Vehicle Service Appointments Now Available at 5 More NJMVC Agencies

Bakers Basin, Camden, South Plainfield, Toms River, and Vineland Agencies Now Offer Both Licensing and Vehicle Services

TRENTON — The New Jersey Motor Vehicle Commission (NJMVC) has added vehicle service appointments at five more agencies, giving customers more convenient options for handling registration and title services.

The Bakers Basin, Camden, South Plainfield, Toms River, and Vineland agencies previously operated exclusively as Licensing Centers. They now function as hybrid agencies, offering both licensing and vehicle services.

New appointments are now available at all five agencies for the following vehicle services:

- New title or registration
- Replacement title or registration
- Registration renewal
- E-bike registration

“Getting your NJMVC business done shouldn't require a long trip or a long wait,” **said Acting NJMVC Chief Administrator Rosalie Johnson**. “With four agencies added last month and five more joining now, we're giving customers more choices and more flexibility when it comes to accessing vehicle services.”

The expansion follows the October introduction of vehicle service appointments at four other agencies – Freehold, Oakland, Paterson, and Rahway.

New Jerseyans can schedule appointments and find more information about motor vehicle services at NJMVC.gov.
