping a bin or box in your work space to throw all waste paper into (paper represents the bulk of our recyclables). You can then empty that box into the designated recycling container from time to time, when it is convenient. From that point, the armorer staff and vendors will be transporting the recyclables to the proper location, where they will be removed and processed by our new recycling vendor.

By increasing our recycling rate, we conserve natural resources, reduce energy consumption, and reduce pollution. That is something we can all be proud of and something that will deliver a lasting benefit for generations to come.

NOTE - Corrugated cardboard will continue to be processed as it is today, for your facility. All cardboard is to be **FLATTENED BEFORE BEING PLACED ON THE LOADING DOCK!**
