Program Summary

This one and a half day program provides “learn-by-doing” training in advanced cross-examination and impeachment techniques. Participants will hone their cross-examination and impeachment techniques by conducting examinations in a simulated courtroom setting, followed by faculty commentary and critiques. A presentation on advanced cross-examination and impeachment techniques will supplement participant performances and faculty critiques. The workshop exercises will focus on general cross-examination techniques, as well as impeachment by implausibility, prior inconsistent statements and impeachment by omission.
