

**Do you help crime victim/
survivors in your community?**

**Do you know that you do
important work but don't
know how to prove it?**

**Have you heard of program
evaluation but aren't entirely
sure what that means?**

The Office of the Attorney General is offering 3 free trainings on data collection and program evaluation. These trainings will help you to understand what program evaluation is and why you need to do one; explain how to do one; and then help you know what to do with your program evaluation.

Please sign up for all three! and priority will be given to smaller organizations that serve crime victims.
