Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

The New Jersey Juvenile Justice Commission contracted with TrueCore Behavioral Solutions, LLC (f.k.a. G4S Youth Services, LLC) for PREA audits of five (5) juvenile facilities to be conducted in the second year of the second 3-year reporting period.

Bobbi Pohlman-Rodgers, US DOJ certified PREA Auditor, was responsible for determining whether this facility operated in compliance with the Prison Rape Elimination Act (PREA) standards. As a part of this audit, Ms. Pohlman-Rodgers toured the facility, reviewed State policy & procedure, reviewed state laws and rules, conducted interviews with residents and staff, observed facility practices, examined confidential documents, and made a determination for each standard.

The PREA Auditor provided the New Jersey Juvenile Justice Commission Agency PREA Coordinator with information on the preparation of the pre-audit Questionnaire and Notices of Audit on February 1, 2018, which was greater than six (6) weeks prior to the audit. The Notices of Audit were to be posted by February 8, 2018, six (6) weeks prior to the audit. The Agency PREA Coordinator provided to the auditor the completed pre-audit Questionnaire and a flash drive containing agency policies, facility procedures, forms, and additional information which the agency wished the auditor to review for PREA compliance on February 22, 2018, which is four (4) weeks prior to the on-site audit.

The auditor reviewed the documents on the flash drive, and contacted the facility Superintendent on March 12, 2018 in order to review additional information, logistics of the on-site audit, and to request additional information to be prepared when the auditor arrived. A return call was received March 16, 2018. The request for additional information that included:

In order to facilitate an orderly audit, the auditor scheduled certain interviews throughout the seven (7) days while in New Jersey. The auditor conducted phone interviews with the Executive Director Kevin M. Brown, Agency PREA Coordinator Luis A. Valentin, Office of Investigations Investigator Ken Amann, and Human Resource Manager Josie Piccolella.

An on-site PREA Audit was conducted on March 28, 2018. Prior to the entrance, the auditor interviewed staff present from the 11 PM – 7 AM shift. After these interviews, the entrance meeting was held and attended by this auditor, Bobbi Pohlman-Rodgers, Superintendent Bilal Muslim, Assistant Superintendent Will Smith, Substance Abuse Assistant/Facility PREA Compliance Manager Chris Locha, Substance Abuse Counselor Laura Briscese, Psychologist Tara Lally, Contracted Medical Staff Nancy Torres, Youth Worker Supervisor Chris Jones, and Clerk Typist Karen Kern. The on-site audit process was discussed and questions were answered. Following this entrance meeting, the auditor selected work plan was discussed, random samples of youth and staff were selected, and specialized staff were identified.

Following the selection of interviewees, the auditor toured the facility. This facility contains 3 buildings: Main Building, Greenhouse, and the White House. Multiple outdoor recreation areas are also available. The auditor observed notices of the upcoming PREA audit, as well as a PREA bulletin board in the facility where both youth and staff could observe.

During the tour, the auditor checked the phone system and was able to connect and verify that there is direct access to the New Jersey Department of Children and Families, Division of Child Protection and Permanency (DCPP), as well as contact for the provision of emotional support services if needed.

The facility provided a list of youth currently at the facility by housing unit. The facility also provided that none of the youth met the targeted resident categories. Therefore the auditor randomly selected ten of the residents to be interviewed.

There are also outside structures used for storage and a greenhouse. A large yard provides for recreational space. There is also a two-story home on the property that is currently under renovation and access to this building is prohibited at this time. It previously served as an office for mental health practitioners, where individual offices and a large office for group sessions are housed. This house also previously served as a location for staff to rest if they have completed an extended shift and as a storage area.

The dormitory is located off the dining hall and includes a storage area, bathrooms, and changing room. The dormitory is open bay style. The exterior windows have been partially frosted to provide further privacy to youth while sleeping. Overnight staff are positioned in the room with the residents. The changing room offers privacy to youth while changing clothing. The bathroom has 2 urinals, 3 toilets, 5 sinks, and a shower room. Privacy in the bathroom is offered through doors, walls, and curtains. Mirrors are installed in the entrance hallway for supervision purposes.

The dining room is a large open area where various events occur besides dining. This room is also used as a multi-purpose area as well as an area for visitation. There are tables and a staff area for supervision.

The kitchen is a large room with one freezer and one large refrigerator. There are two storage rooms. At the time of the audit, the kitchen was off limits to all youth. Classrooms are located at the opposite end of the building from the dining room and kitchen. A library, education offices, and social worker office is also present at this end. Between the dining and education building is the Superintendent's office and clerical staff office. A visitor's book is located here as well.

Three PREA bulletin boards are present at the facility. The auditor observed the boards which included the ways of reporting sexual abuse and sexual misconduct, PREA Jeopardy game, and outside emotional support services, among other postings. A phone that accesses both DCPD and Support Services is located in the dining hall.

Outside the main building is a greenhouse and maintenance area. Youth work with plants and build items from donated wood. The area is secured when not in use. A large area is located behind the main building for recreational activities. There are also two small sheds that are used for storage.

The buildings are well maintained. The main building was extremely clean and tidy. Outside areas were well kept and foliage was trimmed to reduce supervision issues. All areas that contained locks were secured during the tour and access to keys for areas where youth are not permitted is stringent.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This policy also establishes that this policy shall govern if in conflict with another Commission Policy.

The New Jersey Juvenile Justice Commission has a PREA Coordinator to oversee compliance with PREA Standards in each facility. The Agency PREA Coordinator, Luis A. Valentin, is identified in the Agency Organizational Chart as the Chief of Employee Relations and Legal Affairs. He joined the New Jersey Juvenile Justice Commission in the summer of 2012. He also fills the role of Ethics Liaison Officer and he is the Chairperson of the PREA Executive Committee. He reports he has enough time to manage all of this PREA related responsibilities through effective time management processes to identify priority items and attach appropriate resources and time to complete the tasks as identified.

The Agency PREA Coordinator meets monthly with the fourteen (14) facility PREA Compliance Managers through both formal and informal interaction, which

can include conference calls, mock audits, trainings and meetings at the Central Office in order to assist with challenges and to provide support to the facilities.

The facility has a Facility PREA Compliance Manager (PCM) who holds the title of Substance Abuse Assistant. He reports he spends approximately 50% of his time with PREA related issues and utilizes time off the floor to attend to these duties. He reported that coordinating the facility's compliance efforts includes training, reviewing policies and procedures, visual boards (PREA Bulletin Boards) for staff and residents, and conducting random interviews with staff. Review of staffing includes an annual workgroup for the development of a proposed Secure Facility Custody Posts and FTE reports for the next fiscal year. This is comprised of staffing schedules and Scheduled hold-over rotation procedures. It requires a review of prior documents, identification of changes, preparation of new proposed secure Facility Custody Posts and FTE Report and shall be signed by both the Chief Administrative Officer and Director of Operations prior to August 1 for each year. The facility maintains a staff schedule that allow for a 1:8 waking hours staff to youth ratio and a 1:16 non-waking hours staff to youth ratio. An overtime call-out list is also maintained. Planned overtime is offered to staff.

A review of the staffing while on-site found that the facility met the 1:8 and 1:16 requirement for staffing purposes. The date of the latest staffing review was March 13, 2018.

In an interview with the Agency PREA Coordinator, he reports that he is a part of the staffing review team. This is conducted annually periodically through the year and annually to ensure the plans provide for appropriate supervision of the facilities and meet required ratios. He also reviews each plan prior to the plans approval.

In an interview with the Superintendent, he reports that the facility currently meets the PREA staffing ratios – there are three supervision staff on the morning and afternoon shifts, and two supervision staff on the overnight shift. He did report that they are currently undergoing a restructure and will return to three supervision staff on each shift in the near future which will agree with the ratio as per the Attorney General recommendation, which is 1:6. He reports that he addresses any staffing deficiencies daily on each shift and this is documented. Overtime will be mandated if necessary. The staffing plan is reviewed by him to address all areas as required and he makes a recommendation to the PREA Executive Committee.

In an interview with the Facility PCM, he reports that he meets with the Superintendent to review the staffing plan as identified by the PREA Executive Group and makes recommendations.

The facility conducts unannounced rounds and these are documented and were provided to the auditor for review. Prior to 2018, the facility utilized a chart for documenting rounds. In 2018, the facility changed

to a one page form that allows for the documentation of date/time and provides areas for narrative comments regarding the rounds, such as location of residents, staff attentiveness, White House, Green house, and grounds. The forms reviewed indicated that all areas of the facility are addressed as required by the form during the unannounced rounds.

In an interview with the Assistant Superintendent who conducts rounds, he reported that unannounced rounds are never scheduled, are conducted on each shift, and are documented. He reports that these rounds are assigned to four staff who cover a three-month period. Over-night rounds are required to be conducted between 2 AM and 5 AM and are also documented in the Emergency Binder. Day shifts are also required to be documented in the Shift Log.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Administrative Code Title 13 - Law and Public Safety, Chapter 103 – Community Programs, adopted May 21, 2012 and expires on May 21, 2019 requires that all staff shall receive training in the interpretation and applicability of internal management procedures, so as to ensure effective and safe search techniques. This Administrative Code also requires that a strip search may be conducted only by

staff who have received Commission or equivalent training in conducting strip searches, and must be conducted by staff of the same gender unless under emergent circumstances. Strip search may be conducted only with the prior approval of the Director of Community Programs or designee when there is a clear indication that the juvenile is carrying or concealing contraband on his or her person, or in the juvenile's anal or vaginal cavity.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy prohibits both cross gender searches and cross gender viewing of undressed juveniles, except in emergency situations. In an emergency situation, the search must be ordered by the Superintendent, Assistant Superintendent or the highest ranking custody supervisor on duty. Transgender and intersex searches shall be conducted by a staff of the corresponding gender as the resident and not in the presence of the opposite gender staff.

New Jersey Juvenile Justice Commission, Policy 14CP:09.07 (rev 2014), SEARCH PLAN: This policy requires that all pat searches be conducted by a staff of the same gender of the youth, except in emergency situations with the approval of the Superintendent. Strip searches may only be conducted by a staff of the same gender of the youth and only with the approval of the Director of Community Programs. Strip searches conducted by cross gender staff must have prior approval of the Superintendent. This policy also requires that all searches shall be conducted in a professional and dignified manner, with maximum respect for the resident's person, and under sanitary conditions.

New Jersey Juvenile Justice Commission, Policy 13ED:01.02A (rev 2013), LESBIAN, GAY, BISEXUAL, TRANSGENDER, QUESTIONING, AND INTERSEX (LGBTQI) JUVENILES: This policy was created to provide the highest quality of services to juveniles regardless of actual or perceived sexual orientation, gender identify, or gender expression. The policy allows a transgender or intersex juvenile to be afforded privacy when using a bathroom or shower. This policy also address the prohibition of cross-gender searches and viewing of undressed juveniles except in emergency situations. The policy requires that the Superintendent or designee shall implement procedures permitting transgender and intersex juveniles to request that either a male or female staff member conduct a strip search, if authorized. Such a request shall be granted to the extent consistent with the orderly operation of the facility.

In an interview with staff it was reported that the facility does not conduct cross-gender strip searches or any strip searches except in an emergency and this must be authorized by the Superintendent and must be documented. Staff interviews confirm their knowledge of searching transgender and intersex youth. Female staff reported making appropriate announcements when they enter areas where youth are toileting, showering or changing clothing.

Youth interviews confirmed that they are not searched by female staff and also confirmed that cross gender staff announcements are made. Posters reminding cross gender staff of the announcement requirement are posted in the facility.

The creation of a changing room allows youth privacy from cross gender viewing while changing clothing.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff and youth interviews, the auditor finds that the facility meets the requirements of the standard.

The Department of Education, Child Study Team case managers work with residents to identify any special circumstances which indicates the need for special education or related services and ensure that teach

support is provided at the facility (NJAC 6A:14). The agency Office of Education provides for bilingual, ESL and English language education for youth, and these services are available at any time. The agency has available material in English and Spanish (most common non-English language identified in the facilities). Staff have access to request assistance from the New Jersey Department of Human Services, Division of the Deaf & Hard of Hearing for residents with limited or no hearing. Staff have access to request assistance from the New Jersey Department of Human Services, Commission for the Blind and Visually Impaired for residents who have limited or no sight.

Those with learning or reading disabilities would be provided assistance through the on-site ELS certified teacher.

In an interview with two staff who conduct intake, both reported that the resident would be assessed for alternative education, such as interpreter or verbal instruction. Both reported that they are able to access an interpreter if needed. PREA information is provided in both English and Spanish

There were no targeted youth at the program during the on-site audit and therefore the auditor was unable to verify with a resident as to the provision of these services.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Does Not Meet Standard (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy addresses the specific requirements of hiring and promotion decisions of the agency. The State of New Jersey can consider criminal convictions and pending criminal charges for all applicants. The State of New Jersey may also access state and federal criminal databases to conduct background checks for all applicants. All employees are subject to Child Abuse Record Information (CARI) checks. The agency conducts 5-year background checks for all employees and contractors. A clear background check is a requirement for the issuance of JJC Identification Cards. Material omissions by an employee is subject to termination.

New Jersey Juvenile Justice Commission, Policy 14HR:07.02 (rev 2014), PERIODIC CRIMINAL HISTORY CHECKS: EMPLOYEES, VOLUNTEERS, INTERNS AND CONTRACTORS. This policy requires periodic background checks for staff (every 5 years), for interns (annually), and for contractors (at each contract extension or renewal). A memo dated August 20, 2014 by Executive Director Kevin Brown confirms background checks and material omissions. Criminal history and background checks are required for employees, volunteers, interns and contractors and include information as to whether a person has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility government operated facility for the mentally ill and whether the person has ever been civilly or administratively adjudicated to have engaged in sexual activity in a community facilitated by force, overt or implied threats or force, or coercion, or where the victim did not consent or was unable to consent or refuse. These three questions regarding previous misconduct is documented on the BI-001 form which is required for the completion of a background check.

In an interview with the Human Resource Manager, she reports that background check are conducted prior to an offer of employment and at promotion, as well as a check of the Child Abuse Record Information (CARI) system. However, they are prohibited by law from asking about any criminal arrest history, as an arrest unsupported by a conviction or an expunged or pardoned conviction may not be considered in considering application for non-law enforcement positions.

She reports that all persons applying for a position are asked about previous misconduct. The following questions are asked on the background check form (BI-001) and require response: Have you engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; Have you been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was not able to consent or refuse; or Have you been civilly or administratively adjudicated to have engaged in the activity described above.

Five (5) year background checks are conducted on every correctional or civilian staff at each facility. The Supervising Administrative Analyst ensures that background/CARI checks are completed pursuant to the five year requirement and provides this information to the Human Resources Manager. The system for

identifying persons who require a 5 (five) year background check is through the Human Resources Information System. Volunteers and interns are issued identification cards with an expiration date. Background checks are required prior to re-issue.

All staff at hire, and periodically through training and policies, are notified of their continued duty to report any misconduct.

Human resource staff are able to provide to another institution dates of employment, position, if they would rehire, or confirm what is shared by the other institution without a release. With a signed release by the former employee, the human resource staff would be able to share more specific information as to substantiated allegations of sexual abuse or sexual harassment.

The auditor reviewed eleven files. All files showed a background conducted in the last three years.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

In an interview with the Agency Director, he reports that they take the safety of youth and supervision seriously. He reports that any designing, acquiring, or planning substantial modifications to a facility is fully and carefully reviewed to ensure the safety of youth and supervision prior to sending to Capital Budgets & Facilities for funding approval. He also reported that they have addressed the use of video surveillance at the community programs and have increased surveillance at one facility as a result of the need to ensure the safety of youth and supervision.

The White House is currently closed due to renovations. The facility provided a floor plan of the renovations. The building is currently being renovated to serve as an educational center. The main floor will contain four classrooms, a weight room, and staff offices. The second floor will contain offices and counseling areas.

There was no installation or updating of a video monitoring system, electronic surveillance system, or other monitoring technology at this facility. This was confirmed based on information from the Pre-Audit Questionnaire and interview with the Superintendent.

During the tour there were no areas addressed by the auditor regarding blind areas that had not already been addressed by the facility.

It was noted that the facility made changes to the facility over the course of the last 4 years in order to protect the youth in their care. These changes included:

- Removal of two walls in the dorm to allow for better supervision
- Mirrors were installed to enhance staff blind spots
- Privacy dividers were installed in the bathrooms
- Security looks were installed to address safety and security
- Trees surrounding the facility were trimmed or cut-down to enhance sight supervision

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy 1300I:01.04 (rev 2013), EVIDENCE COLLECTION, CONTROL AND SECURITY: This policy requires the Office of Investigations to investigate allegations of sexual abuse. This policy also authorizes the Chief to utilize external law enforcement agencies, and/or the assistance by such agencies, in the investigation of sexual offenses.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy requires protocols for informed consent, confidentiality, reporting to law enforcement, and reporting to child abuse investigative agencies. All residents are offered a forensic medical examinations, that include a Sexual Abuse Nurse Examiner and at no financial cost to the youth. In 1996, the Legislature amended the statute regarding services to victims of crime requiring that the Attorney General, in conjunction with service providers and hospitals, standardize services for victims of sexual assault. In 1998, the Attorney General promulgated the Attorney General Standards for providing services to Victims of Sexual Assault, which were formulated through meetings of the Sexual Assault Protocol Council. The Standards require the formation of a Sexual Assault Response Team (SART) in each county and trained forensic nurses, known as Sexual Assault Nurse Examiners (SANEs). A SANE, along with a rape care advocate and a member of law enforcement, make up the SART. All counties have a SART that is funded through the State Office of Victim-Witness Advocacy.

Memo dated June 18, 2014 by Chief Operating Officer Jeffery Dickert, PHD of Rutgers University Behavioral Health Unit confirms that residents are not charged nor responsible for a co-pay for any medical, mental health or forensic services. This memo also reminds that forensic medical services are provided through the Sexual Assault Response Team (SART) of each county Prosecutor's Office, and the county-based Sexual Assault Nurse Examiners (SANE) program. A list of county Sexual Violence Programs is available.

N.J.S.A. 52:4B-50 et seq. mandates every county prosecutor's office to establish a Sexual Assault Response Team (SART) and a SART Advisory Board.

There is in place in New Jersey a statewide system for providing services to victims of sexual assault. There is a Sexual Assault Response Team in each through the county prosecutor's office that includes trained forensic nurses (SANE), rape care advocate and law enforcement. The Statewide SART system for this facility provides SANE services at Ocean Center.

SANE services and the use of the county-side SART team was verified by the charge nurse at Ocean Medical Center.

There have been no forensic examinations indicated or completed in the past twelve months. Services provided was confirmed with the Superintendent and Medical staff.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard as evidenced by the statewide SART services.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy identifies training that is appropriate to gender for all staff and requires additional training if a transfer of staff assignment. The training, developed by the Director of Operations, in consultation with the Supervisor of Rehabilitative and Treatment Services and the Director of Training, includes: Staff member responsibilities, juvenile rights, the Request & Remedy Process, common aspects of sexual abuse and reactions of victims of sexual abuse, detection of sexual abuse, distinguishing consensual sexual contact from sexual abuse between juveniles, avoiding inappropriate relationships with juveniles, sensitivity training on communicating effectively and professionally with LGBTQI and gender nonconforming juveniles, and compliance with the mandatory reporting. Training for staff is an initial training and two-year refresher training. Training Curriculum: PREA – Addressing Sexual Abuse of Youth in Custody – addresses the zero tolerance policy, fulfilling staff responsibilities, residents' rights, dynamics of sexual abuse/harassment, common reactions of victims, detecting and responding to signs of

threatened and actual sexual abuse, inappropriate relationships between staff and youth, mandatory reporting duties, and other relevant laws regarding the age of consent.

Training records were reviewed for staff selected for interview. Documents indicate that PREA training was conducted in the past 12 months and staff signed a Training Acknowledgment and Policy Receipt indicating that they are acknowledging that they have received and understand training on the Agency's zero-tolerance policy, their responsibilities, resident's rights, dynamics and common reactions of sexual abuse and sexual harassment, how to detect and respond to signs of threatened and actual sexual abuse, how to avoid inappropriate relationships with residents, effective and professional communication with residents including LGBTI or gender non-conforming residents, how to comply to relevant laws related to mandatory reporting of sexual abuse and relevant laws regarding the applicable age of consent. Volunteers and Interns also completed the same training in February 2017. Additionally, the facility provided training records from 2013-2017 to show consistency of training every two years.

There are currently 24 staff assigned to this facility. Interviews with twelve random staff confirm that they receive formal PREA education every two years and other PREA education/information periodically but at least once per year. Staff interviews confirmed that they understood the training received through the formal PREA training classes and through memo form or through briefings that is presented fairly frequently throughout each year.

The auditor reviewed twelve staff training documents. Each training document shows that staff have completed the required training and document their attendance through a sign in sheet. Additionally, staff sign an Employee Policy Receipt indicating their acknowledgement and understanding of the information.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy requires that all volunteers and contractors shall be trained in sexual abuse and sexual harassment prevention, detention, and response policies and procedures at a level and type provided be based on the services they provide and level of contact with they have juveniles. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): The policy requires that all youth receive at the time of screening the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or sexual harassment. Juvenile orientation shall occur within 10 days of admission to the facility and it shall be age appropriate and offered either in person or through video (Keeping our Kids Safe). Topics that will be covered include: the zero-tolerance policy, acceptable and appropriate behaviors for youth, reporting procedures, Request & Remedy process, and access to the Commission's Ombudsman. A Resident Handbook shall also be provided to youth and shall include material clearly describing all material rights, privileges services programs, and obligations of juveniles under the Prison Rape Elimination Act and the policy. Materials are required to be maintained in both English and Spanish. Additional translation services are available as needed.

The Department of Education, Child Study Team case managers work with residents to identify any special circumstances which indicates the need for special education or related services and ensure that teacher support is provided at the facility (NJAC 6A:14). The agency Office of Education provides for bi-lingual, ESL and English language education for youth, and these services are available at any time. The agency has available material in English and Spanish (most common non-English language identified in the facilities). Staff have access to request assistance from the New Jersey Department of Human Services, Division of the Deaf & Hard of Hearing for residents with limited or no hearing. Staff have access to

request assistance from the New Jersey Department of Human Services, Commission for the Blind and Visually Impaired for residents who have limited or no sight.

The New Jersey Department of Law & Public Safety JJC Brochure “Resident’s Guide to the Prison Rape Elimination Act” is provided to residents at intake. This guide details that reports can be made through the PREA Complaint Form, telling a staff, the sexual abuse hotline, and the Commission’s Ombudsman.

The Resident’s Handbook was reviewed and contains a page with a variety of reporting methods that include: writing or telling staff, Request & Remedy process, to the Ombudsman, through the facility sexual abuse hotline, and through the agency website.

Agency Posters: Posters were created by the agency and are required to be posted in the facility. These include, in both English and Spanish, “Speak up, Get Help” and “Healthy Boundaries”.

During the tour, the auditor noticed the PREA board that was visible to the youth and staff and showed information as to what sexual abuse is and how to report. These boards are located in areas frequented by youth daily and also contain PREA Jeopardy questions.

An interview with two staff who conduct resident education, both reported that youth receive the PREA Brochure, Resident Handbook, information on the various way to report sexual abuse or sexual harassment, the grievance system, a review of the zero-tolerance policy, discuss appropriate conduct/barriers, and how to contact DCPD and the Ombudsman. Both report that this is conducted on the resident’s first day at the program and is individualized to meet the needs of the youth.

Interviews with residents confirm that they receive information on their first day regarding PREA and received a Youth Handbook and PREA reporting information. There were no targeted youth at the program during the on-site and therefore alternative methods of education could not be confirmed.

A review of resident PREA education found that youth sign two documents indicating that they have received the Resident Handbook and their rights, including PREA information, was explained to them and that they acknowledge that they have received PREA information including the various ways to report.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard based on the timeframe for providing PREA education to youth, the standard bulletin boards that contain PREA information, and the PREA groups being conducted.

Auditor Overall Compliance Determination

Exceeds Standard (*Substantially exceeds requirement of standards*)

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy requires all juveniles to be screened within 72 hours of their initial intake and within 72 hours of each transfer, as well as periodically thereafter. Information for consideration shall include prior sexual victimization or abusiveness; any gender non-conforming appearance or manner, or identification as LGBTQI, and whether the resident may therefore be vulnerable to sexual abuse, current charges and offense history, age, level of emotional and cognitive development, physical size and stature, mental illness or mental disabilities, intellectual or developmental disabilities, physical disabilities, the juvenile's own perception of vulnerability, and any other specific information about individual juveniles that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents.

All youth who enter the New Jersey Juvenile Justice Commission are assessed individually, and on a case-by-case basis, for any special needs, including those identified as LGBTI. Prior to a youth entering the Central Intake, local detention facilities provide the Pre-Disposition Report, Court Documents, Psychosocial, and other documents for review. Central Intake then creates an electronic record that is reviewed. At this time any special concerns are noted. Once the youth arrives at Central Intake, the Intake Screening for Potential Sexual Aggressive Behavior and Vulnerability for Victimization tool is completed. Once all screenings, evaluations and assessment are completed, a Juvenile Reception Classification Committee is scheduled. This committee consists of Administration, Classification, Substance Abuse, Gang, Custody and Social Worker staff who address the following based on the information gathered: Level of custody (classification staff); Program appropriateness (committee as a whole); and Housing with the Program (custody). For youth identified with special needs, a Special Care Review is held the first Monday after a youth is transferred to his custody program. Administration, Classification, Social Services, Mental Health, Custody and RATSU (Rehabilitative and Treatment Services Unit) staff meet to address treatment plans, housing, special needs and ensuring all needs of the youth are met. All youth, regardless of special needs, are reviewed approximately every 60 days (45-90 days) for a change in custody levels. This is to address the Comprehensive Assessment Plan that was created.

In an interview with the Agency PREA Coordinator, he reports that there are no specific housing facilities for youth who identify as lesbian, gay, bisexual, transgender or intersex (LGBTI). These youth would be integrated into general population at a facility that is appropriate to their identified needs.

When a youth is transferred to this facility, the staff interview confirmed that a review, or new, Intake Screening for Potential Sexual Aggressive Behavior and Vulnerability for Victimization is repeated. The

questions asked of the juvenile are to illicit a response of their fears, sexual orientation/identification, prior victimization, and other factors that may indicate special consideration. This allows continued review of the youth's own perception of risk and to update the existing form.

When placing residents for community programming, the resident is placed in a facility that is able to meet their immediate needs, and is hopefully close to where they will reside upon release. If a probationer is not processed through reception, and reports directly to the facility, a Qualified Mental Health Care Professional or by a trained social worker or medical designee will complete the screening.

A new Risk Screening is then completed on the day of intake and the staff who conducts the risk screening has reported that she directly asks the youth about sexual orientation. The staff interviewee also reported that the risk screening is updated as new information is received. A review of records indicates that these are completed on the day of arrival.

A sample of resident files indicates that the screening forms were present and completed on the first day of their arrival. All information required by PREA standards and Agency policy were addressed.

Resident interviews confirm that they were asked specific questions regarding their safety, prior victimization, and other questions. All reported that this interview was completed on their first day at the facility.

Two staff were interviewed regarding the assessment. Both reported that they complete the Intake Screening for Potential Sexual Aggressive Behavior and Vulnerability for Victimization on the resident's first day at the program. In addition to asking the required questions, both report that they review incoming documentation and observe the youth. The documentation checked includes court records, prior facility behavioral records, and mental health and medical screenings. It was also reported that the resident receives a rescreening every six months.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through resident and staff interviews, the auditor finds that the facility exceeds the requirements of the standard as identified through records that screening is completed one the first day of intake and repeated assessments every 6 months, along with other information being reviewed prior to the actual arrival of the youth.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): The policy states that all information gathered and documented at initial intake (Intake Screening for Potential Sexual Aggressive Behavior and Vulnerability for Victimization and the Safe Housing Assessment) shall be included in the intake psychological assessment and the comprehensive informational assessment/case action plan to be presented to the Reception Classification Committee for further consideration of assignment and referrals. Additionally, classification decisions with respect to facility, education and work assignments shall at no time be made solely on the basis of LGBTQI or gender non-conforming status or identification. The policy prohibits the placement of residents into a facility, assignment of roommate, education and work assignments based on LGBTQI status. Policy allows for placement of LGBTQI residents in room restriction, temporary close custody or a Behavior Accountability Unit as a means of keeping them safe only as a last resort. The policy addresses housing and programming for transgender and intersex residents that is based solely upon their needs and the needs of the agency in providing safe housing for all residents. Individual needs are addressed through the Sex Offender Classification Committee (SOCC). Note that the name of the committee does not in any way mean that transgender and intersex residents are considered sex offenders.

New Jersey Juvenile Justice Commission, Policy 13ED:01.02A (rev 2013), LESBIAN, GAY, BISEXUAL, TRANSGENDER, QUESTIONING, AND INTERSEX (LGBTQI) JUVENILES: This policy was created to provide the highest quality of services to juveniles regardless of actual or perceived sexual orientation, gender identify, or gender expression. The policy requires that any disclosure of information about a juvenile's LGBTQI status maybe communicated only when relevant and necessary for treatment, case planning, and finding effective services for the juvenile or other juveniles, and shall only be disclosed when necessary to achieve a specific beneficial purpose and shall be communicated only to the individuals necessary to achieve that purpose. The policy requires that classification decisions with respect to facility, assignment of roommates, education and work assignments, shall at no time be made solely on the basis of LGBTQI or gender nonconforming status or identification. The policy prohibits a facility from placing a LGBTQI juvenile in either room restriction, or temporary close custody, or be referred to the Behavior Accountability Unit, as a means of keeping them safe from discrimination, Gender Identify Harassment, or abuse. However, nothing shall prevent the separation of a juvenile when deemed necessary for the juvenile's health or safety by either a Qualified Health Care Professional or a Qualified Mental Health Care Practitioner.

All youth who enter the New Jersey Juvenile Justice Commission is assessed individually, and on a case-by-case basis, for any special needs, including those identified as LGBTI. Prior to a youth entering the Central Intake, local detention facilities provide the Pre-Disposition Report, Court Documents, Psychosocial, and other documents for review. Central Intake then creates an electronic record that is reviewed. At this time any special concerns are noted. Once the youth arrives at Central Intake, the Intake Screening for Potential Sexual Aggressive Behavior and Vulnerability for Victimization tool is completed. Once all screenings, evaluations and assessment are completed, a Juvenile Reception Classification Committee is scheduled. This committee consists of Administration, Classification, Substance Abuse, Gang, Custody and Social Worker staff who address the following based on the information gathered: Level of custody (classification staff); Program appropriateness (committee as a whole); and Housing with the Program (custody). For youth identified with special needs, a Special Care Review is held the first Monday after a youth is transferred to his custody program. Administration, Classification, Social Services, Mental Health, Custody and RATSU (Rehabilitative and Treatment Services Unit) staff meet to address treatment plans, housing, special needs and ensuring all needs of the youth are met. All youth, regardless of special needs, are reviewed approximately every 60 days (45-90 days) for a change in custody levels. This is to address the Comprehensive Assessment Plan that was created. Residents meet with the Case Action Team (multi-disciplinary team) every 60 days and information is updated as identified.

In an interview with two staff who conduct the risk screening, both reported that the assessment information is used to keep youth safe. The information is used in bed assignments and during the assignment of educational or other programming services. Access to this information is limited to mental health, medical, and administration.

Policy allows for transgender and intersex residents to be able to shower separately from other residents upon request. The JJC Safe Housing Assessment is used for appropriate housing placement. Isolation is prohibited at this facility. All housing changes may be made only with the Approval of the Superintendent or Facility PCM, both who have access to the risk screening tool and this is documented on the bed change form.

In an interview with the Agency PREA Coordinator, he reports that risk assessment questions and answers are only made available to medical staff, mental health staff, Superintendents, and the Executive Director. However a master list of those who are vulnerable or who are identified as sexually aggressive is maintained and updated as needed for making housing decisions or changes.

This program length of stay is approximately 6-12 months. There were no transgender or intersex youth present at the program. Staff reported, and youth interviews confirmed, there are no youth who identify transgender or intersex at this time.

A review of the list that identifies those who are vulnerable or who are identified as sexually aggressive was conducted. There are no youth who identified as either vulnerable for sexually aggressive.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard as noted in the frequency of the reassessment, limited access to records, and requirement for housing changes only with the approval of identified staff.

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): allows for residents to report sexual abuse or sexual harassment verbally or in writing to any staff member, by telephone to either or both the Department of Children and Families, Division of Child Protection and Permanency (DCPP) and an outside sexual abuse hotline to which confidential access shall be provided by the Commission, by telephone or written correspondence to the Commission's Ombudsman, and in writing, utilizing the Request and Remedy Process. Superintendent memo dated December 27, 2016 reminds staff of the ways that they can report sexual abuse or sexual harassment include speaking to Administration, the Hotline phone, to the Crisis Center/Hospital, or to the Ombudsman.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): The policy addresses staff reporting of sexual abuse or sexual harassment by notifying the Shift Coordinator and the Superintendent or designee, the Office of Investigations, or to the DCPP Abuse Hotline.

The Agency has a dedicated phone line to include a direct line for residents to contact the Department of Children and Families, Division of Child Protection and Permanency (DCPP). Further consultation with DCPP confirmed that should a youth who is 18 years of age or older contact DCPP to report abuse, the screener would take the information and make a referral to the local police or an appropriate service provider and/or provide the youth the information on who to call.

Resident interviews confirmed that they are made aware of how to report sexual abuse and sexual harassment at intake, through PREA groups, and through information that is posted throughout the facility. Resident interviews also indicated that they have received education on accessing the phone line in the dining hall to make calls to the DCPP, and are not required to notify staff of their intent.

Staff Interviews confirmed that they are aware of the ways for youth to report, and that they are aware of the variety of methods that are available for staff to report. Staff also reported that they are able to report

allegations outside of the facility to the Office of Investigation, to the Agency PREA Coordinator, or a report to the Executive Director.

The auditor reviewed educational materials and found that residents may report as per policy. The auditor also utilized the phone system and contacted the DCPD to verify youth's access.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard as noted through the dedicated phone line to DCPD, as well as to the other options for reporting available.

Standard 115.352: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.352 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.352 (b)

- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.27 (rev 2014), REQUEST AND REMEDY PROCESS: This policy addresses the exhaustion of administration remedies. There is a grievance system known as a Request and Remedy which requires a response within 20 days. A Request and Remedy PREA Complaint form has been created to address emergency reporting through written format

and requires an immediate response. Policy allows no time frame for reporting sexual abuse or sexual misconduct and there is no requirement for an informal process to be utilized prior to the filing of a Request and Remedy. Youth may request assistance in completing the form and a lockbox is located for youth to submit the form anonymously. Youth are allowed to select if they wish the form to be provided to the Ombudsman or sent directly to the Office of Investigations. All forms received by staff that alleged any sexual abuse or criminal activity shall be called into the Executive Director and forwarded to the Executive Director within one day. If criminal in nature, the information shall be automatically called to the Office of Inspections. The decision of the Request and Remedy process requires that an appeal form be supplied to the youth when giving a decision; however, in the case of a PREA Complaint form, the investigators will make notification to the youth.

There is a third party complaint reporting form on the state website, and available at the facility, for any person to access and utilize to report sexual abuse or sexual harassment.

In an interview with the staff responsible for grievances, it was reported that the grievance box is emptied daily. Should an allegation be documented, the staff would review, obtain additional information from the youth, and forward the information to the OOI, Superintendent, and Regional Management staff.

An interview with the OOI Investigator reports that grievances are addressed immediately and an investigation begins. He also reports that all residents are provided notification of the outcome of the report.

A review of the Pre-Audit Questionnaire indicates that there were no grievances were filed alleging sexual abuse or sexual harassment in the last twelve months. No grievances were received that alleged a youth was at substantial risk of imminent sexual abuse in the past twelve months.

Resident interviews confirmed that they are aware that this is a method of reporting, and no youth interviewed alleged completing a grievance alleging sexual abuse or sexual harassment.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard as noted through a separate system for grievances alleging sexual abuse and sexual harassment that are addressed immediately by the Office of Investigations and are forwarded to the Executive Director and resident awareness of this method of reporting.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy 09CP:P13.02 (rev 2009), JUVENILE RIGHTS, RESPONSIBILITIES AND RESOLUTION OF CONFLICT: The policy requires that the Facility Administrator shall ensure that juveniles entering the program are advised that all reasonable efforts will be made to maintain confidentiality of their personal issues. However, in cases such as prior criminal activities, child abuse, medical or psychiatric emergencies, imminent harm to others, or threats to commit future harm, the program is required by law to notify proper authorities. This policy also requires that youth rights include correspondence with and visits with family; unrestricted and confidential access to the courts by correspondence, access to legal counsel from an attorney of their choice both through meetings and correspondence, and the right to receive help when it is available through legal assistance programs.

The New Jersey Coalition against Sexual Assault (NJCASA) offers services to both survivors of sexual violence and their loved ones. NJCASA is the statewide advocacy and capacity building organization that represents the twenty-one (21) county-based rape crisis centers, and the Rutgers University – New Brunswick Office of Violence Prevention and Victim Assistance. NJCASA elevates the voice of sexual violence survivors and service providers by advocating for survivor-centered legislation, training allied professionals, and supporting statewide prevention strategies that work to address and defy the socio-cultural norms that permit and promote rape culture.

In an interview with New Jersey Coalition Against Sexual Abuse (NJCASA) Assistant Director and Capacity Building Manager, it was reported that the New Jersey Juvenile Justice Commission has been working closely with NJCASA to finalize an agreement between the two entities. The agreement is currently working through the various levels of review required before finalization. NJCASA reported that they will support MOU's at the local level, provide technical assistance, and interface with the facility to address services requested. In the interim, NJCASA provides services as requested by youth through the phone system.

The facility has a dedicated phone line directly to support services. Youth are able to access phones as needed. The auditor utilized the phone to access youth access and found that the call was answered by RAINN staff and the call would be forwarded to the local rape crisis center. The facility also provides youth with the County SART Coordinator contact information for services that are mandated by state legislation.

Additionally all residents are provided a list of all identified external support services agencies broken down by county, which can assist a youth while at the facility and upon their transition back into the community. The list includes addresses and phone numbers and youth are permitted to contact through the facility phone system. Interviews with youth found that they were aware of a list of agencies that would be able to provide services and received a copy of the information. This information is provided to youth during intake and posted within the program.

Interviews with residents confirm they are aware that services are available as a list is provided to them at intake and posted in the facility. Youth interviewed confirmed that they are able to communicate with their attorney's and parent/guardian through visitation, calls, and correspondence.

Interviews with staff confirm that they are aware of the services and allow youth access to the phones when needed. Staff confirm that youth are permitted visitation, phone calls, a written correspondence with attorney's and parent/guardian. Special visits can be scheduled through the social worker or Superintendent.

In an interview with the Facility PCM, he reports ongoing communication with St. Francis Counseling Services. While no MOU is currently in place, he has worked with this agency to ensure that youth have

access to services as needed. St. Francis Counseling Services has provided an informational brochure that is to be provided to youth. In his discussions with St. Francis Counseling Services, it was reported that no youth have accessed these services.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

Standard 115.354: Third-party reporting

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.354 (a)

- Has the agency established a method to receive third-party reports of sexual abuse and sexual harassment? Yes No
- Has the agency distributed publicly information on how to report sexual abuse and sexual harassment on behalf of a resident? Yes No

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): Policy will allow the agency to accept third-party allegations of sexual abuse or sexual harassment.

New Jersey Juvenile Justice Commission website provides contact information for the Ombudsman, who acts as a link between youth and the Agency. Any person wishing to make a report is able to access this information.

The agency has created a 3rd Party PREA Complaint Form which is available on the state's website. This form allows for printing or fillable format, which can then be printed and mailed to the Commission. The address for the Commission is on the form. A hard copy of this form is available in the facility. All residents are advised that this form is another method of reporting by parents, guardians, or other identified outside persons.

Interviews with staff and the Agency-wide PREA Coordinator confirm that third-party complaints will be investigated.

There have been none reported in the past 12 months.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): Policy requires all staff to immediately report any incidents of sexual abuse or sexual harassment to both the agency and the Division of Child Protection and Permanency (DCPP). Staff are prohibited from revealing information to anyone who does not have a need to know. Additionally, a memo was issued to all staff on November 12, 2015 that noted staff are mandated to report any information regarding sexual abuse or sexual harassment. A memo from the Agency dated August 20, 2014 requires reporting to the youth's attorney within 14 days, and to the parent or DCP&P (if guardian).

A staff PREA reference guide has been issued to staff. This guide requires that DCPP be notified if there is an allegation of sexual abuse that occurred in the facility or in the community and the resident is under the age of 18. If the resident is 18 years of age or older, the Superintendent, Office of Investigations, and the Regional staff is notified. If the resident is over the age of 18 and the incident occurred in the community, the staff must complete an Informed Consent before reporting to the above identified persons. This reference guide also reminds staff that they are not to discuss the incident with anyone other than the Superintendent, Assistant Superintendent, or Investigator.

Staff are required to complete an incident report and a Suspected Child Abuse Report which is then called into the DCPP Child Abuse Hot-Line before the end of their shift.

Staff interviews confirm their knowledge of reporting to the facility and the writing of a report before the end of their shift.

Medical staff and mental health staff inform residents of their duty to report and the limitations of confidentiality. Additionally, both are aware of the requirements of being a mandatory reporter.

The auditor placed a call on the dedicated phone line for youth reporting sexual abuse to ensure that DCPP is notified.

There were no allegations within the past 12 months in order to conduct file reviews.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility meets the requirements of the standard.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): This policy requires that all allegations of sexual abuse and sexual harassment are required to be reported and investigated.

New Jersey Juvenile Justice Commission, Policy 14OOI:01.29 (rev 2014), PREA INVESTIGATIONS: This policy requires an investigation of all PREA related incidents. This authorizes the Chief to utilize external law enforcement agencies, and/or the assistance by such agencies, in the investigation of sexual offenses. This policy requires that investigators will consult with the appropriate County Prosecutor's Office at the onset of investigations of sexual crimes, and prior to conducting compelled interviews. The policy requires that investigators shall gather and preserve any direct and circumstantial evidence including any available physical and DNA evidence, and/or electronic monitoring data. Investigators shall interview alleged victims, suspected perpetrators, and witnesses. Investigators shall review prior complaints and reports of sexual abuse involving the suspected perpetrator. The policy prohibits the termination of an investigation solely because the source of the allegation recants or the alleged abuser or victim is no longer in the employment or control of the Juvenile Justice Commission. The policy addresses the credibility of a victim, suspect or witness. The policy prohibits the use of a polygraph as a condition for proceeding. The policy requires a written report to be maintained that includes a description of the physical and testimonial evidence, the reasoning behind any credibility assessment, and the facts and findings of the investigation. All Criminal and Administrative investigations will be documented in accordance with established procedures. This policy requires that records will be retained for at least the period specified in New Jersey Records Retention Schedules, and at least as long as the abuser is incarcerated and/or employed, plus five years.

All investigators at the agency level are sworn law enforcement and have received appropriate training as indicated by standard 115.334. Investigators conduct all aspects of the investigation including evidence collection, interviews and review for prior complaints. They are in contact with prosecutors on a regular basis during an investigation. The policy prohibits the use of polygraph examinations as a condition for proceeding with an investigation. Policy and state law require all evidence to be maintained, including any handwritten notes, video, audio, etc.

In an interview with the Agency PREA Coordinator, he reports that the Office of Investigations (OOI) is a sworn law-enforcement department who conducts PREA investigations. OOI staff consult with the local county prosecutors periodically and when criminal behavior is identified. Local county prosecutors would either take the lead on the investigation, or continue to work closely with the OOI. The OOI has a strong working relationship with local county prosecutors and the Attorney General.

In an interview with an OOI Investigator, he reports that all allegations, regardless of how received, are investigated and that there is no difference between an allegation that came from a youth versus an allegation made through a third party or anonymous source. He reports that it is policy to begin an investigation within 24 hours of the allegations through a determination of defining the allegation and beginning the evidence collection process. Evidence collected includes statements from witnesses, victim, and alleged suspect, video, DNA, photographs, and prior allegations or prior complaints. He reports that prosecutors are consulted in all matters that are criminal. He report that all investigations continue regardless of the victim or subject no longer being in the care and custody, or employment, of the Agency.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

New Jersey Juvenile Justice Commission, Policy ED:01.02 (rev 2016), PRISON RAPE ELIMINATION ACT (PREA): Policy requires that any indication of a juvenile having either experienced prior sexual victimization, or previously perpetrated sexual abuse, whether it occurred in an instructional setting or in the community, the juvenile shall be offered a follow-up meeting with a Qualified Mental Health Care Professional within 14 days of the intake screening. If a Qualified Mental Health Care Professional is not available, a Qualified Medical Professional may be substituted in the case of a juvenile who has experience prior sexual victimization. This policy also clarifies that any information gathered and documented at initial intake shall be included in the intake psychological assessment and the comprehensive informational assessment/case action plan to be presented to the Reception Classification Committee for further consideration of assignments and referrals.

New Jersey Juvenile Justice Commission, Policy 09MS:E.02 (rev 2009), RECEIVING SCREENING – NEW INTAKES: This policy is to identify and meet any urgent health needs of residents admitted to an agency facility; to identify and meet any known or easily identifiable health needs that require medical intervention before the resident's health assessment; and to identify and isolate residents who appear potentially contagious. This policy requires an initial receiving screening, including a Snellen Vision Screening, at an intake facility that includes identifying and addressing any language barriers (blind, deaf, Limited English Proficient). Immediate psychiatric referral shall be made for any resident who is identified as high risk with a history of sexually assaultive behavior; and/or resident is identified as at-risk for sexual victimization. If a resident is suspected of being a victim of abuse or neglect, the qualified health care professional or trained health care liaison shall immediately notify the Facility Administrator and chain of command. All residents are tested initially for sexual transmissible infections, tuberculosis and pregnancy (if applicable).

State of New Jersey Juvenile Justice Commission, dated October 14, 2014, from Executive Director Kevin M. Brown: "Medical and mental health practitioners shall obtain informed consent from residents before

reporting information about prior sexual victimization that did not occur in an institutional setting, unless the resident is under the age of 18.” A Juvenile Consent: Reporting Prior Non-Institutional Incidents of Sexual Victimization to The Division of Child Protection and Permanency (DCCP) (rev 2014) for was implemented that allows the juvenile to consent to the sharing of information.

New Jersey Juvenile Justice Commission, Health Policy Services Manual, Policy HS:01.01 (rev Oct 2015): Section 2.7 Communication on Special Medical Needs addresses the documenting and sharing of information with the Superintendent or designee on any special needs that could affect a juvenile’s housing, work and program assignments and disciplinary sanctions.

In interviews with both medical and mental health staff, both reported that they are aware of the requirement to obtain informed consent should they become aware of any prior victimization that occurred prior to the youth’s placement in the facility, as well as if the youth his over the age of 18. Both report receiving training on the requirement to contact DCCP if a youth reports victimization and is 17 years of age or younger. Both report that information is kept confidential except when needed to make decisions on the placement of youth and any other special needs that should be addressed.

In an interview with risk screening staff, it was reported that there is an auto generated notice to Qualified Mental Health Care Professionals when prior sexual victimization or previously perpetrated sexual abuse is identified at intake. Mental health staff reported during the interview that they would receive an auto-generated notification and respond within 24-72 hours or are available by phone if immediately services are needed/requested.

The Coordinated Response Plan requires notification to medical and mental health staff if a youth alleges victimization.

Based on the information discovered in agency policies, observations, documentation reviewed, and information obtained through staff interviews, the auditor finds that the facility exceeds the requirements of the standard as identified through immediate notification (auto-generated) to medical and mental health staff of any victimization identified at intake.

Policy also requires that alleged victims and perpetrators shall be referred to mental health services to be seen for evaluation and follow-up services as needed as soon as possible, but in any event not later than within 24 hours.

In 1998, the Attorney General promulgated the Attorney General Standards for providing services to Victims of Sexual Assault, which were formulated through meetings of the Sexual Assault Protocol Council. The Standards require the formation of a Sexual Assault Response Team (SART) in each county and trained forensic nurses, known as Sexual Assault Nurse Examiners (SANEs). A SANE, along with a rape care advocate and a member of law enforcement, make up the SART. All counties have a SART that is funded through the State Office of Victim-Witness Advocacy.

Medical staff interviews confirmed that SANE services would be offered through Ocean Medical Center if the allegation is made within 5 days from the incident. Emergency contraception an STD testing and prophylaxis would be initiated in the Emergency Department, with follow-up at the facility per medical orders.

Both medical and mental health staff reported that youth are not charged for any treatment services as a result of a victimization.

SANE services and victim advocacy is provided through the County Prosecutor's SART program. For this facility, the youth would be taken to Ocean Medical Center and victim advocate would be provided through the County Prosecutor's SART program.
