Novel Coronavirus (COVID-19)

COVID-19 continues to adversely impact global commercial activity, including the hospitality and entertainment industries. On June 4, 2021, legislation and an executive order was executed which terminated New Jersey's Public Health Emergency. As a result, governmental and regulatory restrictions which required the enforcement of social distancing and other measures to reduce the spread of COVID-19, expired as of July 4, 2021. Notwithstanding the expiration of these restrictions, COVID-19 and variants of the virus continue to adversely impact the Company's operations.

All participants must be 21 years of age or older and be physically located in the State of New Jersey to play.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

Certain Concentrations of Risk

Financial instruments that subject the Company to credit risk consist of cash and cash equivalents maintained at financial institutions and accounts receivable. The Company's policy is to place investments with financial institutions evaluated as being creditworthy, or in short-term money market funds which are exposed to minimal interest rate and credit risk.

As of June 30, 2022, the Company maintained balances in certain of its deposit accounts in excess of federally insured limits. The Company does not expect to incur any losses resulting from cash held in financial institutions in excess of insured limits. The Company manages this risk through predominantly holding its cash with a large, financially stable, global bank.

Concentrations of credit risk, with respect to gaming receivables, are limited through the Company's credit evaluation process. The Company issues markers to approved gaming customers only following credit checks and investigations of creditworthiness.

Cash and Cash Equivalents

Cash equivalents are highly liquid investments with original maturities of three months or less from the date of purchase and are stated at the lower of cost or market value. Cash and cash equivalents consist of the following:

	Jun	June 30,		
	2022	2021		
Unrestricted cash	\$ 95,957	\$ 54,089		
Restricted cash	16,783	15,041		
	\$ 112,740	\$ 69,130		

Restricted cash at June 30, 2022 was \$16,783, which principally included \$10,658 of restricted cash related to the balances of patrons' internet gaming accounts, \$3,842 related to cash collateral for letters of credit related to the Company's workers compensation insurance, and \$2,083 of cash related to third party internet gaming operations. Restricted cash at June 30, 2021 was \$15,041, which principally included \$6,990 of restricted cash related to the balances of patrons' internet gaming accounts, \$3,370 of cash related to third party internet gaming operations and \$4,481 related to cash collateral for letters of credit related to the Company's workers compensation insurance. Pursuant to N.J.A.C. 13:69O1.3(j), the Company maintains separate New Jersey bank accounts to primarily ensure the security of funds held in patrons' internet gaming accounts. Restricted cash balances are on deposit with a large, financially stable, global bank.

Accounts Receivable, Net

Accounts receivable, net consist primarily of casino, hotel and other receivables, net of an allowance for doubtful accounts. Receivables are typically noninterest bearing and are initially recorded at cost. Accounts are written off when management deems the account to be uncollectible. An estimated allowance for doubtful accounts is maintained to reduce the Company's receivables to their expected realization. The allowance is estimated based on specific review of customer accounts, as well as historical collection experience and current economic and business conditions. Recoveries of accounts previously written off are recorded when received.

Inventories

Inventories consist primarily of food and beverage and retail items and are stated at the lower of cost or net realizable value. Cost is determined using the average cost method. Provisions are made, as necessary, to reduce excess or obsolete inventories to their net realizable value.

Property and Equipment

Property and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets or, for leasehold improvements, over the shorter of the asset's useful life or term of the lease.

The estimated useful lives of the Company's major components of property and equipment are:

Building and improvements	10 through 30 years
Furniture and equipment	3 through 10 years

Costs of major improvements are capitalized, while costs of normal repairs and maintenance are charged to expense as incurred.

The Company evaluates the carrying value of long-lived assets whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. For an asset that is to be disposed of, the Company recognizes the asset at the lower of carrying value or fair market value, less costs of disposal, as estimated based on comparable asset sales, solicited offers, or a discounted cash flow model. For a long-lived asset to be held and used, the Company reviews the asset for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The estimated undiscounted future cash flows of the asset are then compared to the carrying value of the asset. The asset is not impaired if the undiscounted future cash flows exceed its carrying value. If the carrying value exceeds the undiscounted future cash flows, then an impairment charge is recorded, typically measured using a discounted cash flow model, which is based on the estimated future results of the relevant reporting unit discounted using the Company's weighted-average cost of capital and market indicators of terminal year free cash flow multiples. If an asset is under development, future cash flows include remaining construction costs. There were no impairment losses recognized in the statements of income during the three and six months ended June 30, 2022 and 2021.

Revenue Recognition

The Company's revenue from contracts with customers consists of casino wagers, hotel room sales, food and beverage transactions, entertainment shows, and retail transactions.

The transaction price for a casino wager is the difference between gaming wins and losses ("net win"). In certain circumstances, the Company offers discounts on markers, which is estimated based upon industry practice, and recorded as a reduction of casino revenue. The Company accounts for casino revenue on a portfolio basis given the similar characteristics of wagers by recognizing net win per gaming day versus on an individual wager basis.

For casino wager contracts that include complimentary goods and services provided by the Company to gaming patrons on a discretionary basis to incentivize gaming, the Company allocates revenue to the good or service delivered based upon stand-alone selling price ("SSP"). Discretionary complimentaries provided by the Company and supplied by third parties are recognized as an operating expense. The Company accounts for complimentaries on a portfolio basis given the similar characteristics of the incentives by recognizing redemption per gaming day.

For casino wager contracts that include incentives earned by customers under the Company's loyalty program, the Company allocates a portion of net win based upon the SSP of such incentive (less estimated breakage). This allocation is deferred and recognized as revenue when the customer redeems the incentive. When redeemed, revenue is recognized in the department that provides the goods or services. Redemption of loyalty incentives at third party outlets are deducted from the loyalty liability and amounts owed are paid to the third party, with any discount received recorded as other revenue. After allocating revenue to other goods and services provided as part of casino wager contracts, the Company records the residual amount to casino revenue.

The transaction price of hotel rooms, food and beverage, and retail contracts is the net amount collected from the customer for such goods and services. The transaction price for such contracts is recorded as revenue as the good or service is transferred to the customer over their stay at the hotel or when the delivery is made for the food and beverage or retail product.

Sales and usage-based taxes are excluded from revenues. For some arrangements, the Company acts as an agent in that it arranges for another party to transfer goods and services, which primarily include certain of the Company's entertainment shows as well as customer rooms arranged by online travel agents.

Internet Gaming Operations

I-Gaming casino revenues represent the difference between wins and losses from online gaming activities and are recognized as a component of casino revenue in the statements of income. The Company makes cash promotional offers to certain of its I-Gaming customers, including cash rebates as part of loyalty programs generally based on an individual's level of gaming play. These costs are classified as a deferral of casino revenue, until redeemed by the customer.

Contract and Contract-Related Liabilities

There may be a difference between the timing of cash receipts from the customer and the recognition of revenue, resulting in a contract or contract-related liability. The Company generally has three types of liabilities related to contracts with customers: (1) outstanding chip liability; which represents the amounts owed in exchange for gaming chips held by a customer, (2) loyalty program obligations, which represents the deferred allocation of revenue relating to loyalty program incentives earned, as discussed above; and (3) customer advances and other. Customer advances and other consist primarily of funds deposited by customers before gaming play occurs ("casino front money") and advance payments on goods and services yet to be provided, such as advance ticket sales, deposits on rooms and convention space, or for unpaid wagers. These liabilities are generally expected to be recognized as revenue within one year of being purchased, earned, or deposited and are recorded within accrued expenses and other current liabilities on the Company's balance sheets.

Deferred Revenue

Deferred revenue includes up-front advance payments related to agreements with online gaming providers. These payments are recorded as deferred revenue within other current liabilities and other liabilities and are recognized as casino revenue when earned, which is expected to be on a straight-line basis over the terms of the related agreements.

Gaming Taxes

The Company is subject to an annual tax assessment based on 8% of its land-based gross gaming revenues and 15% of its online gross gaming revenues. In addition, online and land-based sports betting revenues are subject to a 13% and 8.5% tax rate, respectively. These gaming taxes are recorded as a casino expense in the statements of income. The Company recorded gaming tax expense of \$10,717 and \$9,853 during the three months ended June 30, 2022 and 2021, respectively, and \$20,717 and \$17,784 during the six months ended June 30, 2022 and 2021, respectively.

CRDA Obligations

Pursuant to the New Jersey Casino Control Act ("Casino Control Act"), as a casino licensee, the Company is assessed at an amount equal to 1.25% of its land-based gross gaming revenues. This assessment is made in lieu of an Investment Alternative Tax (the "IAT") equal to 2.5% of land-based gross gaming revenues. The Casino Control Act also provides for an assessment equal to 2.5% of the Company's online gross gaming revenues, which is made in lieu of an IAT equal to 5.0% of online gross gaming revenues. The Company is required to make quarterly payments to the CRDA to satisfy its investment obligations. Pursuant to a provision contained within legislation enacted to address Atlantic City's fiscal matters commonly referred to as the payment in lieu of taxes (PILOT) law, these funds are to be used for the purposes of paying debt service on bonds issued by the City of Atlantic City prior to and after the date of the PILOT law. These provisions expire as of December 31, 2026. The Company recorded IAT expense of \$1,991 and \$1,781 during the three months ended June 30, 2022 and 2021, respectively, and \$3,770 and \$3,159 during the six months ended June 30, 2022 and 2021, respectively.

Loss Contingencies

There are times when nonrecurring events may occur that require management to consider whether an accrual for a loss contingency is appropriate. Accruals for loss contingencies typically relate to certain legal proceedings, customer and other claims, and litigation. The Company determines whether an accrual for a loss contingency is appropriate by assessing whether a loss is deemed probable and can be reasonably estimated. The Company analyzes its legal proceedings and other claims based on available information to assess potential liability. The Company develops its

views on estimated losses in consultation with outside counsel handling its defense in these matters, which involves an analysis of potential results assuming a combination of litigation and settlement strategies. See Note 10.

Income Taxes

The Company is a disregarded entity for federal and state income tax purposes. The accompanying financial statements do not include a provision for income tax since any income or loss is included in the financial results of the Company's sole member, Tristate.

Advertising Expense

Advertising costs are expensed as incurred or the first time the advertising takes place. Advertising costs are included in general, administrative and other expenses in the statements of income and totaled \$4,200 and \$4,263 during the three months ended June 30, 2022 and 2021, respectively, and \$7,995 and \$8,397 during the six months ended June 30, 2022 and 2021, respectively.

Recently Issued Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-02, Leases (Topic 842), which provides guidance for accounting for leases. Under ASU No. 2016-02, the Company will be required to recognize the assets and liabilities for the rights and obligations created by leased assets. ASU No. 2016-02 is effective for fiscal years beginning after December 15, 2021, with early adoption permitted. Entities have the option to either apply the amendments (1) at the beginning of the earliest period presented using a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements or (2) at the adoption without the need to restate prior periods. There are also certain optional practical expedients that an entity may elect to apply. The Company is currently evaluating the effect that ASU No. 2016-02 will have on its financial statements, and expects the primary financial statement impact upon adoption will be the recognition, on a discounted basis, of the Company's future minimum lease commitments as right of use assets and operating lease liabilities on the balance sheet. The Company is in the process of identifying its operating leases, but, does not expect the adoption of this standard to have a significant impact on its financial statements.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments—Credit Loss (Topic 326): Measurement of Credit Losses on Financial Instruments, which replaces the current incurred loss impairment methodology for financial assets measured at amortized cost with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information, including forecasted information, to develop credit loss estimates. This new update, as amended, is effective for interim and annual periods beginning after December 15, 2022. The Company does not expect the adoption of this new update will have a material impact on its financial position, results of operations, or cash flows.

Loan Agreement

On August 30, 2017, the Company entered into a loan agreement (the "Loan Agreement") with Hard Rock Atlantic City Lender, LLC ("HRAC Lender"). HRAC Lender is an affiliate of certain members of Tristate. The Loan Agreement consists of a term loan in the principal amount of \$400,000 (the "Loan"). The Loan bears interest at an annual rate of 6% (the "Loan Rate"). On August 30, 2017, a noncash loan origination fee of \$8,000 (2% of the Loan) was charged by HRAC Lender and applied to the outstanding principal amount of the Loan per the terms of the Loan Agreement. The Loan is secured by a first priority lien on all of the Company's personal and real property. The Loan is guaranteed by Tristate.

The Loan Agreement proceeds were used to finance the development and renovation of the Project, including, but not limited to, construction costs, costs of gaming equipment, furniture, fixtures and equipment, preopening expenses and HRAC Lender expenses.

On March 2, 2021, the Company and HRAC Lender entered into a Second Loan Agreement Modification Agreement (the "Second Modification Agreement"). Under the terms of the Second Modification Agreement, the Company and HRAC Lender agreed to amend and restate the Loan Agreement's definition of Payment Date from February 28 and August 31 of each year to May 15 and October 15 of each year. The Company made the interest payments on May 14, 2021, October 15, 2021 and May 13, 2022 and October 15, 2022 in accordance with the amended and restated Loan Agreement. Accrued interest related to the Loan Agreement was \$3,345 at June 30, 2022 and 2021.

On July 13, 2022, the Company and HRAC Lender entered into a Third Loan Agreement Modification Agreement (the "Third Modification Agreement"). The period which began on August 30, 2017 and ended on February 28, 2019 is defined as the "PIK Interest Period." During the PIK Interest Period, all interest was paid by the Company in kind by having such interest added to and automatically becoming a part of the principal amount of the Loan. During the PIK Interest Period, a total of \$37,977 of interest expense was paid in kind.

Interest on the outstanding principal balance of the Loan (including the loan origination fee and PIK Interest added to the outstanding principal amount of the Loan) shall be paid in cash by the Company on the Payment Date, as defined in the Loan Agreement, at the Loan Rate. Amounts outstanding under the Loan and outstanding interest are due upon the Maturity Date. There is no penalty for prepayment of principal and outstanding interest.

In connection with the Loan Agreement, the Company incurred debt financing fees of \$8,099 (which include the loan origination fee). The debt financing fees are recorded in long-term debt, due to affiliates as of June 30, 2022 and 2021, and are being amortized over the term of the Loan Agreement. The Company recorded amortization of \$412 during each of the three months ended June 30, 2022 and 2021 and \$823 during each of the six months ended June 30, 2022 and 2021 and statements of income.

Promissory Notes - Tristate

During 2018, Tristate loaned the Company \$77,400 (the "Promissory Notes") to fund the payment of construction costs associated with the Project. The Promissory Notes bear interest at 8% per annum. Interest payments were originally due on the last business day of August and February of each year, commencing on August 30, 2019. Amounts due under the Promissory Notes are subordinate and junior in right of payment to amounts due and outstanding under the Loan Agreement.

On March 2, 2021, Tristate and the Company agreed to amend and restate the Promissory Notes' definition of Payment Date from February 28 and August 31 of each year to May 15 and October 15 of each year. The Company made the interest payments on May 14, 2021, October 15, 2021 and May 13, 2022 in accordance with the amended and restated Promissory Notes. Accrued interest related to the Promissory Notes at June 30, 2022 and 2021 was \$780.
