

## NJTR-1 Crash Form Course Refresher

### Webinar Dates:

March 23, 2022

March 31, 2022

April 12, 2022

April 28, 2022

### Time:

8:00 am – 1:00 pm

This is a virtual training class utilizing the Webex platform. Participants must have access to a laptop/desktop/lpad or cell phone with internet access

### Registration:

This is a free class but you must register at the link below: <https://cait.rutgers.edu/events/>

Hosted by Rutgers' CAIT, this free half-day course provides refresher training for law enforcement officers familiar with the NJTR-1 crash form.

Successful, proactive road safety improvement plans depend on the accuracy of data collected at crash scenes. Each year, the New Jersey Department of Transportation (NJDOT) collects approximately 300,000 crash reports from law enforcement agencies that can be uploaded into crash analysis systems like the Crash Analysis Tool. However, many of these reports are submitted with incomplete or incorrect information, which can negatively impact the effectiveness of data-driven crash reduction efforts.

The course reviews common NJTR-1 errors for both passenger and commercial motor vehicle crashes and offers methods to improve the quality of data that safety colleagues rely on.

Crash Analysis Tool software functions and the process of moving data from crash report to computer also will be discussed. All changes to the updated NJTR-1 will be addressed.

This course is offered free of charge thanks to funding and support from the New Jersey Division of Traffic Safety. For more information, contact David Maruca, CAIT Project Manager, at [dem200@soe.rutgers.edu](mailto:dem200@soe.rutgers.edu).
