POLICY RESOLUTION: SETC #2016-14

SUBJECT: New Jersey Local One-Stop Career Center Certification Process

Purpose

Local One-Stop Career Centers are critical to the provision of programs and services in the local area. The Workforce Innovation and Opportunity Act (WIOA) of 2014 reinforces the importance of each Local One-Stop by requiring the Governor in partnership with the State Workforce Development Board and local workforce boards, to establish criteria based on items outlined in WIOA Section 121 to certify One-Stop Career Centers.

Background

WIOA Section 121, requires that local One-Stop Career Centers shall be certified. The law links such certification to the ability to receive potential infrastructure funding for the One-Stop. Such certification shall be based on established criteria and the extent to which the One-Stop provides programs and services in the local area that have enabled that area to satisfy or exceed performance and quality service criterion.

The Malcolm Baldrige National Quality Award principles establish an approach to performance excellence with a focus on continuous improvement. WIOA requires that the State establish a level of expectation for One-Stop certification that local boards must utilize (or may exceed) as a basis to certify a One-Stop under its auspices. The Baldrige approach to gauging efforts regarding leadership, strategic planning, customer and market focus, information and analysis, human resource focus, process management and business results has been adopted in many states as a format in establishing such a certification process.

The New Jersey State Combined Plan requires that local workforce areas competitively procure a One-Stop Operator every 2 years. While the WIOA law speaks to a 4-year requirement, New Jersey would need to be consistent with its existing plan.

New Jersey's One-Stop Career Center certification process will be put into effect as of July 1, 2017; consistent with the requirement for a competitively procured One-Stop Operator to be in place in each local workforce development area. Local procurement efforts typically require a multi-month process to complete. Having this information available should assist in establishing a baseline for One-Stop efforts.

Chris Christie, Governor

The first part of the policy establishes a yes/no set of requirements to determine whether One-Stops satisfy a number of requirements. The policy further establishes a work group including state and local representatives who would be charged with establishing future quantitative objective standards.

Under this policy local workforce boards must establish a local process of review that may include a qualified group of non-conflicted local board members or a qualified third party. All local areas will have the responsibility to ensure that the group established locally is qualified and able to perform such work.

Pre-requisites to certification are necessary. This recognizes essential elements of programming/service that must be in place prior to certification. This includes matters like accessibility standards, establishment of a grievance/complaint system for customers, a certified local Workforce Development Board and a local MOU that includes the workforce board and its partners.

A local workforce area will submit a request for local One-Stop Certification. The area will show to document that they have satisfied requirements by documenting that all pre-requisite matters and the Certification Checklist, or a similar document that satisfies the specific requirements of the Checklist and more, are completed. Those responses will be shared with the SETC/LWD which will review the request, assess its credibility and determine whether the request should be brought to the full SETC for consideration.

Timeframe

All items identified in the One-Stop Certification process are due to the SETC through the period July 1, 2017 to June 30, 2019.
