Re: Borough of Bloomingdale – Module 3
BA#: 2235.02

Dear Ms. Swan,

This letter, along with the enclosed documentation is being submitted for the Borough of Bloomingdale pursuant to its ongoing participation with your agency's regional plan conformance process. In particular, this packet is being submitted to meet the December 8th deadline for Module 3.

As detailed in your instructions for Module 3, this letter and the enclosed documentation provide a summary of the boroughs housing obligation, a summary and consistency review for the proposed Prior Round site(s), and a narrative discussing the Housing Partnership Program.

A. Summary of Prior Round Obligation

- i. **Prior Round Obligation:** According to the New Jersey Council on Affordable Housing (COAH), the Borough of Bloomingdale has Prior Round Obligation of 168 units. The borough may review this obligation to determine whether a vacant land adjustment would reduce the figure to a more appropriate level (??Still under court jurisdiction??).
- ii. **Highlands Regional Master Plan (RMP) Adjusted Growth Share Projection:**
 - a. **Selection of Highlands RMP Adjusted Growth Projection or COAH Projected Growth Share Obligation:**

As detailed below, the municipality's COAH Growth Share obligation is 76 units. The Highlands RMP Adjusted Growth Projection is 10 units. The borough intends to utilize the Highlands figure for its affordable housing obligation.

COAH Obligation: COAH has determined the boroughs Third Round obligation is 76 units, which derives from a projection of 300 new households, and 259 jobs between 2004 and 2018.

Highlands RMP Adjusted Growth Projection: The Highlands RMP Adjusted Growth Projection consists of actual growth in the municipality from 2004 to 2008 plus the results of the Module 2 build out analysis, which is the basis for residential/nonresidential growth within the 2018 time period.

The following tables detail the municipality's actual growth from 2004 to 2008 as reported by the New

Jersey Construction Reporter. The first table details the residential growth between 2004 and 2008, which has incurred a 2.6 unit affordable housing obligation.

RESIDENTIAL CERTIFICATES OF OCCUPANCY: 2004 TO 2008

	2004	2005	2006	2007	2008	Total	Affordable Housing Obligation (Total divided by 5)
CO's	4	3	1	4	1	13	2.6

Source: NJ Construction Reporter.

The second table details the nonresidential growth between 2004 and 2008. The table after this converts the square footage of nonresidential growth into jobs based on multipliers provided by COAH. As shown, recent growth has incurred a 2 unit obligation.

NONRESIDENTIAL GROWTH (SQUARE FEET): 2004 TO 2008

	2004	2005	2006	2007	2008	Total
Office	1,136	960	--	9,336	--	11,432

Source: NJ Construction Reporter.

NONRESIDENTIAL GROWTH CONVERTED TO JOBS: 2004 TO 2008

	2004	2005	2006	2007	2008	Total	Affordable Housing Obligation (Total divided by 16)
Office	3.2	2.7	--	26.1	--	32	2

Table 4 in the municipality's build-out report indicated a 4.8-unit obligation as shown in the table below.

	Preservation Area	Plannin g Area	Totals	Affordable Housing Obligation
Total Residential Units	4	20	24	4.8
Residential Units – Sewered	0	6	6	
Septic System Yield	4	14	18	
Non-Residential Jobs - Sewered	0	0	0	0

Source: NJ Highlands Council

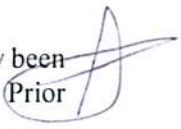

The table below summarizes the affordable housing obligation components. As shown, through participation in the RMP, Bloomingdale's affordable housing obligation is 9 units.

HIGHLANDS RMP ADJUSTED GROWTH PROJECTION

	Affordable Housing Obligation
Build Out Report	4.8
Actual Growth (2004 to 2008)	
Residential	2.6
Non-Residential	2.0
Total	9

- b. Completed Growth Share Calculator: See attached.
- c. Final Projected Growth Share Obligation: As shown above, the final projected Growth Share obligation for Bloomingdale is 9 units.

B. Summary and Consistency Review of proposed Prior Round Sites

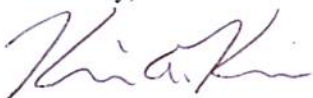

All of the projects the township intends to seek credit for pertaining to the Prior Round obligation have already been constructed. Accordingly, there is no need to provide a summary and consistency review for the township's Prior Round components. 

C. Housing Partnership Program

The borough is interested in the Housing Partnership Program, though it reserves further comment until this issue can be explored further in 2010. However, the justification for the potential use of such a program would largely be based on the existing development patterns and potential within the borough.

We hope this satisfies your requirements for Module 3. If you should have any questions or comments, please do not hesitate to contact our office.

Sincerely,

Kevin A. Kain PP, AICP
Associate

Summary of Adjusted Growth Share Projection Based On Land Capacity
(Introduction to Workbook D)

Municipality Code: 1601

Municipality Name: Bloomingdale Borough

[Muni Code Lookup](#)

This workbook is to be used for determining the projected Municipal Growth Share Obligation by comparing growth projected by COAH with actual growth based on certificates of occupancy that have been issued from 2004 through 2008 and the RMP build-out analysis conducted under Module 2 of the Highlands RMP conformance process. Data must be entered via the "tabs" found at the bottom of this spreadsheet which may also be accessed through the highlighted links found throughout the spreadsheet. This workbook consists of five worksheets that, when combined on this introduction page, provide a tool that allows the user to enter exclusions permitted by N.J.A.C. 5:97-2.4 to determine the projected Growth Share Obligation. COAH-generated Growth Projections included in Appendix F(2) of the revised Third Round Rules, Highlands Council build-out figures based on Mod 2 Reports and actual growth based on COs as published by the DCA Division of Codes and Standards in The Construction Reporter are imported automatically upon entry of the Municipal Code.

[Click Here to enter COAH and Highlands Council data](#)

Municipalities seeking to request a revision to the COAH-generated growth projections based on opting in to the Highlands RMP may do so by providing this comparative analysis of COAH and RMP build-out projections. After completing this analysis, the growth projections may be revised based on the Highlands RMP build-out analysis. Actual growth must first be determined using the Actual Growth worksheet. The RMP adjustment applies only to RMP capacity limitations that are applied to growth projected from 2009 through 2018.

Summary Of Worksheet Comparison

	COAH Projected Growth Share	Growth Share Based on Highlands RMP
Residential Growth	300	37
Residential Exclusions	0	0
Net Residential Growth	300	37
Residential Growth Share	60.00	7.40
Non-Residential Growth	259	25
Non-Residential Exclusions	0	0
Net Non- Residential Growth	259	25
Non-Residential Growth Share	16.19	1.56
Total Growth Share	76	9

The Highlands RMP analysis results in a revision to the COAH-generated growth projection. Bloomingdale Borough may file this Workbook and use a Residential Growth Share of 7.4 plus a Non-residential Growth Share of 1.56 for a total Highlands Adjusted Growth Share Obligation of 9 affordable units

COAH Growth Projections and Highlands Buildout Data

Must be used in all submissions

Municipality Name: Bloomingdale Borough

The COAH columns have automatically been populated with growth projections from Appendix F(2) found at the back of N.J.A.C. 5:97-1 et seq. The Highlands RMP Build-out columns have automatically been populated with residential and non-residential build-out figures from the municipal build-out results with resource and utility constraints found in Table 4 of the RMP Module 2 report. Always check with the Highlands Council for updates. If figures have been updated, enter updated build-out results. Use the Tabs at the bottom of this page or the links within the page to toggle to the exclusions worksheet of this workbook. After entering all relevant exclusions, toggle back to the introduction page to view the growth share obligation that has been calculated based on each approach.

COAH Projections

From Appendix F(2) found at the back of N.J.A.C. 5:97-1 et seq.
Allocating Growth To Municipalities

Residential	Non-Residential
300	259

Highlands RMP Buildout Analysis

From Module 2
Table 4 – Municipal Build-Out Results With Resource and Utility Constraints
Updated as of October 2, 2009

	Preservation Area	Planning Area	Totals
Residential units – Sewered	0	6	6
Septic System Yield	4	14	18
Total Residential Units	4	20	24
Non-Residential Jobs – Sewered	0	0	0

Note: Always check with the Highlands Council for updated municipal Build-out numbers. Enter build-out figures in the appropriate boxes only if revised figures have been provided by the Highlands Council.
