## MISSION STATEMENT

The New Jersey Racing Commission (“NJRC”) governs, directs and regulates horse racing and pari-mutuel wagering. The NJRC is a member of the Department of Law and Public Safety and is responsible for regulating the horse racing industry in the State through vigilant oversight of all racing and wagering related activities to ensure the integrity of the sport and the safety of its participants.

### Commission Structure

Horse racing in New Jersey is regulated by Commissioners who, by law, are appointed by the Governor, with the advice and consent of the Senate. They set policy and rule on all matters affecting racing such as issuing permits to conduct horse racing meets, approving expenditures and adjudicating licensing matters. They also consider the issuance of licenses for off-track wagering sites, are responsible for the oversight and regulation of account wagering which includes telephone and internet wagering in New Jersey. This year, the following individuals served as Commissioners: Anthony T. Abbatiello, Manny Aponte, Anthony R. Caputo, Pamela Clyne, Peter J. Cofrancesco III and Francis X. Keegan, Jr.

The NJRC employs staff to effect policy, including an Executive Director who is responsible for overseeing the day-to-day operations of the Commission in accordance with accepted business and financial practices. Frank Zanzuccki serves as the Executive Director.

NJRC has a full-time staff of 36 employees who conduct the daily functions of regulating horse racing. This is 22 fewer staff members since the workforce reduction plan was implemented October 31, 2011. The Commission also maintains a pool of 29 active part-time workers to supplement staff as needed.

Activities are divided into four functional areas with the FY2013 budget as follows:

Administrative/Financial		\$2,537,087
Racing Operations		\$4,874,337
Licensing	\$1,201,881	
Veterinarians	\$ 942,436	
Chemical Testing	\$1,986,830	
Officials	\$ 743,190	
Pari-Mutuels		\$ 286,168
Investigations		<u>\$ 496,392</u>
Total Operating Budget		\$8,193,984

### Administrative/Financial

Much of the general administrative functions are performed by the Department of Law & Public Support Services unit specifically organized to streamline the personnel, budget and logistics

functions of several State agencies.

Commission personnel perform administrative functions specific to racing matters including rule and regulation composition, staffing and scheduling, communications with and oversight of industry-related organizations, adjudication support, and report writing. Commission staff maintains a horse racing financial system that records and calculates all receipts and payments of funds from pari-mutuel wagering. In addition, it monitors the finances of certain industry organizations as required or requested.

### **Racing Operations**

All matters related to the regulation of the actual “running of the races” are the responsibility of the employees in this functional area.

Each individual and entity associated with horse racing must be licensed by Commission personnel. All participants must also be fingerprinted. A state-of-the-art computer system networks the Trenton office with all satellite racetrack locations. The Commission has a very successful mail-out program and participates in the Association of Racing Commissioners International multi-jurisdictional licensing program for owners, and is a member of the National Racing Compact.

The Commission employs racing officials who are present at each racetrack to monitor the running of every race in New Jersey. They issue penalties for rule infractions and rule on matters affecting the integrity of racing, including licensing concerns.

Veterinarians are also present at every live race meet to ensure the safety of the animals and to verify that each horse is fit to race.

Race horse samples are tested for the presence of illegal drugs after each race, and on occasion, before a race and in out-of-competition settings. These randomly selected samples undergo a complete chemical analysis at a State Police Forensic Laboratory at the Meadowlands Racetrack.

### **Pari-Mutuels**

Every wager made on every live and simulcast race is recorded and checked for accuracy and compliance with Commission rules and regulations. Commission staff calculate financial information from these wagers for proper distribution of funds. Racing Commission staff oversee all aspects of pari-mutuel operations to ensure they are conducted with integrity.

### **Investigations**

The investigative staff is responsible for monitoring activities at all New Jersey racetracks, off-track wagering facilities, participating casinos, and off-track stabling facilities.

An in-house investigative unit provides the Commission with the ability to oversee the integrity of racing by conducting investigations into alleged rule violations, performing inspections to determine compliance with regulations, monitoring activity on racetracks and off-track stabling facilities, providing testimony at administrative hearings and much more.

## HIGHLIGHTS AND 2012 KEY ISSUES

This year continued to be one of uncertainty and transition in New Jersey's horse racing industry. Consistent with the Governor's determination that the horse race industry must be self sustaining, the Commission worked with the industry to effectuate all the necessary regulatory requirements that resulted in the privatizing of Monmouth Park and the Meadowlands racetracks. Both operated under lease agreements with the New Jersey Sports and Exposition Authority during 2012. In addition, the Commission approved the transfer of Woodbridge OTW to the New Jersey Thoroughbred Horsemen's Association and approved the license for a new OTW, namely Winners Bayonne operated by NMRLLC that opened July, 17, 2012.

The Commission promulgated regulations implementing several new legislative initiatives the most significant of which outline a process for expediting the development of additional Off-track Wagering Facilities and the placement of wagering terminals, as a pilot program, in a limited number of taverns and restaurants.

During 2012, the following were adopted or approved for advertisement in the NJ Register:

Split Blood Samples 13:70-14A; 13:71-23.4 (effective March 5)

Allows for the splitting of equine blood samples for confirmation of presence of illegal substances

Off-track Wagering 13:74 (effective November 5)

As a result of legislative action, the Commission adopted these amendments of the rule that deals with the transfer of OTW permits after certain deadlines and show progress requirements.

Single Pool Wagering 13:70-29A; 13-71-27A (appeared December 17 in NJ Register)

Provides for a new method of calculating wager results that will hopefully generate more wagering activity.

Pilot Program Authorizing Wagering on Horse Races Through Electronic Terminals Located in Taverns and Restaurants 13:74B (effective October 1)

The Commission ruled on several legal matters during the year; two of the more significant cases are summarized here.

MICHAEL GULOTTA, ON BEHALF OF ALL OWNERS OF CRYD DREAM v. NJRC, OAL DOCKET NO. RAC 09712-2011N

This matter involved the Commission's review of an ALJ decision to strike down the Commission's grant of reciprocity to a ruling issued by the Ontario Racing Commission in connection with the horse CRYD DREAM's post race positive test result for a Class II drug

The Commission concluded that CRYD DREAM should not have been allowed to race in New Jersey while under suspension by another racing jurisdiction stating that NJRC's reciprocity rules clearly place licensees on notice that an individual or horse who is ineligible to compete in another

state or jurisdiction should not and cannot expect to relocate to this state and race in New Jersey. The Commission rejected the ALJ's decision based on the grant of reciprocity being crucial to preserving the integrity of racing, guarding the safety of racing participants and protecting the interests of the public. The Commission's final decision declared CRYSDREAM ineligible to race in New Jersey when it did and was disqualified from all purse money it earned the two times it raced in New Jersey while under suspension by the Ontario Racing Commission. The owners of CRYSDREAM filed an appeal of this decision and the matter is pending before the Appellate Division of the Superior Court.

ERNEST ADAM V. NEW JERSEY RACING COMMISSION, OAL DKT. NO. 6166-08 AND  
STEPHEN SLENDER V. NEW JERSEY RACING COMMISSION, OAL DKT. NO. RAC 6167-08

This matter involved out-of-competition testing conducted by the Commission in April 2008 on the horses in the care and custody of standardbred trainer Ernest Adam which were stabled at Winner's International Farm in New Jersey. Laboratory testing revealed the presence of Darb-EPO, a synthetic form of Epopogen in six horses trained by Adam and owned by Stephen Slender, a licensed veterinarian in California. In addition, while at the Farm, Commission investigators discovered two locked tack rooms which were later found to contain veterinary prescription drugs, hypodermic needles and syringes as well as a shockwave therapy device. The Commission's Board of Judges found Adam and Slender to be in violation of various Racing Commission rules.

Adam and Slender appealed the Judges' decision and the matter was transmitted to the OAL for a hearing. On February 12, 2012 the ALJ issued a decision which affirmed the decision of the Board of Judges and ordered that Adam and Slender each be suspended for 13 years, each fined \$56,000 and their licenses revoked.

The Commission voted to accept the ALJ's decision which also ordered that Ernest Adam pay an additional \$12,000 for the cost of confirmatory testing of the six horses in his care.

## **HIGHLIGHTS AND 2012 KEY ISSUES CONTINUED**

Recent legislative changes permit a reduction of live racing dates in both the thoroughbred and standardbred sectors. As a result, the number of live racing dates decreased by 10.6% from 273 in 2011 to 244 in 2012. NJ wagering handle decreased by 6.1% from \$404.4 million in 2011 to \$379.8 million in 2012.

The Racing Commission continued its comprehensive drug testing program during the year. In addition to testing for steroids, the Commission conducted out-of-competition testing on 8 separate occasions namely, most of which were at licensed New Jersey off-track stabling facilities, a few at New Jersey Racetracks and stabling facilities in New York and Pennsylvania. A total of 269 horses were tested with no positives recorded.

As part of its regular testing program, the State Police Forensic Science Laboratory tested 21,341 blood and urine samples collected from horses with 14 testing positive for the presence of illegal drugs or the presence of drugs over the threshold limits.

During 2012, under the supervision of the Department of Purchase and Property, the Commission issued an RFP and selected a vendor to conduct testing on biological samples collected from race horses and humans. Privatizing these services currently conducted by the State Police Equine

Testing Laboratory would result in significant cost savings. However, this transfer is on hold pending the results of a protest of the appeal of the selection process.

The Commission's Executive Director is also the Chair of the New Jersey Horse Racing Injury Compensation Board that provides blanket workers' compensation insurance that covers certain horse racing industry employees. During the year the Board continued with its loss prevention program at racetracks that Commission staff enforced that realized significant results with claims and insured costs being much lower than previous years.

## **NEW JERSEY EQUINE TESTING LABORATORY**

NJRC's Equine Drug Testing Program is administered at the New Jersey State Police Forensic Science Laboratory located at the Meadowlands racetrack. A staff of 16 chemists use modern testing equipment and methods to detect the presence of illegal substances in horses. In 2012, 21,341 blood/urine samples were tested resulting in 14 violations of the Commission's medication rules.

Total Samples Tested	21,341
----------------------	--------

### Positives by Type

Flunixin	4
Furosemide	8
Testosterone	<u>2</u>
Total Positives	14

The Commission also randomly tests jockeys and drivers for the presence of illegal drugs. It also tests for alcohol abuse by race participants and officials. There were no positives detected from 286 samples tested.

## **NEW JERSEY HORSE RACING INJURY COMPENSATION RACING BOARD**

The Commission encouraged the creation of this Board that provides group workers' compensation insurance for the horse racing industry. The Board consists of representatives of the public and private sector including members of horse race organizations, insurance providers, risk management, state banking and insurance department, and the NJRC. The program covers employees of the Board, namely drivers, jockeys, exercise riders and thoroughbred trainers' employees, with 2012 premiums established at \$2,026,641. In 2012, the Board continued in the Assigned Risk Program with NJM being the provider.
