Amendment of Table 1.1 *Acreage of the Highlands Region in Municipalities and Counties*

This Addendum amends Table 1.1 *Acreage of the Highlands Region in Municipalities and Counties*. The Highlands Council continues to use the best available information to provide a more accurate accounting of the Planning and Preservation Areas. In December of 2010, the New Jersey Office of Information Technology, Office of Geographic Information Systems published *Municipalities of New Jersey, New Jersey State Plane NAD83*. This data set is a spatial representation of municipalities in New Jersey. This data set improved upon previous versions of municipal boundaries through the integration of coincident features from several high quality source data sets, as a component of the Office of Geographic Information Systems statewide Parcels Normalization Project concluded in March of 2010. The Highlands Council used this dataset as a basis in order to derive an updated accounting of acreage with the Highlands Region, the Highlands counties and municipalities, and the Planning and Preservation Areas. The change in municipal acreage from the 2008 Regional Master Plan ranges from no change to a net acre gain and loss (Mahwah, 205 acres and Ringwood, 162 acres respectively). Variability is greatest along the New Jersey, New York borders and along the Delaware River.
