**I. PURPOSE AND INTENT**

This Request for Proposal (RFP) is issued by the New Jersey Juvenile Justice Commission (the Commission). The Juvenile Justice Commission is the single agency of State government with centralized authority for planning, policy development and provision of services in the juvenile justice system.

The purpose of this RFP is to solicit proposals for the provision of Intensive Outpatient substance abuse services (IOP) and to award a contract to the responsible vendor whose proposal, price, and other factors considered, and conforming to this RFP, is most advantageous to the State. The State, however, reserves the right to separately procure individual requirements that are the subject of the contract during the contract term, when deemed by the Commission to be in the State's best interest. The New Jersey Standard Language Document will apply to all contracts or purchase agreements made with the Commission.

**II. BACKGROUND**

The Juvenile Justice Commission is the single agency of State government with centralized authority for planning, policy development and provision of services in the juvenile justice system. The Commission's three primary responsibilities are the support of local efforts to provide services to at risk and court involved youth; the care, custody, and rehabilitation of juvenile offenders committed to the Commission by the courts; and the supervision of youth on juvenile parole. The Commission operates both secure facilities and residential community homes. Secure facilities are staffed by civilian and law enforcement personnel and provide a full range of services including, but not limited to education, vocational programming, counseling and medical services. Residential Community Homes (RCH) offer a less restrictive environment and are staffed by trained civilian staff. Each secure facility and RCH provides a full education curriculum aimed at the pursuit of a high school diploma or GED; various recreational activities; and instruction in life skills, health, and nutrition. Post-release planning and comprehensive individual reentry plans are developed for each resident to assist with his or her transition from a Commission program to his or her home community.

**III. DEFINITIONS**

For the purposes of this RFP, the following definitions apply:

Vendor: the Individual or Agency submitting a proposal

Contractor: the Individual or Agency with whom the State of New Jersey has selected to contract

#### **IV. SCOPE OF WORK**

Vendors should anticipate that failure to submit a proposal containing all elements specified in the RFP, will negatively affect the review of their proposal. This section of the proposal should minimally contain the vendor's resume and cover letter describing how the vendor's qualifications and therapeutic approach will accomplish the work outlined below as well as the location which the vendor is proposing to provide services and/or willing to provide services if multiple proposals are accepted.

#### **PROBLEM STATEMENT/NEEDS ASSESSMENT**

The availability of substance abuse treatment for juveniles in the care of the Commission is a vital need. Every youth admitted receives a comprehensive substance abuse assessment, which identifies a recommended level of care for each youth. The Commission utilizes the American Society of Addiction Medicine (ASAM) Adolescent Patient Placement Criteria in making these recommendations for placement and treatment. Website link [www.asam.org](http://www.asam.org)

The Commission currently operates several residential programs designed to provide services exclusively to youth with substance abuse issues as well as secure housing units for youth who, for various reasons, are ineligible for community placement. Staff members in these programs and housing units endeavor to create a complete therapeutic community specifically designed for adolescents. Currently, staff utilizes the New Freedom Curriculum, a comprehensive substance abuse and behavioral health treatment resource which can also be customized for adolescents. Website Link [www.newfreedomprograms.com](http://www.newfreedomprograms.com)

Many JJC residents transition to parole and post-incarceration supervision with the continued need for substance abuse treatment in the community; often with required intensive outpatient substance abuse services as a condition of their parole and post-incarceration supervision and part of their comprehensive reentry plans.

#### **A. SERVICES REQUIRED**

The Commission is seeking to contract with an agency to provide individual and group substance abuse counseling to youth between the ages of 16-24 referred by the Juvenile Justice Commission who are in need of intensive outpatient services.

The selected Contractor shall develop comprehensive treatment and aftercare plans in coordination with the JJC Office of Parole and Transitional Services. The selected Contractor must remain in contact with the appropriate Social Worker, who works with the family.

The selected Contractor shall service residents of the Northern Region Independence and Re-Entry Success Center, which is located in Newark, New Jersey. Youth enrolled in the program, who need substance abuse services shall receive one (1) educational group counseling session per week. Youth enrolled in the residential component of the program, scoring 2.5 or high on the ASAM, shall receive one (1) individual counseling session and two (2) group sessions per week. There will be approximately, ten residents per month who will meet the requirement above.

Vendors submitting proposals shall be licensed by the Department of Health, Division of Mental Health and Addiction Services, and ensure staff providing counseling services employ evidence-based therapies and practices and minimally possess credentials of a Certified Alcohol and Drug Counselor (CADC).

## **B. BUDGET**

The Proposal shall include a detailed Fee-For-Service Pricing Plan.

## **V. ATTACHMENTS**

All attachments must be submitted with the proposal. Failure to submit any attachments will result in your proposal being rejected. ## **VI. MANDATORY PRE-PROPOSAL CONFERENCE**

The contract may be extended at a 12-month interval twice by the mutual written consent of the Contractor and the JJC at the same terms, conditions and pricing at the rates in effect in the last year of the contract No single extension shall exceed one (1) year. No services can be provided under this awarded RFP after the two extension periods have been exhausted.

## VIII. SUBMISSION OF PROPOSAL

### **25. REMEDIES FOR FAILURE TO COMPLY WITH MATERIAL CONTRACT REQUIREMENTS**

In the event that the Contractor fails to comply with any material contract requirements, the Executive Director of the Commission may take steps to terminate the contract in accordance with the Juvenile Justice Commission Standard Language Document, authorize the delivery of contract items by any available means, with the difference between the price paid and the defaulting Contractor's price either being deducted from any monies due the defaulting Contractor or being an obligation owed the State by the defaulting Contractor as provided for in the State administrative code, or take any other action or seek any other remedies available at law or in equity.

### **26. LATE DELIVERY**

The Contractor must immediately advise the Commission of any circumstance or event that could result in late completion of any task or subtask called for to be completed on a specific date.

### **27. ADDITIONAL WORK AND/OR SPECIAL PROJECTS**

The Contractor shall not begin performing any additional work or special projects without first obtaining written approval from both the State Contract Manager and the Executive Director of the Commission.

In the event of additional work and/or special projects, the Contractor must present a written proposal to perform the additional work to the State Contract Manager. The proposal should provide justification for the necessity of the additional work. The relationship between the additional work and the base contract work must be clearly established by the Contractor in its proposal.

The Contractor's written proposal must provide a detailed description of the work to be performed broken down by task and subtask. The proposal should also contain details on the level of effort, including hours, labor categories, etc., necessary to complete the additional work.

The written proposal must detail the cost necessary to complete the additional work in a manner consistent with the contract. The written price schedule must be based upon the hourly rates, unit costs or other cost elements submitted by the Contractor in the Contractor's original proposal submitted in response to this RFP. Whenever possible, the price schedule should be a firm, fixed price to perform the required work. The firm, fixed price should specifically reference and be tied directly to costs submitted by the Contractor in its original proposal. A payment schedule, tied to successful completion of tasks and subtasks, must be included. Upon receipt and approval of the Contractor's written proposal, the State Contract Manager shall forward same to the Executive Director of the Commission for the Executive Director's written approval. Complete documentation from the Using Agency, confirming the need for the additional work, must be submitted. Documentation forwarded by the State Contract Manager to the Executive Director of the Commission must include all other required State approvals, such as those that may be required from the State of New Jersey's Office of Management and Budget and NJOIT.

No additional work and/or special project may commence without the Commission's written approval. In the event the Contractor proceeds with additional work and/or special projects without the Commission's written approval, it shall be at the Contractor's sole risk. The State shall be under no obligation to pay for work performed without the Commission's written approval.

## **28. CONTRACT ACTIVITY REPORT**

Contractor(s) must provide, on a calendar quarter basis, to the assigned Commission representative, a record of all purchases made under the contract resulting from this RFP. This reporting requirement includes sales to State-using agencies, political sub-divisions thereof and, if permitted under the terms of the contract, sales to counties, municipalities, school districts, volunteer fire departments, first aid squads and rescue squads, independent institutions of higher education, state and county colleges and quasi-State agencies. Quasi-State agencies include any agency, commission, board, authority or other such governmental entity which is established and is allocated to a State department or any bi-state governmental entity of which the State of New Jersey is a member.

This information must be provided in a tabular format such that an analysis can be made to determine the following:

a. Contractor's total sales volume to each purchaser under the contract, subtotaled by product, including, if applicable, catalog number and description, price list with appropriate page reference and/or contract discount applied; and

b. Total dollars paid to Subcontractors.

Submission of purchase orders, confirmations, and/or invoices do not fulfill this contract requirement for information. Failure to report this mandated information may be a factor in future award decisions.

## **29. AVAILABILITY OF FUNDS**

The State's obligation to make payment under this contract is contingent upon the availability of appropriated funds and receipt of revenues from which payment for contract purposes can be made. No legal liability on the part of the State for payment of any money shall arise unless and until funds are appropriated each fiscal year to the using agency by the State Legislature and made available through receipt of revenue.
