#### ***Program Summary***

This program will provide an overview of the restorative and transformative justice model. The restorative justice framework holds a juvenile offender accountable, but shifts away from a punitive discipline model and opts for mediation and community building. This model has proven to be successful, but requires support and cooperation across several disciplines. AP Jennifer Moran of the Mercer County Juvenile Unit will discuss some of the inherent challenges of working with juvenile offenders and solutions for overcoming them. Detective Marlon Webb will provide an overview of the restorative justice model and demonstrate, along with his canine partner Sunny, how he conducts a session in local schools.

#### ***Eligibility***

This program is open to County Prosecutors and Assistant Prosecutors, Deputy Attorneys General in the Department of Law and Public Safety's Division of Criminal Justice and law enforcement officers in their respective offices.
