 PIF LICENSE NO. 000999
 STICKER NO. 99999999
 DATE 3/12/10

Advisory Safety Conditions:

The advisory condition(s) listed are not required to be repaired to pass inspection, the vehicle owner must correct them within 60 days from the date of this inspection or the vehicle may be cited for failure to make repairs pursuant to NJSA 39:8-9. This vehicle does not have to be re-inspected for the advisory items. The vehicle must be maintained throughout the inspection cycle.

Plates: Advisory

Failed Safety Conditions:

This vehicle has failed for the following safety conditions that must pass inspection by 4/30/2010.

Tire failure

Headlight rejection: left high/low

EXPLANATION

This vehicle has failed the emissions inspection due to an inoperable On-Board Diagnostic Malfunction Indicator Light (OBD MIL). To continue with the inspection process, the MIL bulb should be repaired and the vehicle reinspected.

Based on information obtained from the On-Board Diagnostic (OBD) system, the system is not ready to determine the status of the pollution control system on this vehicle. To continue with the inspection process, the vehicles OBD system must be ready for testing upon reinspection. See the vehicle owners manual for information on OBD/Readiness Driving Procedures or contact your vehicle service provider.

The On-Board Diagnostic (OBD) system detected a catalyst fault. To continue with the inspection process, the catalyst should be repaired, required monitors including the catalyst monitor set, and the vehicle reinspected.
