NJDHTS Crash Analysis Tool Demonstration

Dates:	May 8, 2019	November 13, 2019
	June 12, 2019	December 11, 2019
	July 17, 2019	
	September 18, 2019	
	October 16, 2019	

Time: 8:00 AM – 11:00 AM

Location: Rutgers CAIT Computer Lab (1st Floor)
100 Brett Road
Piscataway, NJ 08854

Fee: Free, Limited to 15 Persons

Questions?: For further details about the demonstration, please contact: Joseph Weiss at Joseph.Weiss@njoag.gov

Description: This demonstration is to provide an overview on the Crash Analysis Tool and how to use it. The 3-hour window will provide for a brief demonstration of the tool, as well as one-on-one assistance to create and save queries for future use.

The Crash Analysis Tool, is a powerful analysis tool designed to allow engineers, planners, designers, and executives to perform analysis, reporting, and crash data review in one streamlined, easy to use platform. The tool allows merging of multiple data sets including crash data, roadway data, and various safety layers for a seamless experience, referencing data from various sources and using it to make data driven decisions regarding roadway safety. The tool includes the ability to quickly identify crash patterns, drill down within the data and analyze segments at varying levels.

Instructors: Joseph Weiss, New Jersey Division of Highway Traffic Safety

Sponsors: New Jersey Division of Highway Traffic Safety

To Register: To register for one of the demonstrations, please contact:

Joseph Weiss, Transportation Safety Analyst | 609 376 9667|
