This training covers how to **Recognize, Respond** to and **Report** a Bias Incident or Crime. The program will focus on the steps and procedures that take place once a bias incident is reported until completion. It will also examine the impact on bias incidents as a result of the current COVID-19 situation. The session will provide the audience with a greater understanding of the differences between a bias crime and a bias incident. Most importantly, it will cover how to report a bias incident and resources that are available to the community.

You will be able to ask questions during the event. However, when you register for this session you will have the opportunity to submit your question ahead of time. We encourage you to do so.
