**ATTORNEY GENERAL OF NEW JERSEY'S COMPLAINT  
IN PARTIAL INTERVENTION**

Gurbir S. Grewal, Attorney General of New Jersey ("Attorney General"), on behalf of the State of New Jersey ("Plaintiff" or "State"), by and through this Complaint in Partial Intervention, alleges claims under the New Jersey False Claims Act and Unjust Enrichment as follows against Defendants Adalex Enterprises Corp., d/b/a Adalex Communications, Adalex Communications Inc., and

Adalex Enterprises, Inc.; and Advance Telecom Resources (collectively, "Adalex" or "Defendants"):

**GENERAL ALLEGATIONS**

1. When contractors receive New Jersey taxpayer dollars for their work on public projects, they must pay prevailing wages to their employees pursuant to the New Jersey Prevailing Wage Act, N.J.S.A. 34:11-56.25 to 34:11-56.57. This is an action against Defendants who cheated their workers out of their hard-earned wages by failing to pay the workers the prevailing wage rate and kept New Jersey public funds for their own enrichment.

2. From 2010 to 2017, Defendants provided telecommunication services to the University of Medicine and Dentistry of New Jersey ("UMDNJ"), a State-run public health sciences university hospital. After the 2013 integration of UMDNJ with Rutgers University, Adalex continued to perform work for Rutgers University and University Hospital in Newark (collectively with UMDNJ, "the State Entities"). Pursuant to the Prevailing Wage Act, Defendants were required to pay their workers at least \$72.71 to \$83.87 per hour, including benefits, for any prevailing wage work performed for the State Entities during that time. Payroll records show, however, that Defendants often paid their workers less than \$30 per hour, including benefits, which is less than half of what was required. As early as 2010, Defendants were on specific notice that they were in violation of prevailing wage laws, yet did not

correct their practices.

3. The State brings this action and seeks to recover treble damages and civil penalties pursuant to N.J.S.A. 2A:32C-5(a) and N.J.S.A. 2A:32C-6(a) of the New Jersey False Claims Act, N.J.S.A. 2A:32C-1 to 2A:32C-18 ("FCA"), because Defendants submitted or caused to be submitted false claims for payment to a State entity.

4. Between 2010 and 2016, Defendants submitted at least 1,385 invoices to the State Entities that included prevailing wage work, without paying workers the prevailing wage rates. Between 2010 and 2016, Defendants underpaid their workers by at least \$392,046. Each of those invoices constitutes a false invoice under the FCA, and is subject to treble damages and statutory penalties - from \$5,500 to \$11,000, up to \$10,781 to \$21,563, per false invoice, depending upon the year the Defendants submitted the false invoice for payment.

#### **PROCEDURAL HISTORY**

5. Relator Russell Mollica originally filed this action under seal on April 26, 2016, pursuant to the qui tam provisions of the FCA.

6. The State declined to intervene on March 29, 2018.

7. The State now files this Complaint in Partial Intervention for good cause pursuant to N.J.S.A. 2A:32C-5(d) to intervene and prosecute the FCA and Unjust Enrichment claims brought by the Relator.

**JURISDICTION AND VENUE**

8. Jurisdiction is proper over Defendants pursuant to N.J.S.A. 2A:32C-5(a) for violations of the New Jersey FCA that are the subject of this Complaint in Intervention because each violation occurred in this State.

9. Venue is proper in Middlesex County pursuant to R. 4:3-2 because Defendants' principal place of business is in Middlesex County and certain causes of action arose in Middlesex County.

**PARTIES**

10. Plaintiff is the Attorney General, acting on behalf of the State, pursuant to his authority under the FCA. Specifically, the State brings this action pursuant to N.J.S.A. 2A:32C-5(a) and N.J.S.A. 2A:32C-6(a) because Defendants submitted or caused to be submitted false claims to the State Entities, which are funded by the State. N.J.S.A. 52:17A-4(h) also empowers the Attorney General to "[e]nforce . . . [the] laws of the State."

11. UMDNJ is a New Jersey State entity. Pursuant to the New Jersey Medical and Health Sciences Education Restructuring Act, on July 1, 2013, all units of UMDNJ integrated with Rutgers University except University Hospital in Newark and the School of Osteopathic Medicine in Stratford. For ease of reference, "the State Entities" shall refer to both UMDNJ before the restructuring in 2013, and Rutgers University and any other relevant related entities after the restructuring in 2013.

12. Relator Russell Mollica was an employee of Adalex from 2004 until June 2015 and the initial project manager for Adalex's telecommunications contract with the State Entities. Adalex terminated Relator's employment in June 2015, shortly after Relator advised Adalex in writing that it was not complying with the prevailing wage laws in connection with the contract with the State Entities.

13. Defendant Adalex Enterprise Corp. is a for-profit domestic corporation located at 71 Suttons Lane, Piscataway, New Jersey 08854. Defendant Adalex Enterprise Corp. does business under the names Adalex Communications, Adalex Enterprises, Inc., and Adalex Communications Inc.

14. Defendant Advance Telecom Resources, Inc. is a for-profit domestic corporation located at 71 Suttons Lane, Piscataway, New Jersey 08854. Advance Telecom Resources is affiliated with Adalex, with overlapping owners and corporate officers. Advance Telecom Resources is the entity that Adalex used to pay its workers their wages, and thus is jointly and severally liable with Adalex for failing to pay workers the proper wages due under the New Jersey Prevailing Wage Act.

15. Defendants John/Jane Does 1-10 are fictitious individuals meant to represent any additional individuals who have been involved in the conduct that gives rise to this Complaint in Partial Intervention, but are heretofore unknown to Plaintiff.

As these Defendants are identified, Plaintiff shall amend the Complaint in Partial Intervention to include them.

16. Defendants XYZ Corporations 1-10 are fictitious corporations meant to represent any additional corporations that have been involved in the conduct that gives rise to this Complaint in Partial Intervention, but are heretofore unknown to Plaintiff. As these Defendants are identified, Plaintiff shall amend the Complaint in Partial Intervention to include them.

**FACTUAL ALLEGATIONS**

**A. The New Jersey Prevailing Wage Act**

17. New Jersey first adopted laws governing the payment of prevailing wages in 1913, and adopted the current law, the New Jersey Prevailing Wage Act, in 1963. The Prevailing Wage Act protects both employers and employees from unfair competition caused by low wages:

It is declared to be the public policy of this State to establish a prevailing wage level for workmen engaged in public works in order to safeguard their efficiency and general well being and to protect them as well as their employers from the effects of serious and unfair competition resulting from wage levels detrimental to efficiency and well-being.

[N.J.S.A. 34:11-56.25.]

18. The Prevailing Wage Act requires that every "Public Work" contract in excess of a certain monetary threshold (that was exceeded here at all relevant times), to which any public body is a party, must provide that workers employed to perform the

contract be paid at least the prevailing wage rate. N.J.S.A. 34:11-56.27.

19. The Prevailing Wage Act defines "Maintenance work" as "the repair of existing facilities when the size, type or extent of such facilities is not thereby changed or increased." N.J.S.A. 34:11-56.26(3).

20. The Prevailing Wage Act defines "public body" to include the State of New Jersey, its agencies, authorities, or political subdivisions. N.J.S.A. 34:11-56.26(4).

21. The Prevailing Wage Act defines "Public Work" to include, in relevant part, any "construction, reconstruction, demolition, alteration, custom fabrication, or repair work, or maintenance work . . . done under contract and paid for in whole or in part out of the funds of a public body." N.J.S.A. 34:11-56.26(5). Work that falls under this definition is referred to herein as "Prevailing Wage Work."

22. The Prevailing Wage Act defines "prevailing wage" as "the wage rate paid by virtue of collective bargaining agreements by employers employing a majority of workmen of that craft or trade subject to said collective bargaining agreements, in the locality in which the public work is done." N.J.S.A. 34:11-56.26(9).

23. The State Entities are, each, a "public body," and much of the contracted telecommunications work Defendants performed

for the State Entities is "public work" under the Prevailing Wage Act.

24. Many types of telecommunications work qualify as Prevailing Wage Work, including the installation, repair, and replacement of coaxial cable; wiring and re-wiring; running lines and cables; repair and replacement of wall jacks; and terminating lines, wires, and cables.

25. The New Jersey Department of Labor and Workforce Development ("LWD") is the body that sets and publishes the prevailing wage rates ("Prevailing Wage Rate") for a particular craft or trade in a locality based on the relevant collective bargaining agreements. LWD also regularly makes determinations about what constitutes Prevailing Wage Work.

26. Here, Defendants' contract with the State Entities involved telecommunications work, which constituted work performed by "electricians" for prevailing wage purposes. Defendants' employees performed the majority of the Prevailing Wage Work under the relevant contract at the State Entities' Newark facility in Essex County.

27. The Prevailing Wage Work Defendants' employees performed for the State Entities required that Defendants pay them the designated Prevailing Wage Rate of a "Journeyman" or "Foreman" under LWD's published Prevailing Wage Rates for Essex County during the relevant time period.

28. A "Journeyman" is a worker in a skilled trade who has at least one year of experience and who is not a supervisor. The Prevailing Wage Rate for an electrician journeyman in Essex County between 2010 and 2016 was between \$72.71 and \$83.87 per hour, including benefits.

29. A "Foreman" is a person who supervises journeymen. The Prevailing Wage Rate for an electrician general foreman in Essex County between 2010 and 2016 was between \$88.72 and \$102.32 per hour, including benefits.

**B. UMDNJ Request for Proposal**

30. On August 19, 2008, UMDNJ issued a Request for Proposal, RFP Number P09-021 ("RFP") to "enter a contract(s) for University-wide Telecommunications services for all existing and future UMDNJ sites."

31. The RFP required the winning bidder or bidders to perform telecommunications services at various UMDNJ sites, including Newark, Piscataway/New Brunswick, Stratford, Camden, Somerset, and Scotch Plains.

32. The RFP defined the scope of the work broadly to include services "not limited to all telecommunications moves/adds, changes, new deployments, repairs, equipment and labor associated with the telecommunications voice and cable plant infrastructure, to provide support of such infrastructure on any/all existing and future UMDNJ Campuses."

33. The RFP stated that companies could form joint ventures to perform all of the services sought. UMDNJ also reserved the right to award the RFP to multiple vendors.

34. The RFP identified many types of telecommunication services for contractors to perform, including Prevailing Wage Work such as the installation and repair of cables and other wiring work. Most relevant here were three general types of services.

35. First, the RFP sought services for various cabling and other infrastructure work, including "indoor and outdoor cabling including new deployments, moves, adds, changes and repairs," "[c]abling associated with the voice network," "cabling associated with the IP and ISDN video network, including CATV and CCTV," and "[c]able infrastructure engineering and design services." This work is referred to hereinafter as "Infrastructure" work.

36. Second, the RFP sought "day-to-day operational support" including on-site support to respond to specific requests for assistance with day-to-day IT services. This work is referred to hereinafter as "On-Site" work.

37. Third, the RFP requested a flexible option for work that did not fall under either the Infrastructure or On-Site categories. For this work, UMDNJ would submit a request to the contractors for a price quote, and the contractors would respond with a "Purchase Order" "referencing the project and quotation

number" with a quotation for the cost. UMDNJ could then accept or reject the quotation submitted. This work is referred to hereinafter as "Purchase Order" work.

38. Work in all three categories of services - Infrastructure, On-Site, and Purchase Order - included Prevailing Wage Work by either a Journeyman or a Foreman.

39. The RFP incorporated by reference UMDNJ's "Standard Terms and Conditions," and stated that the "Standard Terms and Conditions take precedence over the Special Terms and Conditions contained in this Section of the RFP." The RFP also provided a reference ([www.umdnj.edu/purchweb](http://www.umdnj.edu/purchweb)) to those Standard Terms and Conditions.

40. The Standard Terms and Conditions in effect at the time of the RFP, and at all relevant times, required contractors to comply with all State laws, including the Prevailing Wage Act. It specifically stated:

1.1 Compliance - Laws

The Contractor must comply with all local, state, and federal laws, rules and regulations applicable to this contract and to the goods delivered and/or services performed hereunder.

\*\*\*

1.9 Prevailing Wage Act

The New Jersey Prevailing Wage Act, N.J.S.A. 34:11-56.26 et seq. is hereby made part of every contract entered into on behalf UMDNJ through the Department of Purchasing Services, except those contracts which are not within the contemplation of the Act.

The contractor guarantees that neither it nor any subcontractors it might employ to perform work covered by this proposal has been suspended or debarred by the Commissioner, Department of Labor, for violation for the provisions of the Prevailing Wage Act.

41. Thus, every bidder responding to the RFP was on specific notice that compliance with the Prevailing Wage Act, among other State laws, was required in performing work for UMDNJ and, later, the other State Entities. By responding to the RFP, Defendants agreed to abide by the Prevailing Wage Act and other State laws in their performance of the work under the RFP should they win the bid for any services.

**C. UMDNJ Awards the RFP to Defendants**

42. On September 18, 2008, Defendants submitted a response to the RFP. For the submission, Defendants augmented their telecommunication capabilities by entering into a Joint Venture Agreement with two other companies - Network Infrastructure Services, Inc. ("NIS"), and Telserv, LLC ("Telserv"). Under the Joint Venture Agreement, which Defendants submitted with their response to the RFP, the three companies agreed to split up the services that UMDNJ sought under the RFP.

43. Defendants' response to the RFP also included a pricing sheet listing the hourly rates they would charge for various types of work performed for UMDNJ. These pricing sheets acknowledged that prevailing wages would apply for certain work. For instance,

in a section titled "Cabling," Defendants' RFP response included a pricing sheet that stated:

Prevailing wage is available for construction projects, additional work and special projects. Below are hourly rates during normal working hours for Teledata workers. Overtime is 1 ½ the hourly rate shown below. Sunday and Holiday rate is 2 times the hourly rate shown below:

Foreman	\$126.00
Journeyman	\$115.00

*Any other additional Teledata worker labor categories, if required, shall be determined on a project by project basis.*

(Emphasis in original.)

44. On May 18, 2009, UMDNJ awarded one of the contracts pursuant to the RFP to Defendants, including the joint venture partners. The State Entities extended the contract on May 8, 2013, and May 25, 2016, also extending the original Standard Terms and Conditions each time. During the course of the contract, Defendants' work for the State Entities also expanded as Adalex took over certain work from other companies. Defendants' rates increased over time when it performed the contract for the State Entities. Defendants submitted the invoices to the State Entities for work performed for them and work performed by their joint venture partners.

45. The State Entities terminated the contract with Defendants in 2017.

**D. Defendants Violated the Prevailing Wage Laws in Performing the Contract for the State Entities.**

46. In early 2010, Defendants began performing work under

the contract for the State Entities. As the project manager, Relator was directly involved in Defendants' performance of the contract.

47. Soon after the start of the contract, NIS, one of Defendants' joint venture partners, raised questions about compliance with the prevailing wage laws.

48. On May 28, 2010, Michael Marino, president of NIS, emailed Relator and the two co-owners of Defendants, Anthony Parisella and Joseph Notarangelo, regarding prevailing wages:

I'm beginning to receive a number of questions from the tech group on the prevailing wage rates. We really need to address this as soon as possible. **If anyone calls the state there will be a red flag.** I need to produce a document to the guys so that they are confident that the rates do not apply. This is also for my behalf because of the significant liability that can occur if prevailing wage rates are applicable, backpay will need to be paid and we will need to re-address the quoting. Please let me know when we can speak about this in greater detail.

[Emphasis added.]

49. According to Relator, in response to the concerns raised, Defendants met with a representative from UMDNJ in July 2010, to discuss compliance with the prevailing wage laws. As a result of this meeting, Defendants became or should have become aware that certain work Defendants performed for the State Entities was Prevailing Wage Work.

50. On November 5, 2010, Doug Dennis, who was, at the time,

Manager of Purchasing Services at UMDNJ, sent a letter to Relator and the Defendants' co-owners, Parisella and Notarangelo, clarifying that the prevailing wage laws should have applied to certain work Defendants had already performed for fiber optics and telecommunications wiring.

51. Despite their statutory obligation to abide by the Prevailing Wage Act and pay their workers the appropriate Prevailing Wage Rates, and the State Entities' specific attention to the prevailing wage laws, Defendants failed to pay their workers the appropriate wages for their Prevailing Wage Work.

52. Between 2010 and 2016, Defendants' employees performed Infrastructure and Purchase Order work, including Prevailing Wage Work, and Defendants regularly submitted invoices to the State Entities when the work was completed. Between 2013 and 2016, Defendants also performed On-Site work, including Prevailing Wage Work, and submitted invoices to the State Entities for that work. Much of the work performed for that Infrastructure, On-Site, and Purchase Order work was Prevailing Wage Work, and therefore Defendants should have paid their workers at Prevailing Wage Rates for that work.

53. With each invoice submitted to the State Entities, Defendants impliedly certified, as specifically set forth in the Standard Terms and Conditions, and as required by State law, that it was complying with the prevailing wage laws.

54. The State Entities considered compliance with the New Jersey Prevailing Wage Act to be a material aspect of their contract with Defendants and payment of invoices that Defendants submitted to them, as evidenced in part by the State Entities' requirement for compliance with the prevailing wage law in its contracts, and the State Entities' attention to the prevailing wage law.

55. Yet, Defendants did not, in fact, comply with the prevailing wage laws. Instead, payroll records show that Defendants failed to pay their workers at the Prevailing Wage Rate for Prevailing Wage Work.

56. Because Defendants failed to pay the employees the Prevailing Wage Rates, each invoice Defendants submitted to the State Entities that included Prevailing Wage Work was a false record or statement to get a claim paid by the State.

**E. Examples of False Invoices for Each Category of Work**

57. With regard to Infrastructure work, for example, Defendants issued Invoice #130322-9 to UMDNJ on March 22, 2013, charging UMDNJ, among other things, for eight hours of labor involving the installation of cables at a rate of \$133.97 per hour:

58. The eight hours of labor Defendants billed to UMDNJ included installation of cables and wiring, which constituted Prevailing Wage Work. UMDNJ paid the invoice.

59. Defendants should have paid their workers at the Prevailing Wage Rate of at least a Journeymen at \$77.25 per hour, including benefits, for the Prevailing Wage Work performed in Essex County at that time. By billing UMDNJ at \$133.97 per hour, Defendants would have received a spread of \$56.72 per hour between what it billed UMDNJ and the effective Prevailing Wage Rate it should have paid its workers. But corresponding payroll records

show that Defendants paid their workers an effective rate of less than \$30 per hour, including benefits, or less than half of what they were supposed to pay pursuant to New Jersey Prevailing Wage Law and their contract with UMDNJ, pocketing more than \$100 per hour for the work performed.

60. For On-Site work, for example, on August 29, 2014, Defendants issued Invoice #140829-5 to Rutgers University, for seven hours of labor. While the face of the invoice itself did not indicate what work was performed, the back-up documentation included hand-written comments that showed that the work involved re-wiring and installation of "duplex" wall jacks into the walls and re-securing the molding of the walls:

61. This wiring, installation, and molding work, among other work performed, was Prevailing Wage Work. Rutgers University paid the invoice. Defendants should have paid their workers at Prevailing Wage rates of at least a Journeymen of \$79.36 per hour, including benefits, for the Prevailing Wage Work performed in Essex County at that time. But, again, corresponding payroll records show that Defendants paid their workers an effective rate of less than \$30.00 per hour, including benefits, or less than half of what they were supposed to pay pursuant to New Jersey Prevailing Wage Law and their contract with the State Entities, pocketing more than \$55 per hour for the work performed.

62. With regard to Purchase Order work, as a last example, on May 22, 2014, Defendants sent Rutgers University a "Quote" for

work on a Nurse Call System, stating that the labor and materials would cost \$1,339.59. Defendants estimated it would require six hours of labor for the work installing and terminating a cable line, which was Prevailing Wage Work, as shown in the HEAT Ticket below:

<b>Grand Total</b>							<b>\$ 1,339.59</b>

63. Rutgers University accepted the quote, and Defendants performed the work. On May 27, 2014, Defendants issued to Rutgers University Invoice #140527-1 for eight hours of actual labor and materials, including Prevailing Wage Work for "[i]nstallation":

Quantity	Item	Description	Unit Price	Amount
1.00		HEAT TICKET 1589588/ BANNER 201432		
8.00	LABOR	Installation -Install one QUAD Cable CAT6 cables (225 feet or less) terminate and test during normal business hours. No core drilling included. Install Wiremo	112.00	896.00

64. Rutgers University paid the invoice. The eight hours of work included Prevailing Wage Work because it called for the installation and termination of a cable. Defendants should have paid their workers at Prevailing Wage Rates of at least a Journeymen at \$77.25 per hour, including benefits, for the Prevailing Wage Work performed in Essex County at that time. By billing the State Entities at \$112.00 per hour for the work,

Defendants would have received the spread of \$34.75 per hour between what it billed and the effective Prevailing Wage rate it should have paid its workers. But corresponding payroll records show that Defendants paid their workers less than \$30.00 per hour, including benefits, or less than half of what they were supposed to pay pursuant to New Jersey Prevailing Wage Law and their contract with the State Entities, pocketing more than \$80 per hour for the work performed.

**F. The False Invoices Defendants Submitted to the State Entities**

65. Attached as **Exhibit A** to this Complaint in Intervention is a list of 1,385 invoices, and additional identifying data. Each of these invoices constitutes a false statement that Defendants submitted to the State Entities, each a State entity for payment, because (i) the work associated with each of these invoices constituted Prevailing Wage Work, (ii) Defendants failed to pay their workers at or above the relevant Prevailing Wage Rates, as either Journeymen or Foremen, for the Prevailing Wage Work performed, and (iii) in submitting the invoices to the State Entities, Defendants were falsely impliedly certifying that they had complied with the prevailing wage laws, as they were required to do.

66. Thus, each of the invoices identified in **Exhibit A** constitutes a false record or statement that Defendants submitted

or caused to be submitted to the State for payment in violation of the False Claims Act.

67. Discovery in this action will likely yield additional invoices and damages.

**COUNT I**

**VIOLATION OF THE NEW JERSEY FALSE CLAIMS ACT  
FALSE CLAIMS  
N.J.S.A. 2A:32C-3(a)**

68. Plaintiff incorporates by reference the allegations set forth in paragraphs 1 through 67 as if set forth fully herein.

69. By virtue of the acts set forth above, Defendants knowingly presented, or caused to be presented, false or fraudulent claims to the State Entities, each a New Jersey entity, for payment, in violation of N.J.S.A. 2A:32C-3(a).

70. Each invoice or other record which Defendants submitted to the State Entities, and which contained false information, was a false or fraudulent claim.

71. By submitting false information, Defendants knew that these claims for payment were false, fraudulent or fictitious or were deliberately ignorant of the truth or falsity of said claims, or acted in reckless disregard of whether said claims were true or false.

72. The submitted claims, therefore, were false or fraudulent claims for payment to the State Entities, each a State entity, in violation of N.J.S.A. 2A:32C-3(a).

73. By reason of the Defendants' violations, the State sustained damages in a substantial amount to be determined at trial.

**COUNT II**

**VIOLATION OF THE NEW JERSEY FALSE CLAIMS ACT  
FALSE RECORDS OR STATEMENTS  
N.J.S.A. 2A:32C-3(b)**

74. Plaintiff incorporates by reference the allegations set forth in paragraphs 1 through 73 as if set forth fully herein.

75. By virtue of the acts set forth above, Defendants knowingly made, used, or caused to be made or used a false record or statement to get a false or fraudulent claim paid or approved by the State Entities, each a State entity, in violation of N.J.S.A. 2A:32C-3(b).

76. Each invoice or other record which Defendants prepared and submitted, or caused to be submitted, to the State Entities, and which contained false information, was a false or fraudulent record or statement intended to get a false or fraudulent claim approved and paid by the State Entities, each a State entity.

77. These claims, therefore, were false or fraudulent claims for payment to the State Entities, each a State entity, in violation of N.J.S.A. 2A:32C-3(b).

78. By reason of the Defendants' violations, the State sustained damages in a substantial amount to be determined at trial.

**COUNT III**

**UNJUST ENRICHMENT**

79. Plaintiff incorporates by reference the allegations set forth in paragraphs 1 through 78 as if set forth fully herein.

80. As set forth above, Defendants retained more money than Defendants were entitled to retain because Defendants did not pay their employees at the required Prevailing Wage rates for the relevant work performed.

81. The circumstances that Defendants received and retained funds based on the false claims submitted are such that, in equity and good conscience, Defendants should not retain such excess funds, the amount of which is to be determined at trial.

82. By reason of Defendants' unjust enrichment, the State is entitled to disgorgement of all monies that Defendants received and retained as a result of the fraudulent acts alleged herein, and/or imposition of a constructive trust in favor of the State on those funds.

**PRAYER FOR RELIEF**

WHEREFORE, based upon the foregoing allegations, Plaintiff respectfully requests that the Court enter judgment jointly and severally against Defendants:

- a) Finding that the acts and omissions of Defendants constitute multiple instances of unlawful practices in violation of the FCA, N.J.S.A. 2A:32C-1 to 2A:32C-18;

- b) Assessing against Defendants, jointly and severally, three times the amount of damages the State has sustained as a result of Defendants' violations of the FCA, in accordance with N.J.S.A. 2A:32C-3;
- c) Assessing the maximum statutory civil penalties against Defendants, jointly and severally, for each and every violation of the FCA, including each false statement submitted and such other statements that the State may identify in this action, in accordance with N.J.S.A. 2A:32C-3;
- d) Directing the assessment of attorneys' fees, expenses and costs against Defendants, jointly and severally, for the use of the State, as authorized by the FCA, N.J.S.A. 2A:32C-8, and accrued interest;
- e) Assessing against Defendants, jointly and severally, the damages the State has sustained and/or amounts by which Defendants were unjustly enriched or by which Defendants illegally obtained monies; and
- f) Granting such other relief as the interests of justice may require.
