TO: All Interested Parties

FROM: Raymond P. Martinez
Chairman and Chief Administrator

DATE: July 19, 2013

SUBJECT: **Suspensions not processed**

Due to technical difficulties this week, the New Jersey Motor Vehicle Commission (MVC) recently has been unable to update our Suspension data bases to reflect the restoration of driving privileges.

Due to the fact that drivers who may have properly restored their driving privileges might not be reflected in our Suspensions data bases, please take that into consideration when presented with a driver who states that they properly restored their driving privileges or were unable to do so due to our technical difficulties. We anticipate our Suspension and Restorations services will be fully-functional by the start of business on Monday, July 22, 2013.

Thank you for your anticipated cooperation.
