**DEPARTMENT OF LAW AND PUBLIC SAFETY
DIVISION OF STATE POLICE**

Hazardous Materials Response Unit

1001 Fire Academy Drive
Sayreville, NJ 08872

Homeland Security Branch – Emergency Management Section
Emergency Response Bureau

Welcome

As a perspective New Jersey State Police Hazardous Materials Response Unit (NJSP HMRU) instructor candidate, you have elected to begin a process that will impart highly technical information to new and current first responders in the area of Hazardous Materials response.

While this process will challenge your ability and test your knowledge, it is designed to insure that candidates are knowledgeable in the subject, properly trained and are capable of delivering factual, timely and correct information to emergency responders.

INSTRUCTIONAL ACTIVITIES

As a TTT candidates, you are required to already have attended and completed the class as a student. As a TTT candidate, the expectation is that they know the program well. Train-the-trainers candidates are expected to come to class ready to teach the class they have applied for.

During this process, you will be evaluated as to your ability and your technical knowledge of the specific topic.

PRETEST

Each TTT candidate will be completing a pre-test in the usage of the 2012 edition US-DOT Emergency Response Guidebook in the first 30 minutes of the class. Individuals must pass this pre-test with 95 % score. Pre-test is open book, which will be provided.

A list containing sample questions for your reference is attached.

POST TEST & Class Evaluation

1. Each TTT specific class will have a post test. Post test must be completed with 90% OR BETTER TO QUALIFY AS A HMRU INSTRUCTOR.
2. Each Instructor candidate will be evaluated in their teaching style and technical knowledge via demonstration in the subject matter. By completing a 10 minute presentation.

For direct assistance on any of the training programs contact:

Theodore K. Cashel, CFEI

NJSP HMRU Train-the Trainer Applications

Individuals interested in becoming an Instructor in any of the NJSP HMRU Training programs will need to begin the process by completing the attached form.

This form uses Adobe Acrobat software. Adobe Reader version 7.0 is available from www.adobe.com **THE APPLICATION MUST BE COMPLETED USING ADOBE READER FOR CLARITY PRIOR TO SUBMISSION.**

ALL APPLICATIONS MUST BE ACCOMPANIED BY COMPLETE DOCUMENTATION. THOSE APPLICATIONS WITH INCOMPLETE DOCUMENTATION WILL NOT BE REVIEWED. HAND WRITTEN APPLICATIONS WILL NOT BE ACCEPTED.

Part I

Start by clicking on the Name field and tab through the remaining questions. Once finished, print a copy. Mail or fax form along with your supportive documentation.

PART II

In PART II Is designed to show which documents you are submitting and relying upon. Indicate by placing a date from your class certificate. Select the type of instructional training you have and then select the experience level by hours of training per month or per year that you are the lead instructor.

PART III

Check all boxes that apply. It is highly recommended that you save or print the finished form for you records. This printed record can also be used to mail or fax into our office if you run into difficulty or do not have an email account.

SIGNATURES / DATES

Sign the form and obtain signature of Chief Officer and date signed.

This Application form is used for all NJSP HMRU TTT candidates. As such if you are currently an NJSP HMRU Instructor and are applying for another TTT subject, all you need to submit is the first page and the specific documentation (application form) as all other data is already received in HMRU database.

Documentation (certificates etc) can be sent via e-mail (preferred) FAX, or via regular mail. NJSP HMRU will confirm via E-mail receipt of your application and documentation.

Submit all supporting documentation via e-mail, regular mail or fax with application form.

PART 3

The individual named in Part 1 above is requesting to attend a HazMat training course offered by the NJSP-HAZMAT Response Unit. I as Supervisor/Department Head have verified that at a minimum, the following requirements have been met:

Applicant is actively involved with a Hazardous Materials/Emergency Response within the department.

Applicant has attached all requested documents as required for TTT class. Missing documents will result in rejection of application.

Applicant is believed to be in good health and physical condition and is able to perform all of the required hands-on activities.

Applicant has already attended the course as a student. Can demonstrate proficiency above the level requested for the TTT and has already completed an approved (methods of instruction) instructor training program as listed in the Instructor qualification sheet.

Applicant will be covered under their Workman's Compensation insurance and/or other department insurance during the length of the program which will assume full liability for any injuries that are training related.

Examples of the questions that can be expected:

Questions are all based upon the 14th Edition of the NJSP HMRU HazMat Awareness (Course # 06007) student reference guide, and the 2012 edition of the US DOT ERG.

Sample Question #1

The 2012 DOT ERG is broken down into how many major sections

- a. 4 sections
- b. 5 sections
- c. 3 sections
- d. 9 sections

Answer : 5 sections White, Yellow, Blue, Green and Orange

Sample Question #2

The NFPA 704 symbol utilizes 4 colored areas or fields. The RED field designates

- 1. Fire Hazard
- 2. Ignition Temperature
- 3. Combustibility
- 4. Fire Severity

Answer: Fire Hazard

Sample Question #3

Duties of the Awareness trained responder includes :

- 1. Secure the scene, attempt ID, make notification
- 2. Call CHEMTREC, Call DEP-NJ, call the fire dept.
- 3. Call DEP-NJ, Call NJSP headquarters, call police
- 4. Eliminate ignition sources, dike drains, remove victims

Answer: Secure the scene, attempt ID, and make notification

Sample Question # 4

Hazardous Materials Awareness level training is:

- 1. Offensive
- 2. Defensive
- 3. Site specific
- 4. All are same

Answer: Defensive – OSHA 29 CFR 1910.120 (q) 6. No intentional contact with materials.
