REPORT OF MANAGEMENT

Management of the Authority is responsible for the preparation, integrity, and fair presentation of these financial statements. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and, consequently, they reflect certain amounts based upon the best estimates and judgment of management.

The financial statements have been audited by the independent firm of PKF O'Connor Davies, LLP, which was given unrestricted access to all financial records and related data, including minutes of all meetings of the Authority. The independent auditors' opinion is presented on page 2.

The Authority maintains a system of internal controls to provide reasonable assurance that transactions are executed in accordance with management's authorization, that financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, that assets of the Authority are properly safeguarded, and that the covenants of all financing agreements are honored. There are, however, inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. Accordingly, even an effective internal control system can provide only reasonable assurance that its goals are achieved.

Consistent with Executive Order No. 122, the Authority, through its Audit and Evaluation Committees, engages the independent auditors. The Audit and Evaluation Committees comprise individuals who are not employees of the Authority, and who meet certain standards of independence and financial expertise. The Audit Committee periodically meets with the independent auditors and is responsible for assisting the Members of the Authority in overseeing the Authority's compliance with legal, regulatory and ethical requirements, as well as overseeing the integrity and quality of the Authority's financial statements. The independent auditors have unrestricted access to the Audit Committee.

INDEPENDENT AUDITORS' REPORT

Management and Members of New Jersey Educational Facilities Authority Princeton, New Jersey

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the New Jersey Educational Facilities Authority (the "Authority"), a component unit of the state of New Jersey, which comprise the statements of net position as of December 31, 2018, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management and Members of New Jersey Educational Facilities Authority Princeton, New Jersey

Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business type activities of the Authority as of December 31, 2018, and the results of operations and changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Emphasis of Matter – Change in Accounting Principle

As discussed in Note 2 to the financial statements, during the year ended December 31, 2018, the Authority adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which represents a change in accounting principle. As discussed in Note 2, as of January 1, 2017 the Authority's net position was restated to reflect the impact of this change in accounting principle. Our opinion is not modified with respect to this matter.

Prior Period Financial Statements

The financial statements of the Authority as of December 31, 2017, were audited by other auditors whose report dated June 12, 2018, expressed an unmodified opinion on those statements in accordance with accounting principles generally accepted in the United States of America. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 5 - 9, the schedule of proportionate share of the net OPEB liability and schedule of Authority OPEB contributions pages 32 and 33, and the schedule of proportionate share of net pension liability and schedule of Authority pensions contributions on pages 34 and 35, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management and Members of New Jersey Educational Facilities Authority Princeton, New Jersey Page 3

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The supplemental financial information on pages 36 - 47, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental financial information has not been subjected to the auditing procedures applied in the audit of the basic financial statement and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 9, 2019 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

PKF O'Connor Davies LLP

Cranford, New Jersey September 9, 2019

Introduction

This section of the New Jersey Educational Facilities Authority's ("NJEFA" or the "Authority") annual financial report presents management's discussion and analysis of the Authority's financial performance during the fiscal year ended December 31, 2018 and the two immediately preceding years. It should be read in conjunction with the Authority's financial statements and accompanying notes.

Background

The New Jersey Educational Facilities Authority ("NJEFA" or "Authority"), is an independent and self- supporting state entity created pursuant to Chapter 271 of the Public Laws of 1966, N.J.S.A. 18A:72A-1 et seq., as amended and supplemented (the "Act"), to provide a means for New Jersey public and private colleges and universities ("Institutions") to construct educational facilities through the financial resources of a public fiduciary empowered to sell tax-exempt and taxable bonds, notes and other obligations. NJFEA is New Jersey's primary issuer of higher education purpose municipal bonds to finance and refinance the construction and development of campus facilities at Institutions throughout the State.

The Authority finances and refinances various types of projects for approximately 50 public and private institutions of higher education in New Jersey. Projects include, but are not limited to, the construction, renovation and acquisition of residential, academic, and research facilities; libraries; technology infrastructures; student life and athletic facilities; parking structures; utilities-related projects; and refinancing of existing debt.

In conjunction with the Office of the Secretary of Higher Education, the Authority also administers the State of New Jersey's higher education capital facilities grant programs and from time to time, issues state-backed bonds under these programs to fund grants for their various purposes. These state- backed bonds are secured by a contract with the State Treasurer to pay principal of and interest on such bonds subject to appropriations being made, from time to time, by the New Jersey State Legislature (the "Legislature").

The obligations issued by the Authority are special and limited obligations of the Authority and are not a debt or liability of the State of New Jersey or of any political subdivision thereof other than the Authority, and are not a pledge of the faith and credit of the State of New Jersey or of any such political subdivision thereof. The Authority has no taxing power. The obligations issued by the Authority are payable solely from amounts received from the borrowers by the Authority under the transaction documents and amounts on deposit in certain funds established under the transaction documents.

The Authority is governed by a seven-member board composed of five public, unsalaried members appointed by the Governor with confirmation by the New Jersey Senate. The State Treasurer and the Secretary of Higher Education serve as ex-officio members and by statute, the Governor has veto authority over all actions of the Authority members.

Business Overview

Today, the NJEFA offers colleges and universities a range of services and products to meet institution's financing objectives, including tax-exempt and taxable bond financings, direct bank placement/ purchase transactions, and tax-exempt equipment leasing. Financing options include new money transactions, refunding transactions or a combination of the two. More than just financing a transaction, NJEFA remains involved with their clients from concept to closing and beyond. NJEFA provides its clients with in-house expertise in the financial markets, tax and securities law, and post-issuance matters, among others. In addition, the Authority assists in the processing of all requisitioning and bond fund accounting for college borrowers; manages the investment and reinvestment of bond funds; and manages all arbitrage compliance.

The Authority's operating revenue is derived from initial and annual fees related to the issuance and administration of stand-alone bond transactions, as well as the issuance and administration of state- backed bonds under the State's higher education capital facilities grant programs.

Stand-Alone Debt Transactions

The Authority's operating revenues primarily result from initial and annual financing fees related to stand-alone financing transactions. Generally, upon the closing of a transaction, higher education institutions pay an initial financing fee to cover the services provided by NJEFA to manage and complete the desired financing. The fee is calculated using a percentage of the total issuance amount. Annual financing fees are calculated using a percentage of the total outstanding par amount on the bonds. The annual financing fee, typically referred to as the annual administrative fee, covers ongoing bond fund administration and post issuance debt compliance, including: investment of bond funds; requisition review and payment; audit support as requested; arbitrage monitoring; real estate matters; and assisting institutions with continuing post-issuance compliance matters.

State Grant Administration

The Authority, in partnership with the Office of the Secretary of Higher Education and the Department of Treasury, administers the New Jersey Higher Education Capital Grant Programs. Through NJEFA's issuance of state-backed bonds and the State's issuance of General Obligation bonds, New Jersey's institutions of higher education are able to increase capacity, modernize facilities and equipment, expand access to and provide state-of-the-art academic opportunity for New Jersey's students.

The Authority is highly involved in every aspect of the grant process and post issuance administration. During the solicitation process, the Authority assists in the development, distribution and review of applications for conformity to solicitation requirements. In consultation with the Office of the Secretary of Higher Education and the Attorney General's Office, the Authority develops grant and lease agreements in accordance with state law and regulations, reviews financing documents, and corresponds with institutions needing assistance throughout the process. The Authority receives and reviews all requisitions for approved projects. Requisitions are reviewed to ensure grant proceeds are expended only for costs of an approved project, that the institution has satisfied any obligation to match grant funding, and that reimbursement is permissible per the grant agreement and applicable IRS rules and regulations. The Authority assists the Secretary of Higher Education in fulfilling obligations under the post-issuance compliance tax procedures and in addressing any tax issues that may arise when a contract or arrangement might create "private business use" of bond-financed facilities.

The Authority's operating revenues related to the administration of the Higher Education Capital Grant Programs are derived from initial fees on NJEFA issued State-backed bonds and annual fees for ongoing bond fund and grant management and debt compliance. Generally, The Authority collects an initial fee for each completed State-backed financing and annual fees for each grant, funded throughout the term of the bonds. Both the initial fee and the annual fee are based on a contracted amount as defined in the grant or lease agreements.

Overview of Financial Statements

The Authority is a self-supporting, special purpose government entity supported entirely by fees charged for the services it provides. Accordingly, the Authority is considered an Enterprise Fund and utilizes the accrual basis of accounting. The basic financial statements provide information about the Authority's overall financial condition and operations. The notes provide explanations and more details about the content of the basic financial statements.

This report consists of three parts: management's discussion and analysis, financial statements and the accompanying notes and the required supplementary information. The three financial statements presented are as follows:

Statement of Net Position – The statement of net position presents information reflecting the Authority's assets, deferred outflow of resources, liabilities, deferred inflows of resources and net position. The Authority's net position represents the amount of total assets and deferred outflows of resources less liabilities and deferred inflows of resources and is one way to measure the Authority's financial position and operational solvency.

Statement of Revenues, Expenses and Changes in Net Position – The statement reflects the Authority's operating and nonoperating revenues and expense for the fiscal year. Nonoperating activity primarily relates to investment income.

Statement of Cash Flows – The statement of cash flows is presented using the direct method which reflects cash flows from operating, investing and capital financing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for each year. The statement also includes a reconciliation between operating income or loss for the period per the Statement of Revenues, Expenses and Changes in Net Position to net cash provided or used from operating activities per the Statement of Cash Flows.

Financial Highlights 2018:

- The Authority did not issue any additional conduit debt to educational institutions during 2018.
- Cash and Investments represent approximately 95% of Total Assets at the end of 2018.
- The Authority's 2018 operating margin (net operating income (loss) as a percentage of operating revenues) was (11) %.
- At December 31, 2018, Net Position represents 1.6 times 2018 total operating expenses.

The Authority continued to work with the State's public and private institutions on their multi-year plans to invest in the upgrading of their capital facilities, technology infrastructures and capital equipment to accommodate growing demand for higher education. The Authority also helped New Jersey colleges and universities restructure outstanding issues for the greatest benefit to the institutions.

Condensed Financial Information

The following table represents condensed statement of net position information and changes between December 31, 2017 and December 31, 2018 and between December 31, 2016 and December 31, 2017:

				Increase	Increase
		2017	2016	(Decrease)	(Decrease)

Net Position - End of Year	\$4,344,219	\$ 4,417,919	\$ 4,279,682	-1.67%	3.23%

Analysis of Overall Financial Position and Results of Operations

The Authority's solid financial position and strong operating results continued.

Revenues

The Authority's revenues are derived primarily from two fees; annual fees charged with respect to existing bond issues, and initial fees charged with respect to the issuance of new debt. Total revenues for 2018 decreased approximately \$674,000 from 2017 and total revenues for 2017 decreased approximately \$844,000 from 2016.

Expenses

Operating expenses decreased in 2018 by 10.61% from 2017, and 2017 increased 7.43% from 2016.

Assets and Liabilities

Net position decreased \$73,700, or 1.67% from 2017 to 2018 and increased \$138,237, or 3.23% from 2016 to 2017. Net position decreased as a result of an increase in deferred inflows of resources. The increase in deferred inflows of resources is primarily related to OPEB deferrals.

Contacting the Authority's Financial Management

If you have questions about this report or need additional financial information, contact the Office of the Chief Finance Officer, New Jersey Educational Facilities Authority, 103 College Road East, Princeton, New Jersey 08540-6612. Readers are invited to visit the Authority's website at www.njefa.com.

NOTE 1 ORGANIZATION AND FUNCTION OF THE AUTHORITY

The New Jersey Educational Facilities Authority (the Authority), a component unit of the State of New Jersey, was created under the provisions of Chapter 106 of New Jersey Public Laws of 1966 as a public body corporate and politic. The powers of the Authority permit the sale of notes, bonds and other obligations to support the construction, acquisition and equipping of educational facilities for public and private institutions of higher education in the State of New Jersey. The Authority is also authorized, pursuant to statutory amendments, to issue State supported bonds to fund matching grants to qualified public libraries for capital improvements. The obligations issued by the Authority are conduit debt and are not guaranteed by, nor do they constitute a debt or obligation of, the State of New Jersey.

The Authority is exempt from both federal and state taxes.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The accounts are maintained on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

In its accounting and financial reporting, the Authority follows the pronouncements of the Governmental Accounting Standards Board (GASB).

Administrative Fees

The Authority charges administrative fees to its client institutions for which bond and note sales have been completed. Such fees are considered operating revenue and are charged for services related to the structuring and administration of Authority financings, investment management of bond proceeds, monitoring of financial performance and other project costs and services. These fees are recognized as earned. The fees are used to provide sufficient funds to ensure that the Authority's operating expenses will be met, and that sufficient reserves will be available to provide for the Authority's needs.

Capital Assets

Capital assets, which consist of furniture and equipment, are carried at cost and depreciated over their useful lives using the straight-line method.

Conduit Debt

Due to the fact that the bonds and notes issued by the Authority are nonrecourse conduit debt obligations of the Authority, the Authority has, in effect, none of the risks and rewards of the related financings. Accordingly, with the exception of certain fees generated as a result of the financing transaction, the financing transaction is given no accounting recognition in the accompanying financial statements. At December 31, 2018, the amount of conduit debt outstanding totaled \$4,963,318,355.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Deferred Inflows and Outflows of Resources

In addition to assets and liabilities, the statements of net position report separate sections of deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period which will not be recognized as an outflow of resources until that time. Deferred inflows of resources represent an acquisition of net position that applies to a future period which will not be recognized as an inflow of resources until that time.

Deferred outflows and inflows of resources for defined benefit plans result from the difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on pension plan and OPEB investments, changes in the Authority's proportion of expenses and liabilities to the pension and OPEB as a whole, differences between the Authority's pension and OPEB contributions and its proportionate share of contributions, and the Authority's pension and OPEB contributions subsequent to the pension and OPEB valuation measurement dates.

New Accounting Standard Adopted

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, was issued in June 2015. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employees about financial support for OPEB that is provided by other entities.

This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirements of both Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. The scope of this Statement addresses accounting and financial reporting for OPEBs that are provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring deferred outflows resources, deferred inflows liabilities. of of resources, and expense/expenditures. For defined benefit OPEBs, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEBs also are addressed. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEBs. This Statement also addresses certain circumstances in which a non-employer entity provides financial support for OPEBs of employees of another entity.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Standard Adopted (continued)

In this Statement, distinctions are made regarding the particular requirements depending upon whether the OPEB plans through which the benefits are provided are administered through trusts that meet the following criteria:

- Contributions from employers and non-employer contributing entities to the OPEB plan and earnings on those contributions are irrevocable.
- OPEB plan assets are dedicated to providing OPEB to plan members in accordance with the benefit terms.
- OPEB plan assets are legally protected from the creditors of employers, non-employer contributing entities, the OPEB plan administrator, and the plan members.

This Statement is effective for fiscal years beginning after June 15, 2017. The Authority's Net Position as of January 1, 2017 and December 31, 2017 and the Statement of Revenues, Expenses and Changes in Net Position for December 31, 2017 have been restated to reflect the required adjustments.

Additionally, the amounts below also include restatements related to pension contributions.

As a result, the following restatements have been made to the Authority's financial statements.

	As Previously Reported	/ Adjustment	Restated
As of January 1, 2017 Net position	\$ 5,995,618		\$ 4,279,682
For the year ended December 31, 2017			
Salaries and related expenses	2,381,907	14,839	2,396,746
Operating expenses	3,081,789	14,839	3,096,628
Operating income	85,003	(14,839)	70,164
Change in net position	153,076	(14,839)	138,237
As of December 31, 2017			
Deferred outflows of resources	1,998,397	112,602	2,110,999
Postemployment benefits other than pension	624,737	724,722	1,349,459
Accounts payable and accrued expenses	238,399	265,184	503,583
Deferred inflows of resources	1,198,727	853,471	2,052,198
Net position	6,148,694	(1,730,775)	4,417,919

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Standards

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. Statement 83 addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The provisions in Statement No.83 are effective for reporting periods beginning after June 15, 2018. The Authority has not yet completed the process of evaluating the impact of GASB 83 on its financial statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The provisions in Statement No 84 are effective for reporting periods beginning after December 15, 2018. The Authority has not yet completed the process of evaluating the impact of GASB 84 on its financial statements.

In June 2017, the GASB issued Statement No. 87, *Leases*, which is effective for fiscal years beginning after December 15, 2019. The primary objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lesse is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Authority has not yet completed the process of evaluating the impact of GASB 87 on its financial statements.

In March 2018 the GASB issued Statement No. 88, Certain Disclosures Related to Debt, including Debt Borrowings and Direct Placements, which is effective for fiscal years beginning after June 15, 2018. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. The Authority has not yet completed the process of evaluating the impact of GASB 88 on its financial statements.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent Accounting Standards (Continued)

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, which is effective for fiscal years beginning after December 15, 2020. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The Authority has not yet completed the process of evaluating the impact of GASB 91 on its financial statements.

NOTE 3 DEPOSITS AND INVESTMENTS

At December 31, 2018 and 2017, the Authority's bank balance excluding payments and deposits in transit was \$129,407 and \$931,143, respectively. Funds in excess of the Federal Deposit Insurance Corporation (FDIC) insured amounts are protected by the New Jersey Governmental Unit Deposit Protection Act (GUDPA).

The Authority categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The types of securities which are permitted investments for Authority funds are established by New Jersey Statutes. All funds of the Authority may be invested in obligations of, or guaranteed by, the United States Government. In addition, certain funds of the Authority may be invested in: obligations of agencies of the U.S. government; obligations of, or guaranteed by, the State of New Jersey; collateralized certificates of deposit and repurchase agreements; commercial paper; and other securities which shall be authorized for the investment of funds in the custody of the Treasurer of the State of New Jersey.

As of December 31, 2018 and 2017, the Authority had the following recurring fair value measurements using current sale prices or sale prices of comparable securities for U.S. Treasury Bills (Level 2 inputs) and using net asset value (NAV) per share valuation for Money Market Mutual Funds for investments and cash equivalents, and maturities:

	2018	8 2017	
Investments:	 	_	
U.S. Treasury Bills	\$ 9,857,218	\$	9,438,279
Money Market Mutual Fund	 163,135		160,517
Total Investments	\$ 10,020,352	\$	9,598,796

NOTE 3 DEPOSITS AND INVESTMENTS (continued)

In 2018 and 2017, the Authority had \$163,135 and \$160,517, respectively, invested in a money market mutual fund, which invests in short-term and other obligations of the U.S. Treasury.

In accordance with Governmental Accounting Standards Board Statement No. 40, *Deposit and Investment Risk Disclosures* (GASB 40), the Authority has assessed the Custodial Credit Risk, the Concentration of Credit Risk, Credit Risk and Interest Rate Risk of its Cash and Investments.

(a) Custodial Credit Risk – The Authority's deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are: uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name. The deposit risk is that, in the event of the failure of a depository financial institution, the Authority will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Authority's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority and are held by either: the counterparty or the counterparty's trust department or agent but not in the Authority's name. The risk is that, in the event of the failure of the failure of the failure of the failure of a transaction, the Authority will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

At December 31, 2018 and 2017, the Authority's bank balances were not exposed to custodial credit risk since the amounts were covered by either FDIC insurance or New Jersey GUDPA.

As of December 31, 2018 and 2017, the Authority's investments consisted of U.S. Treasury Bills in the amount of \$9,857,218 and \$9,438,279, respectively, and Money Market Mutual Funds in the amount of \$163,135 and \$160,517, respectively. Since the investments are registered in the Authority's name they are not exposed to custodial credit risk.

- (b) Concentration of Credit Risk This is the risk associated with the amount of investments the Authority has with any one issuer that exceed five percent of its total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement. The Authority places no limit on the amount it may invest in any one issuer, but its practice has been to invest, almost exclusively, in U.S. Treasury Securities. At December 31, 2018 and 2017, the Authority was not exposed to a concentration of credit risk.
- (c) Credit Risk GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government. This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's Money Market Mutual Fund is not rated.

NOTE 3 DEPOSITS AND INVESTMENTS (continued)

(d) Interest Rate Risk – This is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority does not have a written policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate fluctuations, but the Authority does from time to time evaluate its investment portfolio to determine if, based on the interest rate environment, other investment vehicles would provide higher yields that lower the cost and risk. As of December 31, 2018, the U.S. Treasury Bills had maturities ranging from January 2, 2019 through January 10, 2019.

For the years ended December 31, 2018 and 2017, investment income comprised the following:

		2018		2018		2017
Interest Earnings	\$	210,060	\$	56,807		
Net Increase in Fair Value of Investments		(7,937)		13,126		
Total Investment Income	\$	202,123	\$	69,933		

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS

Public Employee Retirement System

The Public Employee Retirement System is a cost-sharing, multiple employer defined benefit pension plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the PERS Plan are as follows:

Plan Membership and Contributing Employers- Substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency are enrolled in PERS, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or other jurisdiction's pension fund. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2018 and 2017:

	2018	2017
Inactive plan members or beneficiaries currently receiving benefits	174,904	170,124
Inactive plan members entitled to but not yet receiving benefits Active plan members	589 254,780	650 254,685
Total	430,273	425,459

Contributing Employers - 1,703

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

Significant Legislation – For State of New Jersey contributions to PERS, Chapter 1, P.L. 2010, effective May 21, 2010, required the State to resume making actuarially recommended contributions to the pension plan on a phased-in basis over a seven-year period beginning in the fiscal year ended June 30, 2012.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers were credited with full payment and any such amounts were not to be included in their unfunded liability. The actuaries determined the unfunded liability of the System, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability is being paid by the employer in level annual payments over a period of 15 years, which began with the payments due in the fiscal year ended June 30, 2012 and are adjusted by the rate of return on the actuarial value of assets.

Each member contributes a percentage of compensation. Effective October 1, 2011, Chapter 78, P.L. 2011, Chapter 78, P.L. 2011 set the member contribution rate at 6.5% and caused it to increase by 1/7th of 1% each July thereafter. On July 1, 2018, the full rate implemented by this law was achieved, and therefore the full 7.5% will be the required 2018 contribution.

Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of PERS.

For the year ended December 31, 2018 and 2017 the Authority's total payroll for all employees was \$1,361,404 and \$1,276,233, which approximates the covered PERS payroll.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A 43:15 and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contributions are based on an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year, 2018, the State's pension contribution was less than the actuarial determined amount. Employers' contributions include funding for basic retirement allowances and noncontributory death benefits. Authority contributions are due and payable on April 1st in the second fiscal period subsequent to plan year for which the contributions requirements were calculated.

It is assumed that the Local employers will contribute 100% of their actuarially determined contribution and 100% of their Non-Contributory Group Insurance Premium Fund (NCGIPF) contribution while the State will contribute 50% of its actuarially determined contribution and 100% of its NCGIPF contribution. The 50% contribution rate is the actual total State contribution rate paid in fiscal year ending June 30, 2018 with respect to the actuarially determined contribution for the fiscal year ending June 30, 2018 for all State administered retirement systems.

In accordance with Chapter 98, P.L. 2017, PERS receives 21.02% of the proceeds of the Lottery Enterprise for a period of 30 years. Revenues received from lottery proceeds are assumed to be contributed to the System on a monthly basis.

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

The Authority recognizes liabilities to PERS and records expenditures for same in the fiscal period that bills become due.

The vesting and benefit provisions are set by N.J.S.A. 43:15. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

Tier

Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

A service retirement benefit of 1/55th of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – The regulatory basis of accounting which is basis for the preparation of the Authority's basic financial statements does not require or permit the inclusion of entity-wide, full accrual basis financial statements. Accordingly, the Authority does not recognize pension liabilities for any current or prior period until the fiscal period in which such payments will become due and payable.

At June 30, 2018, the PERS reported a net pension liability of \$19,689,501,539 for its Non-State Employer Member Group. The Authority's proportionate share of the net pension liability for the Non-State Employer Member Group that is attributable to the Authority was \$3,675,155 or 0.0186655583%, which was a decrease of 0.0004180230% from its proportion measured as of June 30, 2018.

At June 30, 2017, the PERS reported a net pension liability of \$23,278,401,588 for its Non-State Employer Member Group. The Authority's proportionate share of the net pension liability for the Non-State Employer Member Group that is attributable to the Authority was \$4,442,353 or 0.0190835813%.

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

For the year ended December 31, 2018, the Authority recognized \$314,725 in pension expense. At December 31, 2018 the Authority deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources		Deferred Inflows <u>of Resources</u>	
Differences between expended and actual experience Changes of assumptions Net difference between projected and actual investment earnings	\$	70,086 605,605	\$	18,950 1,175,119
on pension plan investments				34,473
Changes in proportion		738,625		291,238
Authority contributions subsequent to the measurement date		92,831		
	\$	1,507,147	\$	1,519,780

\$92,831 is reflected above as deferred outflows of resources related to PERS resulting from Authority contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to PERS will be recognized as a reduction of the net pension liability as follows:

Year ended December 31,	 Amount
2019 2020 2021 2022 2023	\$ 138,859 30,106 (77,523) (115,983) (80,923)
Total	\$ (105,464)

Actuarial Assumptions- The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	June 30, 2018	June 30, 2017
Inflation	2.25%	2.25%
Salary Increases (2026)	1.65% - 4.15% based on age	1.65 - 4.15% Based on age
Thereafter	2.65% - 5.15% based on age	2.65 - 5.15% Based on age
Investment rate of return	7.00%	7.00%

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

Pre-retirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 and 2017 are summarized in the following table:

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

Asset Class	June 30, 2018		June	30, 2017
		Long-Term		Long-Term
	Target	Expected Real	Target	Expected Real
	Allocation	Rate of Return	Allocation	Rate of Return
Cash equivalents	5.50%	1.00%	5.50%	1.00%
U.S. Treasuries	3.00%	1.87%	3.00%	1.87%
Global diversified credit	5.00%	7.10%	5.00%	7.10%
Credit oriented hedge funds	1.00%	6.60%	1.00%	6.60%
Debt related private equity	2.00%	10.63%	2.00%	10.63%
Debt related real estate	1.00%	6.61%	1.00%	6.61%
Private real asset	2.50%	11.83%	2.50%	11.83%
Equity related real estate	6.25%	9.23%	6.25%	9.23%
U.S. equity	30.00%	8.19%	30.00%	8.19%
Non-U.S. developed markets equity	11.50%	9.00%	11.50%	9.00%
Emerging markets equity	6.50%	11.64%	6.50%	11.64%
Buyouts/venture capital	8.25%	13.08%	8.25%	13.08%
Absolute return/risk mitigation	5.00%	5.51%	5.00%	5.51%
Investment grade credit	10.00%	3.78%	10.00%	3.78%
Public high yield	2.50%	6.82%	2.50%	6.82%
-	100.00%		100.00%	

Discount Rate – The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018 and 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that pension from employers will be made based on the contribution rate in the most recent fiscal year.

The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of Net Pension Liability – the following presents the net pension liability of PERS calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	C	At 1% Decrease	At Current Discount Rate		At 1% Increase	
PERS	\$	4,621,084	\$ 3,675,155	\$	2,881,581	

NOTE 4 EMPLOYEE RETIREMENT SYSTEMS (continued)

Plan Fiduciary Net Position – The plan fiduciary net position for PERS including the State of New Jersey at June 30, 2018 and 2017 were \$29,472,374,536 and \$28,464,239,518, respectively. The portion of the Plan Fiduciary Net Position that was allocable to the Local (Non-State) Group at June 30, 2018 and 2017 was \$22,742,071,972 and \$21,573,965,463, respectively.

Additional information

Collective Local Group balances at June 30, 2018 are as follows:

Collective balances at June 30, 2018 are as follows:	
Collective deferred outflows of resources	4,684,852,302
Collective deferred inflows of resources	7,646,736,226
Collective net pension liability - Local group	19,689,501,539

Authority's Proportion

0.0186655583%

Collective Local Group pension expense for the Local Group for the measurement period ended June 30, 2018 and 2017 was \$1,099,708,157 and \$1,694,305,613, respectively. The average of the expected remaining service lives of all plan members is 5.63, 5.48, 5.57, 5.72 and 6.44 years for 2018, 2017, 2016, 2015 and 2014, respectively.

State Contribution Payable Dates

Prior to July 1, 2017 valuation, it is assumed the State will make pension contributions the June 30th following the valuation date. Effective with the July 1, 2017 valuation Chapter 83 P.L. 2016 requires the State to make pension contributions on a quarterly basis at least 25% by September 30, at least 50% by December 31, at least 75% by March 31, and at least 100% by June 30.

Receivable Contributions

The Fiduciary Net Position (FNP), includes Local employers' contributions receivable as reported in the financial statements provided by the Division of Pensions and Benefits. In determining the discount rate, the FNP at the beginning of each year does not reflect receivable contributions as those amounts are not available at the beginning of the year to pay benefits. The receivable contributions for the years ended June 30, 2018 and June 30, 2017 are \$1,017,878,064 and \$1,073,054,740, respectively.

NOTE 5 POST-RETIREMENT HEALTH CARE BENEFITS

The New Jersey Educational Facilities Authority provides healthcare to its employees and retirees through its participation in the State Health Benefits Program (SHBP), a cost sharing, multipleemployer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical and prescription drugs to retirees and their covered dependents. All active full time employees are covered by the SHBP. Employees become eligible for these benefits upon retirement after 25 years of creditable service in the PERS.

Benefit provisions for the plan are established and amended by the Authority's Members, and there is no statutory requirement for the Authority to continue this plan for future Authority employees. The Plan is a non-contributory plan with all payments for plan benefits being funded by the Authority. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at https://www.state.nj.us/treasury/pensions/financial-reports.shtml.

At June 30, 2018 and 2017, Twenty (20) and Twenty-one (21) plan members (active and retiree) were receiving postretirement health care benefits in which the Authority was billed \$361,349 and \$345,240, respectively. Participating employers are contractually required to provide for their contributions based on the amount of premiums attributable to their retirees.

Plan Description and Benefits Provided:

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

NOTE 5 POST-RETIREMENT HEALTH CARE BENEFITS (continued)

In April 2008, the Authority established and funded an irrevocable trust in the amount of \$2,000,000 to pay for the employee postretirement medical benefits. At December 31, 2018 and 2017, the fair value of this trust fund was \$2,788,468 and \$2,736,965.

Total OPEB Liability

The State of New Jersey's Total OPEB Liability was \$15,666,618,141 and \$21,717,464,451 at June 30, 2018 and 2017, respectively.

The amounts of the State's Non-employer OPEB Liability that are attributable to employees and retirees of the New Jersey Educational Facilities Authority was \$3,025,537 and \$4,086,424 at June 30, 2018 and 2017, respectively. These allocated liabilities represent 0.019312% and 0.020016% of the State's Total Non-employer OPEB Liability for June 30, 2018 and 2017, respectively.

Components of Net OPEB Liability – The components of the collective net OPEB liability for PERS, including the State of New Jersey, is as follows:

June 30, 2018	June 30, 2017
\$ 15,981,103,227	\$ 20,629,044,656
314,485,086	213,255,917
\$ 15,666,618,141	\$ 20,415,788,739
1.97%	1.03%
	\$ 15,981,103,227 314,485,086 \$ 15,666,618,141

Actuarial Assumptions and Other Inputs:

The total OPEB liability as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017, which was rolled forward to June 30, 2018. The total liability as of June 30, 2017 was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. These actuarial valuations used the following actuarial assumptions, applied to all periods (2018 and 2017) in the measurement:

Inflation	2.50%
Salary Increases*:	
Through 2026	1.65%-8.98%
Thereafter	2.65%-9.98%

* Salary increases are based on the defined benefit plan that the member is enrolled in and his or her age.

NOTE 5 POST-RETIREMENT HEALTH CARE BENEFITS (continued)

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

Certain actuarial assumptions used in the July 1, 2017 and July 1, 2016 valuations were based on the results of the pension plans' experience studies for which the members are eligible for coverage under this Plan – the Police and Firemen Retirement System (PFRS) and the Public Employees' Retirement System (PERS). The PFRS and PERS experience studies were prepared for the periods July 1, 2010 to June 30, 2013 and July 1, 2011 to June 30, 2014, respectively. 100% of active members are considered to participate in the Plan upon retirement.

Healthcare Trend Assumptions for 2018:

For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For prescription drug benefits, the initial trend rate is 8.0% decreasing to a 5.0% long-term trend rate after seven years. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate:

The discount rate for June 30, 2018 and 2017 was 3.87% and 3.58%, respectively. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

NOTE 5 POST-RETIREMENT HEALTH CARE BENEFITS (continued)

Sensitivity of the State's Net OPEB Liability to Changes in the Discount Rate:

The following presents the collective net OPEB liability of the participating employers as of June 30, 2018 and 2017, calculated using the discount rate as disclosed above as well as what the collective net OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage- point higher than the current rate:

	June 30, 2018				
	1% Decrease	At Discount Rate	1% Increase		
	(2.87%)	(3.87%)	(4.87%)		
Total Net OPEB Liability	\$ 18,381,085,096	\$ 15,666,618,141	\$ 13,498,373,388		
Authority's Share	\$ 3,549,755	\$ 3,025,537	\$ 2,606,806		
		June 30, 2017			
	1% Decrease	At Discount Rate	1% Increase		
	(2.58%)	(3.58%)	(4.58%)		
Total Net OPEB Liability	\$ 24,081,031,440	\$ 20,415,788,739	\$ 17,507,480,418		
Authority's Share	\$ 4,820,059	\$ 4,086,424	\$ 3,504,297		

Sensitivity of the State's Net OPEB Liability to Changes in the Healthcare Cost Trend Rates:

The following presents the net OPEB liability as of June 30, 2018 and 2017, calculated using the healthcare trend rate as disclosed above as well as what the net OPEB liability would be if it was calculated using a healthcare trend rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease	Healthcare Cost Trend Rate	1% Increase
Total Net OPEB Liability	\$ 13,068,471,450	\$ 15,666,618,141	\$ 19,029,006,023
Authority's Share	\$ 2,523,783	\$ 3,025,537	\$ 3,674,881
		June 30, 2017	
		Healthcare Cost	
	1% Decrease	Trend Rate	1% Increase
Total Net OPEB Liability	\$ 16,966,116,709	\$ 20,415,788,739	\$ 24,907,661,428
Authority's Share	\$ 2,514,310	\$ 4,086,424	\$ 3,691,214

NOTE 5 POST-RETIREMENT HEALTH CARE BENEFITS (continued)

At June 30, 2018 and 2017, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	June 3	0, 2018	
	 ed Outflows Resources	- • •	erred Inflows Resources
Changes between expected and actual experience Changes of assumptions Changes in proportion Net difference between projected and actual		\$	614,292 767,467 483,148
investment earnings on OPEB plan investments Authority contirbutions subsequent to the measurement date	\$ 1,599 17,636		
	\$ 19,235	\$	1,864,907

	June 30, 2017			
		ed Outflows Resources		erred Inflows Resources
Changes between expected and actual experience				
Changes of assumptions			\$	453,558
Changes in proportion				399,913
Net difference between projected and actual				
investment earnings on OPEB plan investments	\$	700		
Authority contirbutions subsequent to the measurement date		23,507		
	\$	24,207	\$	853,471

Collective Deferred Outflows of Resources and Deferred Inflows of Resources – Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending	Amount	
2019	\$ (279,42	5)
2020	(279,42	5)
2021	(279,42	5)
2022	(279,60)	2)
2023	(279,86	9)
Thereafter	(465,56	2)
Total	\$ (1,863,30	8)

Changes in Proportion - The previous amounts do not include employer specific deferred outflows of resources and deferred inflow of resources related to the changes in proportion. These amounts should be recognized (amortized) by each employer over the average remaining service lives of all plan members, which is 8.14 and 8.04 years for the 2018 and 2017 amounts, respectively.

NOTE 6 COMMITMENTS AND CONTINGENCIES

The Authority has an operating lease commitment for its offices at an annual rental of approximately \$197,340 through December 31, 2023.

The Authority, in the normal course of business, is involved in various legal matters. Under the terms of the agreements between the Authority and the public and private institutions of higher education, and costs associated with litigation are the obligation of the institution involved. It is the opinion of the Authority after consultation with legal counsel that its financial position will not be adversely affected by the ultimate outcome of any existing legal proceedings.

NOTE 7 NET POSITION

The Authority's net position represents the excess of assets and deferred outflows of resources over liabilities and deferred inflows of resources and is categorized as follows:

- **Investment in Capital Assets** are the amounts expended by the Authority for the acquisition of capital assets, net of accumulated depreciation.
- **Unrestricted** is the remaining net position, which can be further categorized as designated or undesignated. The designated position is not governed by statute or contract but is committed for specific purposes pursuant to Authority policy and/or directives. The designated position includes funds and assets committed to working capital.

The changes in net position are as follows:

	Net Ir	vestment in		
	Capital Assets		Unrestricted	Total
Net Position at December 31, 2016 (as restated)	\$	100,296	\$ 4,279,682	\$ 4,379,978
Net Position Change			37,941	37,941
Capital Asset Additions		54,503	(54,503)	-
Depreciation		(28,801)	28,801	-
Net Position at December 31, 2017 (as restated)		125,998	4,291,921	4,417,919
Net Position Change			(73,700)	(73,700)
Capital Asset Additions		5,025	(5,025)	-
Depreciation		(23,469)	23,469	-
Net Position at December 31, 2018	\$	107,554	\$ 4,236,665	\$ 4,344,219

NOTE 8 RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, and destruction of assets; errors and omission; injuries to employees; and natural disasters. The Authority maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the Authority. Settled claims have not exceeded this commercial coverage in any of the last three years.

REQUIRED SUPPLEMENTARY INFORMATION

NOTE 1 INTRODUCTION

Under the terms of the Authority's enabling legislation, the Authority has the power to issue bonds and notes on behalf of public and private institutions of higher education in the state of New Jersey. The obligations issued by the Authority are conduit debt and are not guaranteed by, nor do they constitute a debt or obligation of, the state of New Jersey.

Because the bonds and notes issued by the Authority are nonrecourse conduit debt obligations of the Authority, the Authority has, in effect, none of the risks and rewards of the related financings. The supplemental financial statements presented herein include information pertaining to funds held by Trustees of the various bond and note issuances of the Authority.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The Trustee Held Funds are presented as fiduciary funds and are held by outside trustees and as such are not intended to present the financial position or results of operations of the Authority. The Trustee Held Funds utilize the accrual basis of accounting.

NOTE 3 FUNDS HELD IN TRUST

Funds held in trust include amounts in the construction, debt service and debt service reserve funds and the renewal and replacement accounts established for each bond issue. Balances maintained in the construction funds represent unexpended proceeds allocated for specific projects; the debt service fund, debt service reserve fund, and renewal and replacement account balances represent amounts reserved for payment of debt service and the renewal and replacement of major components of projects as required by the provisions of the various series resolutions. The following is a schedule of the aggregate funds held in trust as of December 31, 2018 and 2017:

	 2018		2017
Construction Funds	\$ 224,046,794	-	\$ 467,362,820
Debt Service Funds	1,125,376		1,571,456
Debt Service Reserve Funds	7,732,251		7,865,738
Renewal and Replacement Accounts	679,466		978,166
Total Funds Held in Trust	\$ 233,583,887		\$ 477,778,180

NOTE 4 CASH AND INVESTMENTS

Investments permitted in the Trustee Held Funds are authorized by the respective Bond Resolutions. All funds held by the trustees may be invested in obligations of, or guaranteed by, the United States Government. In addition, certain funds may be invested in: obligations of agencies of the U.S. government; obligations of, or guaranteed by, the state of New Jersey; collateralized certificates of deposit and repurchase agreements; commercial paper; and other securities which shall be authorized for the investment of funds in the custody of the Treasurer of the state of New Jersey.

Investments held by trustees are carried at fair value and comprise the following:

	2018	2017
Investments:		
Collateralized Investment Agreements	\$ 34,483,753	\$ 145,892,481
Variable Rate Demand Obligations		
U.S. Treasury and Agency Obligations*	341,931,015_	477,609,180
Total Investments	\$ 376,414,768	\$ 623,501,661

* Includes \$269,632,536 and \$291,747,416 of investments in pooled U.S. Treasury funds at December 31, 2018 and 2017, respectively, which are uncategorized.

NOTE 5 LOANS AND LEASES RECEIVABLE

Since its inception, the Authority has issued obligations of \$17,981,383,125 as of December 31, 2018 and 2017, for the benefit of various public and private institutions of higher education. The obligations are secured by loans, mortgages, leases and other agreements, the terms of which generally correspond to the amortization of the related bond issues.

The loans and mortgages are secured by revenues produced by the facilities and by other legally available funds of the institutions. For projects under lease agreements, the Authority is the owner of those projects. It is the intention of the Authority to transfer title in the projects at the expiration of the leases. Accordingly, the leases are being accounted for as financing transactions.

NOTE 7 REFUNDED BOND ISSUES

When conditions have warranted, the Authority has sold various issues of bonds to provide for the refunding of previously issued obligations.

The proceeds received from the sales of the bond issues were used to refund currently the outstanding bond issues or to deposit in an irrevocable escrow fund held by the Escrow Agent, an amount which, when combined with interest earnings thereon, is at least equal to the sum of the outstanding principal amount of the bonds, the interest to accrue thereon to and including the first optional redemption date thereof, and the premium required to redeem the bonds outstanding on such date. Accordingly, the trust account assets and the liability for defeased bonds are not included in the Authority's financial statements.

Certain transactions defeased the outstanding bond issues with a resultant reduction in annual debt service during the term of the issues. The debt service savings, together with any accounting gain or loss that will be deferred, accrue to the respective institutions.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Management and Members of New Jersey Educational Facilities Authority Princeton, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business type activities of the New Jersey Educational Facilities Authority as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated September 9, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Authority's internal control.

A *deficiency in internal* control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

PKF O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
