AUDIT FINDINGS

NARRATIVE:

Pinelands is an 18-bed Sex Offender staff secure residential treatment facility operated by the State of New Jersey, Department of Law & Public Safety, Juvenile Justice Commission located in Chatsworth, N.J. The facility serves adolescent boys, ages 14-18, who have been adjudicated delinquent and are classified as Level 1, community based placements by the New Jersey Juvenile Justice Commission. These youth have been involved in sexual related offences. The program has an on-grounds school that is accredited by the New Jersey Department of Education. The length of stay is 18 months. The facility employs 20 full-time staff. There are an additional 4 staff contracted by Rutgers University.

Prior to the on-site audit, the auditor reviewed all files that were sent in advance. The files were organized and easily identified as to the standard the document was referencing. The auditor conducted a pre-audit briefing prior to the on-site visit to identify issues that impacted a finding of compliance and to further explain some of the standards that were not familiar to program administration and staff.

An on-site PREA Audit was conducted on July 14-15, 2014. The entrance meeting was attended by this auditor, Pete Zeegers, Kim Spencer-Hudgins, Superintendent, and George Mick, Acting Asst. Superintendent, who also acts as the PREA Compliance Manager of the facility. The on-site audit work plan was discussed, random samples of youth and staff were selected, and specialized staff were identified. Also, additional pre-audit information was obtained.

There were zero PREA-related youth on youth allegations made in the previous 12 months.

Interviews were conducted with the agency Executive Director, the agency PREA Coordinator, the Pinelands Program Director, the acting Asst. Superintendent, Human Resources staff, Intake staff, the nursing supervisor, ten custody staff randomly selected from each of the three shifts in this facility, and ten youth randomly selected. The facility does not utilize volunteers but does with contractors.

On the days of the on-site audit 13 youth were housed in the facility. One youth had reported during the intake process previous physical or sexual abuse. The youth stated during the interview that he did not want or need any follow-up services because it happened when he was too young to remember. One youth identified themselves as being lesbian, gay, bisexual, transgender, questioning, intersex, or gender nonconforming during the intake process. There were zero youth identified as hearing or visually impaired, developmentally delayed, or who had limited English proficiency.

Youth receive information on PREA and their rights during the intake process. Additionally, after youth are admitted to the facility they are provided additional information about sexual abuse and harassment in both individual and group treatment. Youth who have experienced trauma, abuse, or victimization are provided treatment services, as needed.

DESCRIPTION OF FACILITY CHARACTERISTICS:

A tour of the facility was conducted, led by Superintendent Kim Hudgins-Spencer. Built in 1949 as a hunting lodge the facility is clean, in good repair, and well maintained. The New Jersey Commission took over the building in 1981. There are no fences around the facility. The front door is unsecure and leads to the administration area. There are 3 floors to this building. The living unit is on the third floor of the building and has a bathroom/shower area attached to the rooms. All youth are housed in this living area. The showers and toilets are at the far end of the living area. All toilets and showers have doors. Both review of policies and interviews with staff and youth confirmed that female staff are not permitted to enter or remain in this area. An unsecure door at the back of the kitchen area on the bottom floor leads out to a spacious recreation area. The education building is adjacent to the recreation field.

There are no cameras to survey the facility. There is no central or master control. Mr. Spencer-Hudgins agreed that not having cameras would lead to blind spots, and indicated that she would talk to her supervisor about a resolution.

The PREA Audit Notice was posted on the bulletin boards all over the facility on walls in the main lobby, in the youth living quarter's area and various hallways, as well as copies of the PREA brochure written in both English and Spanish, (this is the same brochure given to youth during the intake process). Posters containing both the Department of Children and Family, (D.C.S.) abuse number is prominently posted in the main lobby area, youth living units and hallways, as well. There is also a PREA Hotline stand alone phone stationed in the youth's living area where the youth can pick the phone up and it dials the National Rape Crisis Center automatically.
