**NEW JERSEY MOTOR VEHICLE COMMISSION TECHNOLOGY QUESTIONNAIRE**

Company Name:		MVC CAIR Account Number (if renewing):	
Name of Company Representative:	Title of Company Representative:	Phone Number:	

The New Jersey Motor Vehicle Commission (MVC) requires that customers of the CAIR (Customer Abstract Information Retrieval) program perform due diligence in their protection of any information and data obtained through the program. The protection of this information and data is of the utmost importance for the MVC. The sensitivity of this data and the increase of identity theft requires that we partner with you to ensure that MVC and you meet our obligations under the Driver Privacy Protection Act (DPPA) and that your technology environment meets both Federal Information Security Act (FISMA) and the National Institute of Standards and Technology (NIST) standards. The terms and conditions related to protection of this information and data can be found within the CAIR agreement. Applicants of the CAIR program must be able to demonstrate their ability to comply with these terms and conditions.

*Please complete this questionnaire and submit it with your application. **All parts must be completed.** Do not leave blanks. If something is not applicable, please indicate this on the questionnaire and explain why. If you need more space to provide the information requested, indicate so next to the question and attach additional pages. All pages of this questionnaire must be returned.*

**Scope of the questionnaire**

All MVC PII data held in electronic format or contained within a structured manual filing system must be audited. In particular, but not exclusively, the audit will cover PII data held in the following systems and formats:

- Personal Computer
- Databases
- Servers
- Virtual Machines
- Cloud Services
- Document management systems (including documents stored in standard directory structures provided by such facilities as CFS)
- Individual computer files where appropriate e.g. spreadsheets and other such analysis tools, word-processed lists;
- Structured e-mail directories
- Structured manual filing systems that can be referenced by individual e.g. Student files, staff files, survey data forms, examination scripts, holiday charts/lists, directories, publication lists;
- Web-pages
- Microfiche
- CD's
- Thumb drives or memory sticks
- Any other storage devices not listed here

Please note that in conducting the audit it will be necessary to meet with all staff within your organization to ensure that PI and PII is uniformly being handled according to the aforementioned standards.

**Definitions**

**Driver's Privacy Protection Act (DPPA)** is a federal and State law that limits the occasions when state departments of motor vehicles and authorized recipients may disclose to the public personal information contained in a person's motor vehicle record, which includes a motor vehicle operator's permit, motor vehicle title, motor vehicle registration, or identification card issued by a department of motor vehicles. Many states have enacted similar legislation further regulating this data.

**Personal Information (PI)** means information that identifies an individual, including an individual's photograph; social security number; driver identification number; name; address other than the five-digit zip code; telephone number; and medical or disability information, but does not include information on vehicular accidents, driving violations, and driver's status.

**Application for Online Access to Motor Vehicle Records**

**Personally Identifiable Information (PII)** means information which can be used to distinguish or trace an individual's identity, such as their name, social security number, biometric records, etc. alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother's maiden name, etc.
